SUBJECT: Fiscal Year (FY) 2011 Department of Defense and Department of Veterans Affairs
(DoD-VA) Joint Incentive Fund (JIF) Projects

The Health Executive Council (HEC) has approved the DoD-VA Health Care Sharing Incentive Fund proposals for FY 2011. Selected projects with approved funding are consolidated on the attached list (Attachment 1). Projects that were not selected are shown at attachment (2). Due to the continuing resolution, funds allocation may be delayed a few months.

The HEC is responsible for ensuring the effectiveness and efficiency of the funded projects, and progress toward the originally stated aims, methods and results. To that end, Interim Project Reviews (IPRs) will be used for reporting this data.

IPRs will be conducted for all projects approved for FY 2011, in addition to those of previous fiscal years. IPRs should be jointly prepared by each site and should reflect a brief but accurate assessment of the projects' accomplishments and limitations during the funding period. The initial IPR will be due in the first quarter after JIF funding has been received, and quarterly thereafter throughout the funding period on the 15th of January, April, July and October using the template in Attachment 3. A final report will be completed within 30 days of the completion of the project using a template which will be provided at that time.

Please have the designated lead coordinator forward the jointly developed IPRs electronically using the enclosed template (Attachment 3) to Mr. Michael Gardner, michael.gardner2@va.gov. For further information and questions, Mr. Gardner may be reached at (202) 461-6514.
