

2008 UBO/UBU Conference

Learning to Dig Deeper: From Registration to Resolution

Briefing: PATCAT

Date: 1 April 2008

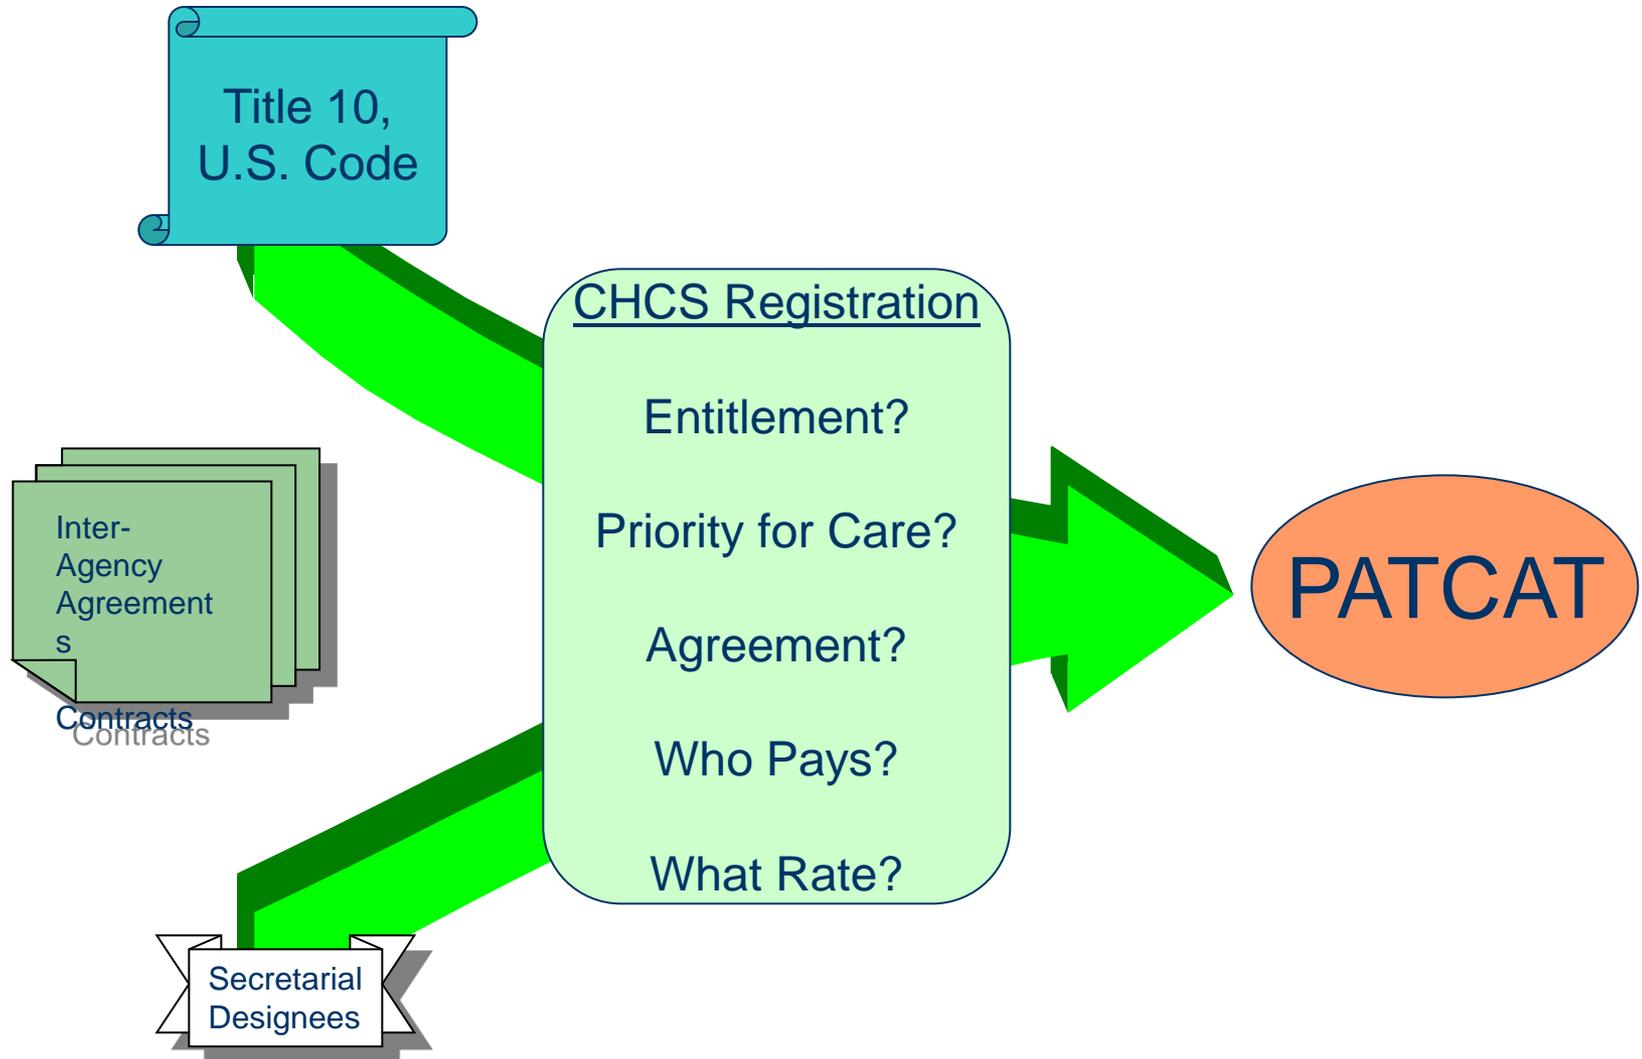

Time: 1400 – 1450

- Know the purpose of Patient Categories (PATCATs)
- Understand why PATCATs are important
- Know how PATCAT codes are structured/assigned
- Be able to identify common – and not-so-common – PATCATs
- Know how to access the TRICARE University PATCAT Course
- Understand how to use PATCAT Finder Tool
- Know where to get help with PATCATs

- PATCAT Codes are closely linked to entitlements under the Uniformed Services Health Benefits Program (USHBP)
- They allow identification and grouping of patients by ‘types’ of interest
 - Sponsor Service
 - Beneficiary Category
 - Special Interest patient groups
- PATCATs are directly linked to UBO Billing
 - Rate to charge and method of billing

The Making of PATCATs

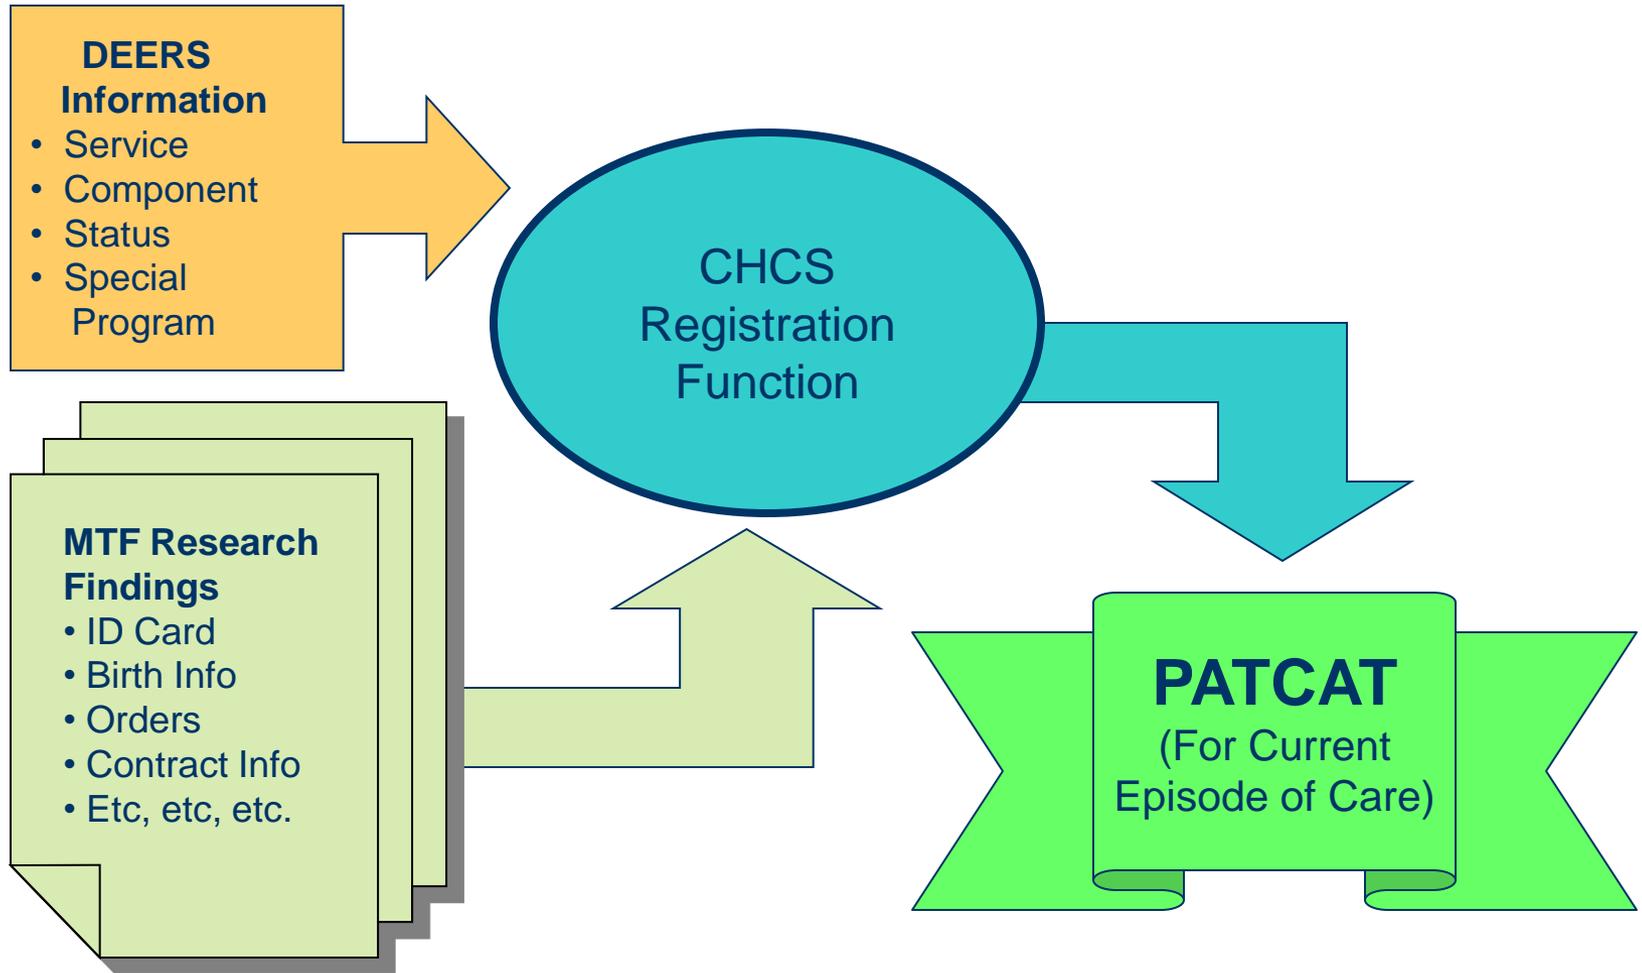

- Personnel Community (DEERS)
- Patient Administration
- UBO/Medical Services Account
- Management at all levels
- Data Analysts

What Is Affected By PATCATs?

- Many CHCS functions, and downstream systems rely on PATCATs
 - Patient classification by Beneficiary Category
 - Admission & Disposition Reports
 - Patient Record Extracts (SADR/CAPER, SIDR, HL7)
 - Workload reports (MEPRS, WWR)
- Bad PATCATs = Poor Data Quality = Rework, Lost Money, Bad Decisions

- For UBO staff, bad PATCATs can cause many problems and much rework:
 - Not billing when you should
 - Billing when you should not
 - Billing at the wrong rate
 - Billing to the wrong source
 - Billing using the wrong forms

PATCAT Assignment – Data and Process

Some Patients Change PATCAT

- Active Duty  Retired
 - Change in billing for the Sponsor
- Inactive Reserve  Active Duty
 - Change in billing for family members
- Active Duty  TAMP
 - Change in billing for Sponsor
- TAMP  TRICARE Reserve Select
 - Change in billing for Sponsor

Why Patients Change PATCATs

- High OPS Tempo and creation of new benefits lead to lags in updating DEERS and CHCS
 - Activation/Deactivation of Reserve/Guard personnel
 - Entry into Transition Assistance Management Program (TAMP)
 - Entry into TRICARE Reserve Select
 - Moves from Active Duty to Retiree status
- Some types of care require a specific PATCAT
 - Occupational Health services
 - Workers Compensation related care
 - Line of Duty = “No” for Reserve/Guard

- Basic code covers a 'Category' of interest
 - A11 = USA ACTIVE DUTY
 - K53 = OTHER FED AGENCY/DEPT EMPLOYEE
- Sub-categories segment the group
 - A11 A = USA ACTIVE DUTY OFFICER
 - A11 B = USA ACTIVE DUTY ENLISTED
 - K53 A = TREASURY DEPARTMENT
 - K53 B = HEALTH AND HUMAN SERVICES

A = Army

B = National Oceanic and Atmospheric Administration

C = Coast Guard

F = Air Force

K = “Katch-all” (many “Other” and “Special” categories)

M = Marines

N = Navy

P = Public Health Service

R = Reciprocal Agreements (U.S. with other nations)

1x = Extended Active Duty Sponsors

2x = ROTC; Inactive Duty Guard/Reserves,
TAMP/TRS, Former Members, Applicants

3x = Retirees

4x = Family Members, Former Spouses and
Family Members

5x – 9x = Used to segment “K” Codes

- MHS Beneficiaries (Retirees, Family Members of AD or Retirees) who are also:
 - Civil Service Employees
 - Contractors
 - DOD Dependent School System Employees
- Generally, use the PATCAT based on the MHS Beneficiary's broadest entitlement to care

- You may need to double-check the PATCAT data in CHCS against other data you have gathered
- Be sure to use a DEERS eligibility inquiry that covers the Dates of Service – DEERS may have been updated
- Be mindful that Reserve Component personnel can go from Inactive ... to Active ... to TAMP... and now, to TRS all in the space of a few months

FY2007 PATCAT Table Updates

The FY2007 version of the Patient Category Code table was released to support CHCS operations on 4 Dec 2006. The CHCS Release information is 'MHS_CITPO_1083, CCB-267, PTTFN 1.868. This operational release followed coordination and approval of the proposed changes by the UBO Advisory Work Group (AWG) and the Unified Biostatistical Utility (UBU), as well as successful testing by the CHCS software management team. The specific changes implemented by this update are shown below.

PATCAT Code	Changes Incorporated
A27, F27, M27, or N27 (Former Member – Maternity Care)	Change billable rate from 'NC' to 'FMR'
K53Z (NAF CONUS)	Change Pay Mode to 'DD77/DD7A' Change billing to 'Agency' rather than 'Individual'
K61-1 (VA Beneficiary) and K61-2 (DOD/VA Sharing Agreement)	Reinstate the Pay Mode = 'DD7/DD7A'

Using the PATCAT Finder Tool

Use the following steps to identify a Patient Category (PATCAT) Code of interest for a specific patient

1. Select a major grouping of interest on the Major PATCAT Groupings screen
2. Follow the instructions for the grouping of interest in order to move through the PATCAT Code categories and hierarchy
3. As you make selections the categories will become more focused, and you will be guided to a specific PATCAT Code for the patient
4. The PATCAT Code is shown in a box as the last step in each PATCAT Code logic flow
