

Contract No.: 233-02-0086
MPR Reference No.: 6077-500

2004 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

**Publication Date: Nov 2004
Quarter 3, CY2004**

Submitted to:

TRICARE Management Activity
5111 Leesburg Pike, Suite 810
Falls Church, VA 22041
(703) 681-4263

Task Order Officer:
Lt Col Michael Hartzell, DVM, MPH

Submitted by:

Mathematica Policy Research, Inc.
600 Maryland Ave., SW, Suite 550
Washington, DC 20024-2512
(202) 484-9220

Project Director:
Eric Schone, Ph. D.

Table of Variables

QUARTER III FREQUENCIES		Page
SAMPLING VARIABLES		
MPRID	- Unique MPR Identifier	93
SVCSMPL	- Branch of Service Sampling Variable.....	93
SEXSMPL	- Sex Sampling Variable.....	93
STRATUM	- Sampling STRATUM.....	93
CACSMPL	- Catchment Area	102
ENBGSMPL	- Enrollment by beneficiary category	104
MPCSMPL	- Military Personnel Category	104
NHFF	- Stratum Sample Size	104
SERVAREA	- Service Area.....	105
QUARTER	- Survey Quarter	105
DCATCH	- Catchment Area	106
ENRID	- Enrollment DMIS ID	109
DMIS_ID	- DMIS ID.....	116
MSM	- Multiple Service Market Areas	125
D_FAC	- Facility Type Code.....	125
D_PAR	- DMIS Parent ID	126
D_HEALTH	- Health Service Region.....	130
TNEXREG	- TRICARE Next Generation of Contracts Region grouping	130
E1	- Eligibility indicator for period = 1.....	131
E2	- Eligibility indicator for period = 2.....	131
E3	- Eligibility indicator for period = 3.....	131
E4	- Eligibility indicator for period = 4.....	131
E5	- Eligibility indicator for period = 5.....	131
E6	- Eligibility indicator for period = 6.....	132
E7	- Eligibility indicator for period = 7.....	132
E8	- Eligibility indicator for period = 8.....	132
E9	- Eligibility indicator for period = 9.....	132
E10	- Eligibility indicator for period = 10.....	132
E11	- Eligibility indicator for period = 11.....	133
E12	- Eligibility indicator for period = 12.....	133
E13	- Eligibility indicator for period = 13.....	133
E14	- Eligibility indicator for period = 14.....	133
E15	- Eligibility indicator for period = 15.....	133
SERVAFF	- Service Affiliation.....	134
BWT	- Basic Sampling Weight.....	134
DEERS VARIABLES		
MRTLSTAT	- Marital Status	134
RACEETHN	- Race/Ethnic Code	135
PNSEXCD	- Person Gender	135
LEGDDSCD	- DDS Code	135
DAGEQY	- Age at time of data collection	136
FIELDAGE	- Age at start of fielding period	136
PCM	- Primary Manager Code (Civilian or Military).....	136
DBENCAT	- Beneficiary Category	137
DMEDELG	- Medical Privilege Code.....	137
DSPONSVC	- Derived Sponsor Branch of Service	137
MBRRELCD	- Member Relationship Code.....	138
MEDTYPE	- Medicare Type.....	138
PATCAT	- Aggregated Beneficiary Category	138
PNLCATCD	- Personnel Category Code (Duty Status)	139

QUESTIONNAIRE RESPONSES		
H04001	- Are you the person listed on envelope	139
H04002A	- Health plan(s) covered: TRICARE Prime.....	139
H04002C	- Health plan(s) covered: TRICARE Ext/Stnd.....	139
H04002F	- Health plan(s) covered: MEDICARE	140
H04002G	- Health plan(s) covered: FEHBP	140
H04002H	- Health plan(s) covered: Medicaid.....	140
H04002I	- Health plan(s) covered: Civilian HMO	140
H04002J	- Health plan(s) covered: Other civilian	140
H04002K	- Health plan(s) covered: USFHP	141
H04002L	- Health plan(s) covered: Not sure	141
H04002M	- Health plan(s) covered: Veterans.....	141
H04002N	- Health plan(s) covered: TRICARE Plus	141
H04002O	- Health plan(s) covered: TRICARE For Life	141
H04003	- Currently Covered Medicare Part A	142
H04004	- Currently Covered Medicare Part B	142
H04005	- Currently Covered Medicare Supplemental	142
H04006	- Which health plan did you use most in the past 12 months?.....	143
H04007	- Years in a row with health plan	143
H04008	- Have one person you think of as personal doctor.....	144
H04009	- Rating of your personal doctor or nurse.....	144
H04010	- Had same personal Dr/nurse before joining health plan.....	144
H04011	- Health plan: problem to get a personal doctor or nurse you are happy with	144
H04012	- In last year: you or a doctor or nurse think you needed to see a specialist.....	145
H04013	- In last year: how much of a problem to see a specialist you needed to see	145
H04014	- In last year: did you see a specialist.....	146
H04015	- Rating of specialist seen most often in last year	146
H04016	- In last year: specialist saw was the same as personal doctor.....	146
H04017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself.....	147
H04018	- In last year: when you called during regular office hours how often got help or advice you needed.....	147
H04019	- In last year: have illness/injury/condition that needed care right away.....	147
H04020	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	148
H04021	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	148
H04022	- In last year: made any appointment for regular or routine health care.....	148
H04023	- In last year: how often made appointments for regular or routine health care as soon as you wanted	149
H04024	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	149
H04025	- In last year: times went to an emergency room for own care.....	150
H04026	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room)	150
H04027	- In last year: Did you/Dr believe you needed any care, tests, or treatment.....	150
H04028	- In last year: problem to get necessary care	151
H04029	- In last year: Need approval from health plan for any care, tests, or treatment.....	151
H04030	- In last year: problem with delays in healthcare while waiting for approval from health plan	151
H04031	- In last year: how often taken to exam room within 15 minutes of appointment	152
H04032	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	152
H04033	- In last year: how often office staff at a doctor's office or clinic as helpful as expected	153

H04034	- In last year: how often doctors or other health providers listen carefully to you	153
H04035	- In last year: how often doctors or other health providers explain things in way you could understand	154
H04036	- In last year: how often doctors or other health providers show respect for what you had to say	154
H04037	- In last year: how often doctors or other health providers spend enough time with you	155
H04038	- Rating of all healthcare in last year	155
H04039	- In last year: facility used most for health care	156
H04040	- In last year: sent in any claims to your health plan.....	156
H04041	- In last year: health plan handled claims in a reasonable time.....	156
H04042	- In last year: how often health plan handled claims correctly	157
H04043	- In last year: before went for care knew amount to pay	157
H04044	- In last year: look for any information in written materials/internet on how health plan works	157
H04045	- In last year: problem to find or understand information in the written materials/internet	158
H04046	- In last year: called health plan's customer service to get information or help	158
H04047	- In last year: problem to get the help you needed when called health plan's customer service.....	158
H04048	- Called or written health plan with a complaint or problem.....	159
H04049	- How long for health plan to resolve complaint	159
H04050	- Complaint or problem settled to satisfaction	159
H04051	- How long waiting for health plan to resolve complaint	160
H04052	- In last year: have to fill out paperwork for your health plan	160
H04053	- In last year: how much problem with paperwork for your health plan	160
H04054	- Rating of all experience with health plan.....	161
H04055	- In next year: likely to disenroll in TRICARE Prime	161
H04056	- Blood pressure: when last reading	162
H04057	- Blood pressure: know if blood pressure is too high or not	162
H04058	- When did you last have a cholesterol screening.....	162
H04059	- When did you last have a flu shot	163
H04060	- Smoked at least 100 cigarettes in life	163
H04061	- Smoke everyday, some days, or not at all	163
H04062	- How long since you quit smoking	164
H04063	- Last year: number of visits advised to quit smoking.....	164
H04064	- Last year: number of visits medication was recommended or discussed to assist with quitting smoking	164
H04065	- Last year: number of visits recommended or discussed methods and strategies to assist quitting smoking	165
H04066	- Are you male or female	165
H04067	- Male: Last prostate disease exam or blood test.....	165
H04068	- Female: Last have a Pap smear test	166
H04069	- Female: Are you under age 40.....	166
H04070	- Female: Last time breasts checked mammography.....	166
H04071	- Female: Last time breast exam by professional	167
H04072	- Female: Been pregnant in last year or pregnant now	167
H04073	- Female: In what trimester is your pregnancy	167
H04074	- Female: Trimester first received prenatal care	168
H04075	- In general how would you rate your overall health	168
SRHGTF	- Height without shoes (feet)	168
SRHGTI	- Height without shoes (inches)	169
SRWGT	- Weight without shoes	169
H04076	- Limited in any way in any activities because of any impairment or health problem	174
H04077	- Last 30 days: Number of Days when your physical health not good.....	174
H04078	- Last 30 days: Number of Days when your mental health not good.....	175

H04079	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities.....	176
H04080	- Last 30 days: Number of Days when pain made it hard to do your usual activities	177
H04081	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	178
H04082	- Last 30 days: Number of Days when you have felt worried, tense or anxious.....	179
H04083	- Last 30 days: Number of Days when you did not get enough rest or sleep	180
H04084	- Last 30 days: Number of Days when you have felt very healthy and full of energy	181
H04085	- Are you Spanish/Hispanic/Latino	182
SREDA	- Highest grade completed	182
SRRACEA	- Race: White.....	182
SRRACEB	- Race: Black or African American	183
SRRACEC	- Race: American Indian or Alaska Native.....	183
SRRACED	- Race: Asian.....	183
SRRACEE	- Race: Native Hawaiian/other Pacific Islanders	183
SRAGE	- What is your age now?.....	184
S04R01	- Are you enrolled in TRICARE Prime	184
S04R02	- Enrolled to a military/civilian PCM	184
S04R03	- In last year: Referred to Specialist by PCM.....	185
S04R04A	- In last year: Called the appointment center.....	185
S04R04B	- In last year: Called an MTF	185
S04R04C	- In last year: Called the doctor's office	185
S04R04D	- In last year: Asked my PCM to make the appointment	186
S04R04E	- In last year: Other	186
S04R05	- In last year: Problem to see specialist.....	186
S04R06	- In last year: Referred to any civilian specialist	186
S04R07	- In last year: Longest wait to see a civilian specialist	187
S04R08	- In last year: Longest travel time to see civilian specialist.....	187
S04R09	- In last year: PCM learn about care from civilian specialist.....	188
S04R10	- In last year: PCM know enough about care from civilian specialist	188
S04R11	- In last year: Referred to specialist at an MTF	188
S04R12	- In last year: Longest wait to see a MTF specialist.....	189
S04R13	- In last year: Longest travel time to see MTF specialist	189
S04R14	- In last year: PCM learn about care from MTF specialist	190
S04R15	- In last year: PCM know enough about care from MTF specialist.....	190
S04V01	- In last year: Amount of healthcare from TRICARE civilian network(TCN).....	190
S04V02	- In last year: Problem getting wanted healthcare from TCN	191
S04V04	- In last year: Problem finding convenient TCN lab or x-ray facility.....	191
S04V05	- In last year: Learn physician whom you wanted to see left TCN.....	191
S04V06	- In last year: Problem finding convenient doctor from TCN	192
S04V07	- In last year: Problem finding specialist in Civilian network	192

SURVEY FIELDING VARIABLES

ONTIME	- Responded Within 8 weeks of Mail-Out.....	192
FLAG_FIN	- Final Disposition	192
DUPFLAG	- Multiple Response Indicator	193
FNSTATUS	- Final Status	193
KEYCOUNT	- Number of Key Questions Answered	193
WEB	- Web survey indicator.....	193

CODING SCHEME FLAGS AND COUNTS

N1	- Coding Scheme Note 1	194
N2A	- Coding Scheme Note 2A.....	194
N4	- Coding Scheme Note 4.....	194
N5	- Coding Scheme Note 5	195
N6	- Coding Scheme Note 6	195
N7	- Coding Scheme Note 7	195
N8	- Coding Scheme Note 8	196

N9	- Coding Scheme Note 9	196
N10	- Coding Scheme Note 10	196
N11	- Coding Scheme Note 11	197
N11E	- Coding Scheme Note 11E.....	197
N11F	- Coding Scheme Note 11F.....	197
N11G	- Coding Scheme Note 11G	198
N11H	- Coding Scheme Note 11H	198
N11I	- Coding Scheme Note 11I.....	198
N12	- Coding Scheme Note 12	199
N13	- Coding Scheme Note 13	199
N14	- Coding Scheme Note 14	199
N15	- Coding Scheme Note 15	200
N16	- Coding Scheme Note 16	200
N17	- Coding Scheme Note 17	200
N18	- Coding Scheme Note 18	201
N19	- Coding Scheme Note 19	201
N20A	- Coding Scheme Note 20A.....	202
N20B	- Coding Scheme Note 20B.....	202
N20C	- Coding Scheme Note 20C	202
N21	- Coding Scheme Note 21	203
N22	- Coding Scheme Note 22	203
MISS_1	- Count of: Violates Skip Pattern	203
MISS_4	- Count of: Incomplete grid error	203
MISS_5	- Count of: Scalable response of Don't know	204
MISS_6	- Count of: Not applicable - valid skip	204
MISS_7	- Count of: Out-of-range error.....	205
MISS_8	- Count of: Multiple response error	205
MISS_9	- Count of: No response - invalid skip	206
MISS_TOT	- Total number of missing responses	207

CONSTRUCTED VARIABLES

XENRLLMT	- Enrollment in TRICARE Prime	208
XENR_PCM	- Enrollment by PCM type.....	208
XINS_COV	- Insurance Coverage.....	208
XREGION	- Region	209
XTNEXREG	- TRICARE Next Generation of Contracts Region grouping	209
CONUS	- CONUS/OCONUS Indicator.....	209
OUTCATCH	- Out of Catchment Area Indicator.....	210
XSEXA	- Male or Female (Recode)	210
XBMI	- Body Mass Index.....	210
XBMICAT	- Body Mass Index Category	212
XBNFGRP	- Constructed Beneficiary Group	212
KDISENRL	- Intention to disenroll	212
KMIOFFC	- Office wait of 15 min or more at Military facility	212
KCIVOFFC	- Office wait of 15 min or more at Civilian facility.....	213
KBGPRB1	- Big problem getting referrals to specialist	213
KBGPRB2	- Big problem getting necessary care	213
KMLOPQY	- Outpatient visits to Military facility.....	213
KCIVOPQY	- Outpatient visits to Civilian facility	214
KCIVINS	- Beneficiary covered by civilian insurance.....	214
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam	214
HP_PRNTL	- Pregnant in last year received care in 1st trimester	214
HP_MAMOG	- Women age 40 and over mammography in past 2 years	215
HP_MAM50	- Women age 50 and over mammography in past 2 years	215
HP_PAP	- All women Pap smear in last 3 years	215
HP_BP	- Blood pressure check in last 2 years know results	215
HP_FLU	- Age 65 and older flu shot in last 12 months	216
HP_PROS	- Men age 50 or over prostate exam in last 12 months.....	216
HP_BRST	- Women age 40 and over breast exam in last 12 months	216

HP_CHOL	- Cholesterol screening in last 5 years	216
HP_SMOKE	- Advised to quit smoking in last 12 months.....	217
HP_SMOKH	- Smoker under HEDIS definition	217
HP_CESS	- Had smoking cessation counseling.....	217
ADJ_CELL	- Adjusted STRATUM cell	217
WEIGHTS		
WRWT1	- Replicated/JackKnife Weight 1	224
WRWT2	- Replicated/JackKnife Weight 2	224
WRWT3	- Replicated/JackKnife Weight 3	225
WRWT4	- Replicated/JackKnife Weight 4	225
WRWT5	- Replicated/JackKnife Weight 5	225
WRWT6	- Replicated/JackKnife Weight 6	226
WRWT7	- Replicated/JackKnife Weight 7	226
WRWT8	- Replicated/JackKnife Weight 8	226
WRWT9	- Replicated/JackKnife Weight 9	227
WRWT10	- Replicated/JackKnife Weight 10	227
WRWT11	- Replicated/JackKnife Weight 11	227
WRWT12	- Replicated/JackKnife Weight 12	228
WRWT13	- Replicated/JackKnife Weight 13	228
WRWT14	- Replicated/JackKnife Weight 14	228
WRWT15	- Replicated/JackKnife Weight 15	229
WRWT16	- Replicated/JackKnife Weight 16	229
WRWT17	- Replicated/JackKnife Weight 17	229
WRWT18	- Replicated/JackKnife Weight 18	230
WRWT19	- Replicated/JackKnife Weight 19	230
WRWT20	- Replicated/JackKnife Weight 20	230
WRWT21	- Replicated/JackKnife Weight 21	231
WRWT22	- Replicated/JackKnife Weight 22	231
WRWT23	- Replicated/JackKnife Weight 23	231
WRWT24	- Replicated/JackKnife Weight 24	232
WRWT25	- Replicated/JackKnife Weight 25	232
WRWT26	- Replicated/JackKnife Weight 26	232
WRWT27	- Replicated/JackKnife Weight 27	233
WRWT28	- Replicated/JackKnife Weight 28	233
WRWT29	- Replicated/JackKnife Weight 29	233
WRWT30	- Replicated/JackKnife Weight 30	234
WRWT31	- Replicated/JackKnife Weight 31	234
WRWT32	- Replicated/JackKnife Weight 32	234
WRWT33	- Replicated/JackKnife Weight 33	235
WRWT34	- Replicated/JackKnife Weight 34	235
WRWT35	- Replicated/JackKnife Weight 35	235
WRWT36	- Replicated/JackKnife Weight 36	236
WRWT37	- Replicated/JackKnife Weight 37	236
WRWT38	- Replicated/JackKnife Weight 38	236
WRWT39	- Replicated/JackKnife Weight 39	237
WRWT40	- Replicated/JackKnife Weight 40	237
WRWT41	- Replicated/JackKnife Weight 41	237
WRWT42	- Replicated/JackKnife Weight 42	238
WRWT43	- Replicated/JackKnife Weight 43	238
WRWT44	- Replicated/JackKnife Weight 44	238
WRWT45	- Replicated/JackKnife Weight 45	239
WRWT46	- Replicated/JackKnife Weight 46	239
WRWT47	- Replicated/JackKnife Weight 47	239
WRWT48	- Replicated/JackKnife Weight 48	240
WRWT49	- Replicated/JackKnife Weight 49	240

H04002H	- Health plan(s) covered: Medicaid 140
H04002I	- Health plan(s) covered: Civilian HMO 140
H04002J	- Health plan(s) covered: Other civilian 140
H04002K	- Health plan(s) covered: USFHP 141
H04002L	- Health plan(s) covered: Not sure 141
H04002M	- Health plan(s) covered: Veterans 141
H04002N	- Health plan(s) covered: TRICARE Plus 141
H04002O	- Health plan(s) covered: TRICARE For Life 141
H04003	- Currently Covered Medicare Part A 142
H04004	- Currently Covered Medicare Part B 142

H04005	- Currently Covered Medicare Supplemental	142
H04006	- Which health plan did you use most in the past 12 months?.....	143
H04007	- Years in a row with health plan	143
H04008	- Have one person you think of as personal doctor.....	144
H04009	- Rating of your personal doctor or nurse.....	144
H04010	- Had same personal Dr/nurse before joining health plan.....	144
H04011	- Health plan: problem to get a personal doctor or nurse you are happy with	144
H04012	- In last year: you or a doctor or nurse think you needed to see a specialist.....	145
H04013	- In last year: how much of a problem to see a specialist you needed to see	145
H04014	- In last year: did you see a specialist.....	146
H04015	- Rating of specialist seen most often in last year	146
H04016	- In last year: specialist saw was the same as personal doctor.....	146
H04017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself	147
H04018	- In last year: when you called during regular office hours how often got help or advice you needed.....	147
H04019	- In last year: have illness/injury/condition that needed care right away.....	147
H04020	- In last year: when needed care right away for an illness or injury got care as soon as wanted.....	148
H04021	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury	148
H04022	- In last year: made any appointment for regular or routine health care.....	148
H04023	- In last year: how often made appointments for regular or routine health care as soon as you wanted	149
H04024	- In last year: days between making an appointment for regular or routine care and actually seeing a provider	149
H04025	- In last year: times went to an emergency room for own care.....	150
H04026	- In last year: times went to a doctors office or clinic for yourself (not counting times went to an emergency room)	150
H04027	- In last year: Did you/Dr believe you needed any care, tests, or treatment.....	150
H04028	- In last year: problem to get necessary care	151
H04029	- In last year: Need approval from health plan for any care, tests, or treatment.....	151
H04030	- In last year: problem with delays in healthcare while waiting for approval from health plan	151
H04031	- In last year: how often taken to exam room within 15 minutes of appointment	152
H04032	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	152
H04033	- In last year: how often office staff at a doctor's office or clinic as helpful as expected	153
H04034	- In last year: how often doctors or other health providers listen carefully to you	153
H04035	- In last year: how often doctors or other health providers explain things in way you could understand	154
H04036	- In last year: how often doctors or other health providers show respect for what you had to say	154
H04037	- In last year: how often doctors or other health providers spend enough time with you	155
H04038	- Rating of all healthcare in last year	155
H04039	- In last year: facility used most for health care	156
H04040	- In last year: sent in any claims to your health plan.....	156
H04041	- In last year: health plan handled claims in a reasonable time.....	156
H04042	- In last year: how often health plan handled claims correctly	157
H04043	- In last year: before went for care knew amount to pay	157
H04044	- In last year: look for any information in written materials/internet on how health plan works	157

H04045	- In last year: problem to find or understand information in the written materials/internet	158
H04046	- In last year: called health plan's customer service to get information or help	158
H04047	- In last year: problem to get the help you needed when called health plan's customer service.....	158
H04048	- Called or written health plan with a complaint or problem.....	159
H04049	- How long for health plan to resolve complaint	159
H04050	- Complaint or problem settled to satisfaction	159
H04051	- How long waiting for health plan to resolve complaint	160
H04052	- In last year: have to fill out paperwork for your health plan	160
H04053	- In last year: how much problem with paperwork for your health plan	160
H04054	- Rating of all experience with health plan.....	161
H04055	- In next year: likely to disenroll in TRICARE Prime	161
H04056	- Blood pressure: when last reading	162
H04057	- Blood pressure: know if blood pressure is too high or not	162
H04058	- When did you last have a cholesterol screening.....	162
H04059	- When did you last have a flu shot	163
H04060	- Smoked at least 100 cigarettes in life	163
H04061	- Smoke everyday, some days, or not at all	163
H04062	- How long since you quit smoking	164
H04063	- Last year: number of visits advised to quit smoking.....	164
H04064	- Last year: number of visits medication was recommended or discussed to assist with quitting smoking	164
H04065	- Last year: number of visits recommended or discussed methods and strategies to assist quitting smoking	165
H04066	- Are you male or female	165
H04067	- Male: Last prostate disease exam or blood test.....	165
H04068	- Female: Last have a Pap smear test	166
H04069	- Female: Are you under age 40.....	166
H04070	- Female: Last time breasts checked mammography	166
H04071	- Female: Last time breast exam by professional	167
H04072	- Female: Been pregnant in last year or pregnant now	167
H04073	- Female: In what trimester is your pregnancy	167
H04074	- Female: Trimester first received prenatal care	168
H04075	- In general how would you rate your overall health	168
H04076	- Limited in any way in any activities because of any impairment or health problem	174
H04077	- Last 30 days: Number of Days when your physical health not good.....	174
H04078	- Last 30 days: Number of Days when your mental health not good.....	175
H04079	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities.....	176
H04080	- Last 30 days: Number of Days when pain made it hard to do your usual activities	177
H04081	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	178
H04082	- Last 30 days: Number of Days when you have felt worried, tense or anxious.....	179
H04083	- Last 30 days: Number of Days when you did not get enough rest or sleep	180
H04084	- Last 30 days: Number of Days when you have felt very healthy and full of energy	181
H04085	- Are you Spanish/Hispanic/Latino	182
HP_BP	- Blood pressure check in last 2 years know results	215
HP_BRST	- Women age 40 and over breast exam in last 12 months	216
HP_CESS	- Had smoking cessation counseling.....	217
HP_CHOL	- Cholesterol screening in last 5 years	216
HP_FLU	- Age 65 and older flu shot in last 12 months	216
HP_MAM50	- Women age 50 and over mammography in past 2 years	215
HP_MAMOG	- Women age 40 and over mammography in past 2 years	215
HP_PAP	- All women Pap smear in last 3 years	215

HP_PRNTL	- Pregnant in last year received care in 1st trimester	214
HP_PROS	- Men age 50 or over prostate exam in last 12 months.....	216
HP_SMOKE	- Advised to quit smoking in last 12 months.....	217
HP_SMOKH	- Smoker under HEDIS definition	217
KBGPRB1	- Big problem getting referrals to specialist	213
KBGPRB2	- Big problem getting necessary care	213
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam	214
KCIVINS	- Beneficiary covered by civilian insurance.....	214
KCIVOFFC	- Office wait of 15 min or more at Civilian facility.....	213
KCIVOPQY	- Outpatient visits to Civilian facility	214
KDISENRL	- Intention to disenroll	212
KEYCOUNT	- Number of Key Questions Answered	193
KMIOFFC	- Office wait of 15 min or more at Military facility.....	212
KMIOPQY	- Outpatient visits to Military facility.....	213

Chapter
1

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the 2004 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to facilitate users in creating tables and generating analyses above and beyond those associated with this project.

This version of the Codebook and User's Guide describes the second quarter data set. It presents the frequency counts of all variables from the second quarter survey.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

How to Use This Guide

Chapter 2 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 3 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or WesVar PC®. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 4, where we describe each variable in the database, including a list of all possible values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata
- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Weights

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

What is the HCSDB?

The HCSDB is a health care survey of active duty military personnel, retirees, and their adult family members. It is comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey is fielded only in the third quarter of each year. Results from each quarter are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The surveys collect data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2004 HSCDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002 and 2003. The annotated questionnaire appears in Appendix A. A crosswalk between the 2004 questions and the questions from the 1994-1995, 1996, 1997, 1998, 1999, 2000, 2002 and 2003 surveys appears as Appendix B.

The HCSDB fixed questionnaire covers the following topics:

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance.
- **Your Personal Doctor or Nurse.** In this section, respondents are asked about their relationship with their personal doctor or nurse. They are asked to rate their personal doctor or nurse on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Getting Health Care from a Specialist.** This section collects information about respondents' need for and access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Calling Doctors' Offices.** Questions in this section ask beneficiaries whether they were able to access care and obtain information by telephone from their doctor's office or clinic.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It also covers topics such as the availability of providers and their staff, convenience, and courtesy and respect shown by providers and their staff.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. TRICARE Prime enrollees are asked about their satisfaction with Prime and about their likelihood of possibly disenrolling. Additionally, respondents are asked questions about any problems they may have encountered with claims processing, accessing and comprehending written materials, customer service, processing paperwork, and resolving complaints.

- **Your Preventive Health Care.** This section collects information on the use of preventive health care services, including blood pressure readings, cholesterol screening, and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography and breast examination by a health care professional. Men are asked about prostate examinations. All respondents are asked whether they smoke. Smokers are asked whether, and how often, they have received smoking cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health, as well as the number of days in the past month they have felt their physical or mental health was not good. They are further asked to indicate how many days they have experienced more specific physical or mental health problems, and if these problems prevented them from performing usual activities. Finally, respondents are asked to report their education level, race, and age.

CAHPS Questions

To make responses comparable to civilian surveys, the questions are similar in content and format to questions used in the Consumer Assessment of Health Plans Survey (CAHPS). CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality, U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2004, CAHPS version 2.0 questions were replaced with questions from version 3.0. As a result there are many changes in question wording.

Quarter III Supplements

- **Referrals To Specialists.** Questions in this supplemental concern the experiences of getting referrals to specialists through TRICARE Prime. Respondents are asked to describe their experience obtaining appointments with specialists and assess the travel distance to the specialist.
- **TRICARE Civilian Network.** These supplemental questions provide information about respondents' experiences with the TRICARE civilian network. Questions concern the amount of care received, problems getting wanted care, convenience of care, and physician retention within the TRICARE civilian network.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on active duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days, and other special categories of people who qualify for benefits)
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members.

A stratified sample design was used to select DoD health care beneficiaries for the Quarter III 2004 Adult HCSDB. Strata were defined by a combination of enrollment status groups, and beneficiary groups, and geographic areas. Specific information on the sample design appears in "Health Care

Survey of DoD Beneficiaries: 2004 Adult Sampling Report", Mathematica Policy Research, Washington, D.C.

From a sample of 50,000 beneficiaries, 13,818 adult MHS beneficiaries completed and returned a 2004 Adult HCSDB questionnaire for the second quarter during the period, yielding a response rate of 29 percent. Information on developing response rates can be found in the "2004 Health Care Survey of DoD Beneficiaries: Adult Technical Manual."

Other Documents on the 2004 HCSDB

This document is intended for programmers and analysts using the 2004 Adult HCSDB data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- Health Care Survey of DoD Beneficiaries: 2004 Adult Sampling Report
- The 2004 Health Care Survey of DoD Beneficiaries: Adult Technical Manual (available February 2005)
- The 2004 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report (available February 2005)

Chapter
2

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

Variable Naming Conventions

The conventions used to name variables on the 2004 Adult HCSDB data file are listed below and summarized in Table 2.1. The naming conventions will remain constant across the four quarters of the 2004 HCSDB.

- **Survey Variables.** Core survey variable names consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("04") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. The supplements in the second quarter contained questions relating to beneficiaries' chronic conditions, and TRICARE's civilian network. Like the core questions, supplemental questions also include eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("04"). The variable ends with an alpha character and the question number in the supplemental series.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables N1-N23, reference the notes in the Coding Scheme for Adult Survey. See Appendix C for the Coding Scheme for Quarter III for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable SRSEX was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2010 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "W."

TABLE 2.1

NAMING CONVENTIONS FOR 2004 HCSDB VARIABLES – QUARTER III

1 st Character: Survey Type	2 nd – 3 rd Character s: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire)	04	001 to 085	A to O are used to label responses associated with a multiple response question _O denotes an original version of a recoded variable
S = Supplemental Question		----- Quarter III R01-R15 – Supplemental questions about referrals to specialists. V01-V02, V04-V07 – Supplemental questions about TRICARE's civilian network.	-----

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People</i> 2010 variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)

Cleaning and Editing Conventions

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme appears in Appendix C. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when NRC created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
 - Multiple responses, where there should be a single response, were encoded with SAS missing value ‘A’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in the 2004 Adult HCSDB Quarter III data file appear in Chapter 4 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

Record Selection Criteria

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database.

To determine if a questionnaire is “complete”, 26 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (thirteen or more) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H04006, H04008, H04009, H04010, H04011, H04012, H04014, H04015, H04017, H04018, H04019, H04020, H04022, H04025, H04026, H04028, H04031, H04038, H04039, H04044, H04046, H04052, H04054, H04075, SREDA, H04085.

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2004 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. Sampling weights are further adjusted for nonresponse within classes defined by sampling strata: a cross-classification of enrollment status, geographic area, and beneficiary group. Chapter 4 contains the weighted and unweighted frequencies for each variable in the second quarter of 2004.

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

Chapter
3

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the second quarter of data from the 2004 HCSDB.

How To Make a Table Using SAS

The 2004 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 6.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 6 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the adult dataset for Quarter III is located on a CD-ROM in the subdirectory HCSDB04\FORMA\Q3, your LIBNAME statement must look like this:

LIBNAME INFORMA 'F:\HCSDB04\FORMA\Q3';

The adult dataset can then be referred to as INFORMA.HCSDB04, where INFORMA is the location of the file HCSDB04.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

LIBNAME LIBRARY 'C:\HCSDB04\FORMA\Q3\FMTLIB';

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

OPTIONS PS=79 LS=132;

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

OPTIONS PS=50 LS=175 NOCENTER;

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of active duty by sex:

```
/* Active duty males */
IF XSEXA = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;
* Active duty females;
ELSE IF XSEXA = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION CACSMPL H04057 H04014;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only region 3 observations */
IF XREGION = 3;
```

- Create a new temporary dataset. For example, CAC_1 is a temporary file of observations for only those respondents in catchment area 1:

```
LIBNAME INFORMA 'F:\HCSDB04\FORMA';
DATA CAC_1;
/* Input file is HCSDB04 */
SET INFORMA.HCSDB04;
IF CACSMPL = 1;
RUN;
```

- Create a new permanent dataset. For example, OUT.CAC_9901 is a permanent dataset only of Region 1 out-of-catchment respondents:

```
LIBNAME INFORMA 'F:\HCSDB04\FORMA';
LIBNAME OUT 'C:\HCSDB04\FORMA';
DATA OUT.CAC_9901;
SET INFORMA.HCSDB04;
IF CACSMPL = 9901;
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;
  CLASS class variables;
  VAR analysis variables;
  TABLE << page expression, > row expression, > column expression </ table options >;
  WEIGHT WRWT;
  RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in catchment area 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE CACSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XREGION, XSEXA, and CACSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE state, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSDB for 2004, the weight variable is WRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

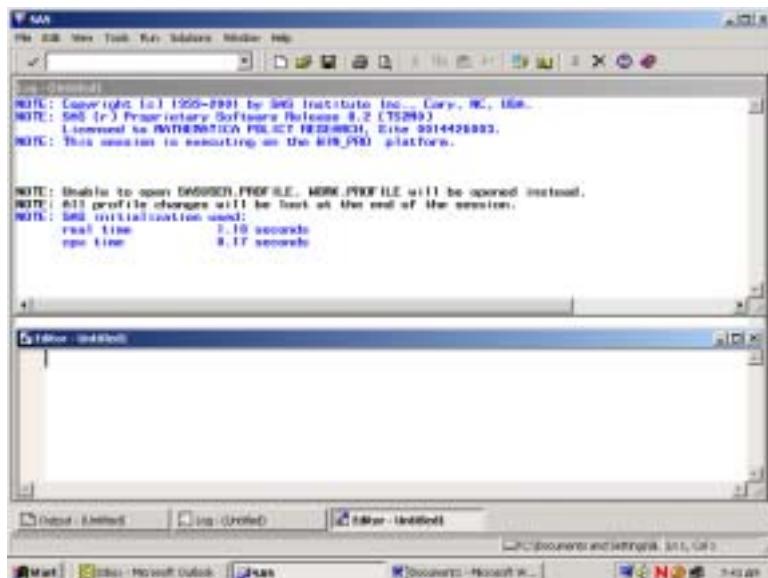

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form ='*label*'; for example, XREGION='Region' or MEAN=' ' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H04038 *MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H04038 H04054.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEXA

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 8, the following screen opens.

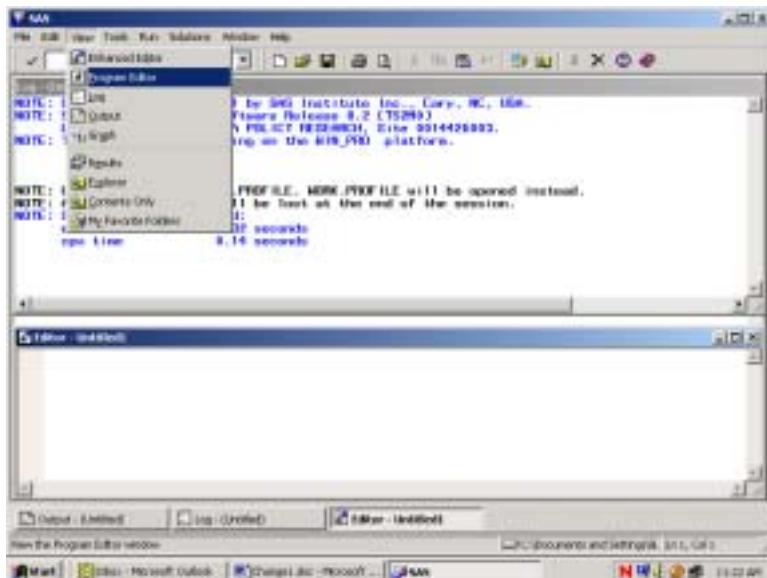

The screen is divided into two windows, a Log window above and an Editor window below.

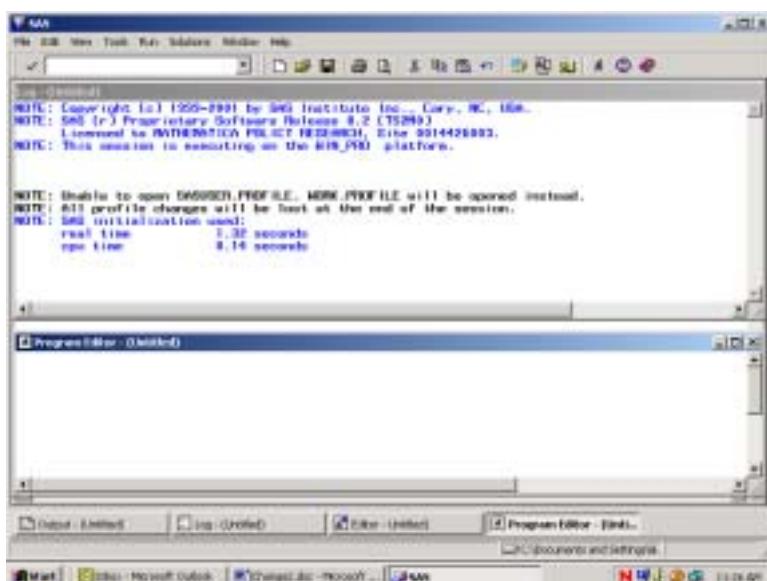

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 8 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

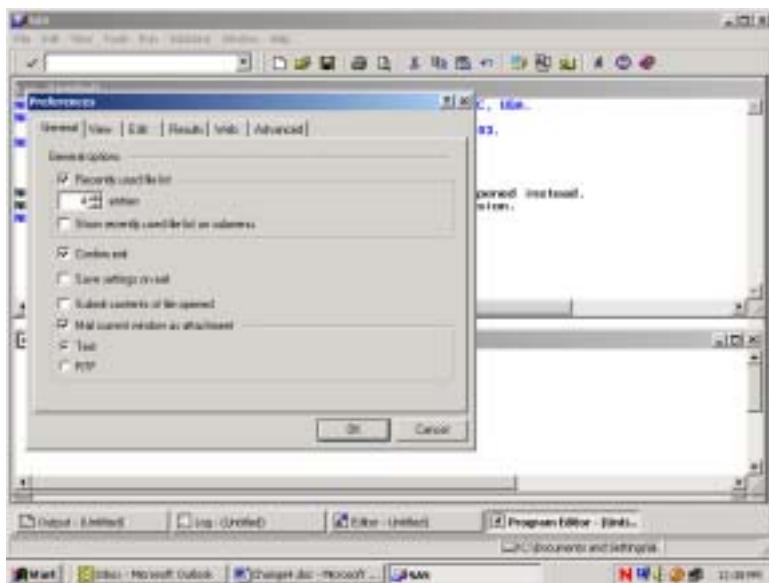

Click on View and select Program Editor as in the following:

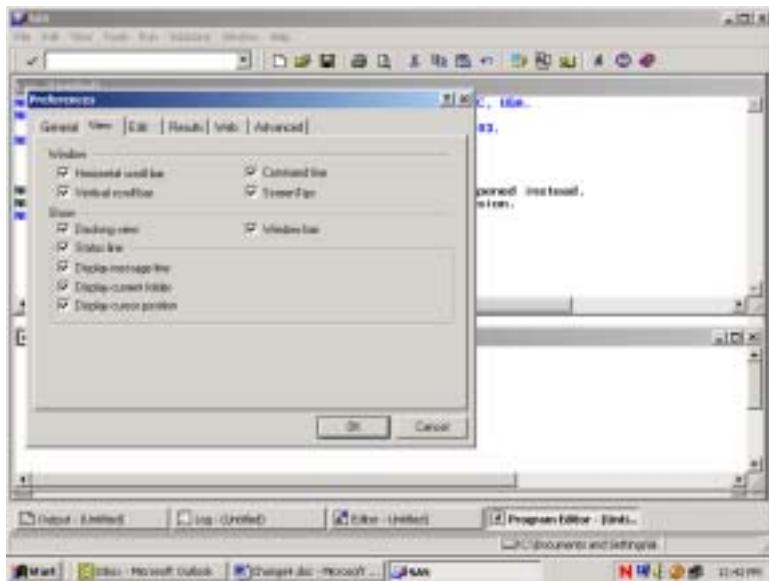

The lower Editor Window has now changed to Program Editor as in the following screen:

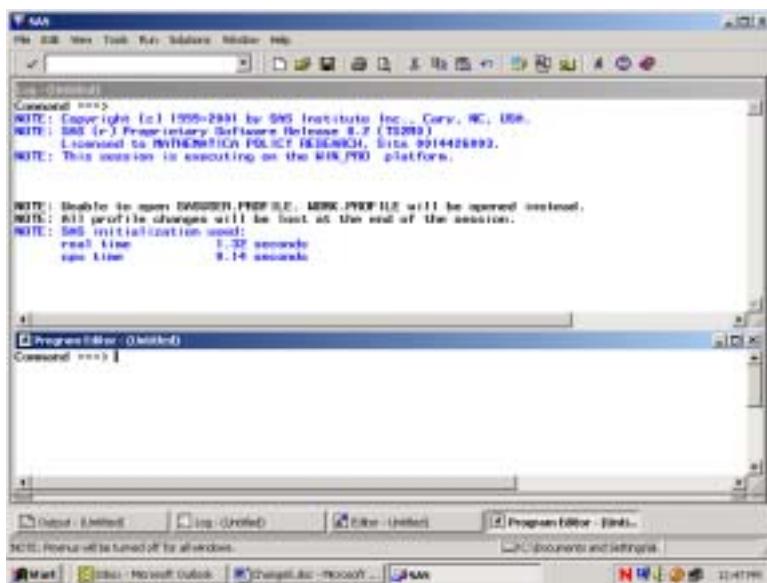

Open the Tools menu and choose Options and preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

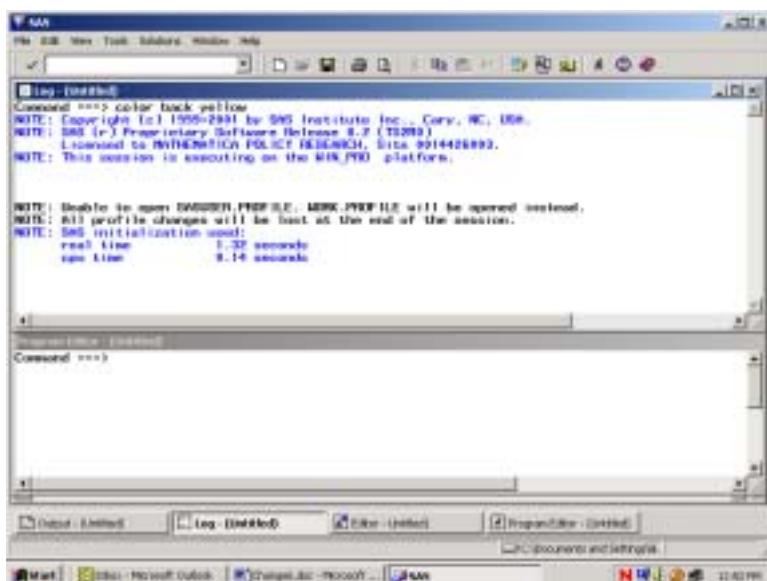

Click on OK and a command line will be added as in the screen below.

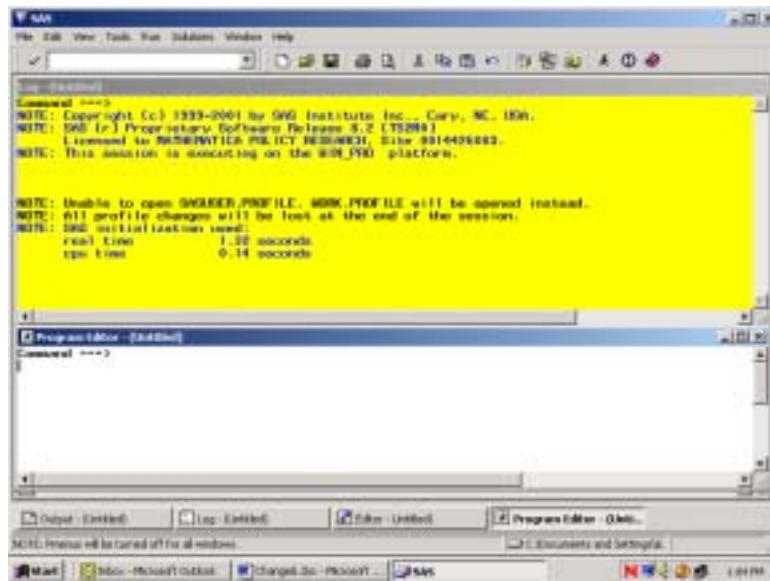

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allows you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

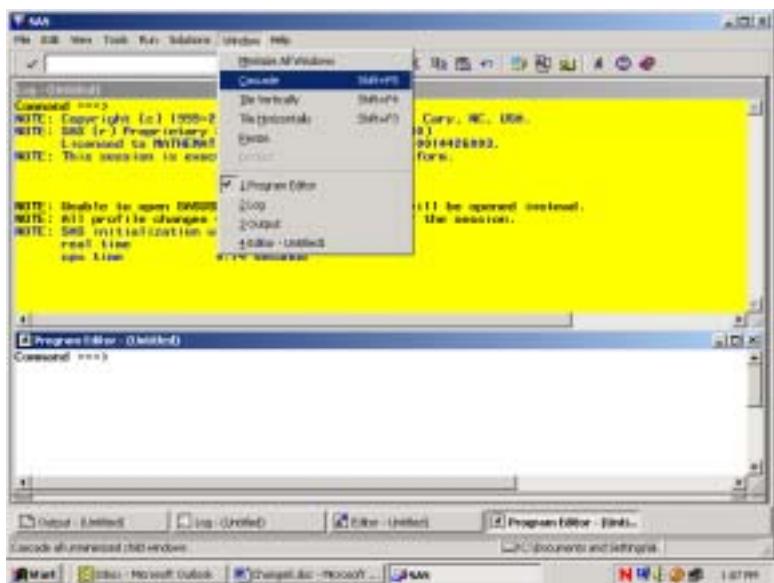

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

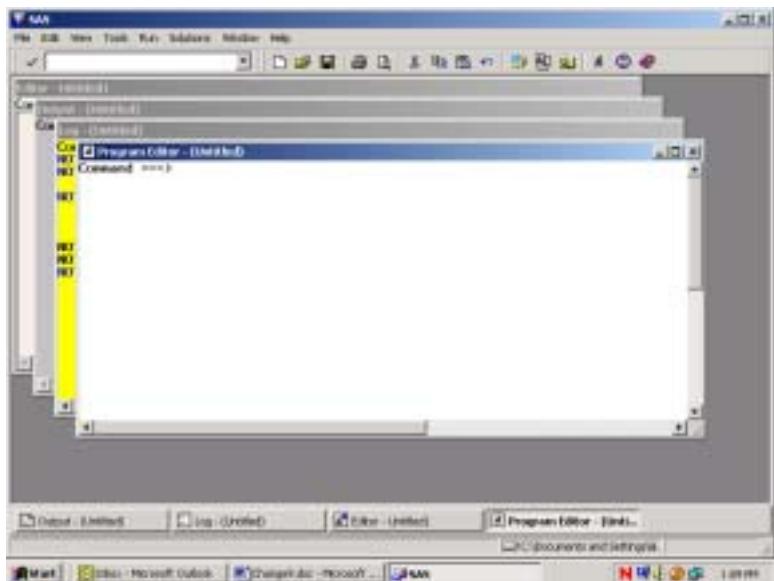

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

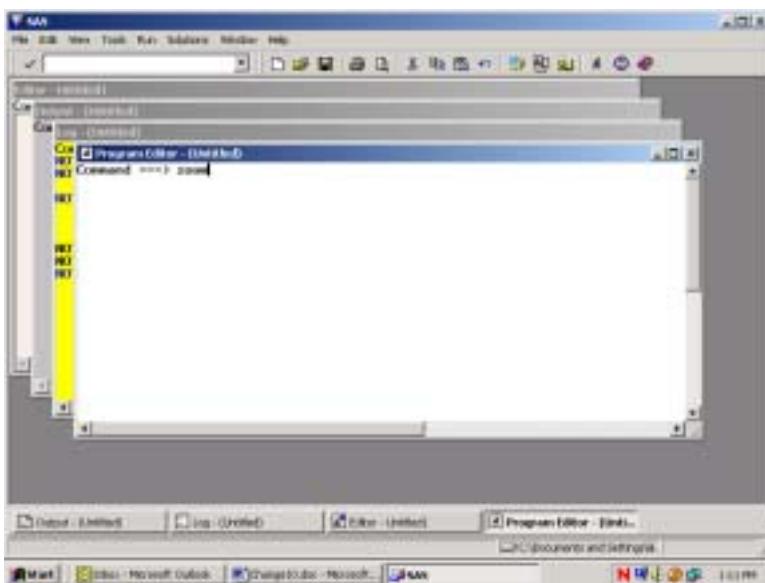

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option Cascade produces the following result.

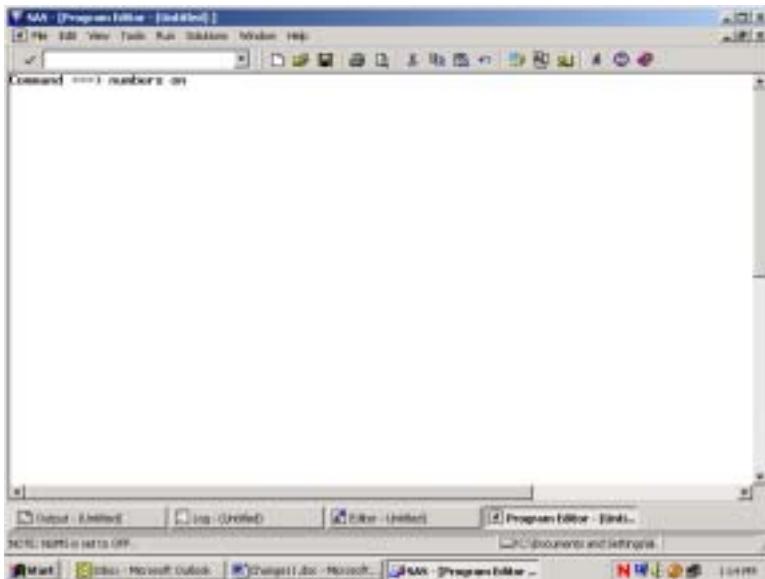

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

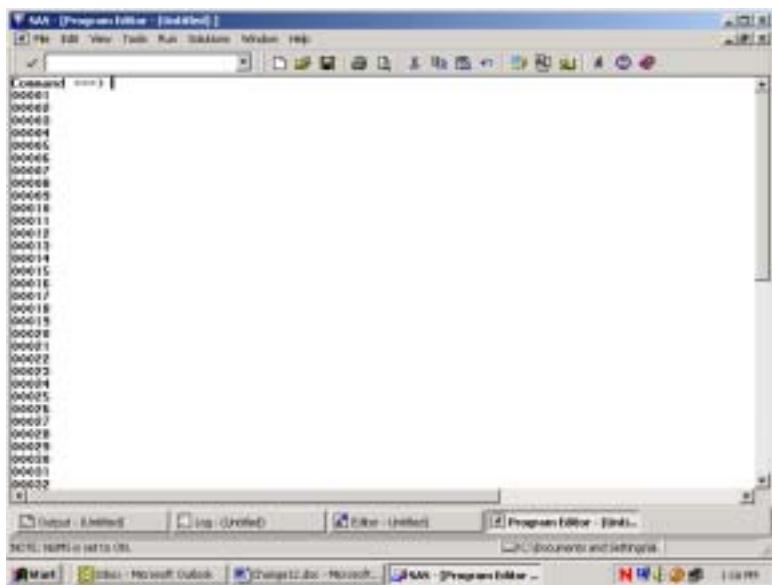

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type "numbers on" as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

Below is an example of a PROC TABULATE to construct a table of health care variables by beneficiary group by gender for respondents in region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The health care variables (H04054 and H04075) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```
OPTIONS PS=79 LS=95;  
LIBNAME IN 'C:\FILES\DoD\ADULT 2004';  
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2004\FMTLIB';  
PROC TABULATE DATA=IN.HCS043_1;  
WHERE XREGION = 3; /* limit to Region 3 */  
CLASS XBNFGRP XSEXA;  
VAR H04054 H04075;  
WEIGHT WRWT;  
TABLE (H04054 H04075)*MEAN, /* Row Dimension */  
      XBNFGRP*(XSEXA ALL) ALL; /* Column Dimension */  
TITLE "Table 3.1";  
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';  
RUN;
```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

```
Command ----> SRRB16
88882 OPT1000 PG=72 LS=95;
88882 LIBNAME DH 'C:\FILEZ\0000\ADULT_2004';
88882 LIBNAME LBBNDBT 'C:\FILEZ\0000\ADULT_2004\FENTL08';
88882 FREE SRRB16$8855-1H.RC3843.1;
88882 WHERE REGION = 3 /* LIMIT TO REGION 3 */;
88882 CLASS XREFCPRC_RS09W;
88882 VAR RS09W HHS404 HHS405;
88882 MEAN RS09W;
88882 TITLE 'Table 1: HHS404 HHS405 BY REGION' /
88882      'BY HHS404 HHS405 ALL ALL' /* COLUMNS DIMENSION */;

```

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

The variable *CRWT* was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering WRWT, the correct variable name, in the weight statement. Then, rerunning the procedure.

The corrected program produces the following output.

		Constructed Beneficiary Group					
		Active Duty <65			Family of Active <65		
		Male or Female = R				Male or Female = R	
Rating of all experience with health plan	Mean	Male	Female	N/A	Male	Female	
In gen'l, how would you rate overall health	Mean	7.88	6.58	7.10	7.60	7.29	

The result of this process is Table 3.1.

Note that the TITLE statement defines the heading for each page. Titles of more than one line are entered as TITLE, TITLE2, etc.

Table 3.1
Constructed Beneficiary Group by Gender for Region 3

	Constructed Beneficiary Group					
	Active Duty <65			Family of Active <65		
	Male or Female - R			Male or Female - R		
	Male	Female	All	Male	Female	
Rating of Mean all experience with health plan	7.22	6.59	7.10	7.61	7.22	
In genrl, how would you rate overall health	3.83	3.47	3.76	3.85	3.61

all			
experience with health plan		9.03	8.83
In general, how would you rate overall health		3.02	3.15
			3.40

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2004\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is active duty; if XBNFGRP equals 2, the respondent is a family member of active duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

FORMAT _ALL_;

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 3.1, the values of the statistics are of the form x.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space plus some extra room to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are active duty, family members of active duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP=' '

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN=' *F=6.2

The headings for XSEXA and ALL can be improved:

XSEXA='Gender'
ALL='Group Total' for the ALL that is crossed with XBNFGRP
ALL='Total' for the Region 3 total

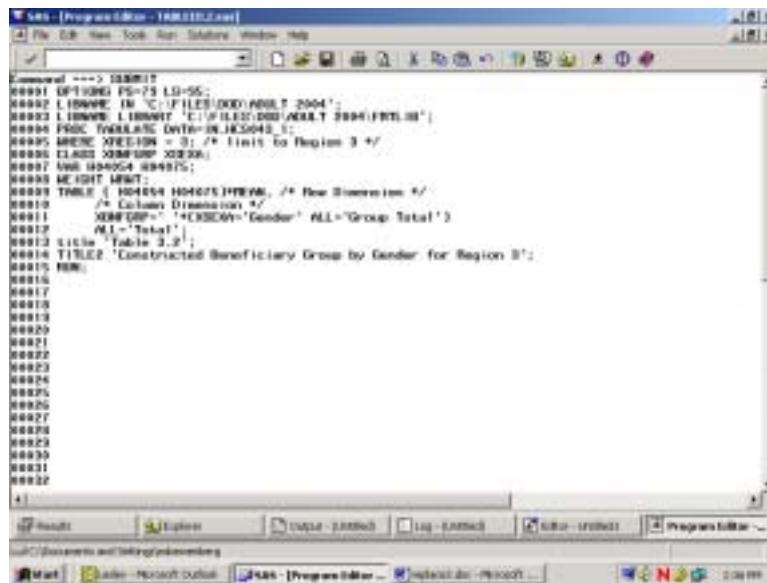

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2004';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2004\FMTLIB';
PROC TABULATE DATA=IN.HCS043_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H04054 H04075;
```

```
WEIGHT WRWT;
TABLE (H04054 H04075)*MEAN='*F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA='Gender' ALL='Group Total')
ALL='Total';

TITLE "Table 3.2";
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typing these statements into the Program Window produces the following screen.

The screenshot shows the SAS Program Editor window with the following code:

```
LIBNAME DF1000 P=75 LD=55;
LIBNAME LR0001 IN 'C:\FILEZ\0001\NR01_2004';
LIBNAME LBB001 'C:\FILEZ\0001\ADULT 2004\FRTI.BIN';
PROC TABULATE DATA=LR01.NR01;
WHERE XREFS=0; /* Limit to Region 3 */
CLASSES XSEXA=XSEXA GRP01=GRP01;
TITLE H04054 H04075;
WEIGHT WRWT;
TABLE /* H04054 H04075 */ /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA='Gender' ALL='Group Total')
ALL='Total';
TITLE "Table 3.2";
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

After the **Submit** command is entered, the following table is displayed in the Output window.

Table 3.2 12:59 Wednesday, October 27, 2004
Constructed Beneficiary Group by Gender for Region 3

		Active Duty <65			Family of Active <65		
		Gender		Group Total	Gender		Group Total
		Male	Female		Male	Female	
Rating of all experience with health plan	Mean	7.22	6.59	7.10	7.23	7.22	7.22
In general, how would you rate overall health	Mean	3.83	3.47	3.76	3.85	3.61	3.61

(Continued)

The resulting output is in Table 3.2.

Table 3.2
Constructed Beneficiary Group by Gender for Region 3

	Active Duty <65			Family of Active <65			Ret/Surv/Fam <65		
	Gender		Group	Gender		Group	Gender		Group
	Male	Female		Male	Female		Male	Female	
	Total	Total		Total	Total		Total	Total	
Rating of all experience with health plan	7.22	6.59	7.10	7.61	7.22	7.23	7.40	7.61	7.51
In general, how would you rate overall health	3.83	3.47	3.76	3.85	3.61	3.62	3.34	3.44	3.39

(Continued)

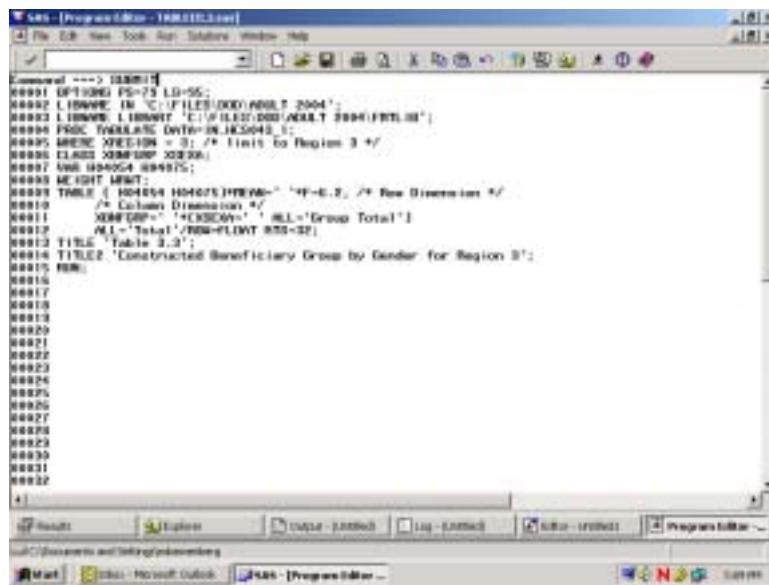

Table 3.2
Constructed Beneficiary Group by Gender for Region 3

	Ret/Surv/Fam 65+			
	Gender			
	Male	Female	Total	Total
Rating of all experience with hlth plan	8.66	9.03	8.83	7.82
In gnrl, how would you rate ovrall hlth	3.29	3.02	3.15	3.40

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2004';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2004\FMTLIB';
PROC TABULATE DATA=IN.HCS043_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H04054 H04075;
WEIGHT WRWT;
TABLE (H04054 H04075)*MEAN=' **F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA=' ALL='Group Total')
ALL='Total' / ROW=FLOAT RTS=32;
TITLE "Table 3.3";
TITLE2 ' Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typed into the Program Window, the revised program appears as follows.

The screenshot shows the SAS Program Editor window with the following code:

```
options ps=79 ls=95;
libname in 'c:\files\dod\adult 2004';
libname library 'c:\files\dod\adult 2004\fmtlib';
proc tabulate data=in.hcs043_1;
where xregion = 3; /* limit to Region 3 */
class xbnfgrp xsexa;
var h04054 h04075;
weight wrwt;
table (h04054 h04075)*mean=' **f=6.2, /* Row Dimension */
/* Column Dimension */
xbnfgrp='*(xsexa=' all='Group Total')
all='Total' / row=float rts=32;
title "Table 3.3";
title2 ' Constructed Beneficiary Group by Gender for Region 3';
run;
```

The output table is displayed in the Output Window as follows.

	Table 2.2 13:59 Wednesdays, October 27, 2004											
	Disenfranchised Beneficiary Groups by Gender For Region 3											
	Active Duty (ES)			Family of Active (ES)			Ret/Dep/Res (ES)			Ratio	Female	Group Total
	Male	Female	Group Total	Male	Female	Group Total	Male	Female	Group Total			
Rating of all experience with with plan	7.23	6.53	7.19	7.61	7.09	7.29	7.49	7.51	7.51			
In gen'l, how would you rate overall with	3.83	3.47	3.76	3.85	3.61	3.67	3.34	3.44	3.35			

The result is Table 3.3.

Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in your region and each of the catchment areas who answered yes (or no) to question 14, ‘In the last 12 months, did you see a specialist?’, your TABLE statement in the TABULATE procedure would look like this:

WHERE XREGION = 6;

TABLE H04014 ALL='Total',

(All='Region Total' CACSMPL)*PCTN<H04014 ALL>='Percent';

Table 3.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

for Region 6 Catchment Areas

	NH Corpus		Out/Area-Reg					
	Lackland AFB	Christi	Randolph AFB	2				
	#	%	#	%	#	%	#	%
In 1st yr: did you see a specialist								
Yes	64	50.00	44	45.36	65	59.63	141	65.28
No	64	50.00	53	54.64	44	40.37	75	34.72
Total	128	100.00	97	100.00	109	100.00	216	100.00

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 3.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report seeing a specialist in the past 12 months, this would be a row percentage. To calculate a row percentage, the denominator definition must include all class variables that define the column. Your TABLE statement would look like this:

**TABLE H04014 ALL='Total',
XENRLLMT *(XSEXA=' All='Group Total')*
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';**

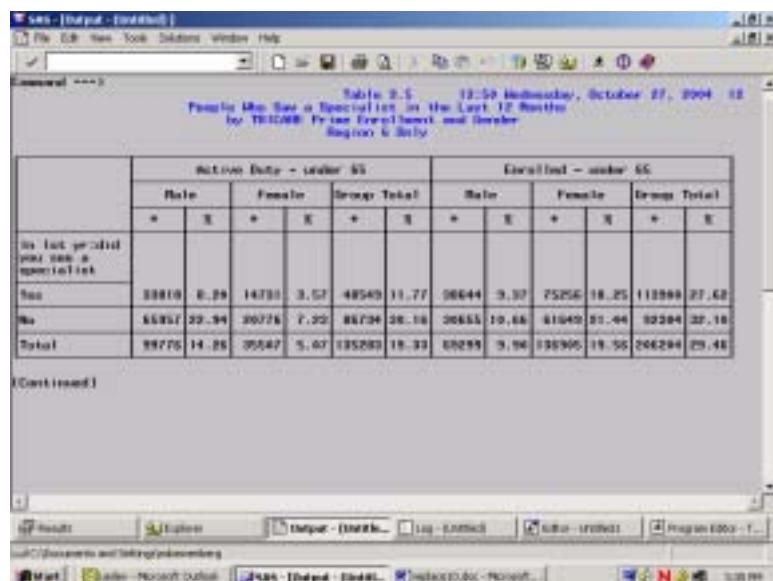

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include WRWT (the 2004 weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 3.5.

The following screen shows the new program typed into the Program Editor.

How to Make a Table Using SPSS

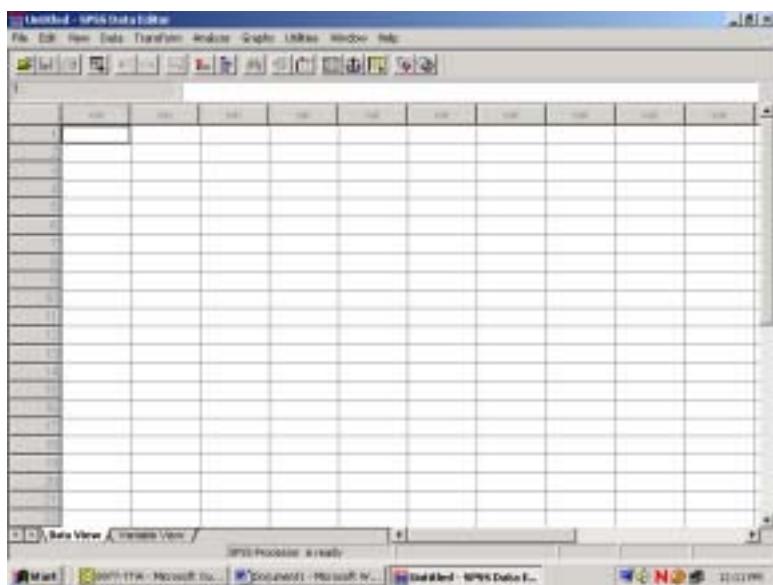

The 2004 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

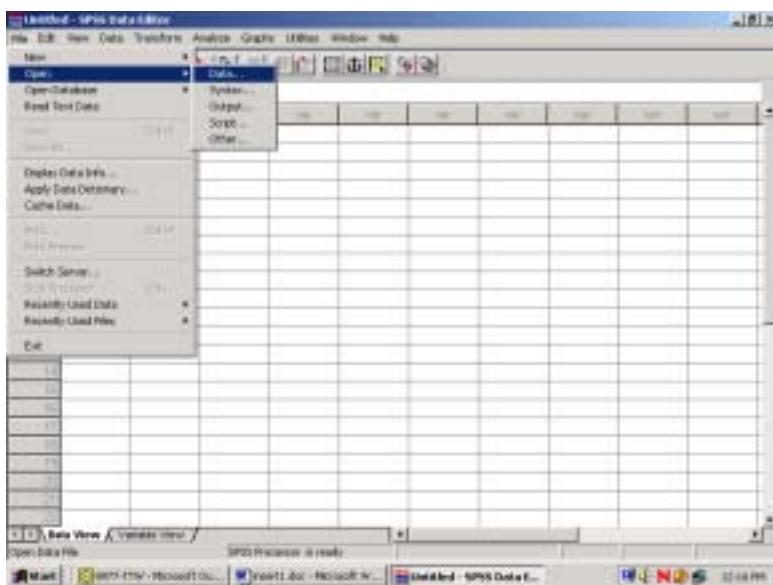

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

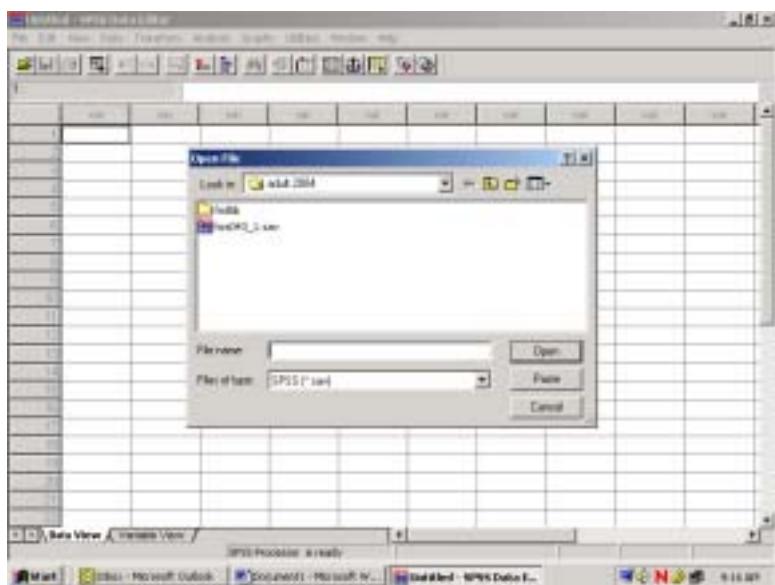

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a blank spreadsheet like the following screen:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The 2004 Adult HCSDB dataset has been opened and is displayed below.

	name	secret	version	status	category	subcategory	parent	ref	parent	date

Constructing new variables

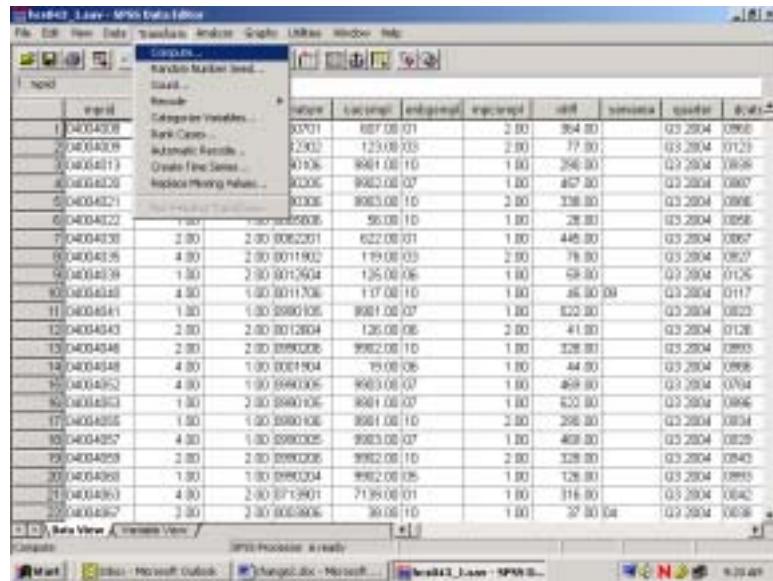

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called xbnfgrp, and the variable for sex is xsex. The value 1 for xbnfgrp indicates that the individual is on active duty. The relationships for constructing a new variable of active duty by sex are:

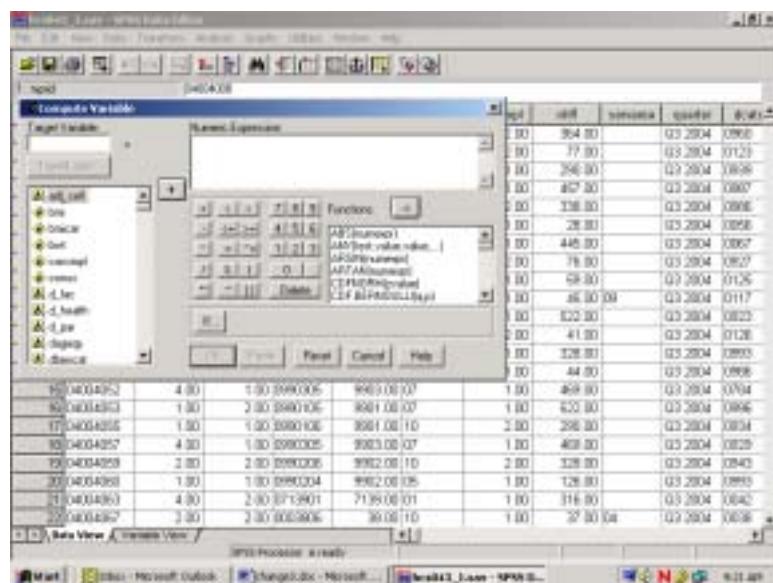

Active-duty-males: ***xsex=1 and XBNFGRP=1***

Active-duty-females: ***xsex=2 and XBNFGRP=1***

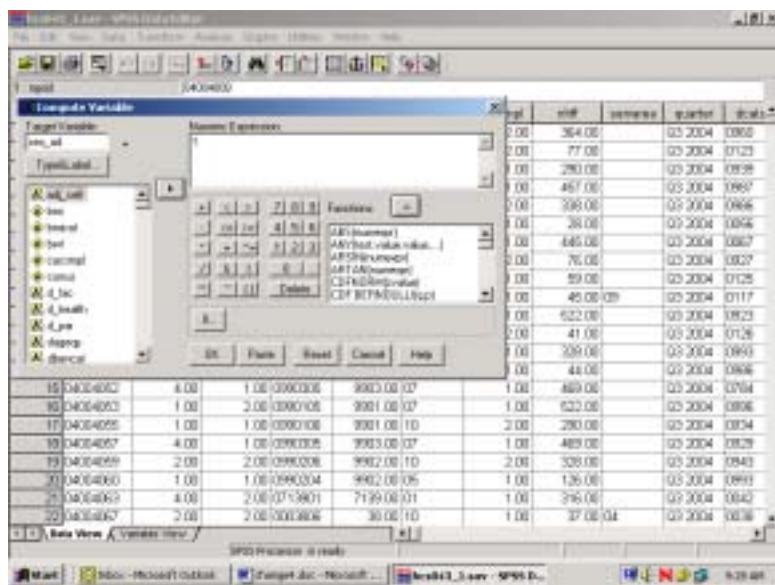

Open the Transform menu and select Compute as in the following:

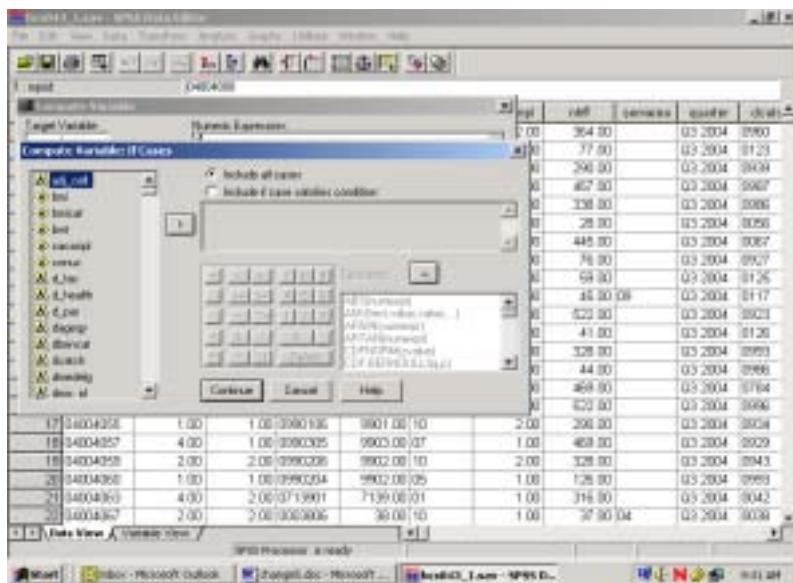

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable sex_ad. Next, assign the value 1 to sex_ad by entering it into the slot for Numeric Expression. Your screen should look like the following:

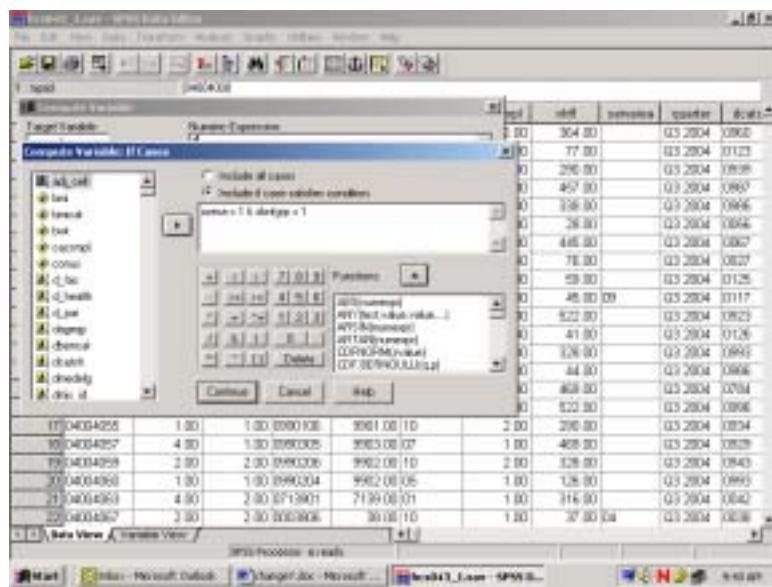

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If..and open the following dialog box:

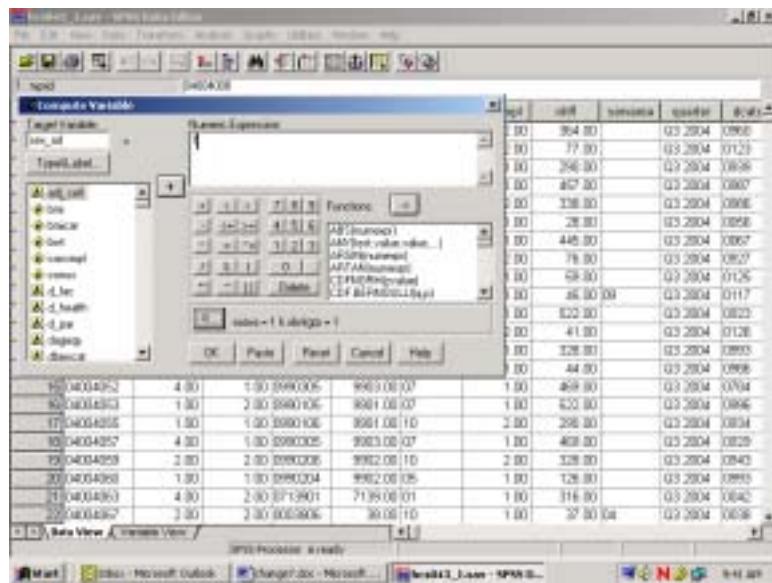

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexad = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to sex_ad, press If, and enter the new condition to identify active duty females. Click Continue, and finish with OK. The condition, if xsexa = 2 and xbnfgrp = 1, will be added to the new variable sex_ad.

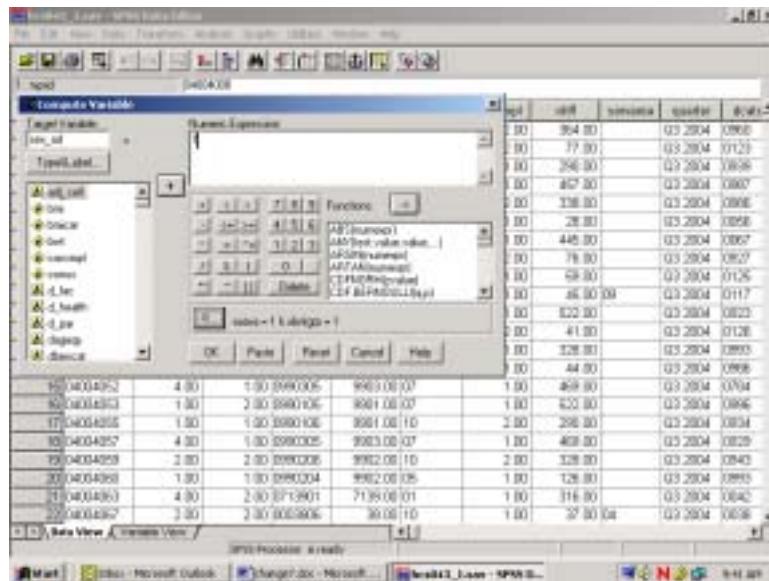

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

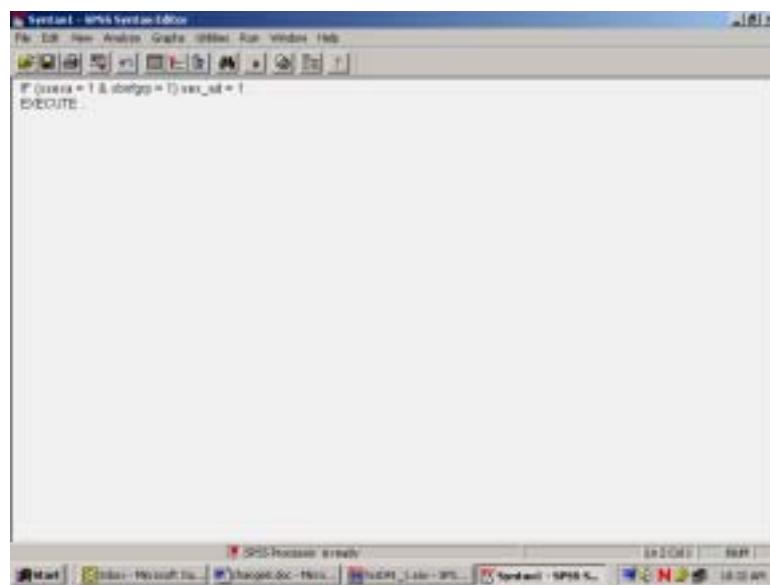

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

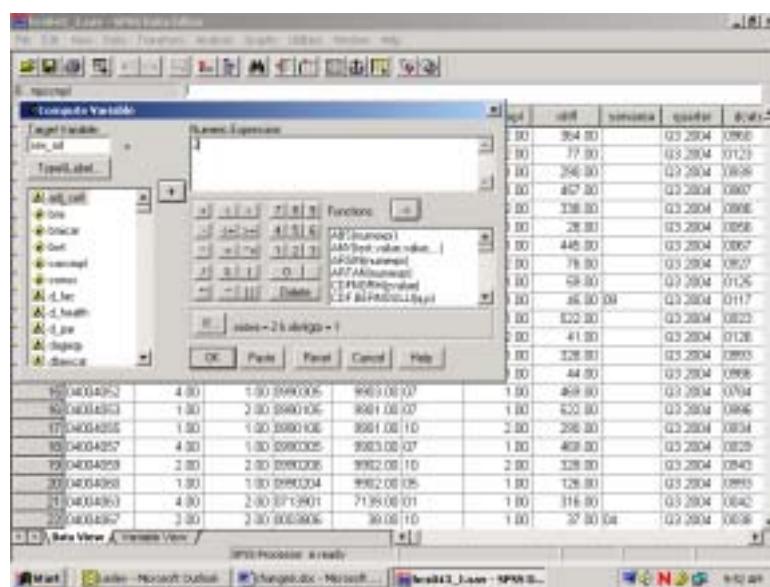

Recall the compute example for the new variable sex_ad. The screen below is the result of assigning 1 to sex_ad according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

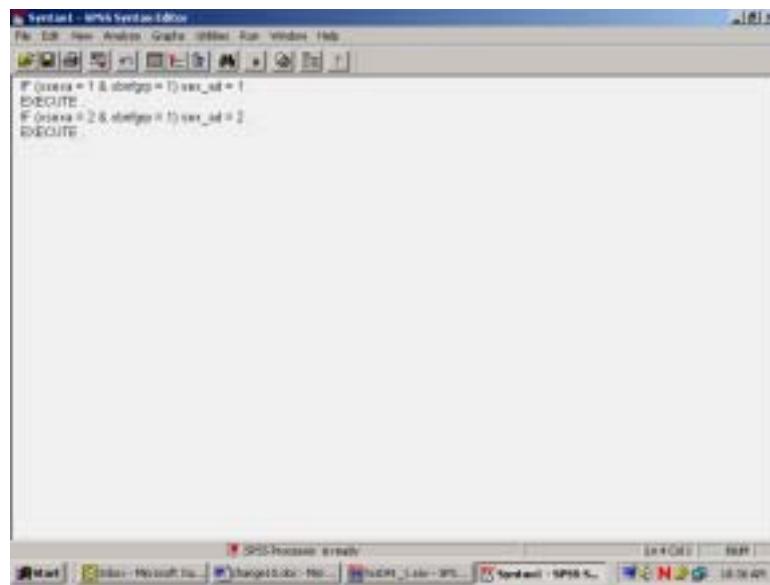

Click on the Paste button, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **DAGEQY**, which exists on our dataset. **DAGEQY** is coded in years from 18 to 96, which can be grouped into four age categories:

- 18 to 34 = 1 - label: “young adult”
- 35 to 49 = 2 - label: “mature adult”
- 50 to 65 = 3 – label: “middle-age”
- 66 to 96 = 4 – label: “senior citizen”

The new variable is called **age_grp**.

DAGEQY is a string variable. In order for it to be recoded using grouping criteria, it must be converted to a numeric variable. In the data window go to the column for the variable **DAGEQY** and click in the gray area at the top of the column causing the variable to be selected as the following screen indicates.

This screenshot shows the SPSS Data View window. The data consists of 20 rows and 12 columns. The columns are labeled: idtype, gender, degree, birthdate, year, marital, ethnicity, race, income, medtype, patient, and perid. The data includes various codes such as MTF, DR, ACT, RET, and various letters A, B, C, and numbers like 025, 046, 066, etc.

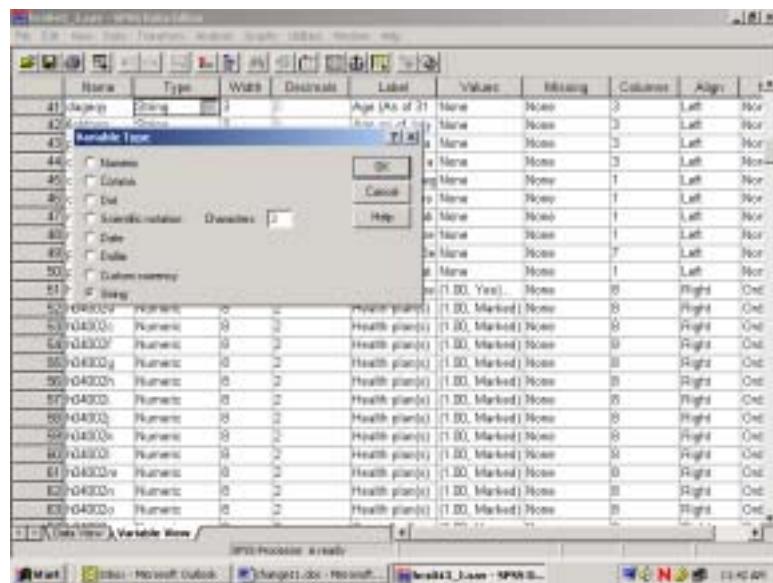

idtype	gender	degree	birthdate	year	marital	ethnicity	race	income	medtype	patient	perid
10	20	025	MTF	060	T	A	A	W	ACTDTY	V	
10	20	046	MTF	046	2	B	B	W	DEFACT	A	
10	20	066	DR	7	A	B	C	W	NADD85+R		
10M	20	046	RET	2	A	A	W	W	NADD-B5-R		
10M	20	079	RET	7	B	A	C	W	NADD85+R		
10M	20	086	RET	7	A	A	C	W	NADD85+R		
10P	20	037	MTF	ACT	1	B	A	W	ACTDTY	A	
10P	20	032	MTF	DR	2	F	B	W	DEFACT	A	
10P	20	049	MTF	DR	2	A	B	W	NADD85+R		
10PM	20	076	MTF	RET	7	F	A	C	NADD85+R		
11M	20	064	DR	RET	2	A	A	W	NADD-B5-R

22P	30	087	067	DS	7	H	C	W	NADD85+R		

Click on the Variable View tab at the Lower Left of your screen and the screen will change to the following:

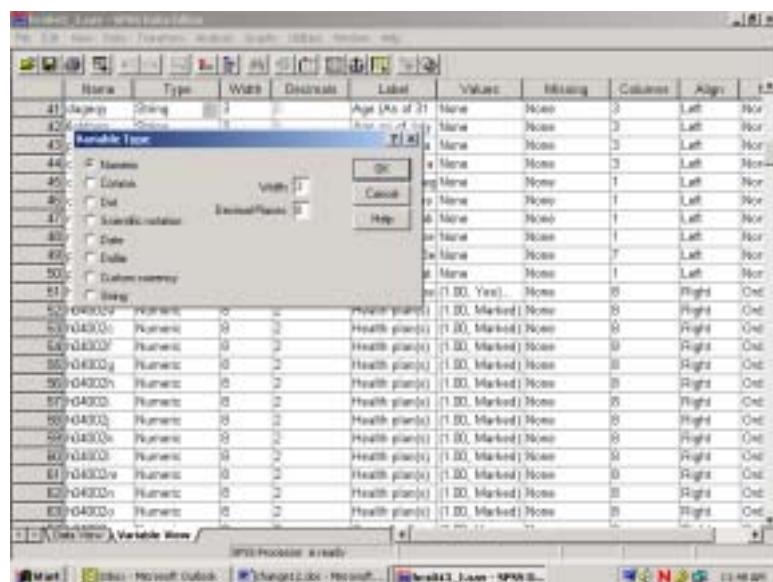

This screenshot shows the SPSS Variable View window. It lists 22 variables with their names, types, widths, decimal places, labels, values, missing values, columns, align, and format settings.

Name	Type	Width	Decimals	Label	Values	Missing	Columns	Align	Format
41_dsjrny	String	3	0	Age Ans of 31	None	None	3	Left	9,0
42_hhsize	String	3	0	Age Ans of July	None	None	3	Left	9,0
43_persn	String	3	0	Primary Man	None	None	3	Left	9,0
44_benctry	String	3	0	Beneficiary Cat	None	None	3	Left	9,0
45_dmedcig	String	1	0	Medical Pending	None	None	1	Left	9,0
46_dspnserv	String	1	0	Denied Service	None	None	1	Left	9,0
47_mbrrelat	String	1	0	Member Relat	None	None	1	Left	9,0
48_mccrtyp	String	1	0	Medicare Type	None	None	1	Left	9,0
49_aggrcatd	String	1	0	Aggregated	None	None	1	Left	9,0
50_prcntact	String	1	0	Personnel Cat	None	None	1	Left	9,0
51_h04001	Numeric	10	2	Are you the pri	(1,00, Yrs)	None	10	Right	9,0
52_h04002e	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
53_h04003e	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
54_h04007	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
55_h04008g	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
56_h04009f	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
57_h04010	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
58_h04003	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
59_h04002e	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
60_h04003e	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
61_h04002w	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
62_h04002n	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0
63_h04002	Numeric	10	2	Health plan(s)	(1,00, Marked)	None	10	Right	9,0

In the Type column click on the gray square and the following Menu will open.

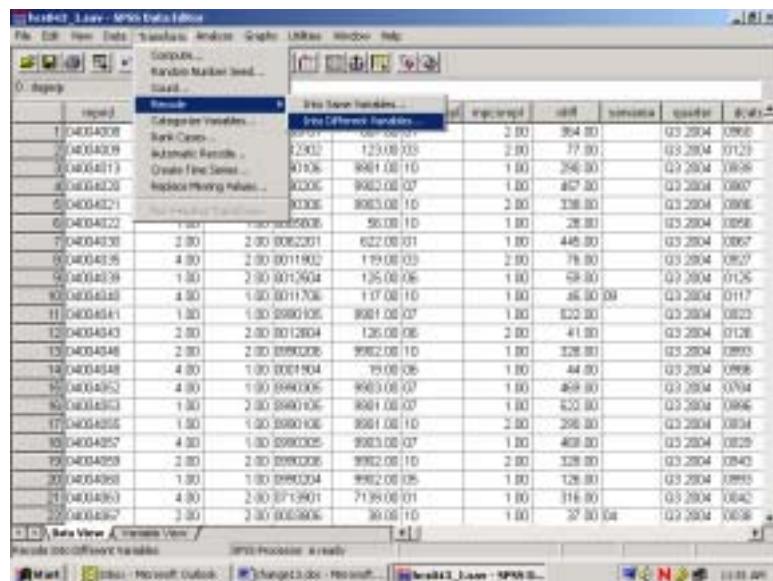

Transfer the black dot from String to Numeric as follows:

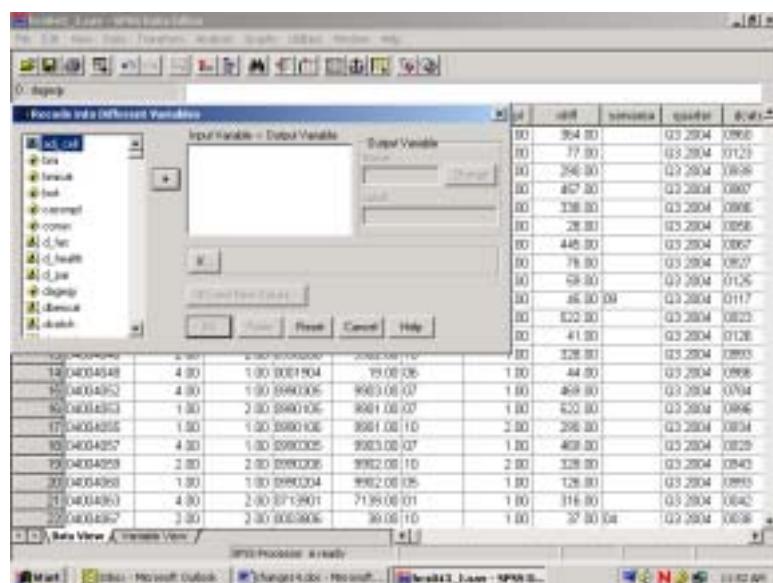

Click on OK to set the changes. Click on the Data View tab to return to the Data Editor window.

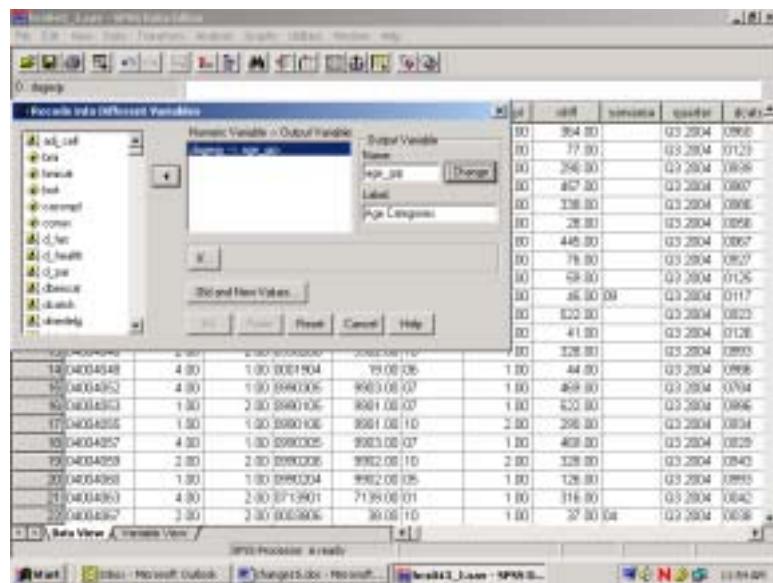

Now from the **Transform** menu, choose **Recode** and **Into Different Variables** as pictured below:

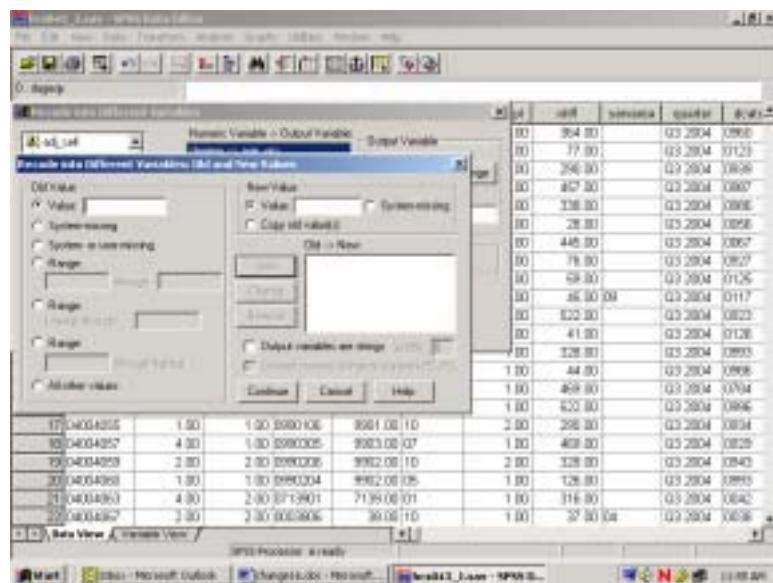

The following dialog box will open:

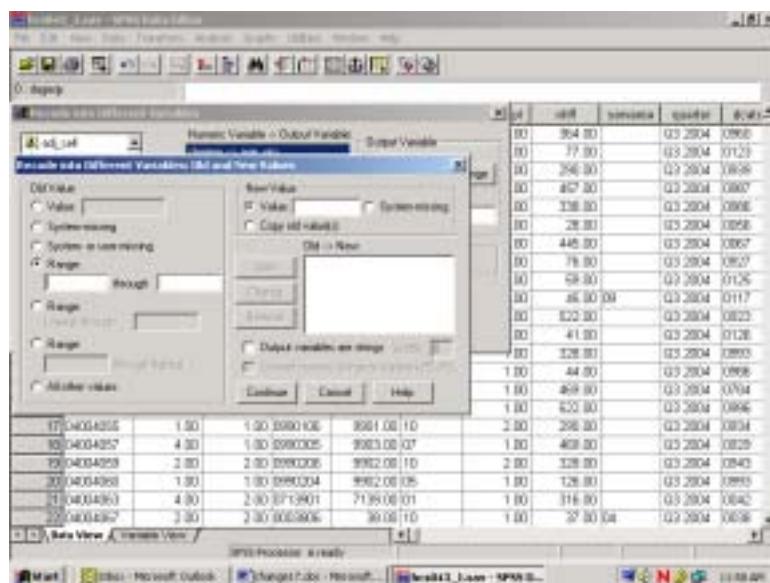

Move **DAGEQY** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

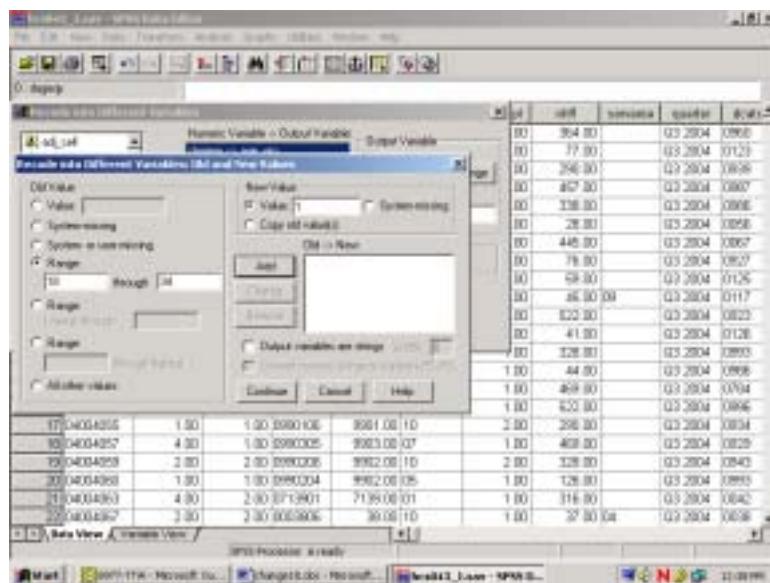

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

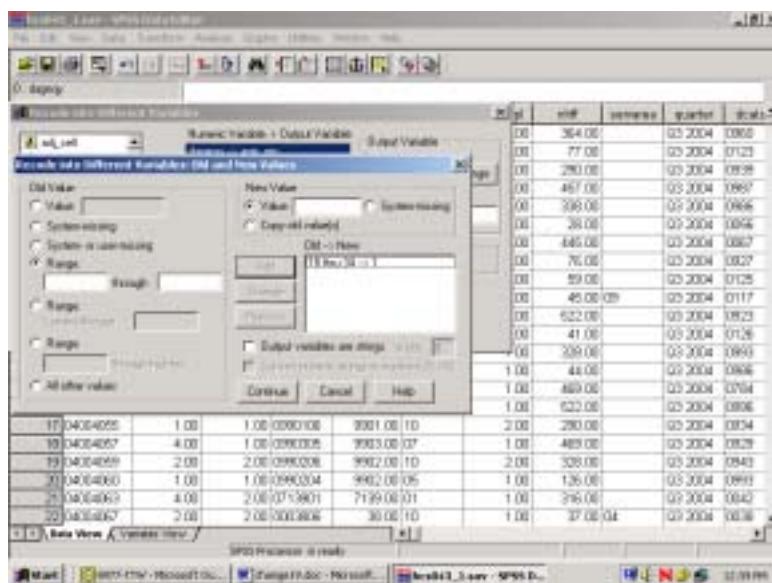

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 through 34 in the slots provided under **Range**. Next, enter the value **1** in the **Value** slot under **New Value**. **Add** is now illuminated.

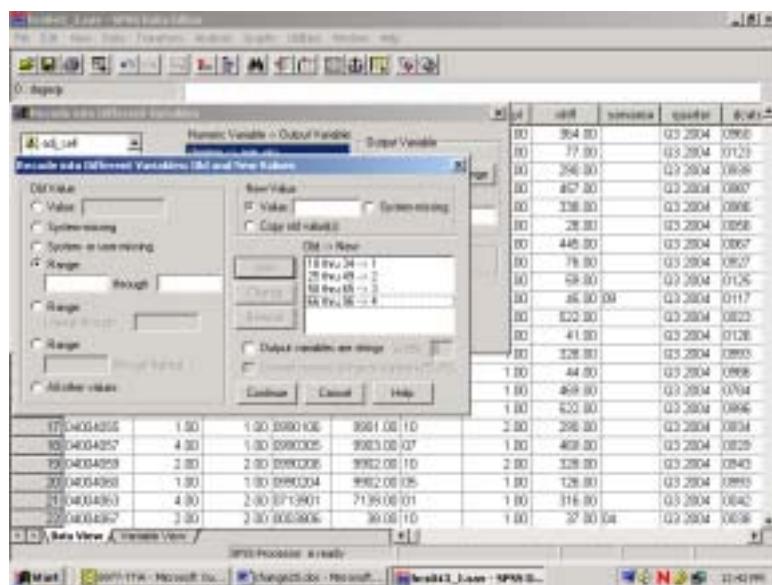

Clicking on Add produces the following result:

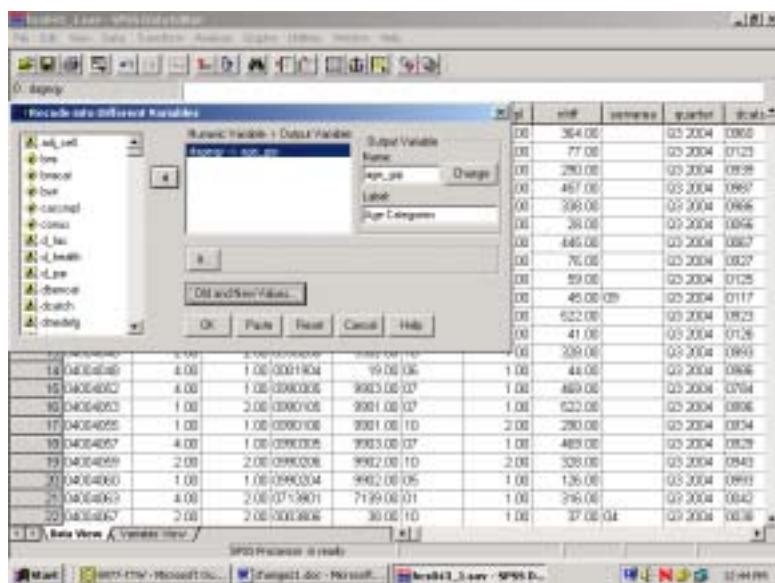

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

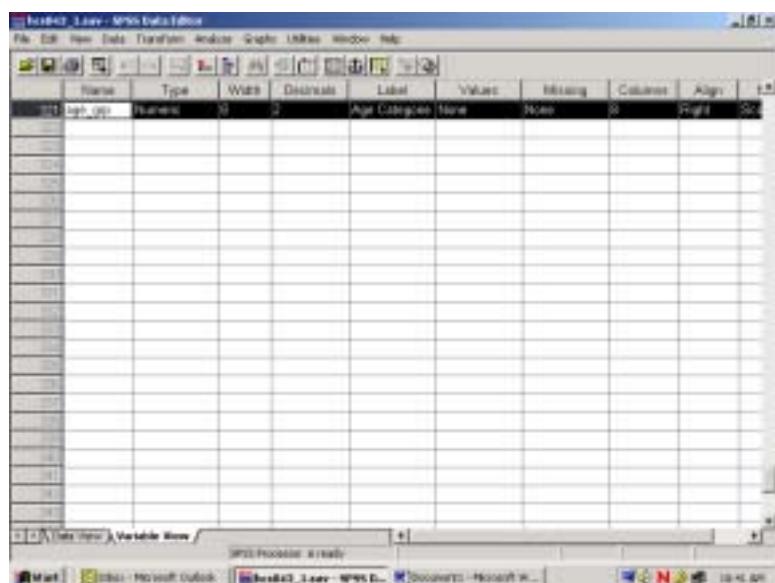

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

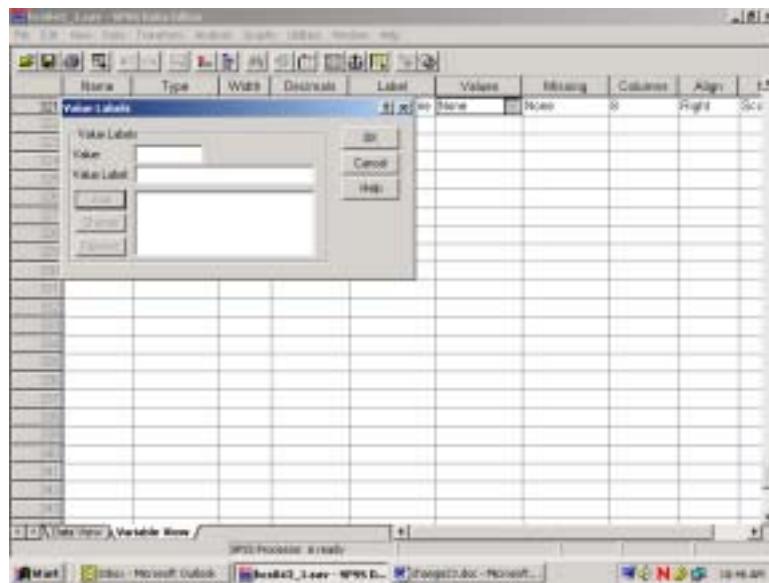

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

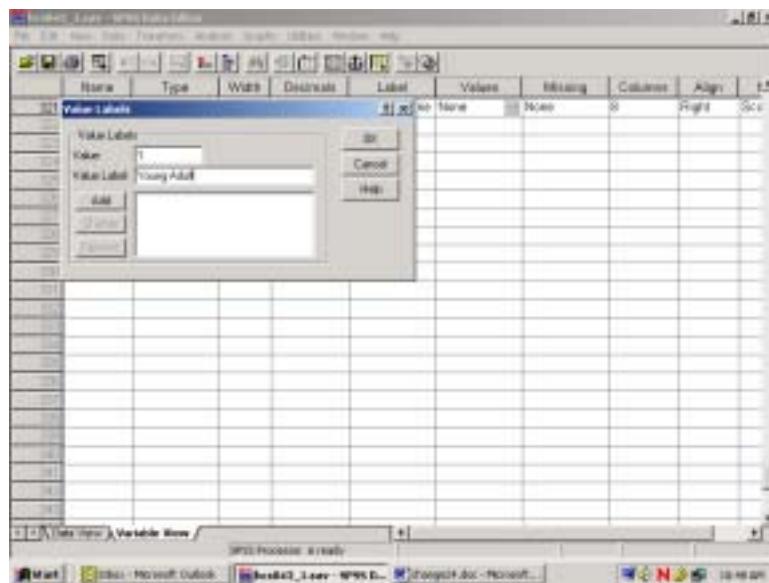

The variable **age_grp** is shown with its attributes.

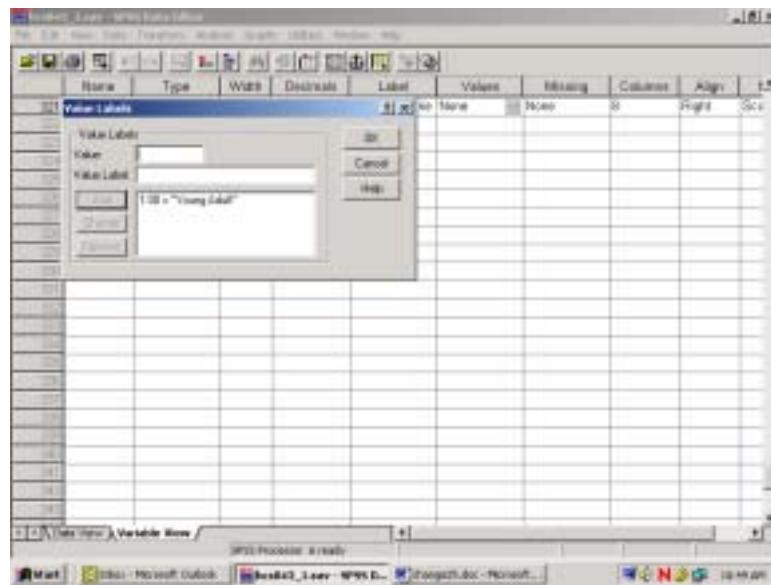

Click in the cell under **Values** and the following dialog box will open:

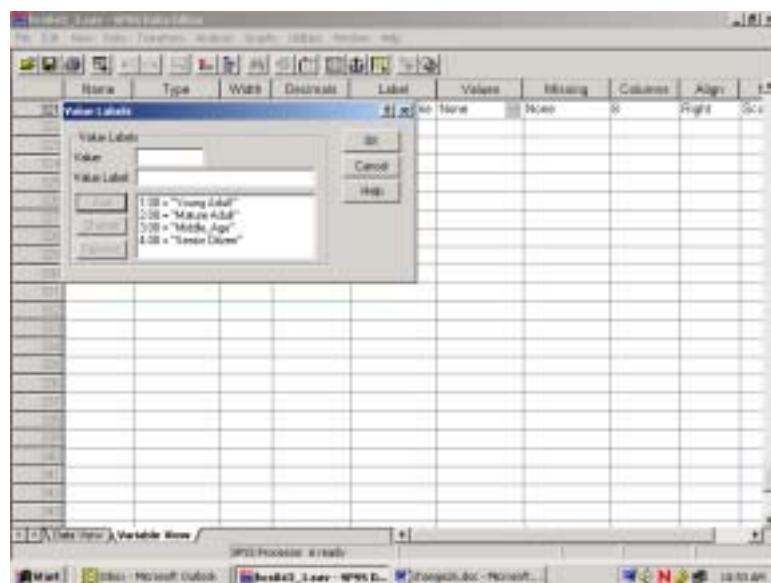

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked **Value Label**. The screen will look like the following:

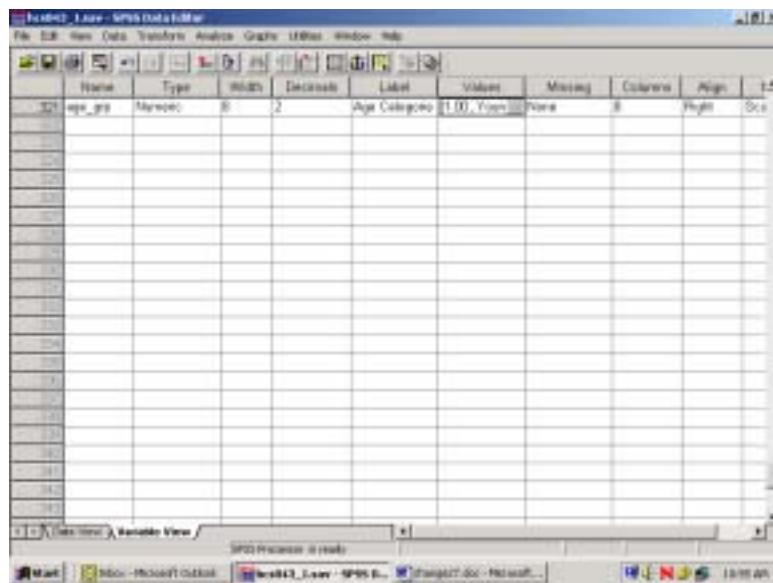

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

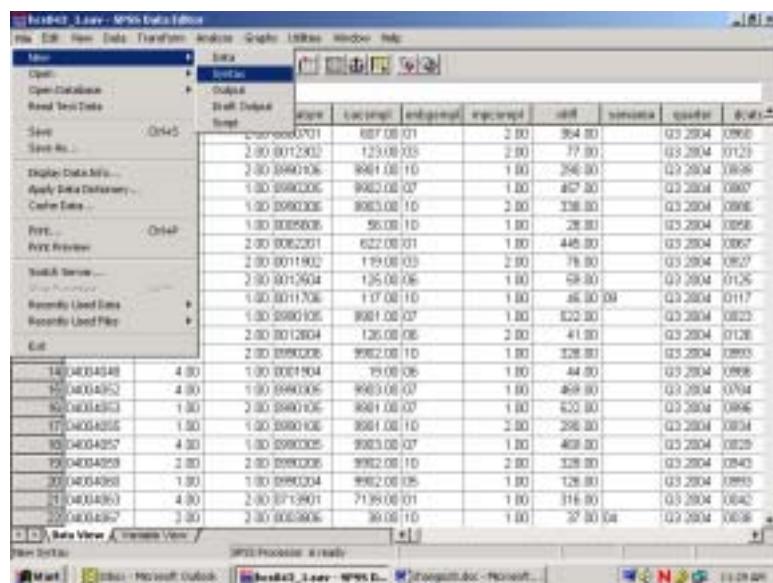

Limiting the Number of Variables

The HCSDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate the rating of all experiences with the health plan as it relates to the beneficiaries' state of health. You are also interested in the differences between military and civilian services, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among catchment areas. You can do all the work on a subset of only nine variables, saving them in a separate file.

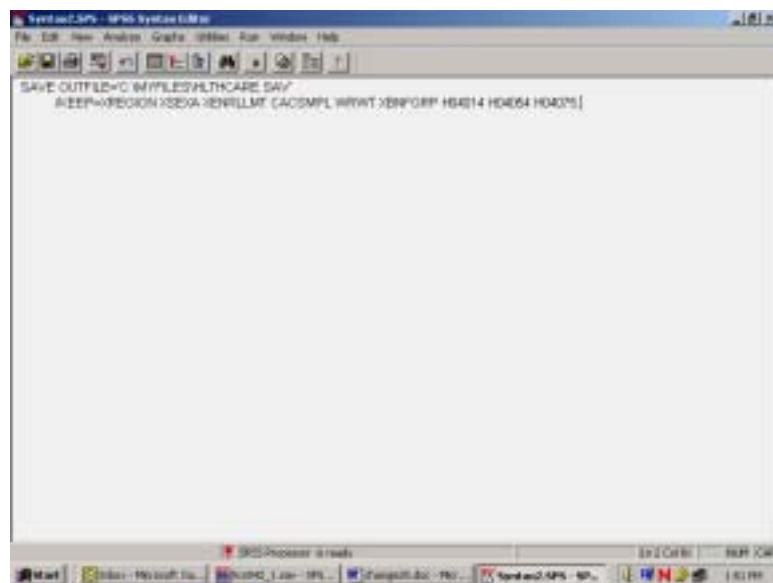

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New**, **Syntax** on the **File** menu as in the following:

A blank syntax window will open.

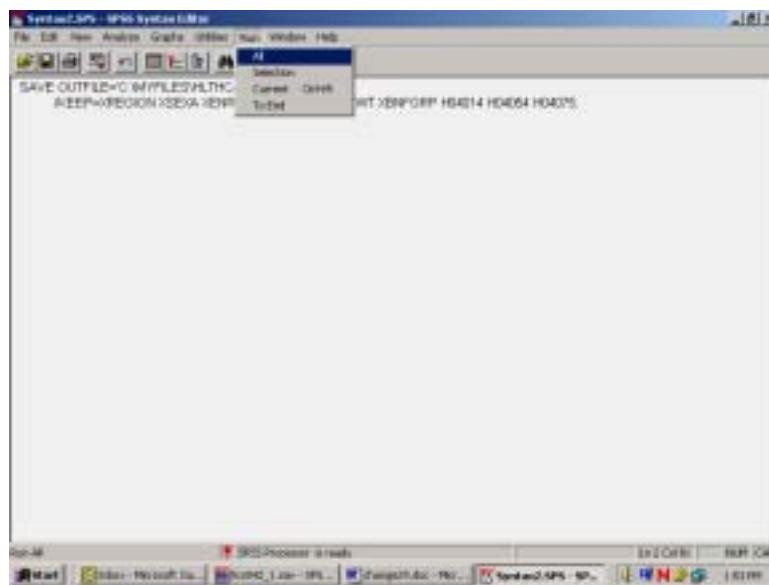

Write the following command, substituting the file name and directory specification:

SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XREGION XSEX A XENRLLMT CACSMPL WRWT XBNFGRP H04014 H04054 H04075. as in the following:

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

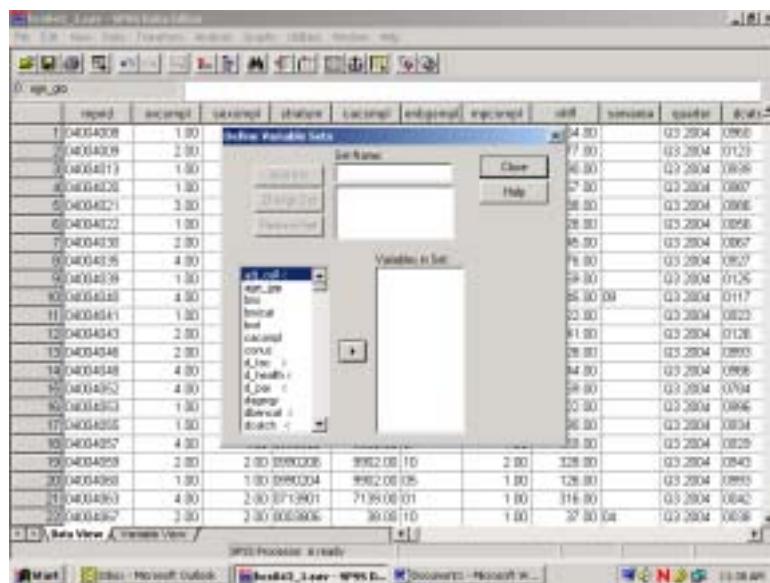

Run the command by choosing the **Run** menu and selecting **All** from the choices.

Open the new file according to the specifications at the beginning of this chapter.

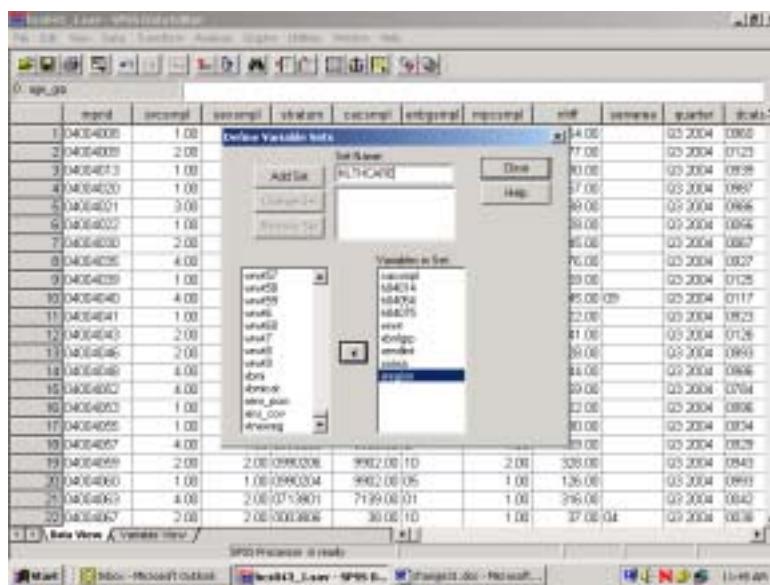

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utility** menu, define a subset of variables as in the following:

Select Define Sets.

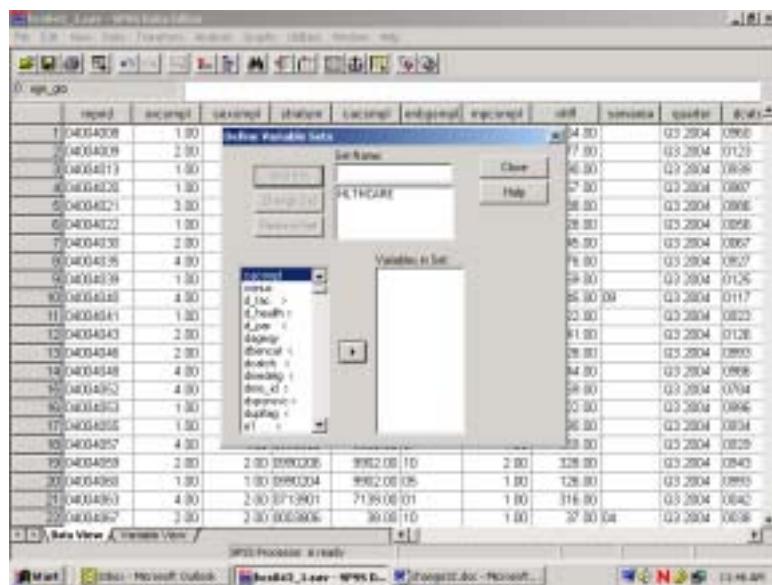

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

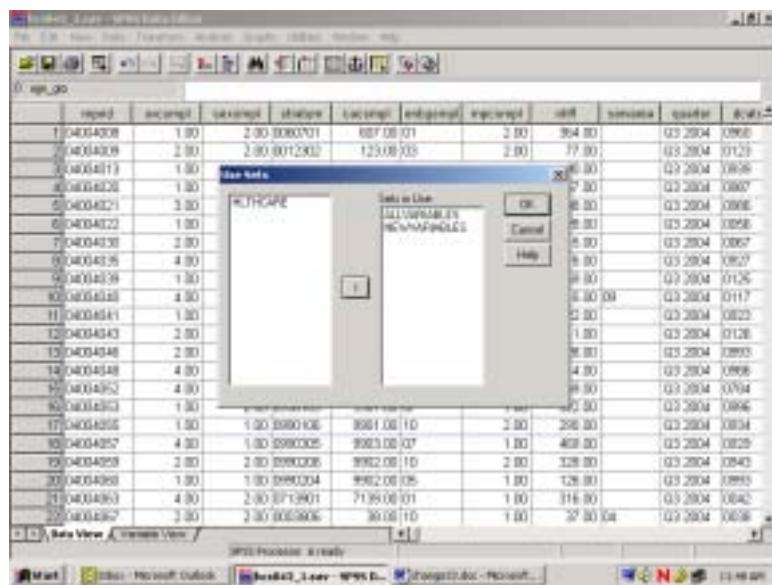

The screen should look like the following:

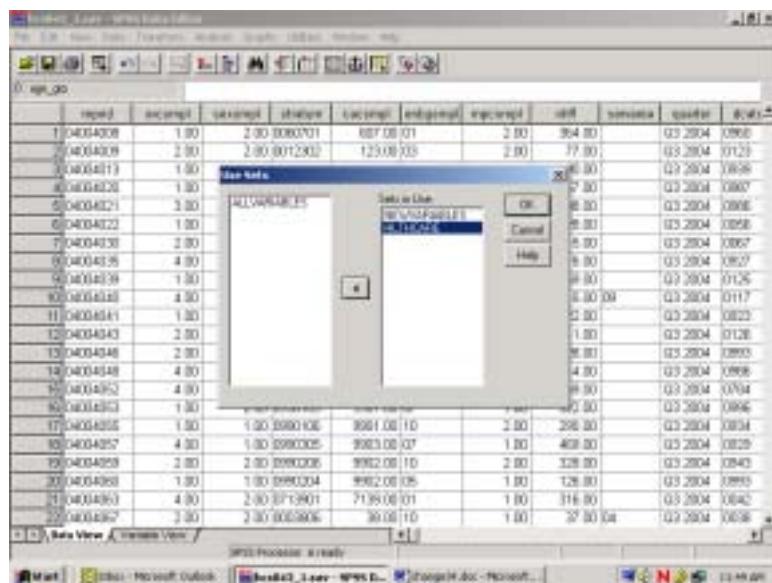

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Sets...**, and receive this screen:

Move HLTHCARE from the left slot to the right slot, which is labeled **Sets in Use**. Transfer ALLVARIABLES from the right to the left slot. Leave NEWVARIABLES where it is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

Limiting the Number of Observations

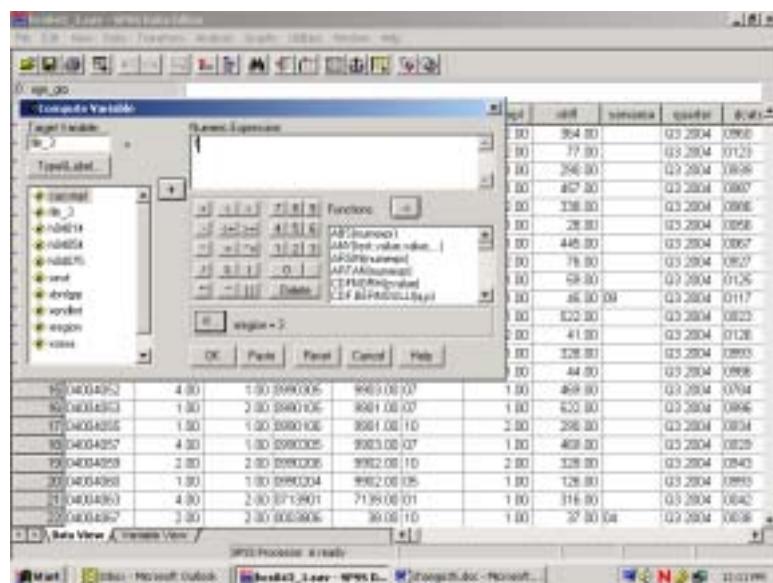

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

The first task is to **compute** a filter variable for all the cases in the file.

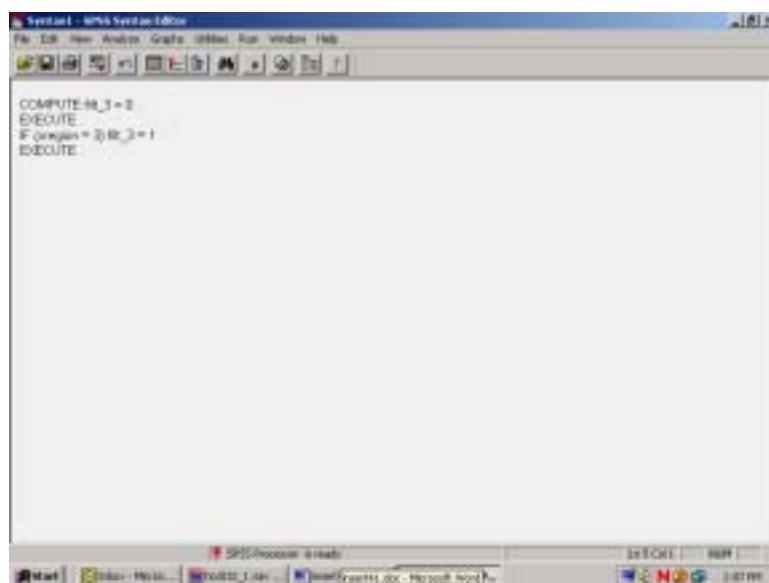

A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the Southeast, i.e., cases for which the variable **xregion = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the Southeast and 0 for all the other cases in the file. The logic is: if **xregion = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

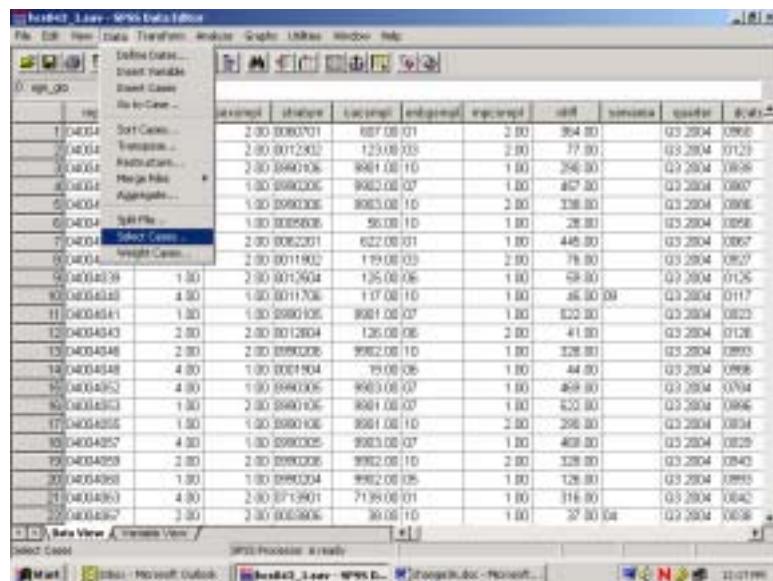

The screen that follows shows the syntax that was generated as you built the variable filtr_3.

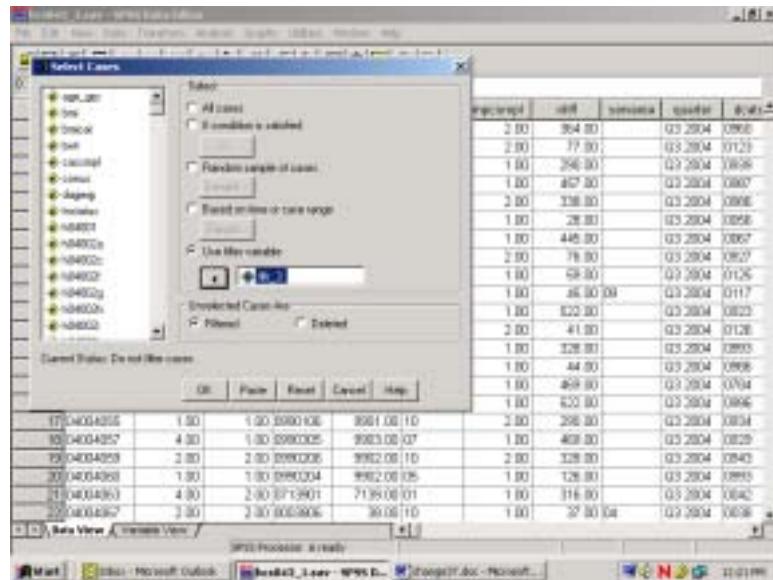

Once you build the filter variable, you can apply it for analyzing only those people from the Southeast.

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filtered** is checked under **Unselected Cases Are**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

The screenshot shows the SPSS Data Editor window with a subset of cases selected. The status bar at the bottom indicates "Filter On".

13	14004048	2.00	2.00	00009008	9882.00	10	1.00	326.00	032004	0893	
14	14004049	4.00	1.00	00011904	75.00	006	1.00	44.00	032004	0898	
15	14004052	4.00	1.00	00004006	9883.00	007	1.00	469.00	032004	0894	
16	14004053	1.00	2.00	00004006	9884.00	007	1.00	622.00	032004	0896	
17	14004055	1.00	2.00	00008006	9881.00	10	2.00	236.00	032004	0894	
18	14004057	4.00	1.00	00008005	9883.00	007	1.00	469.00	032004	0895	
19	14004059	2.00	2.00	00008008	9882.00	10	2.00	326.00	032004	0840	
20	14004060	1.00	2.00	00008004	9882.00	005	1.00	126.00	032004	0893	
21	14004063	4.00	2.00	00111901	7139.00	001	1.00	316.00	032004	0842	
22	14004067	3.00	2.00	00005006	39.00	10	1.00	37.00	04	032004	0898

You can now produce tables for the subset of cases.

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see which filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

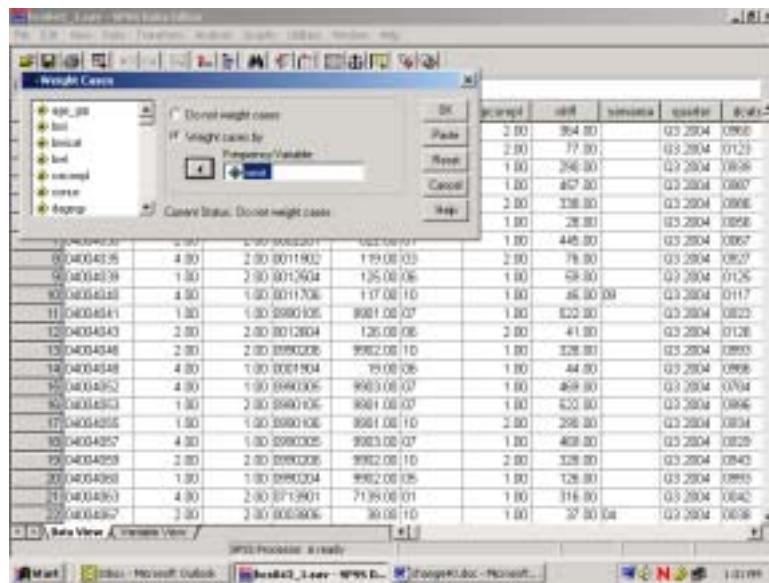

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

The screenshot shows the "Select Cases" dialog box with "All cases" selected. The status bar at the bottom indicates "Filter Off".

	repid	incsupt	incsupt	incsupt	incsupt	incsupt	incsupt	incsupt	incsupt	incsupt	
1	14004055	1.00	2.00	00008006	9881.00	10	2.00	236.00	032004	0894	
2	14004057	4.00	1.00	00008005	9883.00	007	1.00	469.00	032004	0895

Weighting Data

The data file includes a weighting variable, WRWT, which should be applied to all procedure runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H04014, H04054, H04075, cacsmpl, xbnfgrp, xsexa, xregion, xenrlmt, wrwt, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

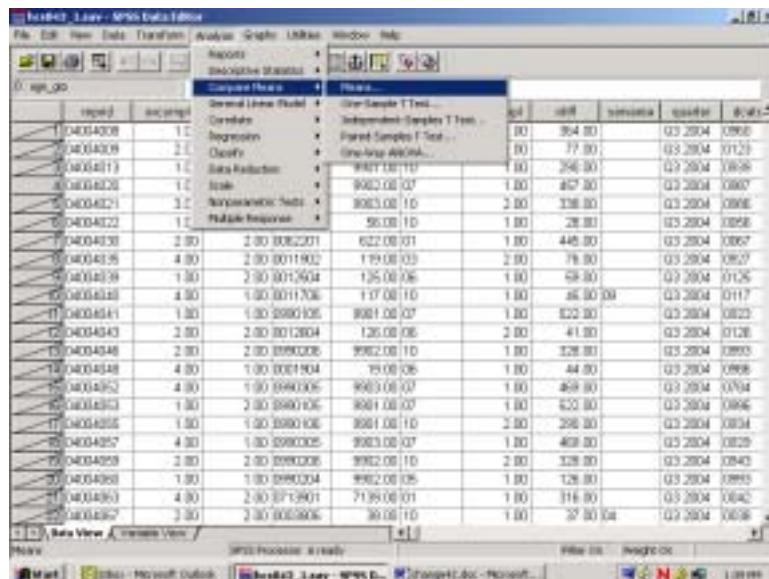

As an example, suppose you want to analyze the health care variables and you want to focus on the Southeast (**xregion** = 3). Suppose you are also interested in overall differences in the mean rating for care received as it relates to the beneficiary's self-evaluation of his health for the Southeast region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H04054** – rating of the health plan, and **H04075** – assessment of the state of health. The statistic you want to see is the mean of the health care variables for each group in our breakdown.

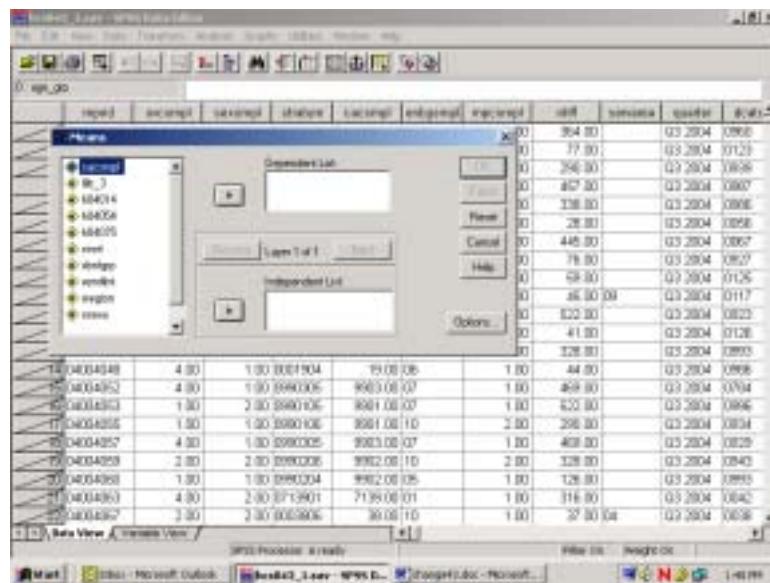

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **wrwt**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the Southeast.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **wrwt**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

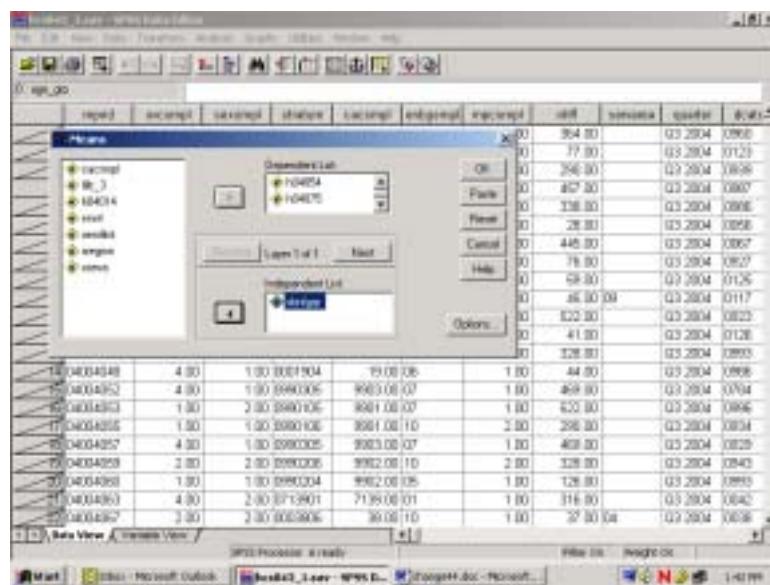

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

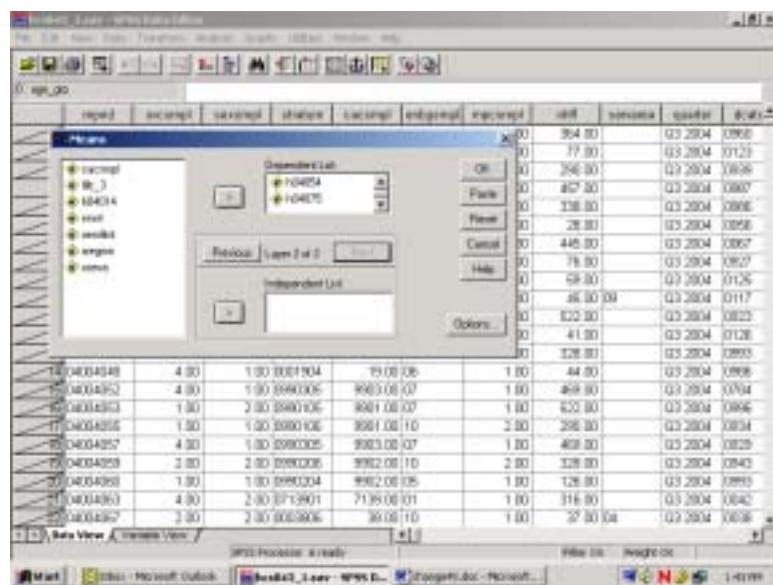

The dialog box for the Means procedure will open as in the following screen:

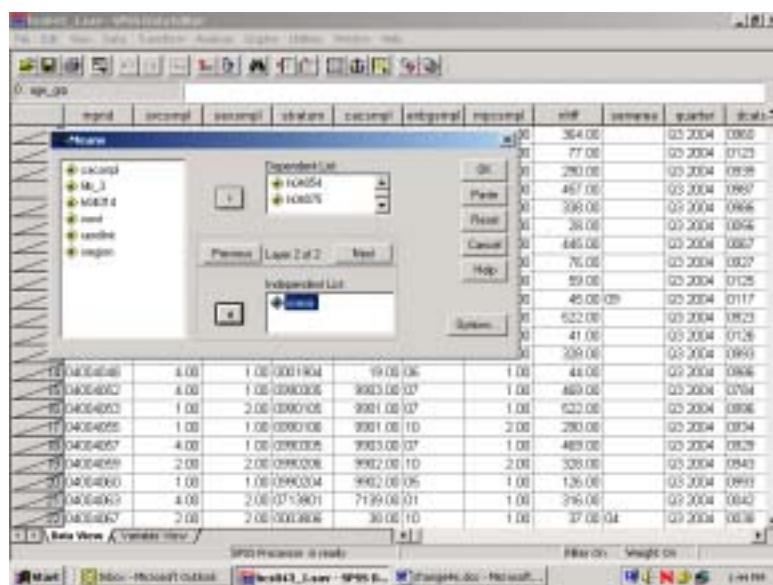

Move the health care variables **H04054** and **H04075**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

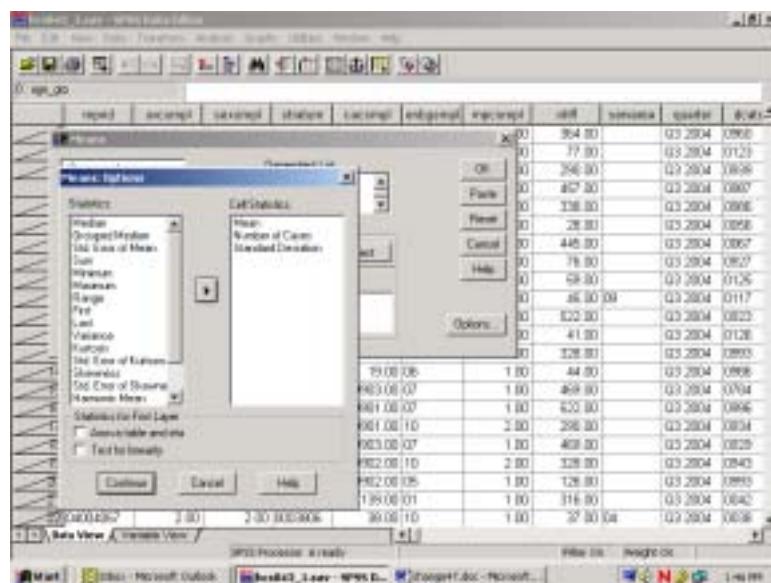

Click on **Next** in the center of the box to create a second layer. The following screen will open:

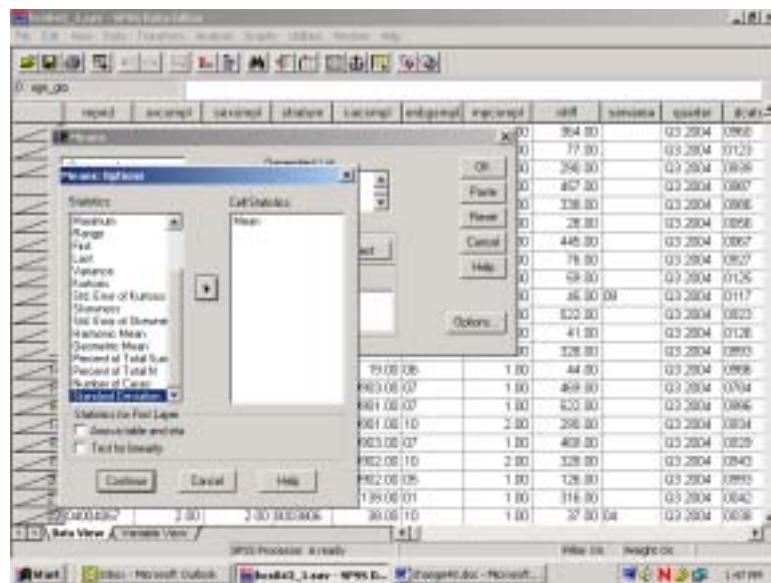

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsex2** from the variable list on the left into the box under **Independent List**. **Xsex2** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

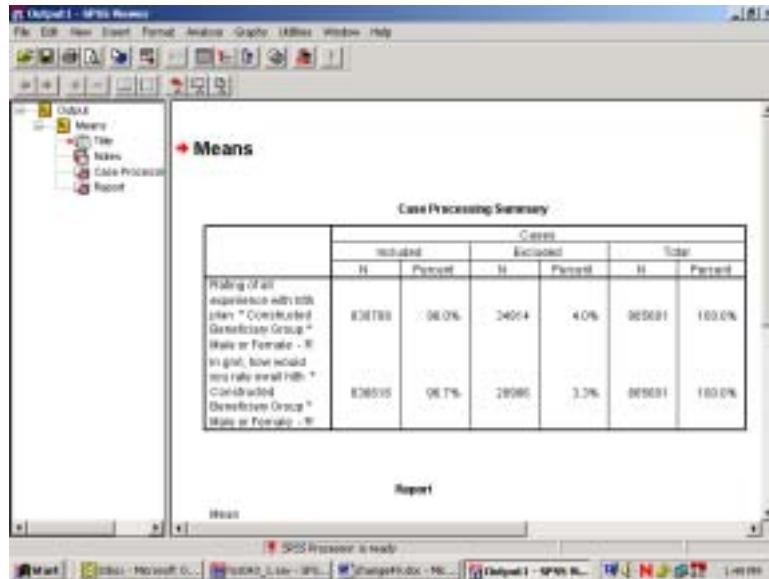

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

The screenshot shows the SPSS Output 1 interface. On the left, the tree view shows 'Measures' selected under 'Means'. The main pane displays a table titled 'Case Processing Summary' with the following data:

	Cases					
	Included		Excluded		Total	
N	Percent	N	Percent	N	Percent	
Rating of all explanations with both plans "Completely Understandable Group" Male or Female - W in grad, how would rate their health now rate overall health "Completely Understandable Group" Male or Female - W	838788	96.0%	2404	4.0%	862831	100.0%
	838515	96.7%	2896	3.3%	865411	100.0%

The title 'Means' is highlighted with a red box. Below the table, the word 'Report' is visible. The status bar at the bottom indicates '1 item selected (1 item collapsed)' and 'SPSS Processor is ready'.

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

The screenshot shows the SPSS Output 1 interface. The tree view now shows 'Mean Rating of Health Plan w/ Health Assessment' selected under 'Means'. The main pane displays the same 'Case Processing Summary' table as the previous screenshot, with identical data. The title 'Mean Rating of Health Plan w/ Health Assessment' is displayed above the table. The status bar at the bottom indicates '1 item selected (1 item collapsed)' and 'SPSS Processor is ready'.

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

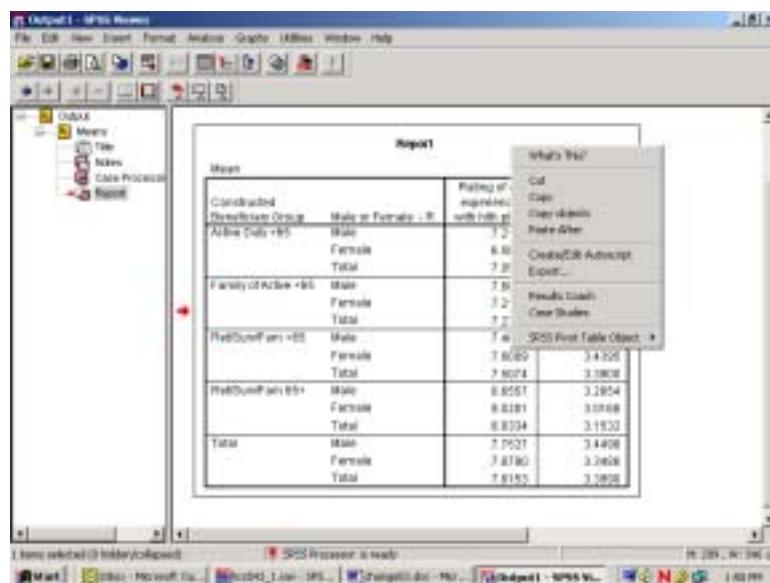

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

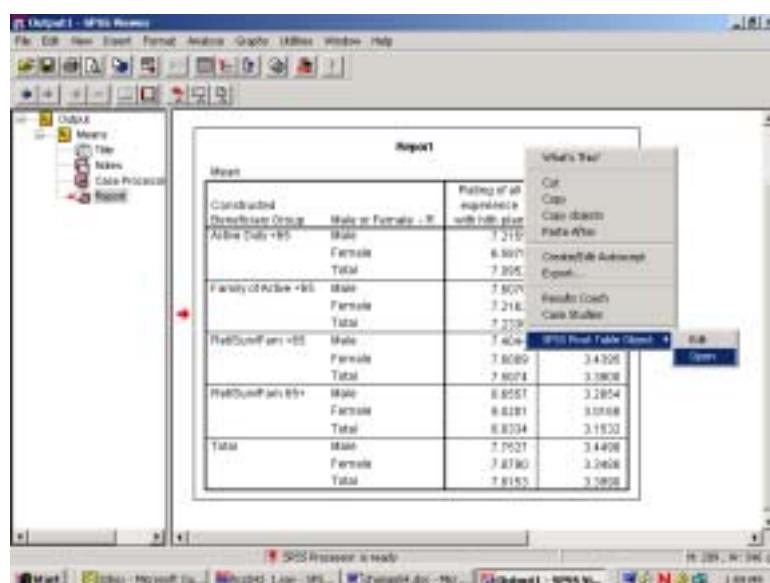

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

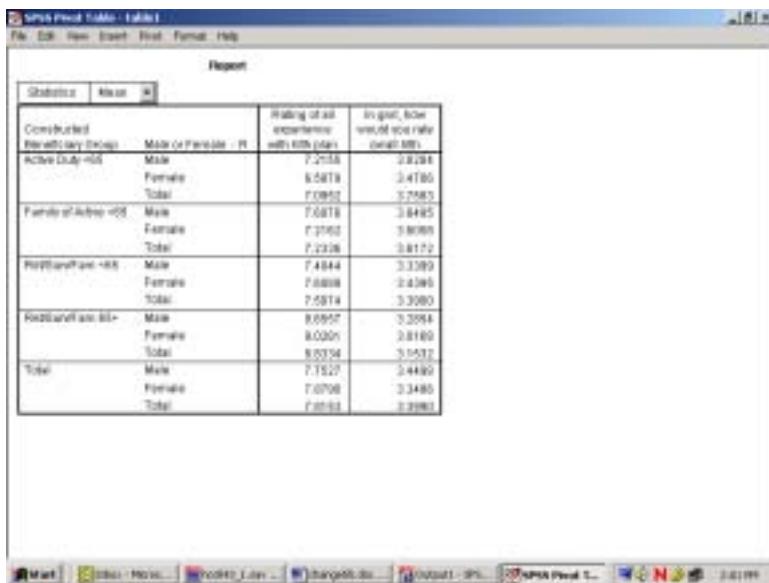

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

Select **SPSS Pivot Table Object** and **Open** as pictured below:

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

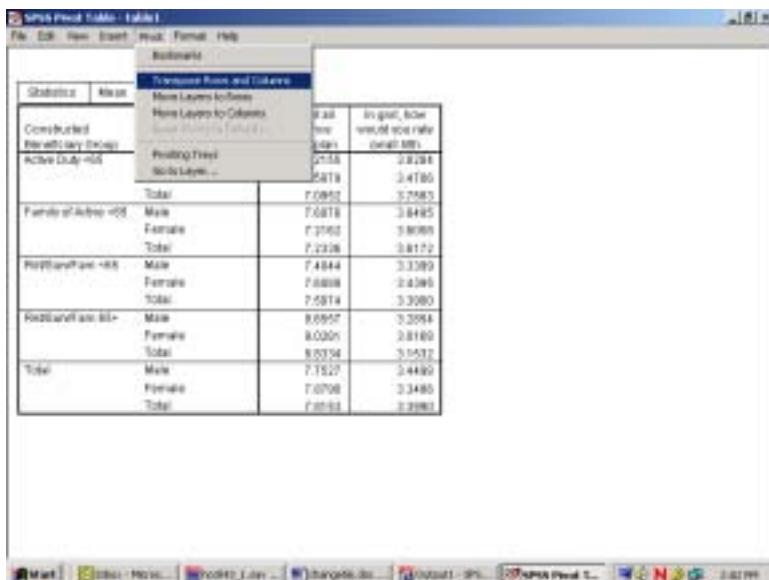

This screenshot shows the SPSS Pivot Table Editor window. The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. A toolbar with various icons is at the top. The main area is titled 'Report' and contains a table with the following data:

		Rating of all experiences with DOD plan	In past 12 months you rate overall MRN
Contributed Retirement Eligible			
Active Duty - DS			
Male		7.2558	3.8281
Female		6.6878	3.4786
Total		7.0852	3.7985
Family of Active - DS			
Male		7.0878	3.8485
Female		7.3162	3.8086
Total		7.2326	3.8172
Pri/Plan Part - DS			
Male		7.4844	3.3389
Female		7.0808	3.4386
Total		7.5914	3.3980
Pri/Plan Part - DS+			
Male		8.6957	3.2994
Female		8.0205	3.8189
Total		8.5354	3.5532
Total			
Male		7.1527	3.4489
Female		7.0708	3.3486
Total		7.0663	3.3985

In this special editor, there are many options for formatting the table.

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

This screenshot shows the SPSS Pivot Table Editor window with the 'Transpose Rows and Columns' option highlighted in the Pivot menu. The table structure is identical to the one in the previous screenshot, but the menu is open, indicating the process of changing the table format.

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all the table editing in the left section of the table, and the changes will spread through the entire table.

The screenshot shows the SPSS Pivot Table Editor window. A table is displayed with the following structure:

	Constructed Beneficiary Group			Retirement Plan - R			Total	
	Active Duty - R		Family of Active - R		Retirement Plan - R			
	Male or Female - R	Male or Female	Male or Female - R	Male or Female	Male or Female - R	Male		
	Male	Female	Total	Male	Female	Total	Male	
Rating of all experience with trt plan in grid, how would you rate overall HR?	7.2155	6.5679	7.0052	7.8078	7.3162	7.3338	7.4944	7.0608
	3.8294	3.4795	3.7583	3.8485	3.6988	3.8172	3.3308	3.4398
							7.5874	3.3808
								8

You would then notice that certain labels are redundant. The labels, **Constructed Beneficiary Group** and **Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Constructed Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

The screenshot shows the SPSS Pivot Table Editor window with a context menu open over the 'Constructed Beneficiary Group' label in the table header. The menu includes options like 'Table Properties...', 'Cell Properties...', 'Table Tools...', 'Format Histogram...', 'Create Graph...', 'Printing Tools...', 'Results Cache...', and 'Case Studies...'. The 'Hide Dimension Label' option is highlighted with a blue selection bar.

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

		Active Duty (n=8)			Family of Active (n=8)			Retiree/Retiree (n=8)			Total
		Male	Female	Total	Male	Female	Total	Male	Female	Total	N
		2.2158	0.5478	2.6632	1.6026	1.2162	1.2230	1.6044	1.2060	1.4074	8
	Plan Rating	2.0204	3.4708	3.7503	3.8485	3.8088	3.8172	3.3289	3.4285	3.3890	3

The mean values reported are formatted to allow space for the labels of the satisfaction variables. The spaces between the values are not pleasing to the eye. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the word, **Health State**. Do the same for the health care label, entering only the words, **Plan Rating**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

		Active Duty (n=8)			Family of Active (n=8)			Retiree/Retiree (n=8)			Total
		Male	Female	Total	Male	Female	Total	Male	Female	Total	N
		2.2158	0.5478	2.6632	1.6026	1.2162	1.2230	1.6044	1.2060	1.4074	8
	Plan Rating	2.0204	3.4708	3.7503	3.8485	3.8088	3.8172	3.3289	3.4285	3.3890	3

The resulting table is much more readable. You can then add the deleted information to clarify the table output. Open the **Insert** menu and choose **Title** as in the following:

A screenshot of the SPSS Pivot Table dialog. The title bar says "SPSS Pivot Table - Table1". The menu bar includes File, Edit, View, Insert, Print, Format, and Help. The main area shows a table with three rows and four columns. The first row is a header with three sections: "Statistics", "Active Duty +HS", and "Family of Active +HS". The second row is a header with three sections: "Plan Rating", "Male", "Female", and "Total". The third row contains data: Plan Rating (7.3155), Male (5.5819), Female (7.0952), and Total (7.0952). The fourth row contains data: Plan Rating (3.0264), Male (3.4708), Female (2.7483), and Total (3.0264). The bottom right corner of the dialog shows a status bar with various icons.

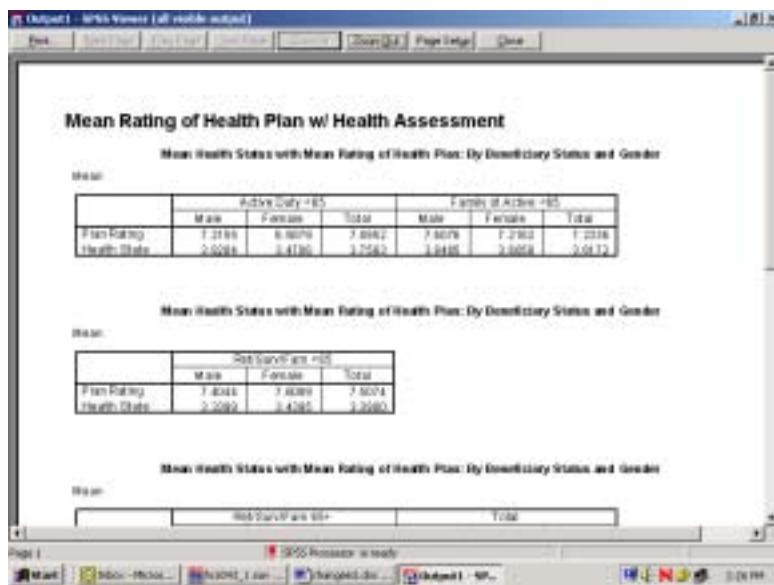

Statistics		Active Duty +HS			Family of Active +HS			Plan Rating +HS			Print
		Male	Female	Total	Male	Female	Total	Male	Female	Total	%
Plan Rating		7.3155	5.5819	7.0952	7.0952	7.3155	7.0952	7.4044	7.0000	7.5074	8
Health Status		3.0264	3.4708	2.7483	3.0264	3.4708	2.7483	3.8172	3.2196	3.0000	2

Type in a new title for the table. The final result appears below.

A screenshot of the SPSS Pivot Table dialog. The title bar says "SPSS Pivot Table - Table1". The menu bar includes File, Edit, View, Insert, Print, Format, and Help. The main area shows a table with a new title "Mean Health Status with Mean Rating of Health Plan" centered above the data. The rest of the table structure is identical to the one in the previous screenshot, showing the same data and layout.

Statistics		Active Duty +HS			Family of Active +HS			Plan Rating +HS			Print
		Male	Female	Total	Male	Female	Total	Male	Female	Total	%
Plan Rating		7.3155	5.5819	7.0952	7.0952	7.3155	7.0952	7.4044	7.0000	7.5074	8
Health Status		3.0264	3.4708	2.7483	3.0264	3.4708	2.7483	3.8172	3.2196	3.0000	2

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

Calculating Percents

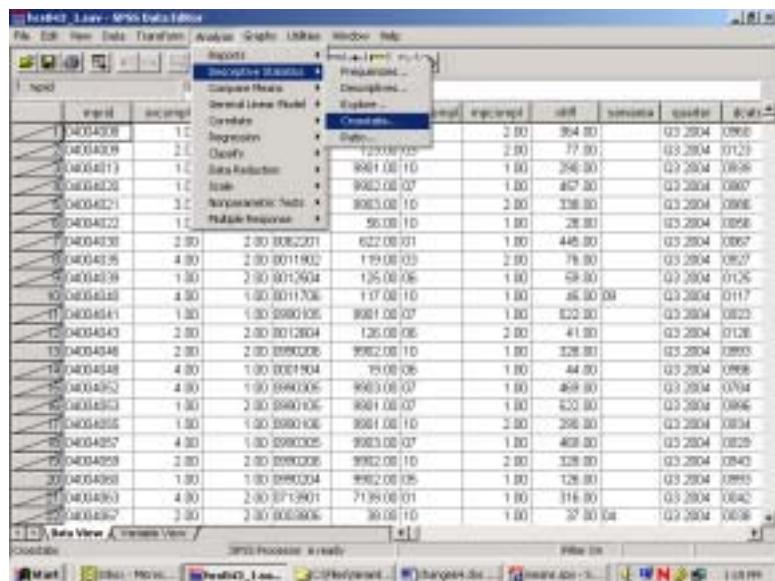

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

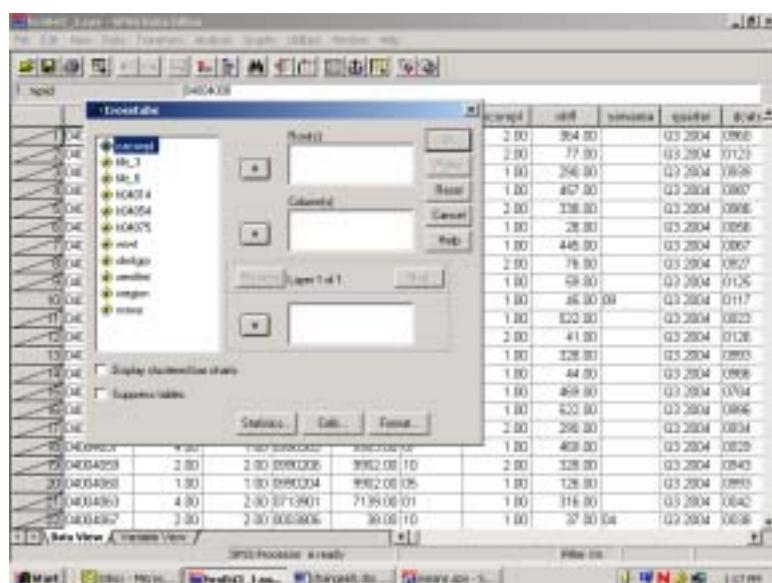

For example, suppose you want to see the percentage of people in the Southwest catchment areas who answered “yes” or “no” to the question, “Did you see a specialist in the last 12 months?” The variables in this analysis are **cacsmp1** – the catchment area, and **H04014** – the question variable. The cases for the analysis are from the Southwest only.

The first task is to build a new filter variable, assigning **1** to the variable when **xregion = 6**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the Southwest are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

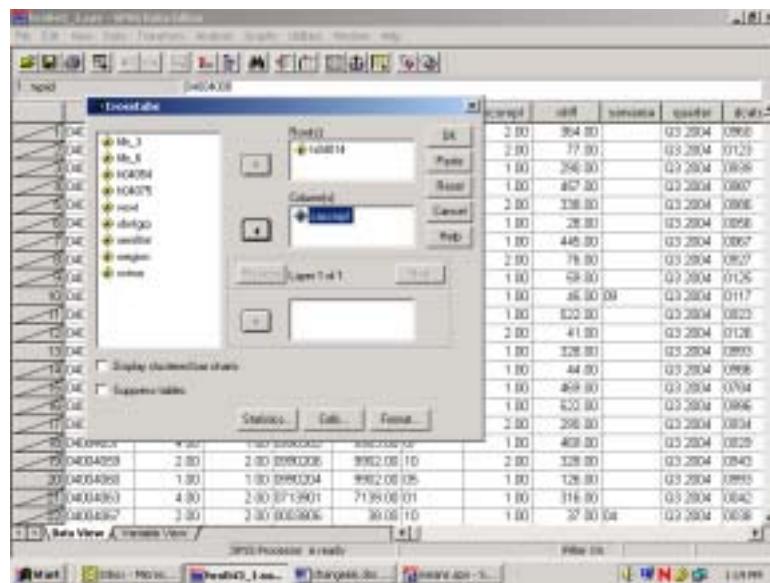

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

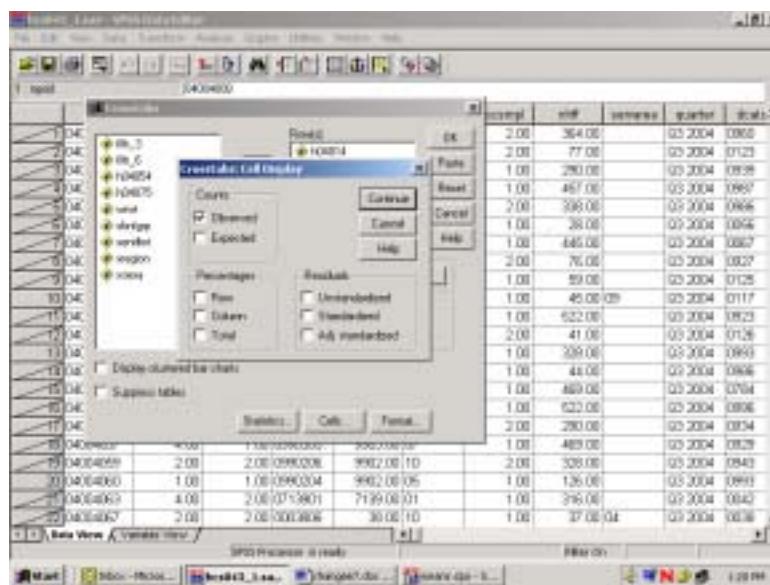

Move **H04014** from the variable list on the left into the box marked **Row(s):**, and move the variable **cacsmpl** into the box marked **Column(s):**. The screen will resemble the following:

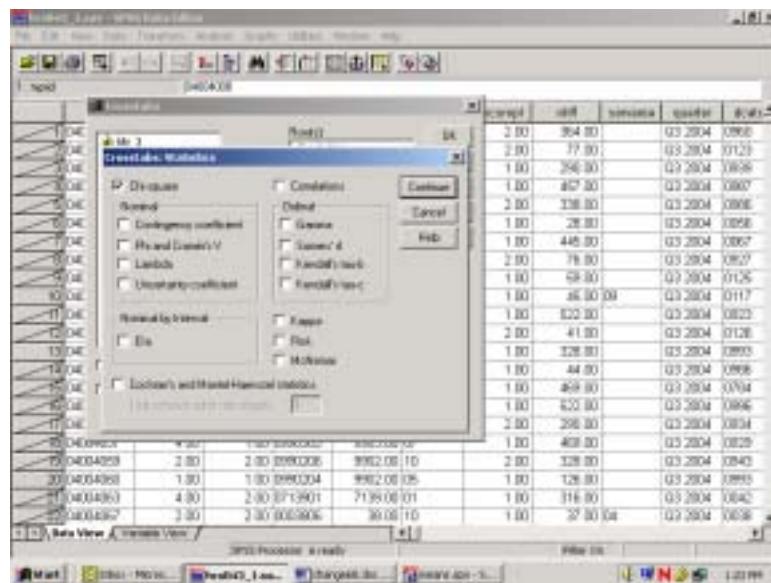

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

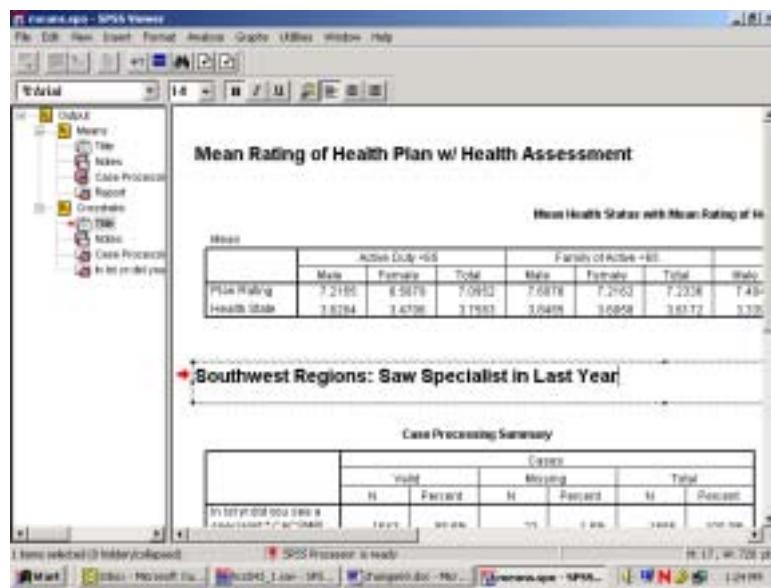

Under **Counts, Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each catchment area. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

Check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output—in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

The screenshot shows the SPSS Pivot Table Editor window. The title bar reads "SPSS Pivot Table - Editor". The menu bar includes File, Edit, View, Insert, Mod., Format, Help. The main area displays a cross-tabulation table titled "In last year did you see a specialist? * CACSMPL - Catchment Area-CrossTabulation". The table has two rows and one column for the row dimension, and six columns for the column dimension. The columns are labeled "LBBR", "Baltimore", "H_Pub", "Tanner HBR", "H_SSI", and "Income AMCI II (SAW) House". The rows are labeled "Yes" and "No". The "Yes" row contains the following data:

Count	42	48	49	59	80	88
% within CACSMPL - Catchment Area	48.7%	48.8%	51.8%	48.6%	54.9%	59.1%

The "No" row contains the following data:

Count	49	52	48	60	81	61
% within CACSMPL - Catchment Area	53.2%	52.8%	48.4%	52.4%	45.1%	40.8%

The total row contains the following data:

Count	91	100	97	119	161	149
% within CACSMPL - Catchment Area	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

The screenshot shows the SPSS Pivot Table Editor window with the "Pivot" menu open. The "Pivoting Trays" option is highlighted with a blue selection bar. The rest of the menu options are visible but not selected. The main area displays the same cross-tabulation table as the previous screenshot. The table structure remains the same, with "Yes" and "No" rows and six columns for the column dimension.

The pivoting tool will appear:

		CACSMPL - Catchment Area					
		U.S. Rock AFB		Backstage RFB		El. Park	
		Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area
In last year you saw a specialist	No	42	48.7%	48	51.3%	48	51.6%
	No	49	53.2%	52	52.0%	46	49.4%
	Total	81	100.0%	100	100.0%	94	100.0%
		Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H04014** – saw specialist in the last 12 months, and **Statistics** – the percent of people in each catchment area. On the column axis is the variable, **cacsmpl** – the catchment area.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

		CACSMPL - Catchment Area					
		U.S. Rock AFB		Backstage RFB		El. Park	
		Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area
In last year you saw a specialist	No	42	48.7%	49	48.0%	48	51.6%
	No	49	53.2%	52	52.0%	46	49.4%
	Total	81	100.0%	100	100.0%	94	100.0%
		Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area	Count	% within CACSMPL - Catchment Area

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **cacsmp1**. Select it by double-clicking and edit it for clarity (see the screen below).

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

This screenshot shows the SPSS Pivot Table Editor window. The title bar reads "SPSS Pivot Table - Editor". The main area displays a cross-tabulation table with the following data:

		By/Where You Saw Specialist - Catchment Areas			
		Little Rock AFB		Barksdale AFB	
		Count	Percent	Count	Percent
No	54	42	48.7%	49	48.0%
Yes	60	49	51.2%	52	52.0%
Total		93	100.0%	101	100.0%

Next, notice that the label for **H04014** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

This screenshot shows the SPSS Pivot Table Editor window with a revised table label. The title bar reads "SPSS Pivot Table - Editor". The main area displays a cross-tabulation table with the following data:

		By/Where You Saw Specialist - Catchment Areas			
		Little Rock AFB		Barksdale AFB	
		Count	Percent	Count	Percent
No	54	42	48.7%	49	48.0%
Yes	60	49	51.2%	52	52.0%
Total		93	100.0%	101	100.0%

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H04014**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlmt**, who saw a specialist in the past 12 months. Suppose you are also interested in sex differences, **xsexxa**, among the groupings. **Xsexxa** is the **Layer** variable. You want to remain in the Southwest region, using **filtr_6** as the filter variable. The cases will be weighted by **wrwt**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

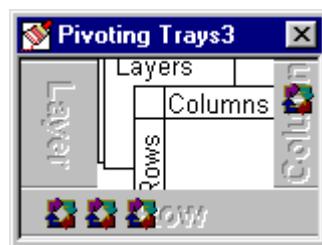

Do the following:

- Run **Crosstabs**.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

		Enrollment in TRICARE Prime			
			Active Duty - Under 35 - 35 or over	Resigned - Under 35 - 35 or over	Not Enrolled - Under 35 - 35 or over
Male or Female - R	In last year were you a specie...	Yes	Count	33818 38544 20033 37717	16.2% 44.2% 52.2% 81.8%
		No	Count	65957 38958 28340 18718	44.1% 44.2% 43.0% 10.8%
		Total	Count	99775 68298 68173 19748	100.0% 100.0% 100.0% 100.0%
Male	In last year were you a specie...	Yes	Count	14737 18298 88213 64276	41.8% 55.0% 11.5% 54.5%
		No	Count	20778 65648 26232 36228	58.2% 45.0% 88.5% 45.5%
		Total	Count	35515 128935 114455 99204	100.0% 100.0% 100.0% 100.0%
Female	In last year were you a specie...	Yes	Count	14737 18298 88213 64276	41.8% 55.0% 11.5% 54.5%
		No	Count	20778 65648 26232 36228	58.2% 45.0% 88.5% 45.5%
		Total	Count	35515 128935 114455 99204	100.0% 100.0% 100.0% 100.0%

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

Screenshot of SAS Enterprise Guide showing a cross-tabulation table titled "Enrollment in TRICARE Prime". The table displays counts and percentages for "In last year did you see a specialist" (Count, % within Enrollment in TRICARE Prime) across "Enrollment in TRICARE Prime" (Active Duty - Under 85, Enrolled - under 85) and "Male or Female" (Male, Female).

		Enrollment in TRICARE Prime							
		Active Duty - Under 85		Enrolled - under 85		Male or Female - Under 85		Male or Female - M	
		Male	Female	Male	Female	Male	Female	Male	Female
In last year did you see a specialist	No	33818	14720	38844	75256	21313	58212		
	% within Enrollment in TRICARE Prime	33.8%	21.8%	61.8%	61.8%	67.2%	18.9%		
Total	Count	89875	39718	38844	75256	28349	52532		
	% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%		
	Total	89875	39718	38844	75256	28349	52532		
	% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%		

A "Profiling Tools" window is open below the main table, showing a tree structure with "Layout" and "Columns" selected.

Then drag the **Statistics** icon to the COLUMN dimension to produce the following change:

Screenshot of SAS Enterprise Guide showing the same cross-tabulation table "Enrollment in TRICARE Prime". The table structure has changed to include "Percent" and "Rate" columns in the "Enrollment in TRICARE Prime" dimension.

		Enrollment in TRICARE Prime							
		Active Duty - Under 85		Enrolled - under 85		Male or Female - Under 85		Male or Female - M	
		Male	Female	Percent	Rate	Male	Female	Male	Female
In last year did you see a specialist	No	33818	14720	33.8%	41.8%	38844	75256	58.8%	61.8%
	% within Enrollment in TRICARE Prime	Count	Count	% within Enrollment in TRICARE Prime	% within Enrollment in TRICARE Prime	Count	Count	% within Enrollment in TRICARE Prime	% within Enrollment in TRICARE Prime
Total	Count	89875	39718	39718	75256	28349	52532	100.0%	100.0%
	% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%		

The "Profiling Tools" window remains open below the table.

Close the **Pivoting Trays** and hide the dimension label, **Male or Female - R**, in the table. Then, change the percent label to “Percent” and delete the label for **H04014** in the row dimension. Last, revise the label above the table to make it more informative.

The resulting table is both clear and informative.

		Enrollment in TRICARE Prime			
		Active Duty - under 65		Enrolled - Under 65	
		Male	Female	Male	Female
		Closed	Payroll	Closed	Payroll
Yes		55818	33.9%	14731	41.5%
No		108912	66.1%	33776	58.5%
Total		164730	100.0%	48507	100.0%

The Print Preview, as in the view below, shows how the report will print.

		Enrollment in TRICARE Prime

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the 2004 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

To account for the sample design,¹ it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or jackknife replication, the public release files for the Quarter III 2004 Adult HCSDB include the following variables:

- The stratum variable (ADJ_CELL) for the Taylor series linearization method
- Quarterly final weight (WRWT) and jackknife replicate weights (WRWT01 to WRWT60)

Two popular software packages are available for performing Taylor series linearization or the jackknife replication method: SUDAAN™ (Shah et al. 1997) and WesVarPC (Brick et al. 1996), respectively.² The discussion below explains how SUDAAN and WesVarPC are used to calculate variance estimates using Taylor series linearization and jackknife replication methods.

Taylor Series Linearization Method

For most sample designs (including the 2004 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in “The 2004 Health Care Survey of DoD Beneficiaries: Adult Technical Manual” to be issued February 2005.

To calculate variance estimates based on Taylor series linearization method with HCSDB’s stratified sampling design, both the stratum variable (ADJ_CELL) and the final weight (WRWT) specified for each data record are needed.

¹The 2004 HCSDB uses a stratified sampling design. For details, see “Health Care Survey of DoD Beneficiaries: 2004 Adult Sampling Report.” Washington, DC: Mathematica Policy Research, November 2003.

²The latest version for SUDAAN 8.0 can be used for replication methods including jackknife variance estimation. SAS 8.0 also includes procedures for performing Taylor series utilization, but SUDAAN contains more options.

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling designs. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter III 2004 Adult HCSDB, the data file for adults must be sorted by ADJ_CELL before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is WRWT

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H04015), among all beneficiaries in the past 12 months who saw a specialist (H04014=1) for each region (XREGION)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    H04014=1;  
  SUBGROUP    XREGION;  
  LEVELS      16;  
  VAR         H04015;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H04056) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    XREGION = 3;  
  SUBGROUP    H04056 XENRLLMT;  
  LEVELS      3 5;  
  TABLES     H04056 *XENRLLMT;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.

- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Shah et al. (1997).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (WRWT01-WRWT60) for the 2004 Adult HCSDB in the Quarter III file. Construction of these weights is described in the Adult Technical Manual to be issued February 2005. With the replicate weights, you can produce jackknife standard errors using in-house or custom written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 7.5. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the following example explains how it is used to produce jackknife variance estimates for statistics from the 2004 Adult HCSDB.

Suppose you want to estimate the mean rating of specialists (H04015) by beneficiaries who went to a specialist in the past 12 months (H04014=1) for each region (XREGION). You would use WesVarPc as follows.

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the **Prep** menu, choose the **Import Data Files** screen and import all variables for the analysis. For this example, input H04015, and XREGION into the **Variables** box, WRWT01-WRWT60 into the **Replicates** box, and MPRID into the **ID** box. Also specify the replication method as JK1 on this screen.
- Create a data file for the subpopulation. Specify the subpopulation by choosing the **Subpop WesVarPC Data File** from the **Prep** menu: H04014=1.
- **Calculate estimates.** From the **Tables** menu, choose **New** and select the file created from the above procedure. Then, from the **Table Request** screen, specify H04015 as the **Analysis** variable, MEAN (H04015) as the **Compute Statistics**, and XREGION as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H04011 - Health plan: problem to get a personal doctor or nurse you are happy with						
Value	Unweighted		Weighted			
	Count	Percent	Count	Percent	Formatted Value	
.	641	4.64	327399.20	4.73	Did not answer	
A	14	0.10	5490.59	0.08	Invalid multiple responses	
C	718	5.20	497719.00	7.19	Should be skipped	
N	1175	8.50	803216.90	11.61	Valid skip	
1	1786	12.93	799660.50	11.56	A big problem	
2	2873	20.79	1275454.00	18.43	A small problem	
3	6611	47.84	3210986.00	46.40	Not a problem	

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the last range representing ages “75 years and older” includes 914 respondents age 75 and older.

DAGEQY - Age at time of data collection						
Value	Unweighted		Weighted		Formatted Value	
	Count	Percent	Count	Percent		
018 -- 034	3918	28.35	1553236.00	22.45	018--034	
035 -- 044	2835	20.52	1098399.00	15.87	035--044	
045 -- 054	2342	16.95	1149204.00	16.61	045--054	
055 -- 064	2291	16.58	1375211.00	19.87	055--064	
065 -- 074	1518	10.99	1062453.00	15.35	065--074	
075 -- 096	914	6.61	681423.20	9.85	075 yrs and older	

MPRID - Unique MPR Identifier					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
04004008 -- 09311281	13818	100.00	6919926.00	100.00	00000001--99999999

SVCSMPL - Branch of Service Sampling Variable					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
1	4723	34.18	2559823.00	36.99	Army
2	2652	19.19	1650413.00	23.85	Navy

Health Care Survey of DoD Beneficiaries

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes Go to Question 1
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within seven days. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-2660

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Section 572, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

----- SURVEY STARTS HERE -----

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. Are you the person whose name appears on the mailing label of this envelope?

- Yes Go to Question 2
- No Please give this questionnaire to the person addressed on the envelope.

2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. Currently, are you covered by Medicare Part A?

Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. Currently, are you covered by Medicare Part B?

Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. Currently, are you covered by Medicare supplemental insurance? Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. Which health plan did you use for all or most of your health care in the last 12 months? MARK ONLY ONE.

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plans (USFHP)
- The Veterans Administration (VA)
- Not sure
- Did not use any health plan in the last 12 months
→ Go to Question 8

For the remainder of this questionnaire, the term **health plan** refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months
- 6 up to 12 months
- 12 up to 24 months
- 2 up to 5 years
- 5 up to 10 years
- 10 or more years

----- YOUR PERSONAL DOCTOR, OR NURSE -----

The next questions ask about your own health care. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant. Do you have one person you think of as your personal doctor or nurse?

- Yes
- No → Go to Question 11

9. Using any number from 0 to 10, where 0 is the worst personal doctor or nurse possible and 10 is the best personal doctor or nurse possible, what number would you use to rate your personal doctor or nurse?

- 0 Worst personal doctor or nurse possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best personal doctor or nurse possible
- I don't have a personal doctor or nurse.

10. Did you have the same personal doctor or nurse before you joined this health plan?

- Yes → Go to Question 12
- No

11. Since you joined your health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem
- A small problem
- Not a problem

--- GETTING HEALTH CARE FROM A SPECIALIST ---

When you answer the next questions, do not include dental visits.

12. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

- Yes
- No → Go to Question 14

13. In the last 12 months, how much of a problem, if any, was it to see a specialist that you needed to see?

- A big problem
- A small problem
- Not a problem
- I didn't need to see a specialist in the last 12 months.

14. In the last 12 months, did you see a specialist?

- Yes
- No → Go to Question 17

15. We want to know your rating of the specialist you saw most often in the last 12 months. Using any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible, what number would you use to rate the specialist?

- 0 Worst specialist possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best specialist possible
- I didn't see a specialist in the last 12 months.

16. In the last 12 months, was the specialist you saw most often the same doctor as your personal doctor?

- Yes
- No
- I don't have a personal doctor or I didn't see a specialist in the last 12 months.

----- CALLING DOCTORS' OFFICES -----

17. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

- Yes
- No → Go to Question 19

18. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?

- Never
- Sometimes
- Usually
- Always
- I didn't call for help or advice during regular office hours in the last 12 months.

- YOUR HEALTHCARE IN THE LAST 12 MONTHS -

19. In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor's office?

- Yes
- No → Go to Question 22

20. In the last 12 months, when you needed care right away for an illness, injury, or condition, how often did you get care as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I didn't need care right away for an illness, injury or condition in the last 12 months.

21. In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?

- Same day
- 1 day
- 2 days
- 3 days
- 4-7 days
- 8-14 days
- 15 days or longer
- I didn't need care right away for an illness, injury or condition in the last 12 months.

22. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for health care.

In the last 12 months, not counting the times you needed health care right away, did you make any appointments with a doctor or other health care provider for health care?

- Yes
- No → Go to Question 25

23. In the last 12 months, not counting times you needed health care right away, how often did you get an appointment for health care as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I had no appointments in the last 12 months

24. In the last 12 months, not counting the times you needed health care right away, how many days did you usually have to wait between making an appointment and actually seeing a provider?

- Same day
- 1 day
- 2-3 days
- 4-7 days
- 8-14 days
- 15-30 days
- 31 days or longer
- I had no appointments in the last 12 months

25. In the last 12 months, how many times did you go to an emergency room to get care for yourself?

- None
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

26. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?

- None → Go to Question 39
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

27. In the last 12 months, did you or a doctor believe you needed any care, tests or treatment?

- Yes
- No → Go to Question 29

28. In the last 12 months, how much of a problem, if any, was it to get the care, tests or treatment you or a doctor believed necessary?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

29. In the last 12 months, did you need approval from your health plan for any care, tests or treatment?

- Yes
- No → Go to Question 31

30. In the last 12 months, how much of a problem, if any, were delays in health care while you waited for approval from your health plan?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

31. In the last 12 months, how often were you taken to the exam room within 15 minutes of your appointment?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

32. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

33. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

0O4XD660
40540650 4175

34. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

35. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

36. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

37. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

38. Using any number from 0 to 10 where 0 is the worst health care possible, and 10 is the best health care possible, what number would you use to rate all your health care in the last 12 months?

- 0 Worst healthcare possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best healthcare possible
- I had no visits in the last 12 months.

39. In the last 12 months, where did you go most often for your health care? MARK ONLY ONE ANSWER.

- A military facility - This includes: Military clinic, Military hospital, PRIMUS clinic, NAVCARE clinic
- A civilian facility - This includes: Doctor's office, Clinic, Hospital, Civilian TRICARE contractor
- Uniformed Services Family Health Plan facility (USFHP)
- Veterans Affairs (VA) clinic or hospital
- I went to none of the listed types of facilities in the last 12 months.

----- REFERRALS TO SPECIALISTS -----

The following questions ask about your experiences with getting referrals to specialists through TRICARE Prime. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors and others who specialize in one area of health care. Beneficiaries enrolled in TRICARE Prime must get a referral from their primary care manager (PCM) before seeing a specialist.

40. Are you enrolled in TRICARE Prime?

- Yes
- No → Go to Question 55

41. Are you enrolled to a military PCM or civilian PCM?

- Military
- Civilian
- I don't have a PCM → Go to Question 55
- Don't Know → Go to Question 55

42. In the last 12 months, have you been referred to a specialist by your PCM?

- Yes
- No → Go to Question 55

43. In the last 12 months, when you needed to see a specialist, how did you make an appointment? MARK ALL THAT APPLY

- Called the appointment center
- Called an MTF
- Called the doctor's office
- Asked my PCM to make the appointment
- Other

44. In the last 12 months, how much of a problem was it to make an appointment to see a specialist?

- Not a problem
- A small problem
- A big problem

45. In the last 12 months, were you referred to any civilian specialists?

- Yes
- No → Go to Question 50

46. In the last 12 months, what is the longest you waited for an appointment to see a civilian specialist?

- 1 week or less
- More than 1 week but not more than 2 weeks
- More than 2 weeks but not more than 4 weeks
- More than 4 weeks

47. In the last 12 months, what is the longest time you spent traveling (round-trip) to see a civilian specialist?

- 1 hour or less
- More than 1 hour but not more than 2 hours
- More than 2 hours but not more than 4 hours
- More than 4 hours but not more than 8 hours
- More than 8 hours

48. In the past 12 months, how did your PCM most often learn about the care you get from civilian specialists?

- From my medical record
- From me
- My PCM calls or writes the specialist
- The specialist calls or writes my PCM
- My PCM does not keep track of my care from civilian specialists
- Don't Know

49. In the past 12 months, how often did your PCM seem to know enough about the care you get from civilian specialists?

- Always
- Usually
- Sometimes
- Never

50. In the last 12 months, were you referred to a specialist at an MTF?

- Yes
- No → Go to Question 55

51. In the last 12 months, what is the longest you waited for an appointment to see a specialist at an MTF?

- 1 week or less
- More than 1 week but not more than 2 weeks
- More than 2 weeks but not more than 4 weeks
- More than 4 weeks

52. In the last 12 months, what is the longest time you spent traveling (round-trip) to see a specialist at an MTF?

- 1 hour or less
- More than 1 hour but not more than 2 hours
- More than 2 hours but not more than 4 hours
- More than 4 hours but not more than 8 hours
- More than 8 hours

004XD682
40540650 4175

53. In the past 12 months, how did your PCM most often learn about the care you get from specialists at MTFs?

- From my medical records
- From me
- My PCM calls or writes the specialist
- The specialist calls or writes my PCM
- My PCM does not keep track of my care from specialists at MTFs
- Don't know

54. In the past 12 months, how often did your PCM seem to know enough about the care you get from specialists at MTFs?

- Always
- Usually
- Sometimes
- Never

----- TRICARE'S CIVILIAN NETWORK -----

The following questions ask about your experiences with the TRICARE civilian provider network.

TRICARE, including TRICARE Prime and Extra, is the health care system of the Department of Defense that provides care for active duty and retired military personnel and their dependents. TRICARE includes the hospitals, clinics and pharmacies of the three services, supplemented by a civilian network.

The TRICARE civilian provider network is made up of the doctors, clinics, hospitals and other health care providers who are part of DoD's preferred provider pool. The next six questions refer to health services you received from the civilian network.

55. In the past 12 months, how much of your health care did you receive from the TRICARE civilian provider network?

- All of my healthcare
- Most of my healthcare
- Some of my healthcare
- None of my healthcare
- I did not need healthcare in the past 12 months
→ Go to Question 61

56. In the past 12 months, how much of a problem was it to get the health care you wanted from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to get healthcare from the civilian network

57. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

In the past 12 months, how much of a problem was it to find a conveniently located personal doctor or nurse from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a personal doctor from the civilian network

58. In the past 12 months, how much of a problem was it to find a conveniently located lab or x-ray facility in the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a lab or x-ray facility in the civilian network

59. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the past 12 months, how much of a problem was it to find a conveniently located specialist from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to find a specialist in the civilian network.

60. In the past 12 months, did you learn that a doctor whom you wanted to see had left the TRICARE civilian provider network?

- Yes
- No
- I did not want to see any network doctors

----- YOUR HEALTH PLAN -----

The next questions ask about your experience with **your health plan**. By your health plan, we mean the health plan you marked in Question 6.

61. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you. In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes
- No → Go to Question 65
- Don't know → Go to Question 65

62. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

63. In the last 12 months, how often did your health plan handle your claims correctly?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

64. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

65. In the last 12 months, did you look for any information about how your health plan works in written material or on the Internet?

- Yes
- No → Go to Question 67

66. In the last 12 months, how much of a problem, if any, was it to find or understand this information?

- A big problem
- A small problem
- Not a problem
- I didn't look for information from my health plan in the last 12 months

67. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes
- No → Go to Question 69

68. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem
- A small problem
- Not a problem
- I didn't call my health plan's customer service in the last 12 months.

69. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes
- No → Go to Question 73

004XD671
40540650 4175

70. How long did it take for the health plan to resolve your complaint?

- Same day
- 2-7 days
- 8-14 days
- 15-21 days
- More than 21 days
- I am still waiting for it to be settled.
→ Go to Question 72
- I haven't called or written with a complaint or problem in the last 12 months.

71. Was your complaint or problem settled to your satisfaction?

- Yes → Go to Question 73
- No → Go to Question 72
- I haven't called or written with a complaint or problem in the last 12 months.

72. How long have you been waiting for your health plan to resolve your complaint?

- 1-7 days
- 8-14 days
- 15-21 days
- More than 21 days
- I haven't called or written with a complaint or problem in the last 12 months.

73. In the last 12 months, did you have to fill out any paperwork for your health plan?

- Yes No → Go to Question 75

74. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't have any experiences with paperwork for my health plan in the last 12 months.

75. Using any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible, what number would you use to rate your health plan?

- 0 Worst health plan possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best health plan possible

76. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely
- Unlikely
- Neither likely nor unlikely
- Likely
- Very likely
- Not sure
- I am not currently enrolled in TRICARE Prime

----- PREVENTIVE CARE -----

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventive care.

77. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

78. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it is not too high
- Don't know

79. When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a cholesterol screening

80. When did you last have a flu shot?

- Less than 12 months ago
- 1 - 2 years ago
- More than 2 years ago
- Never had a flu shot

81. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes
- No → Go to Question 87
- Don't know → Go to Question 87

82. Do you now smoke everyday, some days or not at all?

- Every day → Go to Question 84
- Some days → Go to Question 84
- Not at all → Go to Question 83
- Don't know → Go to Question 87

83. How long has it been since you quit smoking cigarettes?

- Less than 12 months → Go to Question 84
- 12 months or more → Go to Question 87
- Don't know → Go to Question 87

84. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

85. On how many visits was medication recommended or discussed to assist you with quitting smoking (for example: nicotine gum, patch, nasal spray, inhaler, prescription medication)?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

86. On how many visits did your doctor or health provider recommend or discuss methods and strategies (other than medication) to assist you with quitting smoking?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

87. Are you male or female?

- Male → Go to Question 88
- Female → Go to Question 89

88. When was the last time you had a prostate gland examination or blood test for prostate disease?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a prostate gland examination

Go to Question 96

89. When did you last have a Pap smear test?

- Within the last 12 months
- 1 to 3 years ago
- More than 3 but less than 5 years ago
- 5 or more years ago
- Never had a Pap smear test

004XD65%
40540650 4175

90. Are you under age 40?

- Yes → Go to Question 93
 No

91. When was the last time your breasts were checked by mammography?

- Within the last 12 months
 1 to 2 years ago
 More than 2 years ago but less than 5 years ago
 5 or more years ago
 Never had a mammogram

92. When was the last time you had a breast exam by a health care professional?

- Within the last 12 months
 1 to 2 years ago
 More than 2 but less than 5 years ago
 5 or more years ago
 Never had a breast exam

93. Have you been pregnant in the last 12 months or are you pregnant now?

- Yes, I am currently pregnant
→ Go to Question 94
 No, I am not currently pregnant, but have been pregnant in the past 12 months
→ Go to Question 95
 No, I am not currently pregnant, and have not been pregnant in the past 12 months
→ Go to Question 96

94. In what trimester is your pregnancy?

- First trimester
 Second trimester
 Third trimester

95. In which trimester did you first receive prenatal care?

- First trimester
 Second trimester
 Third trimester
 Did not receive prenatal care

----- ABOUT YOU -----

96. In general, how would you rate your overall health now?

- Excellent
 Very Good
 Good
 Fair
 Poor

97. How tall are you without your shoes on? Write the number on the line and then fill in the bubble below.

a. Feet _____

1 2 3 4 5 6 7

b. Inches _____

0 1 2 3 4 5 6 7 8 9 10 11

98. How much do you weigh without your shoes on? Please write the number of pounds on the line below.

_____ pounds

99. Are you limited in any way in any activities because of any impairment or health problem?

Yes No

100. Thinking about your physical health, which includes physical illness and injury, for how many days during the past 30 days was your physical health not good?

<input type="radio"/> 0	<input type="radio"/> 7	<input type="radio"/> 14	<input type="radio"/> 21	<input type="radio"/> 28
<input type="radio"/> 1	<input type="radio"/> 8	<input type="radio"/> 15	<input type="radio"/> 22	<input type="radio"/> 29
<input type="radio"/> 2	<input type="radio"/> 9	<input type="radio"/> 16	<input type="radio"/> 23	<input type="radio"/> 30
<input type="radio"/> 3	<input type="radio"/> 10	<input type="radio"/> 17	<input type="radio"/> 24	
<input type="radio"/> 4	<input type="radio"/> 11	<input type="radio"/> 18	<input type="radio"/> 25	
<input type="radio"/> 5	<input type="radio"/> 12	<input type="radio"/> 19	<input type="radio"/> 26	
<input type="radio"/> 6	<input type="radio"/> 13	<input type="radio"/> 20	<input type="radio"/> 27	

101. Thinking about your mental health, which includes stress, depression, and problems with emotions, for how many days during the past 30 days was your mental health not good?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

102. During the past 30 days, for about how many days did poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

103. During the past 30 days, for about how many days did pain make it hard for you to do your usual activities, such as self-care, work, or recreation?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

104. During the past 30 days, for about how many days have you felt sad, blue, or depressed?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

105. During the past 30 days, for about how many days have you felt worried, tense or anxious?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

106. During the past 30 days, for about how many days have you felt you did not get enough rest or sleep?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

107. During the past 30 days, for about how many days have you felt very healthy and full of energy?

- 0 7 14 21 28
 1 8 15 22 29
 2 9 16 23 30
 3 10 17 24
 4 11 18 25
 5 12 19 26
 6 13 20 27

108. What is the highest grade or level of school that you have completed?

- 8th grade or less
 Some high school, but did not graduate
 High school graduate or GED
 Some college or 2-year degree
 4-year college graduate
 More than 4-year college degree

109. Are you of Hispanic or Latino origin or descent? (Mark "NO" if not Spanish/Hispanic/Latino.)

- No, not Spanish, Hispanic, or Latino
 Yes, Mexican, Mexican American, Chicano
 Yes, Puerto Rican
 Yes, Cuban
 Yes, other Spanish, Hispanic, or Latino

110. What is your race? (Mark ONE OR MORE races to indicate what you consider yourself to be.)

- White
- Black or African American
- American Indian or Alaska Native
- Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian, or Chamorro)

111. What is your age now?

- 18 to 24
- 25 to 34
- 35 to 44
- 45 to 54
- 55 to 64
- 65 to 74
- 75 or older

**THANK YOU FOR TAKING THE TIME TO COMPLETE
THE SURVEY! Your generous contribution will
greatly aid efforts to improve the health of our
military community.**

**Return your survey in the postage-paid envelope. If
envelope is missing, please send to: National
Research Corporation, Survey Processing Center, PO
BOX 82660, Lincoln, NE 68501-2660**

CODING SCHEME AND CODING TABLES

2004 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB)
CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS	ASCII/EBCDIC	
Numeric	Numeric	Description
.	-9	No response
.A	-8	Multiple response error
.O	-7	Out of range error
.N	-6	Not Applicable or valid skip
.D	-5	Scalable response of “Don’t know” or “not sure”
.I	-4	Incomplete grid error
.C	-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

Coding Table for Note 1:

H04006, H04007

N1	H04006 is:	H04007 is:	H04006 is coded as:	H04007 is coded as:	*
1	1-11, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 2A:
H04008, H04009, H04010, H04011

N2A	H04008 is:	H04009 Is:	H04010 Is:	H04011 Is:	H04008 is coded as:	H04009 is coded as:	H04010 is coded as:	H04011 is coded as:	*
1	1: yes, missing, or multiple response	-6: Don't have a personal Dr	Any Value	Any Value	2: no	.C, question should be skipped	.N, valid skip if missing; .C, question should be skipped	Stands as original value	B F
2	1: yes	0-10, missing, or multiple response	1: yes	1-3, or multiple response	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
3	1: yes	0-10, missing, or multiple response	1: yes, missing or multiple response	1-3, or multiple response	Stands as original value	Stands as original value	2: no	Stands as original value	B
4	1: yes	0-10, missing, or multiple response	1: yes	missing	Stands as original value	Stands as original value	Stands as original value	.N, valid skip if missing	F
5	1: yes	0-10, missing, or multiple response	2: no	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
6	1: yes	0-10, missing, or multiple response	missing	missing	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
7	1: yes	0-10, missing, or multiple response	Multiple response	missing	Stands as original value	Stands as original value	1: yes	.N, valid skip if missing	B F
8	2: no, missing, or multiple response	0-10, or multiple response	1: yes, missing or multiple response	1-3, or multiple response	1: yes	Stands as original value	2: no	Stands as original value	B
9	2: no, missing, or multiple response	missing	1: yes, or multiple response	1-3, or multiple response	1: yes	Stands as original value	2: no	Stands as original value	B

Coding Table for Note 2A continued:

N2A	H04008 is:	H04009 Is:	H04010 Is:	H04011 Is:	H04008 is coded as:	H04009 is coded as:	H04010 is coded as:	H04011 is coded as:	*
10	2: no, missing, or multiple response	-6: Don't have a personal Dr	Any value	Any value	2: no	.C, question should be skipped	.N, valid skip if missing; .C, question should be skipped	Stands as original value	B F
11	2: no, missing, or multiple response	Any value	1: yes	missing	1: yes	., missing; if skipped; otherwise, Stands as original value	Stands as original value	.N, valid skip if missing	B F
12	2: no, missing, or multiple response	Any value	2: no	Any value	1: yes	., missing; if skipped; otherwise, Stands as original value	Stands as original value	Stands as original value	B F
13	2: no, missing, or multiple response	0-10, missing, or multiple response	missing	missing	1: yes	Stands as original value	Stands as original value	Stands as original value	B
14	2: no	-6: Don't have a personal Dr, or missing	Missing response	Any value	Stands as original value	.N, valid skip if missing; .C, question should be skipped	.N, valid skip	Stands as original value	B F
15	Missing response	Missing response	Missing response	1-3, or multiple response	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
16	Missing response	Missing response	Missing response	Missing response	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
17	Multiple response	Missing response	Missing response	Any value	2: no	.N, valid skip	.N, valid skip	Stands as original value	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 4:
H04012, H04013

N4	H04012 is:	H04013 is:	H04012 is coded as:	H04013 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 5:
H04014, H04015, H04016

N5	H04014 is:	H04015, H04016 Are:	H04014 is coded as:	H04015, H04016 Are coded as:	*
1	1: yes	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"All are blank" or "blank or NA"	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 5:
H04015 and H0416 are all missing.

Definition of "blank or NA" in Coding Table for Note 5:
H04015 and H04016 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 5:
Any pattern of marks outside the definitions "all are blank" and "blank or NA."

Coding Table for Note 6:
H04017, H04018

N6	H04017 is:	H04018 is:	H04017 is coded as:	H04018 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often, multiple response	1: yes	Stands as original value	B
4	2: no	-6: no calls or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 7:
H04019, H04020, H04021

N7	H04019 is:	H04020 & H04021 are:	H04019 is coded as:	H04020 & H04021 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:

Responses to H04020 and H04021 are both missing.

Definition of “blank or NA” in Coding Table for Note 7:

Responses to H04020 and H04021 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 8:
H04022, H04023, H04024**

N8	H04022 is:	H04023 & H04024 are:	H04022 is coded as:	H04023 & H04024 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:

Responses to H04023 and H04024 are both missing.

Definition of “blank or NA” in Coding Table for Note 8:

Responses to H04023 and H04024 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 8:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 9:
H04026, H04027-H04038**

N9	H04026 is:	H04027-H04038 are:	H04026 is coded as:	H04027-H04038 are coded as:	*
1	1: None	At least one is “marked”, “All are blank”, or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
4	Missing response	“All are blank”	Stands as original value	Stand as original value	
5	Multiple response	“All are blank”	1: None	.N, valid skip	B F
6	Missing or Multiple Response	At least one is “Marked”	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:

Responses to H04027-H04038 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9:

All of the following are true: H04027-H04038 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 9:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 10:
H04027, H04028

N10	H04027 is:	H04028 is:	H04027 is coded as:	H04028 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1-3: how much of a problem, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: No visits	2: no	.C, question should be skipped	B F
4	2: no, missing or multiple response	1-3: how much of a problem, multiple response	1: yes	Stands as original value	B
5	2: no	-6: No visits or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 11:
H04029, H04030

N11	H04029 is:	H04030 is:	H04029 is coded as:	H04030 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1-3: how much of a problem, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: No visits	2: no	.C, question should be skipped	B F
4	2: no, missing or multiple response	1-3: how much of a problem, multiple response	1: yes	Stands as original value	B
5	2: no	-6: No visits or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 11E:
S04R01 S04R02 S04R03 S04R04A-S04R04E S04R05-S04R15

N11E	S04R01 is: S04R02, S04R03, S04R04A-S04R04E, S04R05-S04R15 Are:	S04R01 is coded as: S04R02, S04R03, S04R04A- S04R04E, S04R05-S04R15 are coded as:	S04R02, S04R03, S04R04A- S04R04E, S04R05-S04R15	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped
3	2: no, missing, or multiple response	At least one is marked	1: yes	Stand as original value
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked
5	Missing response	All are blank	Stands as original value	Stands as original value
6	Multiple response	All are blank	2: no	.N, valid skip

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11E:

Responses to S04R02, S04R03, S04R04A-S04R04E, S04R05-S04R15 are all missing.

Definition of “blank or NA” in Coding Table for Note 11E:

All of the following are true: S04R02, S04R03, S04R04A-S04R04E, S04R05-S04R15 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 11E:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 11F:
S04R02 S04R03 S04R04A-S04R04E S04R05-S04R15

N11F	S04R02 is: S04R03, S04R04A-S04R04E, S04R05-S04R15 Are:	S04R03, S04R04A-S04R04E, S04R05-S04R15 Are coded as:	S04R02 is coded as: S04R03, S04R04A-S04R04E, S04R05-S04R15 are coded as:		*
1	.N, valid skip, or .C, question should be skipped	Any Value	Stands as original value	Stands as original value	
2	1: Military, 2: Civilian	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
3	1: Military, 2: Civilian, missing, or multiple response	“Blank or NA”	3: Don’t have PCM	.N, valid skip if missing; .C, question should be skipped	B F
4	3:Don’t have PCM, 4:Don’t know, missing, or multiple response	At least one is marked	Stands as original value	Stand as original value	
5	3:Don’t have PCM, 4:Don’t know	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	All are blank	Stands as original value	Stands as original value	
7	Multiple response	All are blank	4: Don’t know	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11F:
Responses to S04R03, S04R04A-S04R04E, S04R05-S04R15 are all missing.

Definition of “blank or NA” in Coding Table for Note 11F:
All of the following are true: S04R03, S04R04A-S04R04E, S04R05-S04R15 are a combination of not applicable (-6) or
missing.

Definition of “marked” in Coding Table for Note 11F:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 11G:
S04R03 S04R04A-S04R04E S04R05-S04R15

N11G	S04R03 is: Are:	S04R04A-S04R04E, S04R05-S04R15 Are:	S04R03 is coded as: Are:	S04R04A-S04R04E, S04R05- S04R15 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	Any Value	Stands as original value	Stands as original value	
2	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped	B F
4	2: no, missing, or multiple response	At least one is marked	1: yes	Stand as original value	B
5	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	All are blank	Stands as original value	Stands as original value	
7	Multiple response	All are blank	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11G:

Responses to S04R04A-S04R04E, S04R05-S04R15 are all missing.

Definition of “blank or NA” in Coding Table for Note 11G:

All of the following are true: S04R04A-S04R04E, S04R05-S04R15 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 11G:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 11H:

S04R06 S04R07-S04R10

N11H	S04R06 is:	S04R07-S04R10 Are:	S04R06 is coded as:	S04R07-S04R10 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	Any Value	Stands as original value	Stands as original value	
2	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped	B F
4	2: no, missing, or multiple response	At least one is marked	1: yes	Stand as original value	B
5	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	All are blank	Stands as original value	Stands as original value	
7	Multiple response	All are blank	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11H:

Responses to S04R07-S04R10 are all missing.

Definition of “blank or NA” in Coding Table for Note 11H:

All of the following are true: S04R07-S04R10 are not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 11H:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 11I:
S04R11 S04R12-S04R15

N11I	S04R11 is:	S04R12-S04R15 Are:	S04R11 is coded as:	S04R12-S04R15 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	Any Value	Stands as original value	Stands as original value	
2	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped	B F
4	2: no, missing, or multiple response	At least one is marked	1: yes	Stand as original value	B
5	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	All are blank	Stands as original value	Stands as original value	
7	Multiple response	All are blank	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11I:

Responses to S04R12-S04R15 are all missing.

Definition of “blank or NA” in Coding Table for Note 11I:

All of the following are true: S04R12-S04R15 are not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 11I:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 12:
S04V01, S04V02, S04V04-S04V07

N12	S04V01 is: Are:	S04V02, S04V04-S04V07	S04V01 is coded as:	S04V02, S04V04-S04V07	*
1	1,2,3,4: some or no healthcare	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1,2,3: at least some healthcare, missing, or multiple response	"Blank or NA"	-6: didn't need healthcare in past 12 months	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	4: no healthcare	"Blank or NA"	Stands as original value	Stands as original value	
4	-6: didn't need healthcare in past 12 months	Any value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stands as original value	
6	Multiple response	"All are blank"	-6, didn't need healthcare in past 12 months	.N, valid skip	B F
7	Missing or Multiple response	At least one is "marked"	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 12:
S04V02, S04V04-S04V07 are all missing.

Definition of "blank or NA" in Coding Table for Note 12:
S04V02, S04V04-S04V07 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 12:
Any pattern of marks outside the definitions "all are blank" and "blank or NA."

Coding Table for Note 13:
H04040, H04041-H04043

N13 H04040 is:		H04041-H04043 are:	H04040 is coded as:	H04041-H04043 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value	
2	1: yes, -5: don’t know, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, -5: don’t know, missing, or multiple response	At least one is “marked” or “blank or don’t know”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	-5: don’t know, Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 13:

Responses to H04041-H04043 are all missing.

Definition of “blank or NA” in Coding Table for Note 13:

Responses to H04041-H04043 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 13:

Responses to H04041-H04043 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 14:

Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

Table for Note 14:
H04044, H04045

N14	H04044 is:	H04045 is:	H04044 is coded as:	H04045 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't look for information in health plan	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't look for information in health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 15:
H04046, H04047

N15	H04046 is:	H04047 is:	H04046 is coded as:	H04047 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't call health plan	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't call health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 16:
H04048, H04049-H04051**

N16	H04048 is:	H04049-H04051 are:	H04048 is coded as:	H04049-H04051 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 16:

Responses to H04049-H04051 are both missing.

Definition of “blank or NA” in Coding Table for Note 16:

Responses to H04049-H04051 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 16:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 17:
H04049, H04050, H04051

N17	H04049 is:	H04050 is:	H04051 is:	H04049 is coded as:	H04050 is coded as:	H04051 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	Stands as original value	
2	1-5	1: Yes	Any value	Stands as original value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
3	1-5	2: No, -6: no complaint	Any value	Stands as original value	Stands as original value	Stands as original value	
4	1-5	Missing, or multiple response	Marked or multiple response	Stands as original value	2: no	Stands as original value	F
5	1-5	Missing, or multiple response	Missing	Stands as original value	1: Yes	.N, valid skip if missing	F
6	6: still waiting	Marked or multiple response, or missing	Any Value	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
7	Missing response, -6: no complaint	Marked, missing, or multiple response	Any Value	Stands as original value	Stands as original value	Stands as original value	
8	Multiple response	Marked or multiple response, or missing	Any Value	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 18:
H04052, H04053

N18	H04052 is:	H04053 is:	H04052 is coded as:	H04053 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't have any experience	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't have any experience	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19:

H04060--H04065

N19	H04060 Is:	H04061 is:	H04062 is:	H04063- H04065 are:	H04060 is coded as:	H04061 is coded as:	H04062 is coded as:	H04063- H04065 are coded as:	*
1	1: ever smoked	3 or 4: still smoke	Any value	Any value	Stands as original value	Stands as original value	.C, question should be skipped if marked, .N, valid skip if missing	Stands as original value	F

Coding Table for Note 20:

Note 20 (Part a)

H04066, SEX, XSEXA, H04067-H04074

N20A	H04066 is :	SEX is:	H04067 is:	H04068--H04074 are:	XSEXA is coded as:
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
19	Missing or multiple response	Missing	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H04066), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 20 (Part B):
XSEXA, H04067

N20B	XSEXA is:	H04067 is:	H04067 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Note 20 (Part C):
XSEXA, H04068 - H04074

N20C	XSEXA is:	H04068--H04074 are:	H04068 --H04074 are coded as:	*
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 20c:

All variables H04068 --H04074 are missing.

Definition of “marked” in Coding Table for Note 20c:

Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 21
XSEXA, AGE, H04069, H04070, H04071

N21	XSEXA is:	AGE is:	H04069 is:	H04070 & H04071 are:	H04069 is coded as:	H04070 & H04071 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Either question is Marked or multiple response	2: > 40	Stand as original value	B
5	2: Female	Any value	Multiple response	Both Missing	1: < 40	.N, valid skip	B F
6	2: Female	Any value	Missing	Either question is Marked or multiple response	2: > 40	Stand as original value	B
7	2: Female	< 40	Missing	Both Missing	1: < 40	.N, valid skip	F B
8	2: Female	>=40	Missing	Both Missing	1: < 40	.N, valid skip	F B
9	2: Female	Missing	Missing	Both Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

AGE is from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

Coding Table for Note 22:
XSEXA, H04072, H04073, H04074

N22	XSEXA	H04072 is: is:	H04073 is:	H04074 are:	H04072 is coded as:	H04073 is coded as:	H04074 are coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

APPENDIX D

90	H04030	Num	4	314	PROB3A.	In 1st yr:prblm w/delays wait for apprv
91	H04031	Num	4	318	OFTEN5_.	In 1st yr:wait within 15 min appt see Dr
92	H04032	Num	4	322	OFTEN5_.	In 1st yr:how oftn treat w/crtsy/rspct
93	H04033	Num	4	326	OFTEN5_.	In 1st yr:how oftn staff helpful
94	H04034	Num	4	330	OFTEN5_.	In 1st yr:how oftn Drs listen to you
95	H04035	Num	4	334	OFTEN5_.	In 1st yr:how oftn Drs explain things
96	H04036	Num	4	338	OFTEN5_.	In 1st yr:how oftn Drs show respect
97	H04037	Num	4	342	OFTEN5_.	In 1st yr:how oftn Drs spend enough time
98	H04038	Num	4	346	RATE3_.	Rating of all health care in 1st yr
99	H04039	Num	4	350	PLACE.	In 1st yr:fclty use most for Health care
100	H04040	Num	4	354	YNDNK.	In 1st yr:send in any claims
101	H04041	Num	4	358	OFTEN6_.	In 1st yr:hlth pln handle in rsnble time
102	H04042	Num	4	362	OFTEN6_.	In 1st yr:how oftn handle correctly
103	H04043	Num	4	366	OFTEN6_.	In 1st yr:before care, know amt to pay
104	H04044	Num	4	370	YN.	In 1st yr:info in written materials
105	H04045	Num	4	374	PROB8_.	In 1st yr:prblm to find/undrstnd mtrls
106	H04046	Num	4	378	YN.	In 1st yr:hlth plan customer srvc help
107	H04047	Num	4	382	PROB9_.	In 1st yr:prblm get help from cstmr srvc
108	H04048	Num	4	386	YN.	Call or write plan with complaint/prblm
109	H04049	Num	4	390	TIME3_.	How long for hlth pln to resolve cmplnt
110	H04050	Num	4	394	YNSET.	Complnt/prblm settled to satisfaction
111	H04051	Num	4	398	TIME4_.	How long waiting hlth pln resolve cmplnt
112	H04052	Num	4	402	YN.	In 1st yr:fill out paperwork
113	H04053	Num	4	406	PROB10_.	In 1st yr:prblms with paperwork
114	H04054	Num	4	410	RATE4_.	Rating of all experience with hlth plan
115	H04055	Num	4	414	LIKELY.	In nxt yr:lkly to dsnrl in TRICARE Prime
116	H04056	Num	4	418	TIME5_.	Blood pressure: when 1st reading
117	H04057	Num	4	422	YNBP_.	Blood pressure: know if too high or not
118	H04058	Num	4	426	TIME6_.	When 1st have cholesterol screening
119	H04059	Num	4	430	TIME7_.	When did you 1st have a flu shot
120	H04060	Num	4	434	YNDNK.	Smoked at least 100 cigarettes in life
121	H04061	Num	4	438	TIME8_.	Smoke everyday, some days or not at all
122	H04062	Num	4	442	TIME9_.	How long since you quit smoking
123	H04063	Num	4	446	OFTEN7_.	Lst yr: # visits advised to quit smoking
124	H04064	Num	4	450	OFTEN7_.	# visits recom medic assist quit smoking
125	H04065	Num	4	454	OFTEN7_.	# vist discu meth,strag asst quit smokng
126	H04066	Num	4	458	SEX.	Are you male or female
127	H04067	Num	4	462	TIME10_.	Lst prostate disease exam or blood test
128	H04068	Num	4	466	TIME11_.	Lst have a Pap smear test
129	H04069	Num	4	470	YN.	Are you under age 40
130	H04070	Num	4	474	TIME12_.	Lst time: breasts checked mammography
131	H04071	Num	4	478	TIME13_.	Lst time: breast exam by professional
132	H04072	Num	4	482	YNPREG.	Been pregnant in 1st yr or pregnant now
133	H04073	Num	4	486	PREG1_.	In what trimester is your pregnancy
134	H04074	Num	4	490	PREG2_.	Trimester first received prenatal care
135	H04075	Num	4	494	HEALTH.	In gnrl, how would you rate ovrrall hlth
139	H04076	Num	4	510	YN.	Impairment/Hlth prblm limit activities
140	H04077	Num	4	514	TIME14_.	Last 30 days:Days physical hlth not good
141	H04078	Num	4	518	TIME14_.	Last 30 days:Days mental hlth not good

RESPONSE RATE TABLES

TABLE F.1
RESPONSE RATES BY REGION – QUARTER III, 2004

	RR Unweighted Response Rate	RR _W Weighted Response Rate
Northeast	31.6	48.9
Mid-Atlantic	27.3	39.0
Southeast	32.5	50.1
Gulfsouth	35.4	51.5
Heartland	31.8	47.7
Southwest	30.1	45.7
Central 7	33.5	49.7
Central 8	32.5	47.6
Southern California	25.4	40.2
Golden Gate	36.7	54.8
Northwest	31.1	44.2
Hawaii	26.8	32.8
Europe	15.8	15.6
Western Pacific Command	15.9	16.0
TRICARE Latin America	28.3	36.1
Alaska	28.3	32.2

TABLE F.2
RESPONSE RATES BY SEX – QUARTER III, 2004

	Q2 2004	
	RR Unweighted Response Rate	RR _W Weighted Response Rate
Male	25.0	42.5
Female	33.9	47.1

TABLE F.3
RESPONSE RATES BY CONUS/OCONUS INDICATOR – QUARTER III, 2004

	Q2 2004	
	RR Unweighted Response Rate	RR _w Weighted Response Rate
Not in Conus	16.5	17.6
In Conus	31.2	46.5

TABLE F.4
RESPONSE RATES BY BENEFICIARY CATEGORY – QUARTER III, 2004

	RR Unweighted Response Rate	RR _w Weighted Response Rate
Active Duty and Guard/Reserve	17.0	16.1
Dependent of Active Duty & Guard/Reserve	25.4	27.0
Retiree/Depend of Retir/Surviv/Other <65	47.7	50.1
Retiree/Depend of Retir/Surviv/Other 65+	72.4	75.0

TABLE F.5
RESPONSE RATES BY CATCHMENT AREA - QUARTER III, 2004

CACSMPL	Catchment Area	RR Unweighted Response Rate	RR _w Weighted Response Rate
0001	Redstone Ars/Ft McClellan	37.6	44.1
