# **2006 Health Care Survey of DoD Beneficiaries:**

## **Adult Codebook and User's Guide**

**September 2006**  
**Quarter III**  
**Survey Fielded: April 2006**

Submitted to:

TRICARE Management Activity  
5111 Leesburg Pike, Suite 810  
Falls Church, VA 22041  
(703) 681-3636

Task Order Officer:  
LCDR Kimberley Marshall, Ph. D.

Submitted by:

Mathematica Policy Research, Inc.  
600 Maryland Ave., SW, Suite 550  
Washington, DC 20024-2512  
(202) 484-9220

Project Director:  
Eric Schone, Ph. D.

## **Contents**

### **Lists**

|                                       | <b>Page</b> |
|---------------------------------------|-------------|
| Table of Variables .....              | v           |
| Alphabetical Table of Variables ..... | xi          |

### **Chapters**

|   |     |
|---|-----|
| 1      Introduction .....                           | 1   |
| 2      Survey of Adults.....                        | 5   |
| 3      Description of the Adult HCSDB Database..... | 15  |
| 4      Programming Guide.....                       | 19  |
| -     How to Make a Table Using SAS.....            | 19  |
| -     How to Make a Table Using SPSS .....          | 46  |
| -     Calculating Variances of Estimates.....       | 97  |
| 5      Codebook .....                               | 101 |
| References.....                                     | 217 |

### **Appendices**

|   |     |
|---|-----|
| A      Annotated Questionnaire – Quarter III .....  | A-1 |
| B      Survey Fielding Letters – Quarter III.....   | B-1 |
| C      Crosswalk for 1996, 1997, 1998, 1999, 2000, 2002, 2003, 2004, 2005 and 2006<br>Adult HCSDB – Quarter III ..... | C-1 |
| D      Coding Scheme and Coding Tables – Quarter III .....  | D-1 |
| E      SAS Proc Contents -- Alphabetical 2006 Adult HCSDB – Quarter III .....   | E-1 |
| F      SAS Proc Contents -- Positional 2006 Adult HCSDB – Quarter III .....   | F-1 |
| G      Response Rate Tables – Quarter III.....  | G-1 |

Chapter  
**1**

---

## Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the 2006 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to assist users in creating tables and generating analyses above and beyond those associated with this project.

Beginning with 2006, reporting and documentation of the HCSDB will be performed on a fiscal year basis. In previous years, reporting and documentation were based on calendar years. Thus the current codebook describes Quarter III of fiscal year 2006, while Quarter I of fiscal year 2006 appeared in the 2005 codebook as Quarter IV of calendar year 2005. Throughout, Quarter III refers to Quarter III of fiscal year 2006.

This version of the Codebook and User's Guide describes the third quarter data set. It contains frequency counts of all variables from the third quarter of fiscal year 2006.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

### How to Use This Guide

Chapter 2 describes the survey fielding process.

Chapter 3 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 4 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or WesVar PC®. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 5, where we describe the quarterly counts for each variable in the database, including a list of all possible values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata

- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling
- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis
- Weights

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

Users interested in learning more about the technical aspects of the database creation, construction of new variables, or MPR's report production procedures may refer to "The 2006 Health Care Survey of DoD Beneficiaries: Adult Technical Manual," available from the TRICARE Management Activity Office.

### **What is the HCSDB?**

The HCSDB is a health care survey of active duty military personnel, retirees, and their adult family members. It is comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey is fielded only in the third quarter of each year. Results from each quarter are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The surveys collect data on beneficiaries' satisfaction with, and access to, health care; knowledge of the TRICARE system; and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under the current naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2006 HSCDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001, 2002, 2003, 2004, 2005 and 2006. The annotated questionnaire appears in Appendix A. A crosswalk between the 2006 questions and the questions from the 1996, 1997, 1998, 1999, 2000, 2002, 2003, 2004 and 2005 surveys appears as Appendix C.

The HCSDB fixed questionnaire covers the following topics:

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance.
- **Your Personal Doctor or Nurse.** In this section, respondents are asked about their relationship with their personal doctor or nurse. They are asked to rate their personal doctor or nurse on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Getting Health Care from a Specialist.** This section collects information about respondents' need for and access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.

- **Calling Doctors' Offices.** Questions in this section ask beneficiaries whether they were able to access care and obtain information by telephone from their doctor's office or clinic.
- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It also covers topics such as the availability of providers and their staff, convenience, and courtesy and respect shown by providers and their staff.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to 10 where 0 is the lowest rating and 10 is the highest rating. Additionally, respondents are asked questions about any problems they may have encountered with claims processing, accessing and comprehending written materials, customer service, and processing paperwork.
- **Your Preventive Health Care.** This section collects information on the use of preventive health care services, including blood pressure readings and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography. All respondents are asked whether they smoke. Smokers are asked whether, and how often, they have received smoking cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health. They are further asked to report their education level, race, and age.

### **CAHPS Questions**

To make responses comparable to civilian surveys, the questions are similar in content and format to questions used in the Consumer Assessment of Healthcare Providers and Systems (CAHPS) Health Plan Survey. CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality, U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services. In 2006 we used questions from CAHPS version 3.0.

### **Quarter III Supplements**

- **Mental or Emotional Health.** Questions in this supplement concern overall mental or emotional health. Respondents are asked to rate their mental or emotional health. They are also asked questions about any mental or emotional treatment or counseling they may have received.
- **TRICARE Civilian Network.** These supplemental questions provide information about respondents' experiences with the TRICARE civilian network. Questions concern the amount of care received, problems getting wanted care, convenience of care, and physician retention within the TRICARE civilian network.

### **Sample Design Overview**

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a specific reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on active duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and

Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days, and other special categories of people who qualify for benefits)

- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members.

A stratified sample design was used to select DoD health care beneficiaries for Quarter III 2006 Adult HCSDB. Strata were defined by a combination of enrollment status groups, beneficiary groups, and geographic areas. Specific information on the sample design appears in "Health Care Survey of DoD Beneficiaries: 2006 Adult Sampling Report", Mathematica Policy Research, Washington, D.C.

From a sample of 50,000 beneficiaries, 13,772 adult MHS beneficiaries completed and returned a questionnaire for the third quarter during the period, yielding a response rate of 27.9 percent. Information on developing response rates can be found in the "2006 Health Care Survey of DoD Beneficiaries: Adult Technical Manual."

#### **Other Documents on the 2006 HCSDB**

This document is intended for programmers and analysts using the 2006 Adult HCSDB data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- Health Care Survey of DoD Beneficiaries: 2006 Adult Sampling Report
- 2006 Health Care Survey of DoD Beneficiaries: Adult Technical Manual
- 2006 Health Care Survey of DoD Beneficiaries: TRICARE Annual Report

Chapter  
**2**

---

## **Survey of Adults**

This chapter presents information on the survey administration cycle for Quarter III, 2006 Adult Health Care Survey of DoD Beneficiaries (HCSDB), with specific details on the survey mailing cycle and the number of surveys received.

### **A. Survey Operations Activities**

Operational support for the Health Care Survey of DoD Beneficiaries (HCSDB) involved four mailings to beneficiaries between March 1, 2006 to May 8, 2006 in Quarter III.

The mailings include:

1. Pre-Notification Letter – Letter of explanation encouraging participation
2. Questionnaire 1 – The survey, including a brief letter of explanation
3. Postcard – A reminder to complete the survey and a thank you for completion
4. Questionnaire 2 – The survey, including a brief letter of explanation

### **B. Sample**

The Adult HCSDB is conducted quarterly on a sample of 50,000 beneficiaries.

### **C. SURVEY PROCESSING**

Synovate applies a Bar Code, Control Number (MIQ) & Password to each beneficiary upon receipt of the sample. This system ensures that all data collected is aggregated and available throughout the survey lifecycle. Each of the identifying labels is detailed below:

Barcode

Digit 1 - Quarter Marker (1-4)  
Digit 2 - Wave Marker (1-4)  
Digit 3 - Study Marker (1=sample, 2=supplemental, 3=child)  
Digits 4-8 - Sequential ID#

Control Number (MIQ) - 8-digit unique identifier

Digits 1-7 – Sequential ID #  
Digit 8 – Check Digit

Password

Non-sequential 6-digit password (for online response access) – Password is unique across all samples

**D. Addresses**

The HCSDB is designed so that beneficiaries may receive up to four mailings. Synovate may collect up to eight addresses for each beneficiary in order to maximize the receipt rate for mailing.

The first available address in the following order was used for each mailing.

1. Respondent Updated
2. Updated Residential
3. NCOA
4. Original Residential
5. Updated Sponsor
6. Original Sponsor
7. Updated Unit
8. Original Unit

The origin of the addresses is as follows:

- DoD Scientific and Technical Information (STI) - DEERS Addresses

In the initial sample file, STI provides up to three addresses for each beneficiary. Synovate considers these addresses to be Original Residential, Original Sponsor and Original Unit.

STI also provides updates on each of the three addresses prior to the Questionnaire, Postcard and 2<sup>nd</sup> Questionnaire mailings. Synovate records these addresses as Updated Residential, Updated Sponsor, Updated Unit.

- NCOA Address

Upon receipt of the initial sample and prior to the Pre-Notification mailing, Synovate sends each address to a National Change of Address (NCOA) vendor for updating and hygiene services. The updated address returned by the vendor is marked as the NCOA address.

- Respondent Updates

Respondents were able to report address and status changes via telephone, voicemail, fax, and email. Addresses changes submitted by respondent were considered priority over any other address type.

- Address correction via USPS

The United States Postal Service provided address corrections on returned mail if available. This is marked as a respondent updated.

Table 2.1 gives the address breakdown for each mailing by beneficiary category.

Table 2.1

## Frequency of Address by Beneficiary Category – Sample - Quarter III, 2006

|                               | Active Duty (ACT) | Dependent of Active Duty (DA) | Guard/Reserve (GRD) | Dependent of Guard/Reserve (DGR) | Inactive Guard/Reserve (IGR) | Dependent of Inactive Guard/Reserve (IDG) | Retiree (RET)  | Dependent of Retiree (DR) | Survivor (DS) | Other (OTH)  | Total           |

## F. Disposition Codes

Synovate assigns disposition codes to each sample member as the information is received and questionnaire is returned. These codes are outlined below.

- FLAG\_FIN=1  
Returned survey – survey was completed and returned.
- FLAG\_FIN=2  
Returned ineligible – survey was returned with at least one question marked and information that the beneficiary was ineligible. The information indicating ineligibility may have come by phone, fax, or the survey itself.
- FLAG\_FIN=3  
Returned blank – temporarily ill or incapacitated. Survey was returned blank along with information that the beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG\_FIN=4  
Returned blank – deceased. Survey was returned blank along with information that the beneficiary was deceased. These sample members were ineligible.
- FLAG\_FIN=5  
Returned blank – incarcerated or permanently incapacitated. Survey was returned blank along with information that the beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG\_FIN=6  
Returned blank – left military or divorced after fielding date, retired. Survey was returned blank along with information that the beneficiary left the military after fielding date, divorced after fielding date, or retired. These sample members were eligible.

- FLAG\_FIN=7  
Returned blank – not eligible on fielding date. Survey was returned blank along with information that the beneficiary was not eligible for Military Health System Plan on fielding date. These sample members were ineligible.
- FLAG\_FIN=8  
Returned blank – other eligible. Survey was returned blank along with a reason given by the sample member. These sample members were eligible.
- FLAG\_FIN=9  
Returned blank – no reason. Survey was returned blank without an explanation. These sample members were eligible.
- FLAG\_FIN=10  
No return – temporarily ill or incapacitated. Survey was not returned and beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG\_FIN=11  
No return – active refuser. Survey was not returned and beneficiary refused to take part in the survey. These sample members were eligible.
- FLAG\_FIN=12  
No return – deceased. Survey was not returned and beneficiary deceased. The information came in by phone. These sample members were ineligible.
- FLAG\_FIN=13  
No return – incarcerated or permanently incapacitated. Survey was not returned, beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG\_FIN=14  
No return – left military or divorced after fielding date, retired. Survey was not returned, beneficiary left service after fielding date, divorced after fielding date, or retired. These sample members were eligible.
- FLAG\_FIN=15  
No return – not eligible on fielding date. Survey was not returned, beneficiary was not eligible for Military Health System Plan on fielding date. These sample members were ineligible.  
  
Example: Beneficiary turned 21 and is no longer covered under parents' plan.
- FLAG\_FIN=16  
No return – other eligible. Survey was not returned, beneficiary gave other reason for not completing the survey. These sample members were eligible.  
  
Examples:      Beneficiary claims they have not used benefits in past 12 months.  
                  Beneficiary is away at college, on a religious mission, lives overseas.  
                  Received information that Beneficiary chosen for survey does not speak English well enough to participate.
- FLAG\_FIN=17  
No return – no reason. Survey was not returned, beneficiary gave no reason. These sample members had unknown eligibility.

- FLAG\_FIN=18  
Postal Non Deliverable (PND) – no address remaining. All addresses were attempted, mailing was returned PND. These sample members had unknown eligibility.
- FLAG\_FIN=19  
PND – address remaining at the close of field. At the close of field, the last address used was found invalid, next available was not attempted. These sample members had unknown eligibility.
- FLAG\_FIN=20  
Original Non-Locatable – no address at start of mailing. Substantially incomplete or blank address field before the survey was administered, no mailings attempted. These sample members had unknown eligibility.
- FLAG\_FIN=21  
Beneficiary provides written documentation declining to participate but doesn't specify a reason. These sample members were eligible.
- FLAG\_FIN=22  
Beneficiary indicates they are hospitalized but without providing any way to determine whether incapacity is temporary or permanent. Therefore, eligibility determination can not be made. These sample members had unknown eligibility.
- FLAG\_FIN=23  
Returned blank – deployed. Survey was returned blank along with information that the beneficiary was deployed. These sample members were eligible.
- FLAG\_FIN=24  
No return – deployed. Survey was not returned, beneficiary was deployed. These sample members were eligible.
- FLAG\_FIN=25  
Deceased. Beneficiary coded as deceased due to refresh sample sent by STI. These sample members were ineligible.
- FLAG\_FIN=26  
No match. Not eligible indicated by STI-DEERS update

Table 2.2 show frequencies of these disposition codes by beneficiary category.

Table 2.22

## Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

### Variable Naming Conventions

The conventions used to name variables on the 2006 Adult HCSDB data file are listed below and summarized in Table 3.1. The naming conventions will remain constant across the four quarters of the 2006 HCSDB.

- **Survey Variables.** Variable names for core survey questions consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("06") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the annotated survey. The original variables are suffixed with "\_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. Like the core questions, supplemental questions also include eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("06"). The variable ends with an alpha character and the question number in the supplemental series.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACEA-SRRACEE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables N1-N20, reference the notes in the Coding Scheme for Adult Survey. See Appendix D for the Coding Scheme for Quarter III for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable PNSEXCD was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2010 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "FW."

TABLE 3.1

## NAMING CONVENTIONS FOR 2006 HCSDB VARIABLES – QUARTER III

| 1 <sup>st</sup> Character:<br>Survey Type   | 2 <sup>nd</sup> – 3 <sup>rd</sup><br>Character<br>s:<br>Survey<br>Year | 4 <sup>th</sup> – 6 <sup>th</sup> Characters:<br>Question #   | Additional Characters:<br>Additional Information   |

| 1 <sup>st</sup> Characters:<br>Variable Group         | Additional Characters:<br>Additional Information   |
|---|--|
| SR=Self-reported demographic data                     | Descriptive text, e.g., SREDA  |
| N=Coding scheme notes                                 | Number referring to Note, e.g., N2   |
| X=Constructed independent variable                    | Descriptive text, e.g., XREGION  |
| HP=Constructed <i>Healthy People</i><br>2010 variable | Descriptive text, e.g., HP_BP (had blood pressure<br>screening in past two years and know the results)         |
| K=Constructed dependent variables                     | Descriptive text, e.g., KMILOPQY (total number of<br>outpatient visits to military facility)                   |
| FW=Weighting variables                                | Descriptive text, e.g., FWRWT for the final weight and<br>number referring to replicate weights, e.g., FWRWT10 |

**Cleaning and Editing Conventions**

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme appears in Appendix D. It contains detailed instructions for all editing procedures used to correct data

inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when Synorate created the SAS dataset:
  - Skipped items were encoded with SAS missing value code of “.”.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “.N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “.C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “.O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in the fiscal year 2006 Adult HCSDB Quarter III data file appear in Chapter 5 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

## Record Selection Criteria

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database.

To determine if a questionnaire is “complete”, 27 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (more than thirteen) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H06006, H06008, H06009, H06010, H06011, H06012, H06014, H06015, H06016, H06017, H06018, H06019, H06021, H06024, H06025, H06027, H06030, H06037, H06038, H06042, H06044, H06046, H06048, H06066, SREDA, H06070, and the race indicator.

## Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2006 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Sampling weights are equivalent to the reciprocal of the probability of each respondent's selection into the sample. Sampling weights are further adjusted for nonresponse within the classes formed based on the percentiles of the propensity scores from the propensity model. Finally, we poststratified the nonresponse adjusted weights to the frame totals to obtain specific domain weighted totals equal to the population totals. Chapter 5 contains the weighted and unweighted frequencies for each variable in Quarter III, 2006. For further detail please refer to the “2006 Health Care Survey of DoD Beneficiaries: Adult Technical Manual.”

## Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the 2006 HCSDB Quarter III dataset.

### How To Make a Table Using SAS

The 2006 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 6.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 6 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

### File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the 2006 Quarter III adult dataset is located on a CD-ROM in the subdirectory HCSDB06\FORMA\Q3, your LIBNAME statement must look like this:

**LIBNAME INFORMA 'F:\HCSDB06\FORMA\Q3';**

The adult dataset can then be referred to as INFORMA.HCSDB06, where INFORMA is the location of the file HCSDB06.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

**LIBNAME LIBRARY 'C:\HCSDB06\FORMA\Q3\FMTLIB';**

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

**OPTIONS PS=79 LS=132;**

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

**OPTIONS PS=50 LS=175 NOCENTER;**

## **DATA Step**

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of active duty by sex:

```
/* Active duty males */
IF XSEXA = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;
* Active duty females;
ELSE IF XSEXA = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;
ELSE XSEX_AD = ; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /\* \*/ or beginning with \* and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION CACSMPL H06050 H06014;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only region 3 observations */
IF XTNEXREG = 3;
```

- Create a new temporary dataset. For example, CAC\_1 is a temporary file of observations for only those respondents in catchment area 1:

```
LIBNAME INFORMA 'F:\HCSDB06\FORMA';
DATA CAC_1;
/* Input file is HCSDB06 */
SET INFORMA.HCSDB06;
IF CACSMPL = 1;
RUN;
```

- Create a new permanent dataset. For example, OUT.CAC\_9901 is a permanent dataset only of Region 1 out-of-catchment respondents:

```
LIBNAME INFORMA 'F:\HCSDB06\FORMA';
LIBNAME OUT 'C:\HCSDB06\FORMA';
DATA OUT.CAC_9901;
SET INFORMA.HCSDB06;
IF CACSMPL = 9901;
RUN;
```

## PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;  
CLASS class variables;  
VAR analysis variables;  
TABLE << page expression, > row expression, > column expression </ table options >;  
WEIGHT FWRWT;  
RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in catchment area 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE CACSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XTNEXREG, XSEXA, and CACSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE statement, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSDB for 2006, the weight variable is FWRWT.

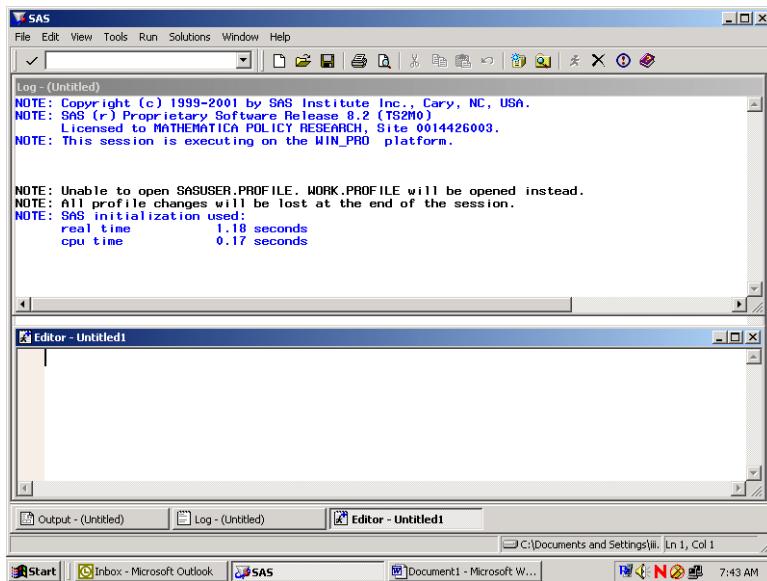

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

- Analysis variables
- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form ='label'; for example, XTNEXREG='TNEX Region' or MEAN='' (to eliminate the word MEAN from the headings).
- Crossing operator \* (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT\*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H06037 \*MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H06037 H06048.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

**(XBNFGRP ALL)\*XSEXA**

#### **The SAS Display Manager System**

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter SAS version 8, the following screen opens.

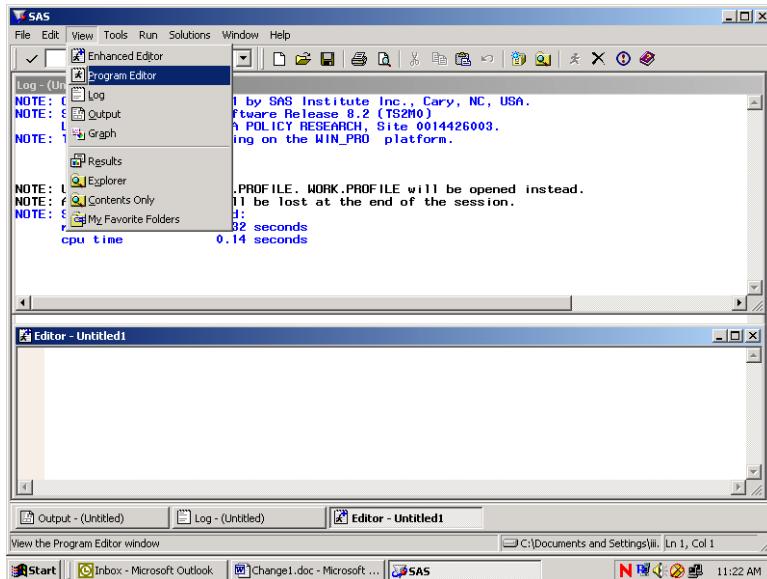

The screen is divided into two windows, a Log window above and an Editor window below.

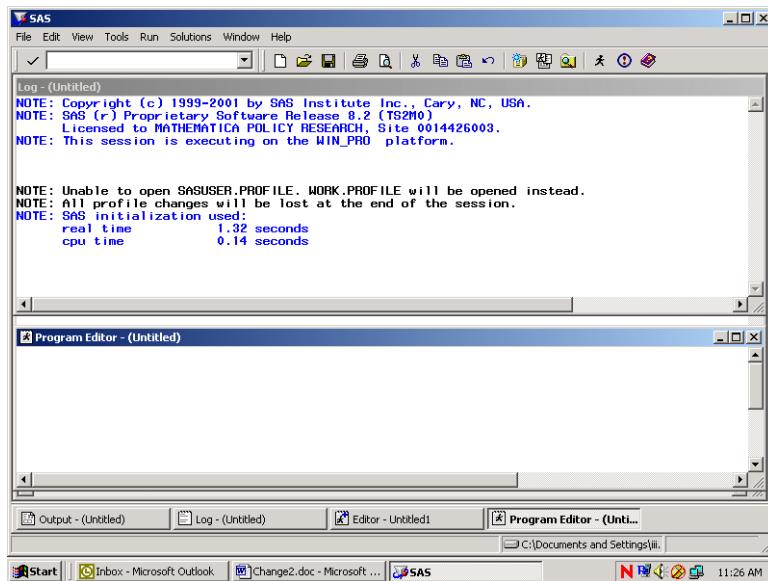

The Window Bar at the bottom of the screen includes tabs for the Log and Editor windows with an additional tab for the Output Window. Clicking on the Output tab will open the Output window. The instructions in this document will outline options for setting up the Editor and for displaying the windows themselves.

The default editor for version 8 is the SAS Enhanced Editor which is color coded to check SAS syntax. Another editing option is to use the Program Editor which includes line editing options. We will describe procedures for setting up the Program Editor.

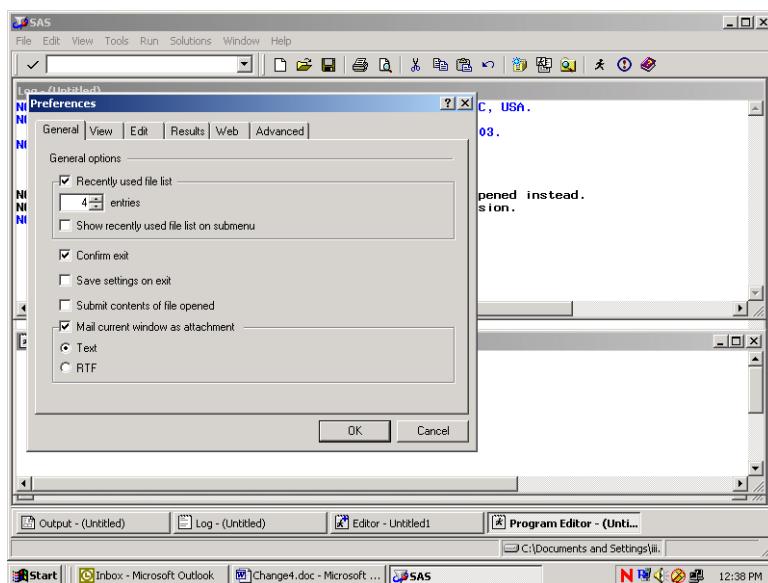

Click on View and select Program Editor as in the following:

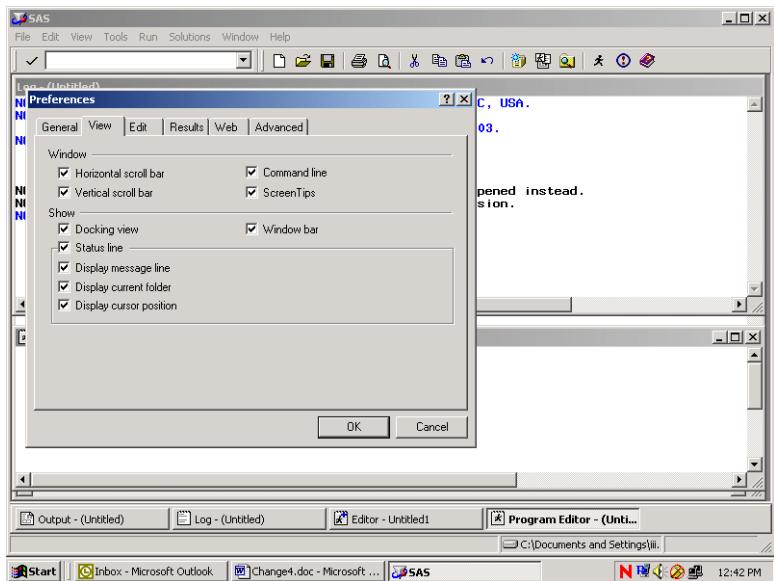

The lower Editor Window has now changed to Program Editor as in the following screen:

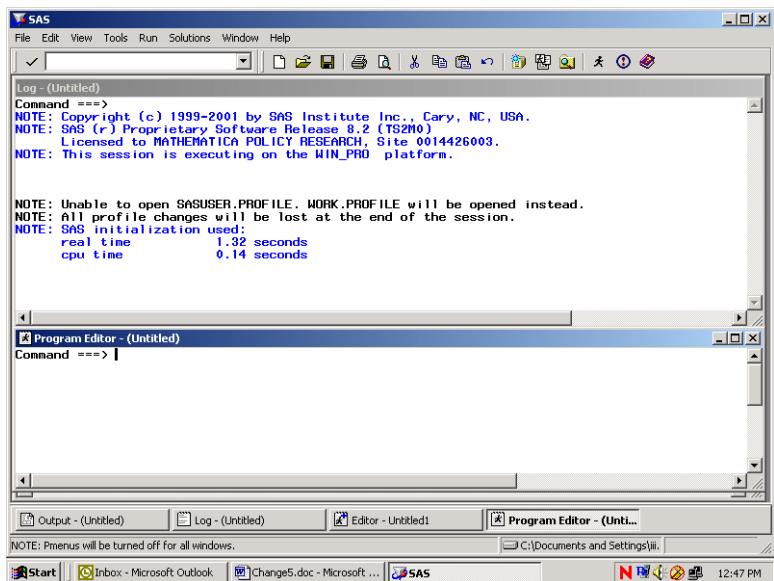

Open the Tools menu and choose Options and preferences.

Many of these settings are system default options. To add a command line to the three windows, do the following. Click on the View tab and click in the box opposite **Command Line** as follows:

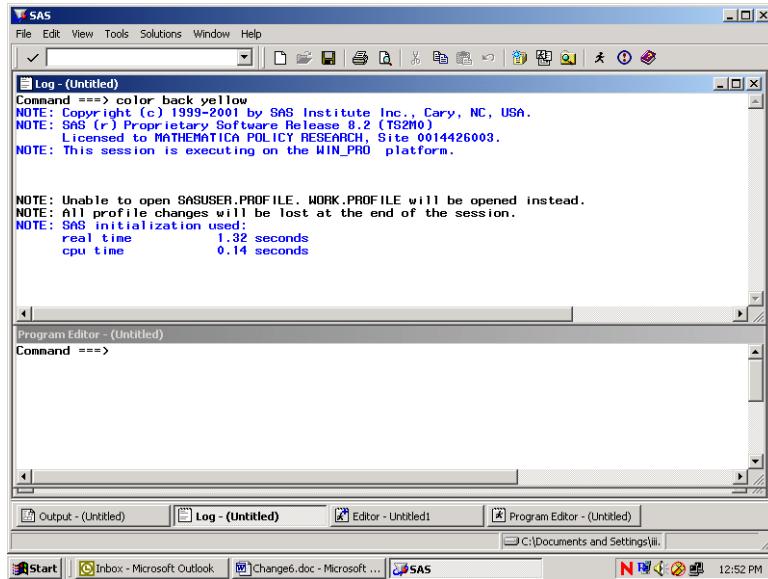

Click on OK and a command line will be added as in the screen below.

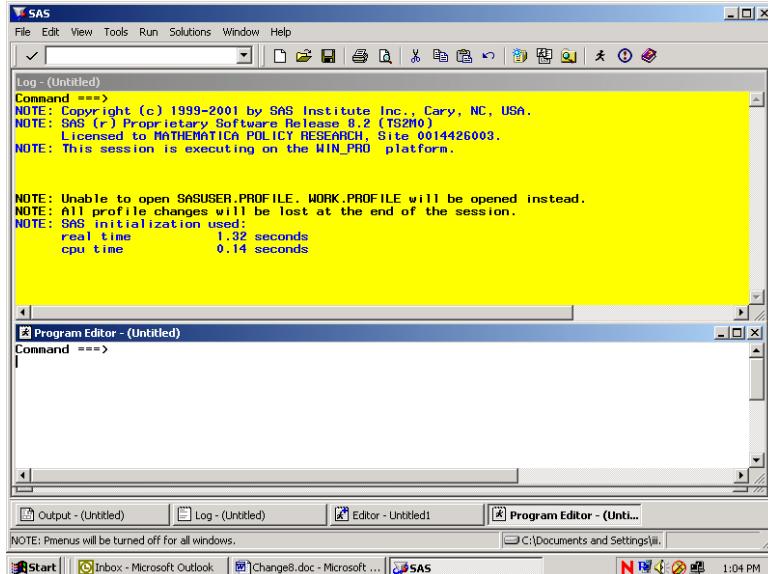

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allow you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to yellow and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back yellow** (or some other color) on the command line. Your screen will resemble the following.

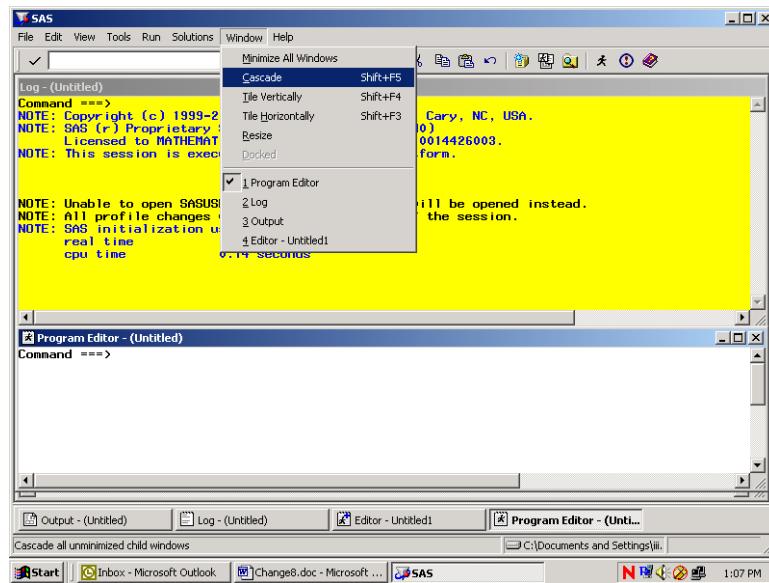

Press **Enter** to process the commands and the window will shade to yellow. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. Return to the Program Editor and the screen will look like the following.

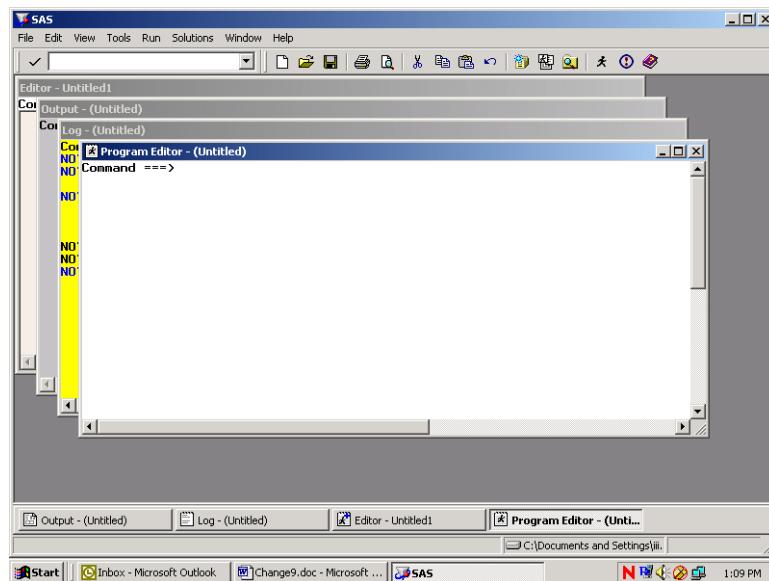

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

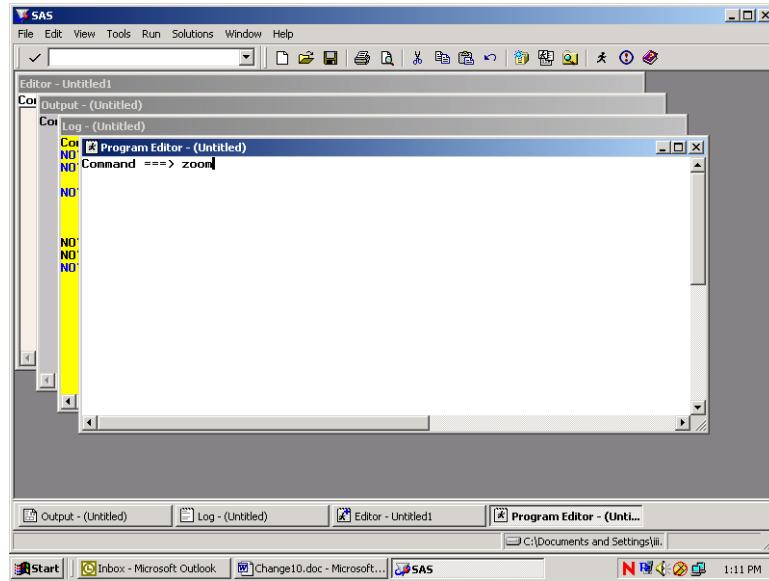

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

Clicking the option **Cascade** produces the following result.

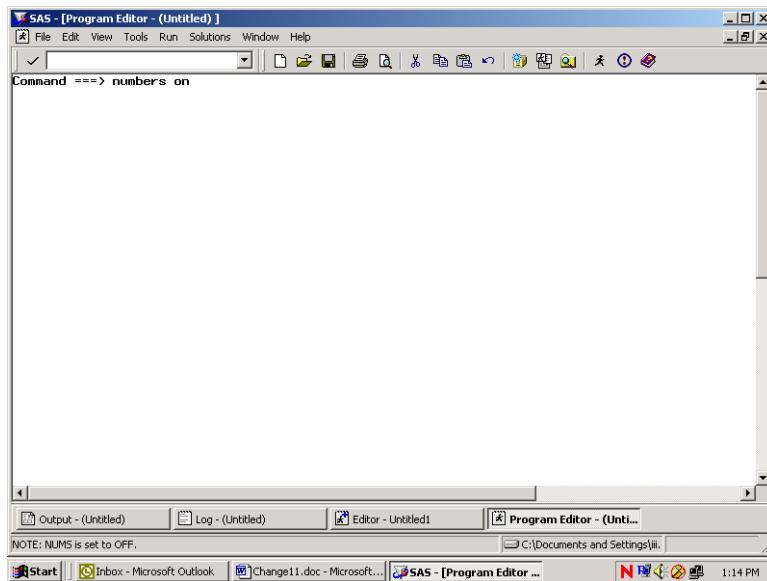

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

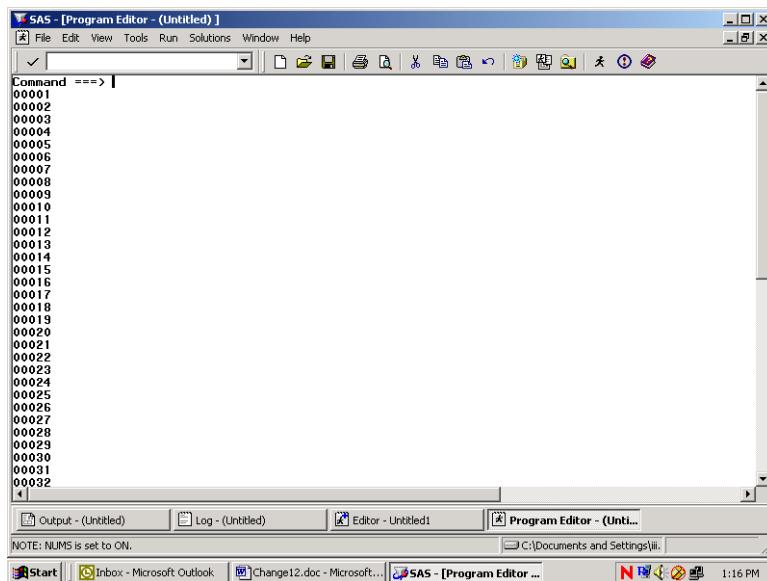

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). At the **Command** line type “numbers on” as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

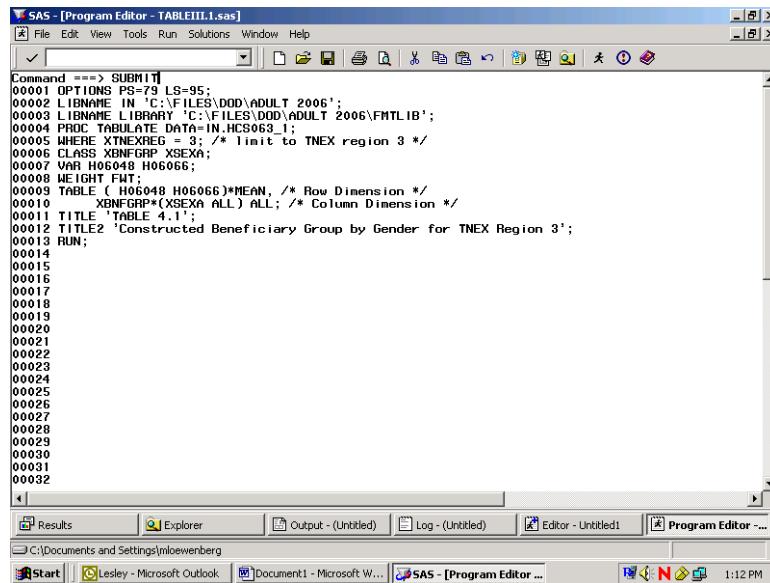

Below is an example of a PROC TABULATE to construct a table of health care variables by beneficiary group by gender for respondents in region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The health care variables (H06048 and H06066) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

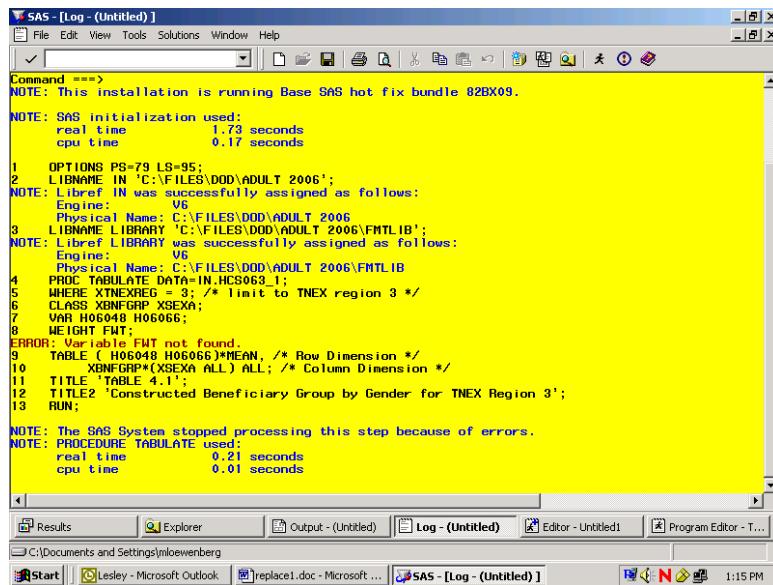

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2006';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2006\FMTLIB';
PROC TABULATE DATA=IN.HCS063_1;
WHERE XTNEREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H06048 H06066;
WEIGHT FWT;
TABLE (H06048 H06066)*MEAN, /* Row Dimension */
      XBNFGRP*(XSEXA ALL) ALL; /* Column Dimension */
TITLE "Table 4.1";
TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;
```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

Enter the Submit command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

SAS - [Log - (Untitled)]

NOTE: PROCEDURE TABULATE used:
      real time       0.21 seconds
      cpu time       0.01 seconds

```

The variable FWT was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering FWRWT, the correct variable name, in the weight statement. Then, rerunning the procedure.

The corrected program produces the following output.

**TABLE 4.1** 13:07 Monday, August 14, 2006 1

**Constructed Beneficiary Group by Gender for TNEX Region 3**

|  |      | Constructed Beneficiary Group |        |      |                      |        |      |

## Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2006\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is active duty; if XBNFGRP equals 2, the respondent is a family member of active duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

**FORMAT \_ALL\_;**

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

## Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table 4.1, the values of the statistics are of the form x.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space plus some extra room to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

**MEAN\*F=6.2**

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP

are active duty, family members of active duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

**XBNFGRP=’ ‘**

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

**MEAN=’ \*F=6.2**

The headings for XSEXA and ALL can be improved:

**XSEXA=’Gender’**

**ALL=’Group Total’ for the ALL that is crossed with XBNFGRP**

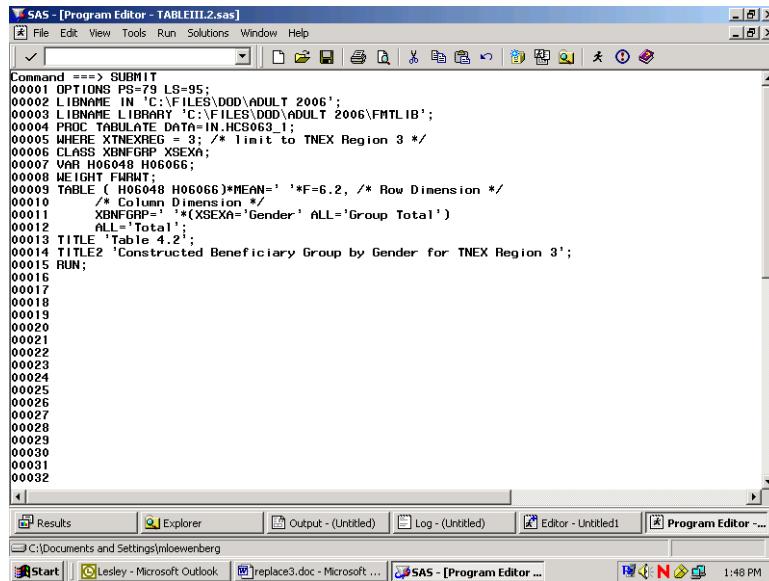

**ALL=’Total’ for the TNEX Region 3 total**

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2006';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2006\FMTLIB';
PROC TABULATE DATA=IN.HCS063_1;
WHERE XTNECREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H06048 H06066;
WEIGHT FWRWT;
TABLE (H06048 H06066)*MEAN=’ *F=6.2, /* Row Dimension */
      /* Column Dimension */
      XBNFGRP=’ *(XSEXA=’Gender’ ALL=’Group Total’)
      ALL=’Total’;

TITLE “Table 4.2”;
TITLE2 ‘Constructed Beneficiary Group by Gender for TNEX Region 3’;
RUN;
```

Typing these statements into the Program Window produces the following screen.

```

|   | Ret/Surv/Fam | 65+   |       |
|---|--------------|-------|-------|
|   | Gender       | Group |       |
|   | Female       | Total | Total |
|   |              |       |       |
| Rating of all experience with hlth plan | 9.20         | 9.06  | 7.87  |
| In gnrl, how would you rate ovrall hlth | 3.20         | 3.22  | 3.62  |

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2006';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2006\FMTLIB';
PROC TABULATE DATA=IN.HCS063_1;
WHERE XTNEXREG = 3; /* limit to TNEX Region 3 */
CLASS XBNFGRP XSEXA;
VAR H06048 H06066;
WEIGHT FWRWT;
TABLE (H06048 H06066)*MEAN='*F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA=' ALL='Group Total')
ALL='Total' / ROWFLOAT RTS=32;
TITLE "Table 4.3";
TITLE2 'Constructed Beneficiary Group by Gender for TNEX Region 3';
RUN;
```

Typed into the Program Window, the revised program appears as follows.

The output table is displayed in the Output Window as follows.

Table 4.3  
Constructed Beneficiary Group by Gender for TNEX Region 3

|  | Active Duty <65 |        |             | Family of Active <65 |        |             | Ret/Surv/Fam <65 |        |             |

| In gnrl, how would you rate overall hlth | 3.24             | 3.20   | 3.22  | 3.62  |

## Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all class variables that define the row. For example, if you want to look at the percentage of people in your region and each of the catchment areas who answered yes (or no) to question 14, 'In the last 12 months, did you see a specialist?', your TABLE statement in the TABULATE procedure would look like this:

```
WHERE XTNELEXREG = 2;  
TABLE H06014 ALL='Total',  
(All='TNEX Region Total' CACSMPL)*PCTN<H06014 ALL>='Percent';
```

Table 4.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

The screenshot shows the SAS Program Editor window with the following code:

```
Command ==> SUBMIT;  
00001 OPTIONS PB=70 LS=85;  
00002 LIBNAME IN 'C:\FILES\DOO\ADULT_2006';  
00003 LIBNAME LIBRARY 'C:\FILES\DOO\ADULT_2006\FMTLIB';  
00004 PROC TABULATE DATA=IN.HCS063_1;  
00005 WHERE XTNELEXREG = 2; /* Limit to Region 6 */  
00006 CLASS H06014 CACSMPL;  
00007 WEIGHT FWTNT;  
00008 TABLE H06014 ALL='Total'  
00009 (All='TNEX Region Total' CACSMPL=' ')*  
00010 (All='TNEX Region Total' CACSMPL=' ')*PCTN<H06014 ALL>='%'*F=6.2  
00011 /RTS=25;  
00012 TITLE 'Table 4.4';  
00013 TITLE2 'People Who Saw a Specialist in the Last 12 Months';  
00014 TITLE3 'for TNEX Region 2 Catchment Areas';  
00015 RUN;  
00016  
00017  
00018  
00019  
00020  
00021  
00022  
00023  
00024  
00025  
00026  
00027  
00028  
00029  
00030  
00031  
00032
```

The submitted statements produce the following output.

The screenshot shows a SAS software interface. At the top, the title bar reads "SAS - [Output - (Untitled)]". Below it is a menu bar with File, Edit, View, Tools, Solutions, Window, and Help. A toolbar follows with various icons. The main area displays a table titled "Table 4.4" with the subtitle "People Who Saw a Specialist in the Last 12 Months for TNEX Region 2 Catchment Areas". The table has a header row with columns for "Region Total" and four military bases: Redstone Arks/Ft McClellan, Ft. Rucker, Maxwell AFB, and NH Pensacola. It includes rows for "In 1st yr:did you see a specialist" (Yes/No) and a "Total" row. Data values are provided for each category. Below the table, the text "(Continued)" is visible.

for TNEX Region 2 Catchment Areas

|                                     | Out of catchment- |        | NBHC Mayport |        | south |   |   |   |
|-------------------------------------|-------------------|--------|--------------|--------|-------|---|---|---|
|                                     | #                 | %      | #            | %      | #     | % | # | % |
| In 1st yr: did you see a specialist |                   |        |              |        |       |   |   |   |
| Yes                                 | 36                | 44.44  | 424          | 66.04  |       |   |   |   |
| No                                  | 45                | 55.56  | 218          | 33.96  |       |   |   |   |
| Total                               | 81                | 100.00 | 642          | 100.00 |       |   |   |   |

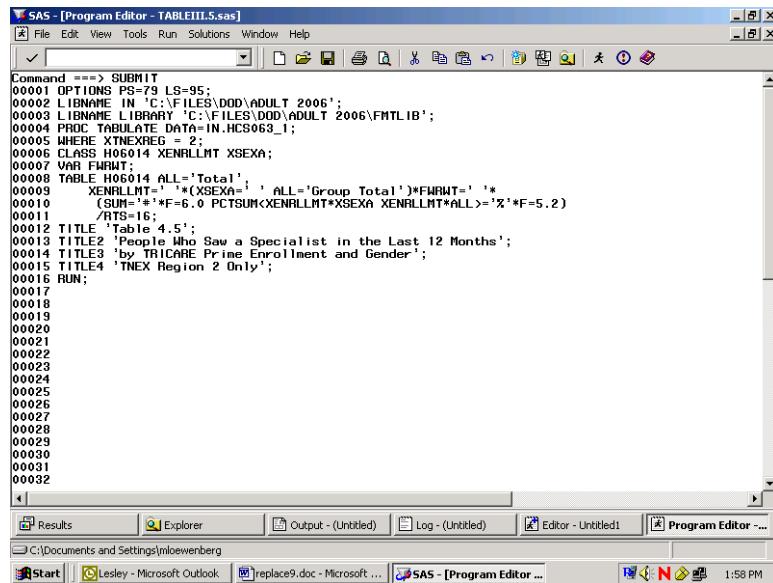

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table 4.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who report seeing a specialist in the past 12 months, this would be a row percentage. To calculate a row percentage, the denominator definition must include all class variables that define the column. Your TABLE statement would look like this:

**TABLE H06014 ALL='Total',  
XENRLLMT \*(XSEXA= ' All='Group Total')\*  
PCTN<XENRLLMT\*XSEXA XENRLLMT\*ALL>='Percent';**

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include FWRWT (the 2006 weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table 4.5.

The following screen shows the new program typed into the Program Editor.

The screenshot shows the SAS Program Editor window with the title bar "SAS - [Program Editor - TABLET15.sas]". The editor contains a block of SAS code. The code includes commands for SUBMIT, LIBNAME, LIBRARY, TABLE, WHERE, CLASS, VAR, TITLE, and RUN. It specifies options like PS=79, LS=95, and FWRWT=\*. The TABLE statement uses XENRLLMT and XSEXA variables, and includes a WHERE clause for TINEXREG = 2. The CLASS statement includes H06014. The VAR statement includes FWRWT. The TITLE statements provide context for the report, mentioning "Table 4.5", "People Who Saw a Specialist in the Last 12 Months", and "by TRICARE Prime Enrollment and Gender". The code concludes with a RUN statement. The status bar at the bottom of the window shows the path "C:\Documents and Settings\lloewenberg" and the time "1:58 PM".

These commands produce the following output.

| In 1st yr:did you see a specialist | Active Duty - under 65 |       |        |      |             |       | Enrolled - under 65 |       |        |       |             |       |
|------------------------------------|------------------------|-------|--------|------|-------------|-------|---------------------|-------|--------|-------|-------------|-------|
|                                    | Male                   |       | Female |      | Group Total |       | Male                |       | Female |       | Group Total |       |
|                                    | #                      | %     | #      | %    | #           | %     | #                   | %     | #      | %     | #           | %     |

| Total                              | 344957                 | 15.53 | 87346  | 3.93 | 432303      | 19.46 | 229233              | 10.32 | 396594 | 17.85 | 625827      | 28.17 |

(Continued)

Here, as above, the SUM statistic is included to help determine the accuracy of the denominator definition.

Additional information about running SAS is available from the SAS Institute. Please consult the appropriate manuals for more detailed information.

See Table 4.5 to view the entire table.

## How to Make a Table Using SPSS

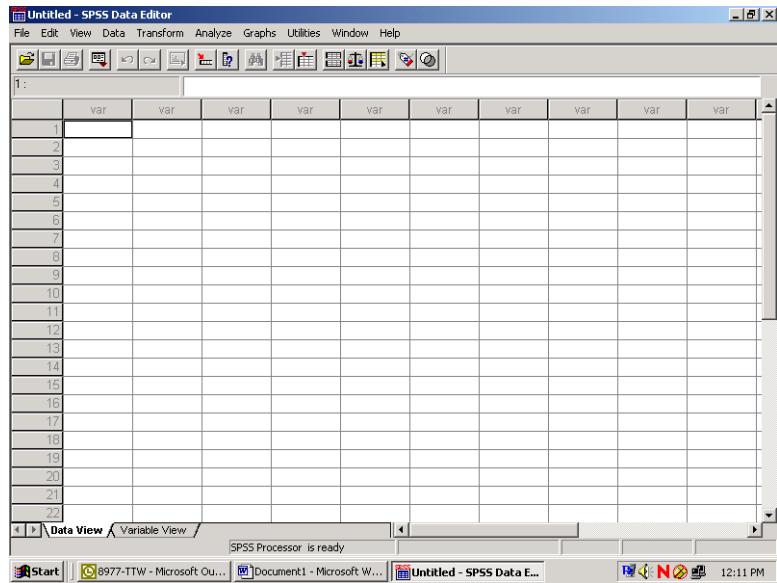

The 2006 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

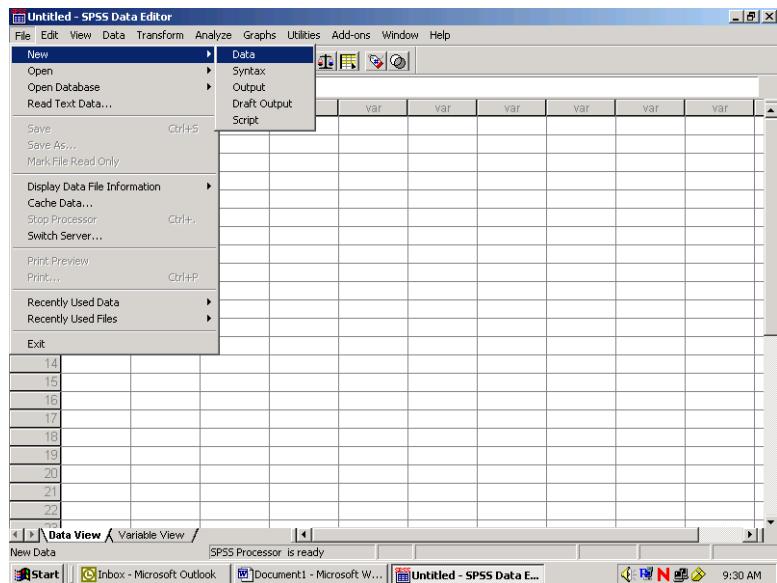

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

### Locating and opening the data file

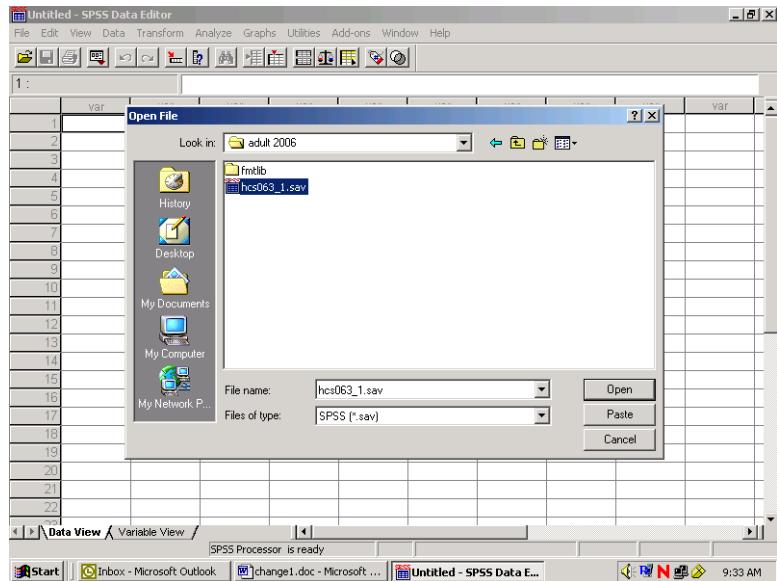

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a blank spreadsheet like the following screen:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The 2006 Adult HCSDB Quarter III dataset has been opened and is displayed below.

| mpnid       | svcsmpl | sexsmpl | stratum | cacsmpl | enbgsmpl | mpcsmpl | nhff   | servarea | quarter  | dcats |
|-------------|---------|---------|---------|---------|----------|---------|--------|----------|----------|-------|

### Constructing new variables

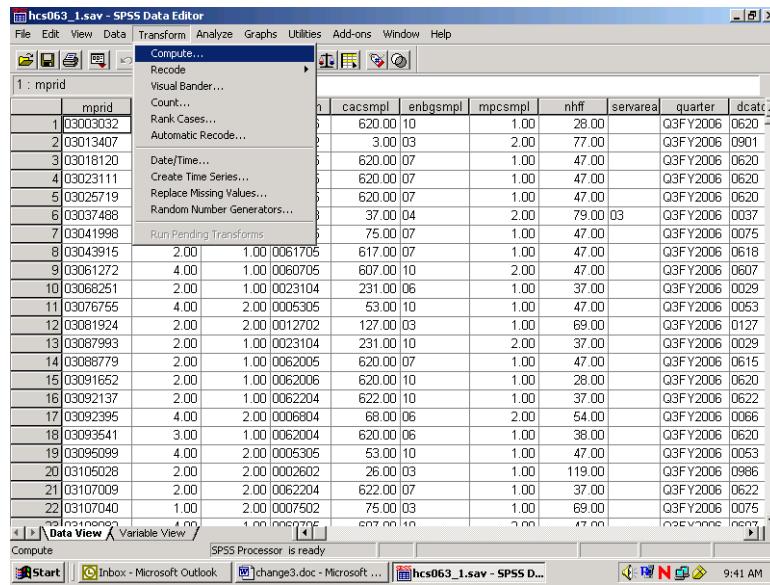

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called xbnfgrp, and the variable for sex is xsex. The value 1 for xbnfgrp indicates that the individual is on active duty. The relationships for constructing a new variable of active duty by sex are:

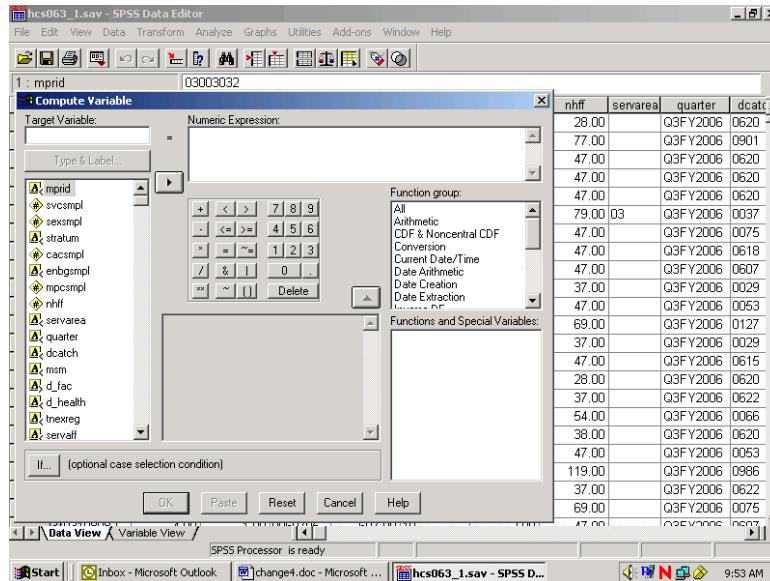

Active-duty-males: ***xsex=1 and XBNFGRP=1***

Active-duty-females: ***xsex=2 and XBNFGRP=1***

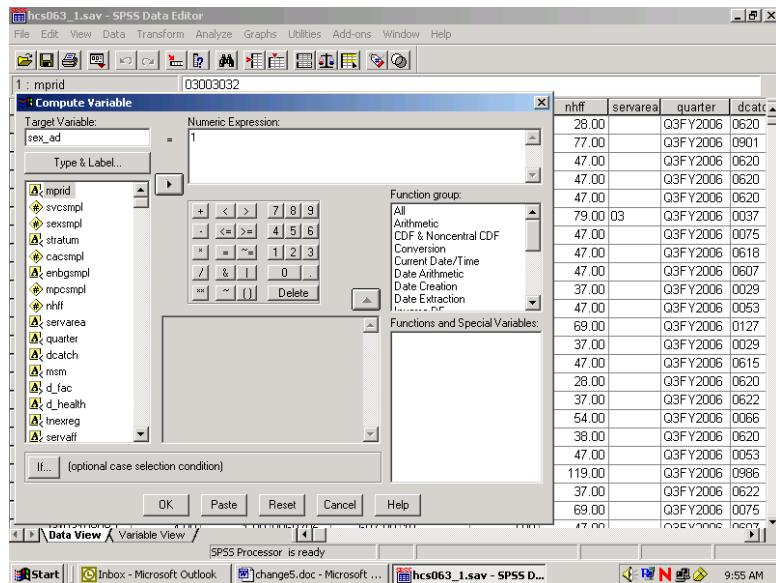

Open the Transform menu and select Compute as in the following:

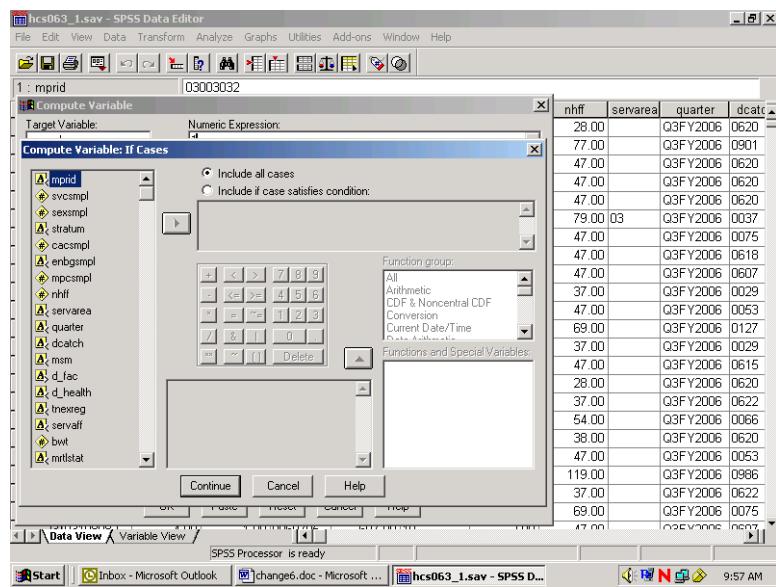

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable **sex\_ad**. Next, assign the value 1 to **sex\_ad** by entering it into the slot for Numeric Expression. Your screen should look like the following:

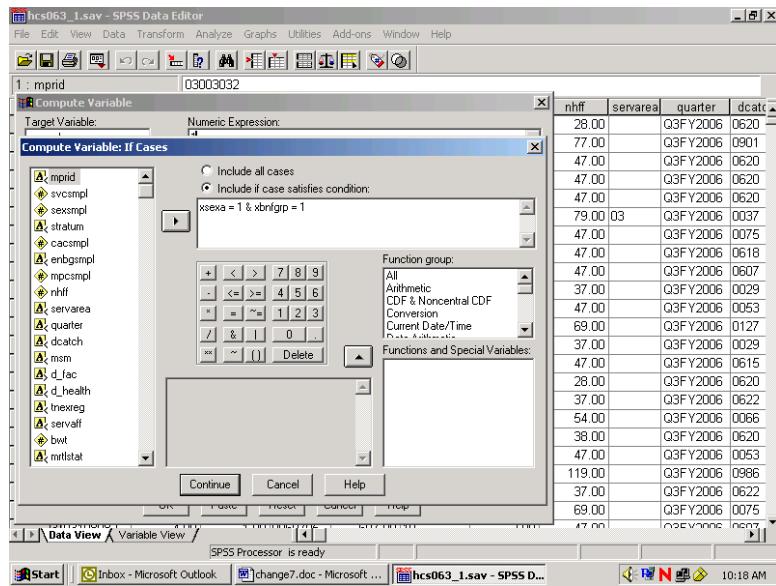

Once you we have assigned the value 1 to sex\_ad, you can build the condition that qualifies the assignment. Click on If..and open the following dialog box:

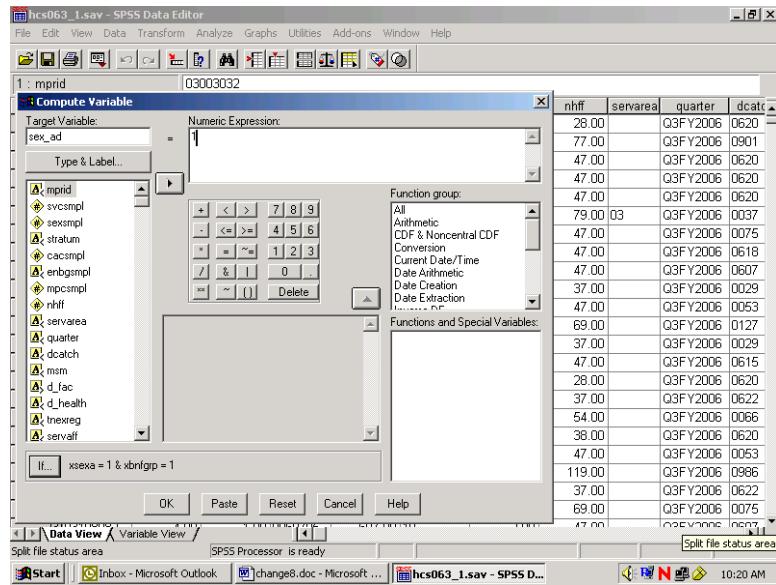

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexa = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex\_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply assign the value 2 to sex\_ad, press If, and enter the new condition to identify active duty females. Click Continue, and finish with OK. The condition, if xsexa = 2 and xbnfgrp = 1, will be added to the new variable sex\_ad.

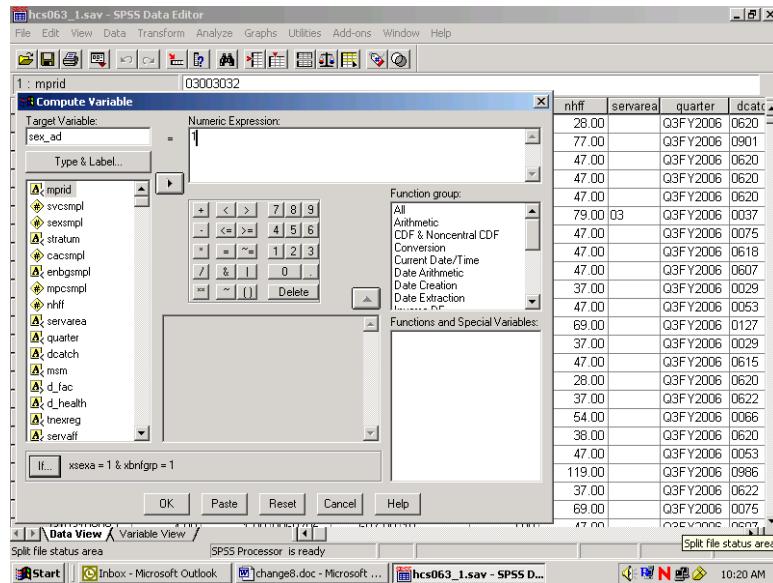

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

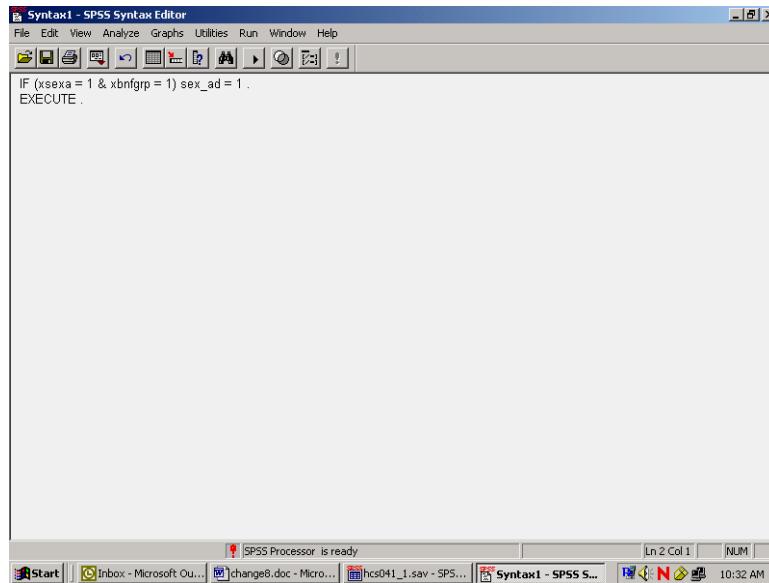

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

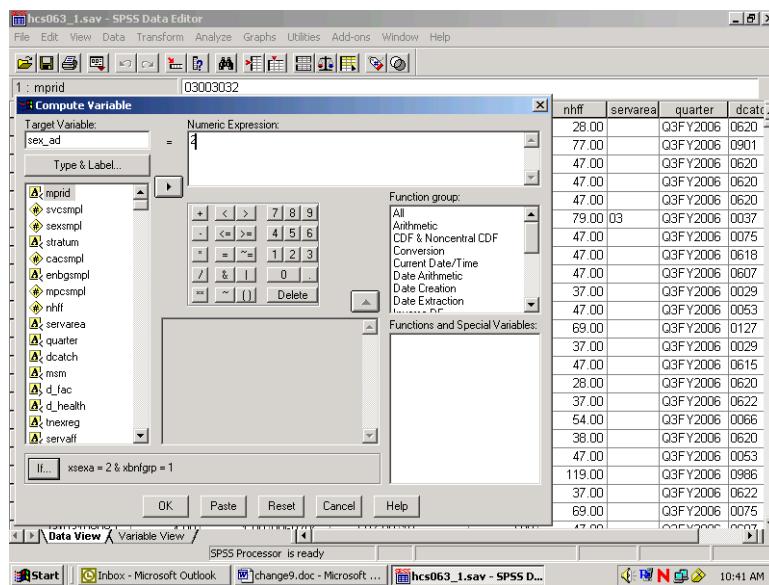

Recall the compute example for the new variable sex\_ad. The screen below is the result of assigning 1 to sex\_ad according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

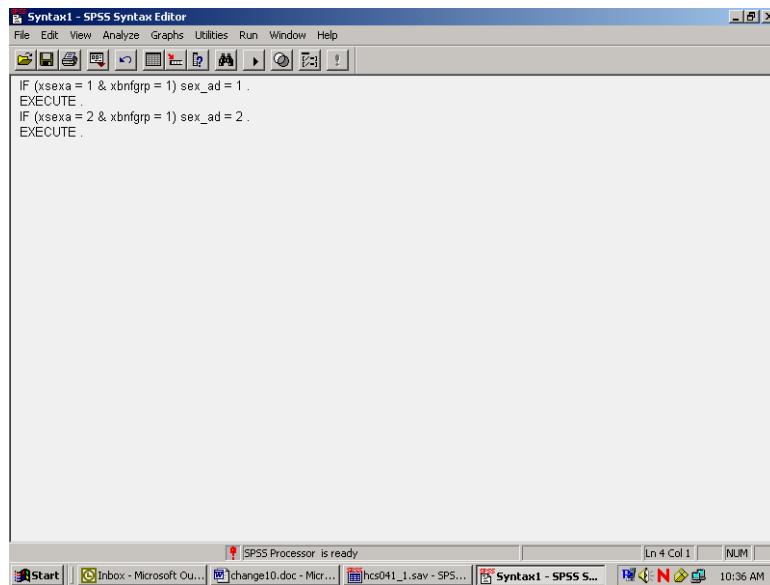

Click on the Paste button, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex\_ad** as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New\_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **DAGEQY**, which exists on our dataset. **DAGEQY** is coded in years from 18 to 100, which can be grouped into four age categories:

18 to 34 = 1 - label: "young adult"

35 to 49 = 2 - label: "mature adult"

50 to 65 = 3 – label: "middle-age"

66 to 99 = 4 – label: "senior citizen"

The new variable is called **age\_grp**.

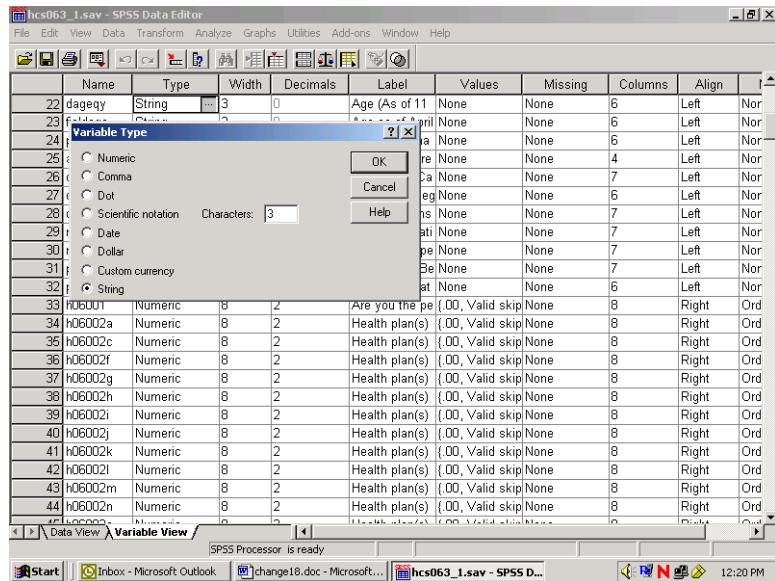

**DAGEQY** is a string variable. In order for it to be recoded using grouping criteria, it must be converted to a numeric variable. In the data window go to the column for the variable **DAGEQY** and click in the gray area at the top of the column causing the variable to be selected as the following screen indicates.

In the Type column click on the gray square and the following Menu will open.

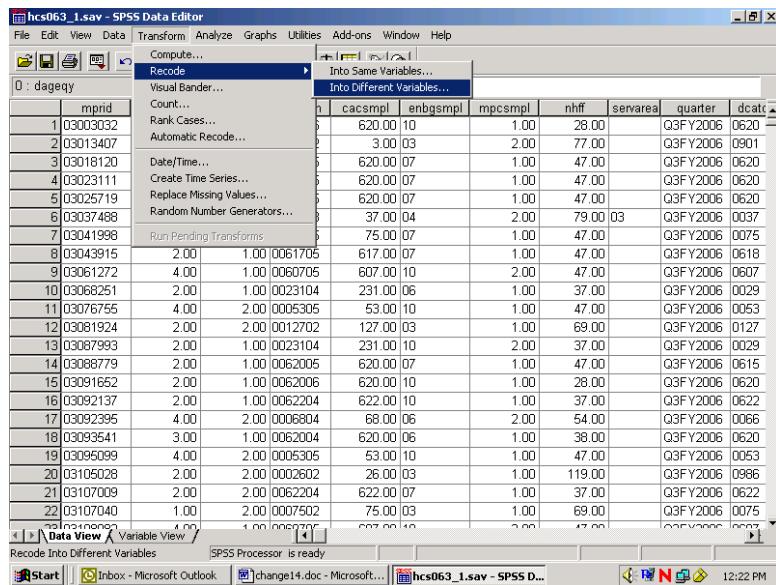

Transfer the black dot from String to Numeric as follows:

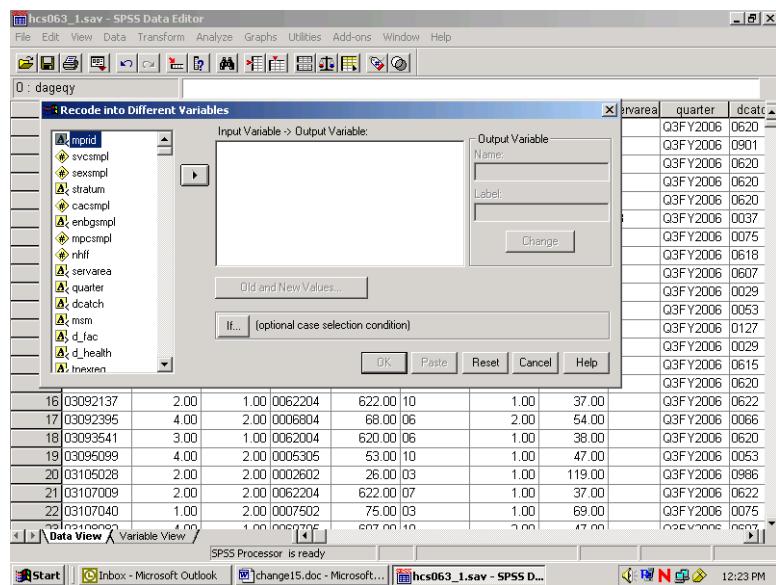

Click on OK to set the changes. Click on the Data View tab to return to the Data Editor window.

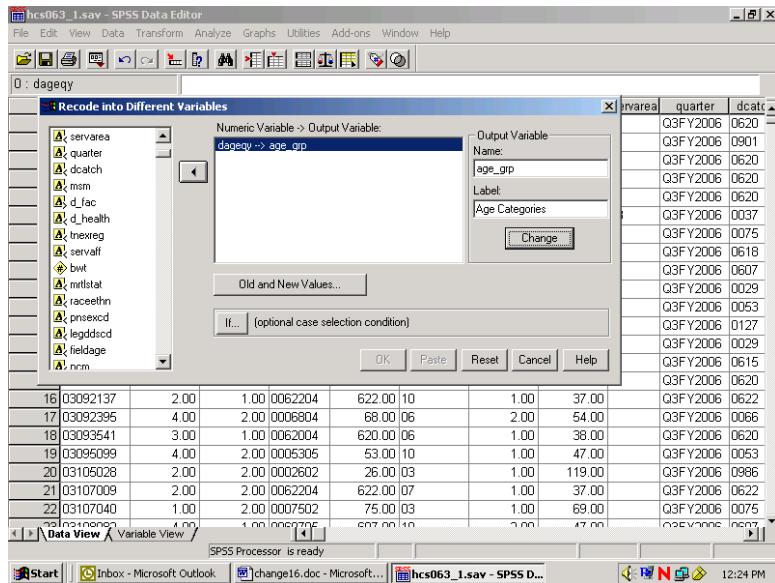

Now from the **Transform** menu, choose **Recode** and **Into Different Variables** as pictured below:

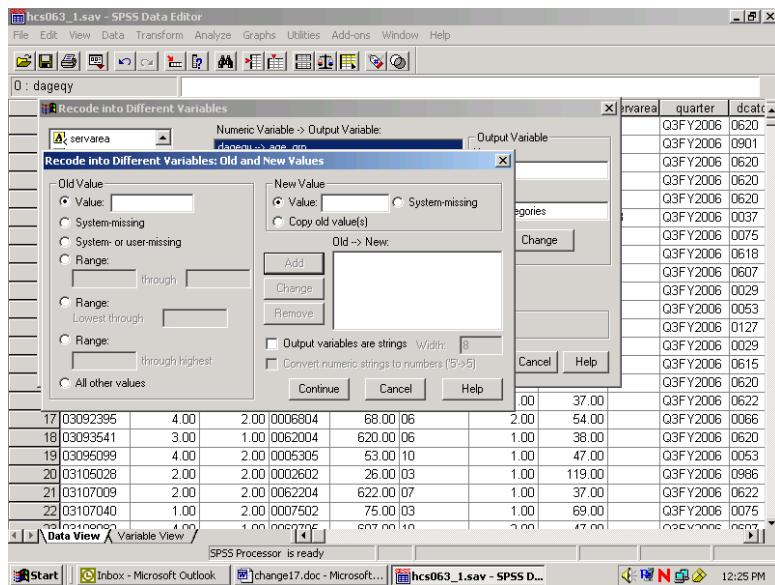

The following dialog box will open:

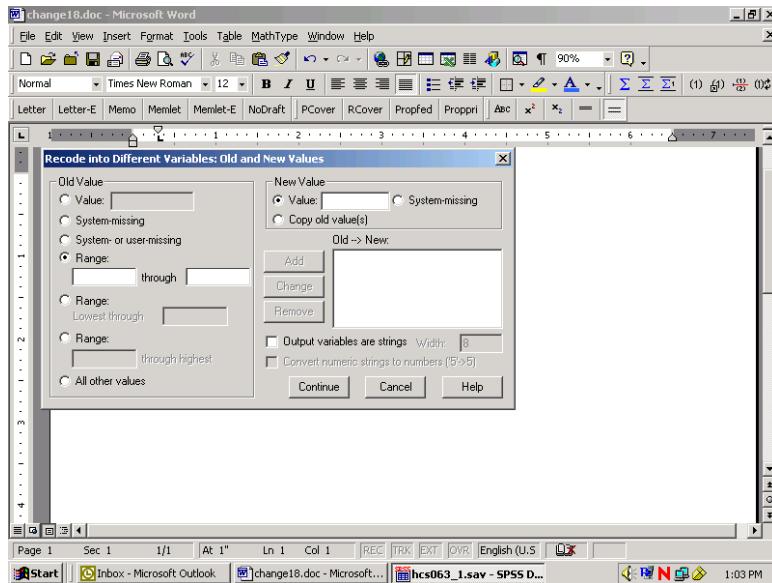

Move **DAGEQY** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age\_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

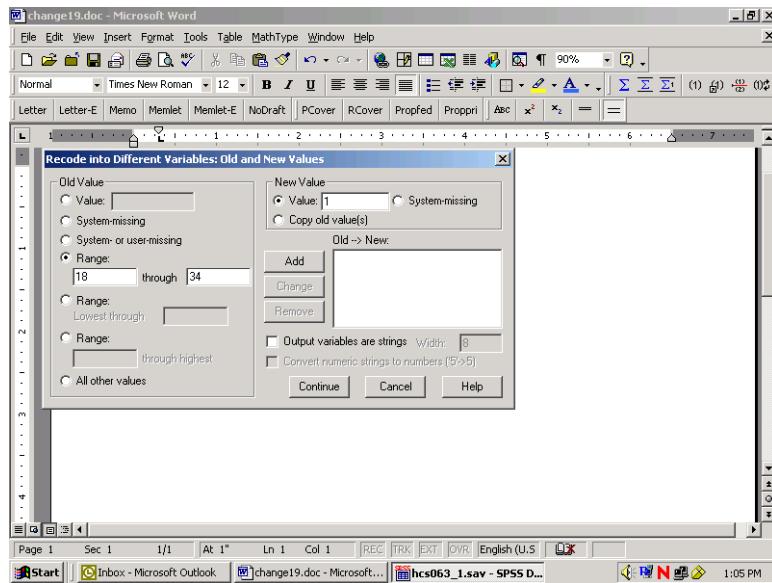

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

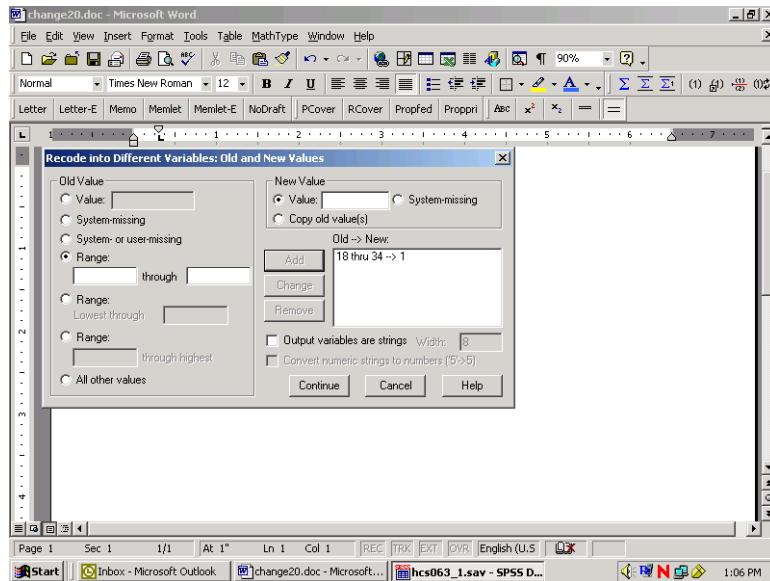

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 **through** 34 in the slots provided under **Range**. Next, enter the value **1** in the **New Value** slot under **New Value**. **Add** is now illuminated.

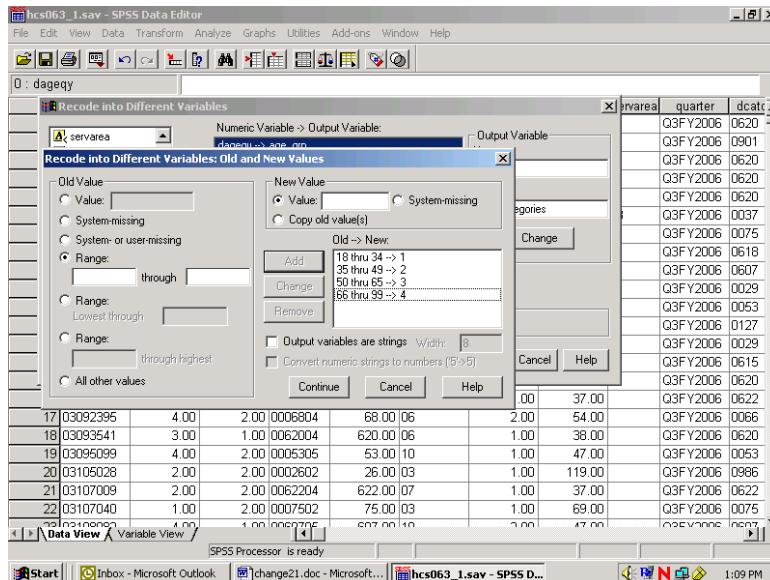

Clicking on Add produces the following result:

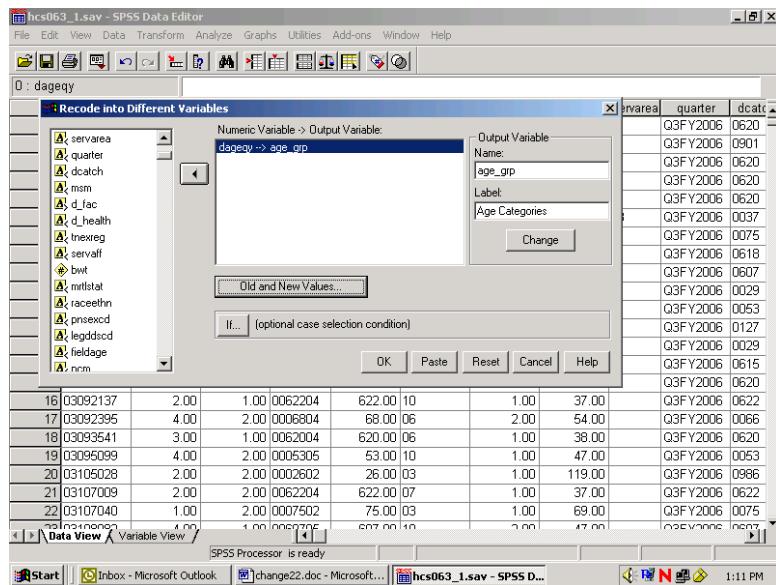

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

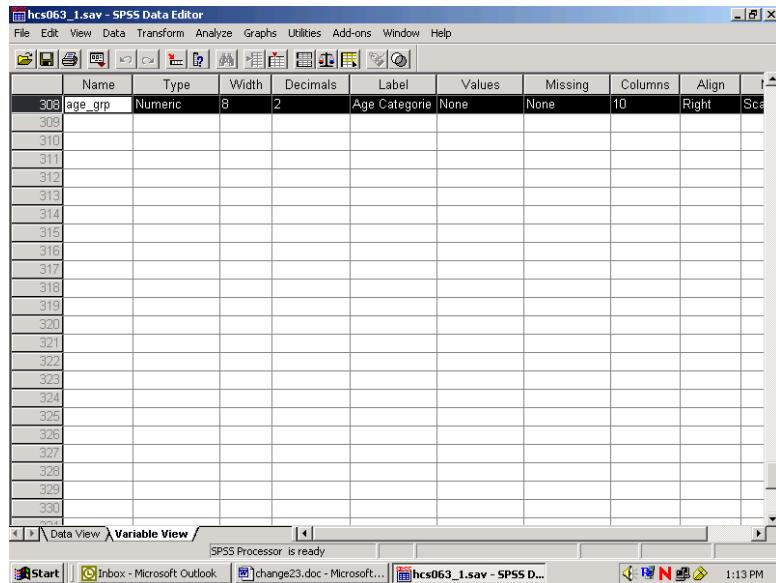

Click on Continue and return to the previous screen.

Click on **OK** to exit the screen. The new variable **age\_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

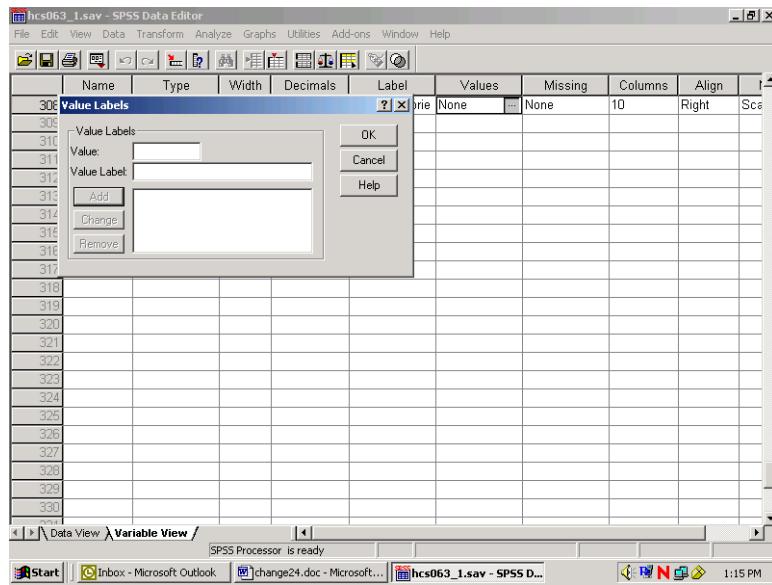

The final task is to create the value labels for the new variable **age\_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

In the **Data Window**, go to the column for the new variable **age\_grp** and double click in the gray area containing the variable name. The screen will change to variable view:

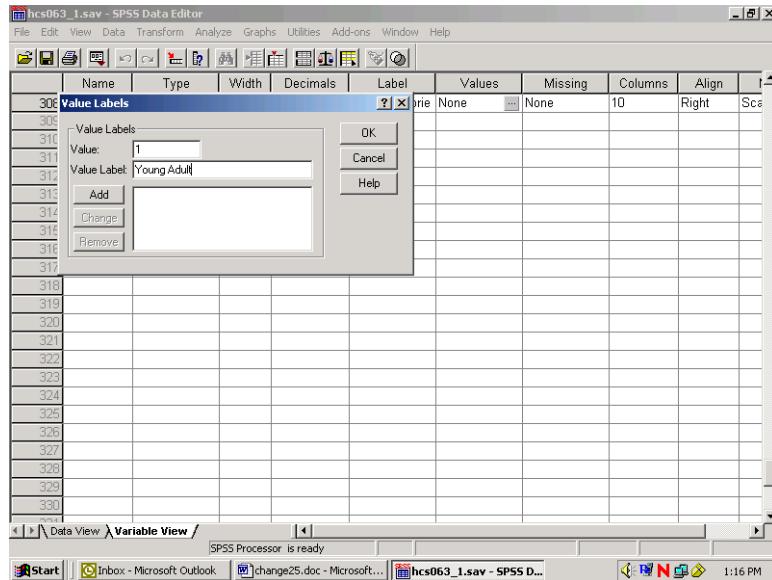

The variable **age\_grp** is shown with its attributes.

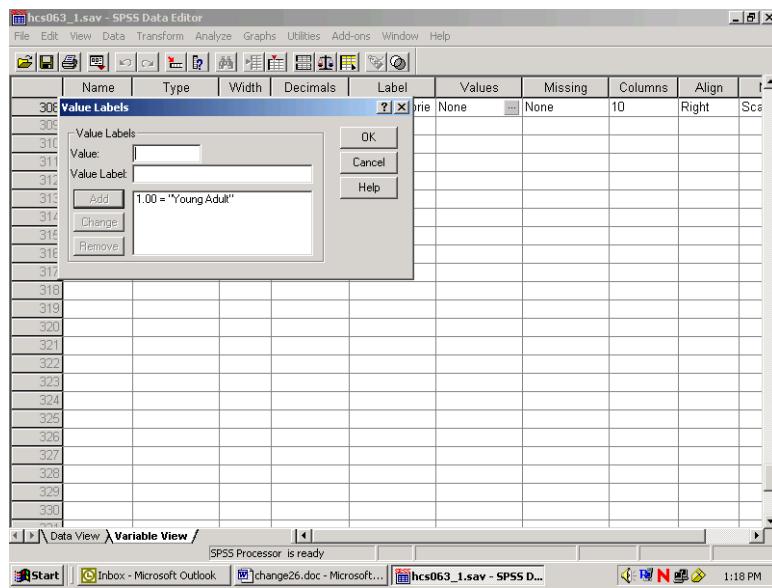

Click in the cell under **Values** and the following dialog box will open:

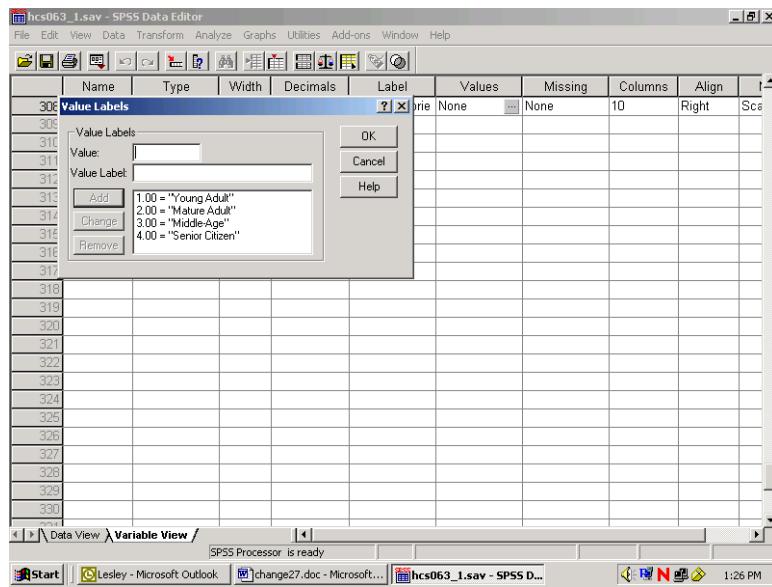

You can then begin to label the *values* of **age\_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked **Value Label**. The screen will look like the following:

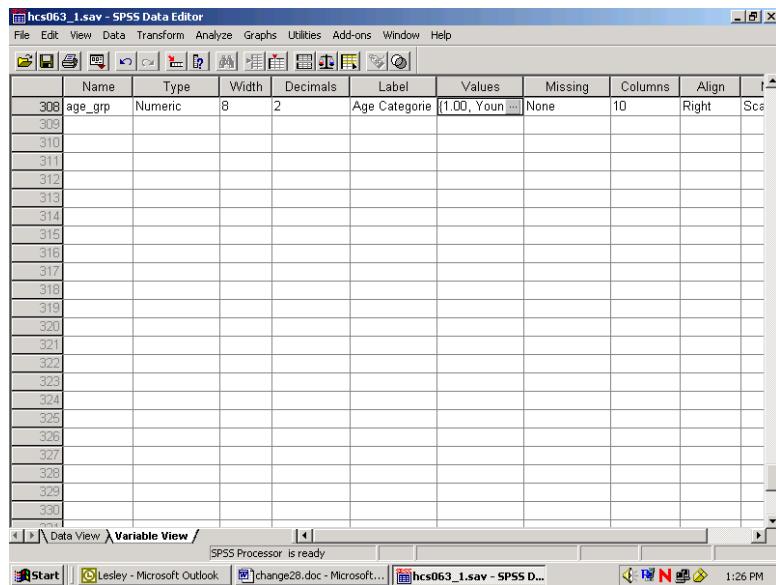

**Add** is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click on **OK** and the screen will appear as follows:

Click on the **Data View** tab to return to the data screen.

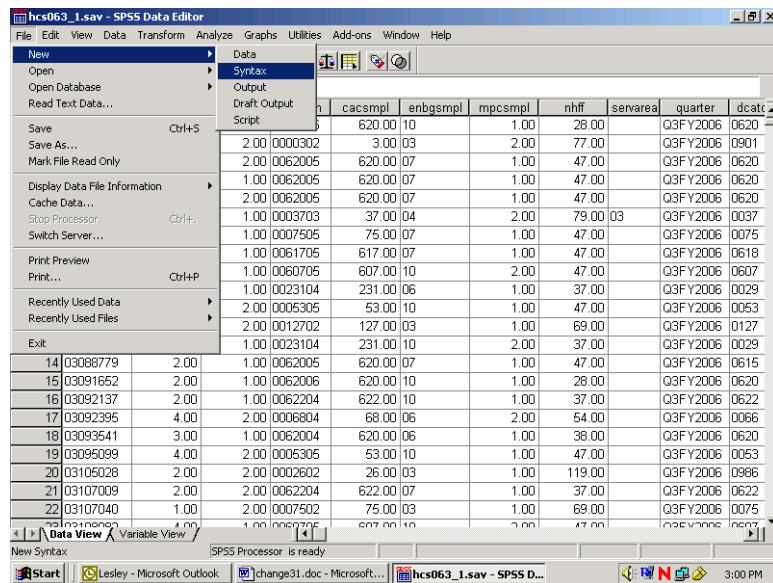

### **Limiting the Number of Variables**

The HCSDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate the rating of all experiences with the health plan as it relates to the beneficiaries' state of health. You are also interested in people that see a specialist, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among catchment areas by beneficiary group and enrollment. You can do all the work on a subset of only nine variables, saving them in a separate file.

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New**, **Syntax** on the **File** menu as in the following:

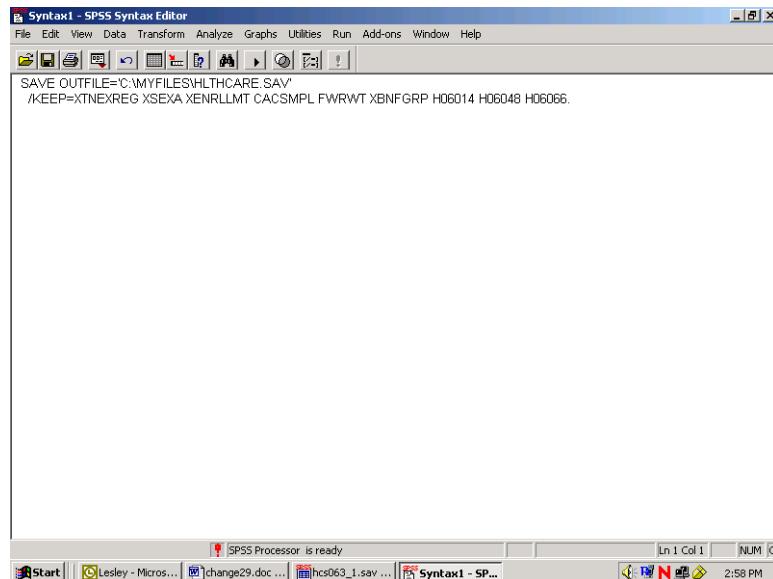

A blank syntax window will open.

Write the following command, substituting the file name and directory specification:

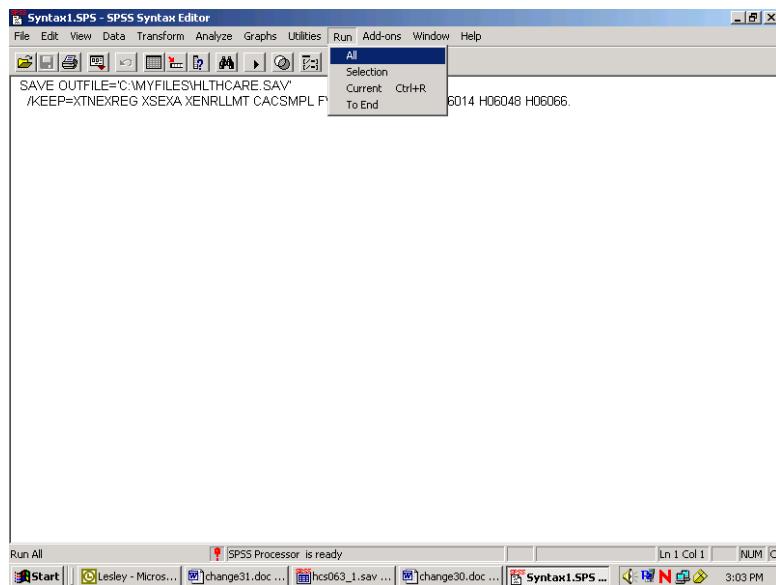

```
SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XTNEXREG XSEXA XENRLLMT  
CACSMPL FWRWT XBNFGRP H06014 H06048 H06066.
```

as in the following:

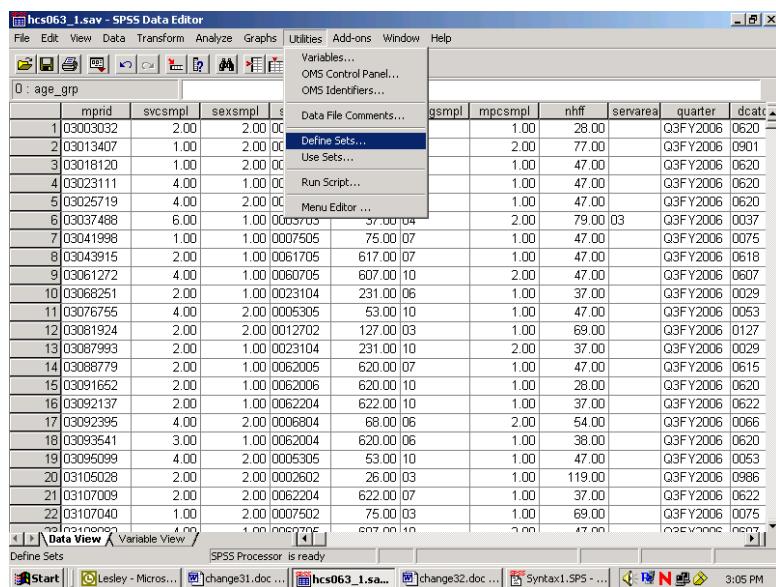

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

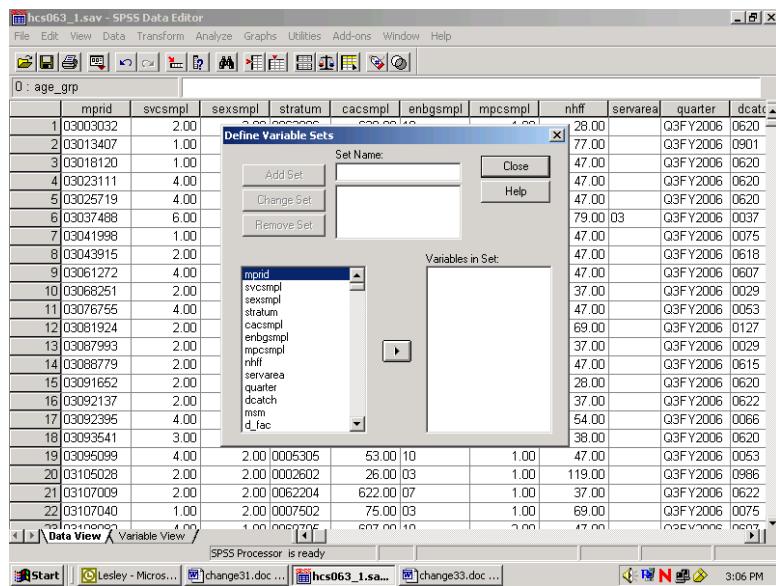

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utility** menu, define a subset of variables as in the following:

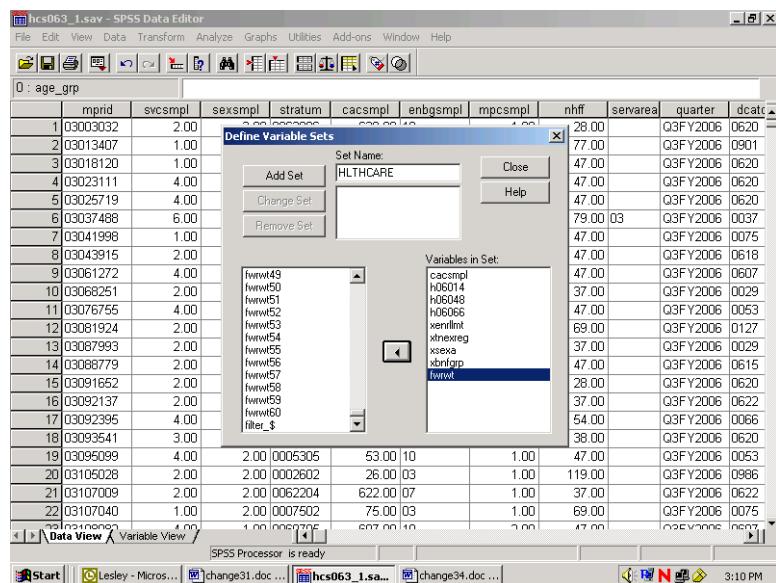

Select Define Sets.

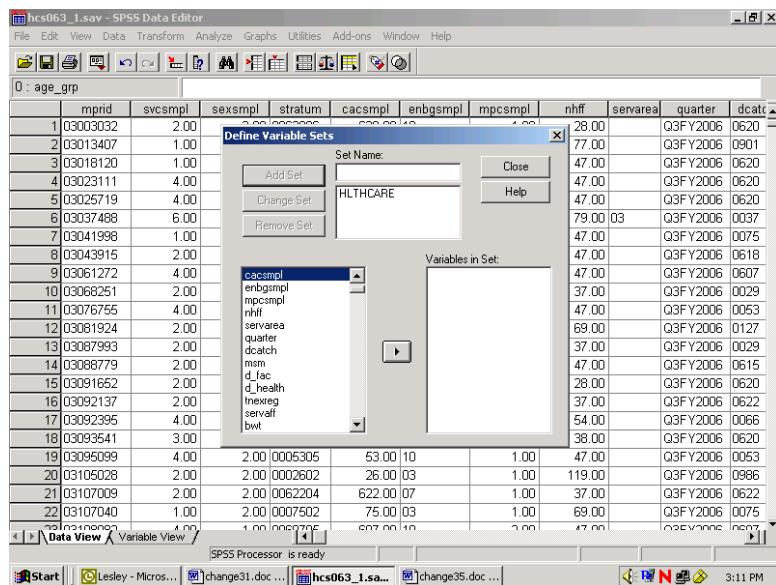

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

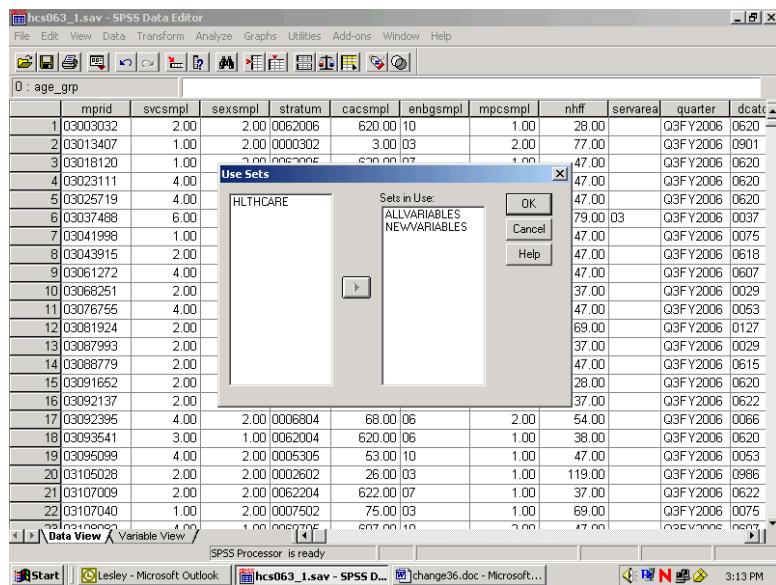

The screen should look like the following:

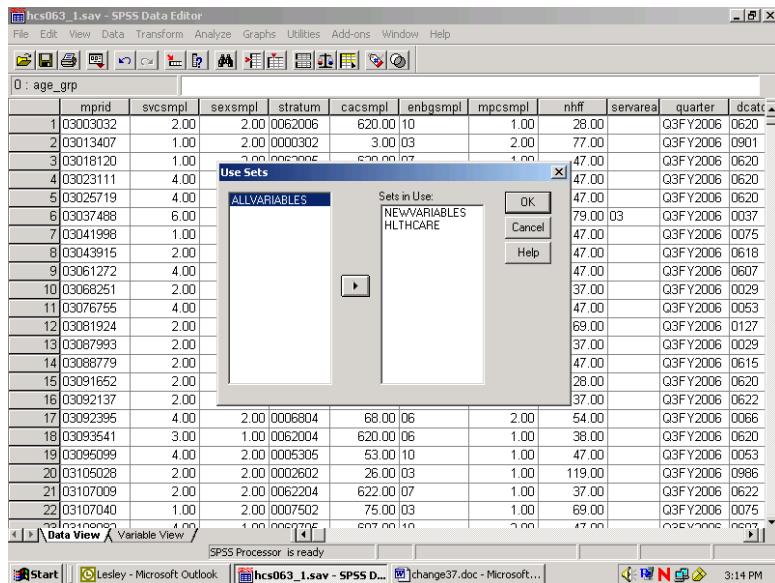

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Sets...,** and receive this screen:

Move HLTHCARE from the left slot to the right slot, which is labeled **Sets in Use**. Transfer ALLVARIABLES from the right to the left slot. Leave NEWVARIABLES where it is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

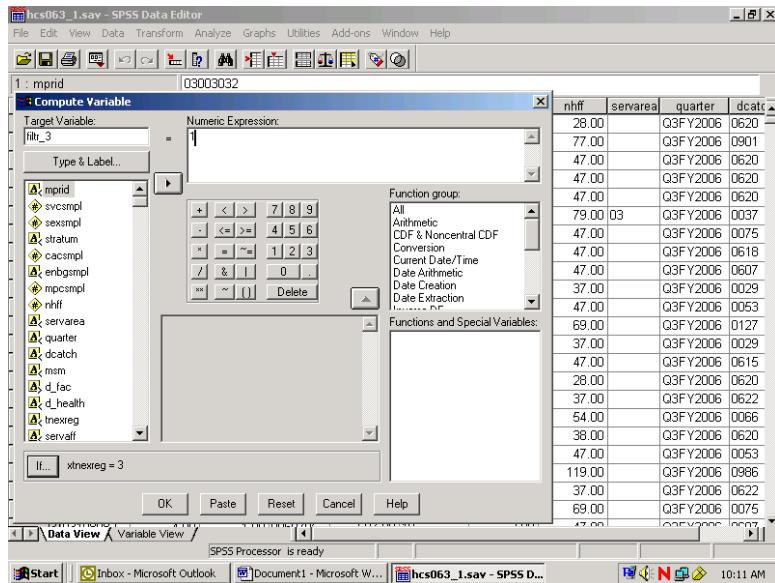

### Limiting the Number of Observations

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

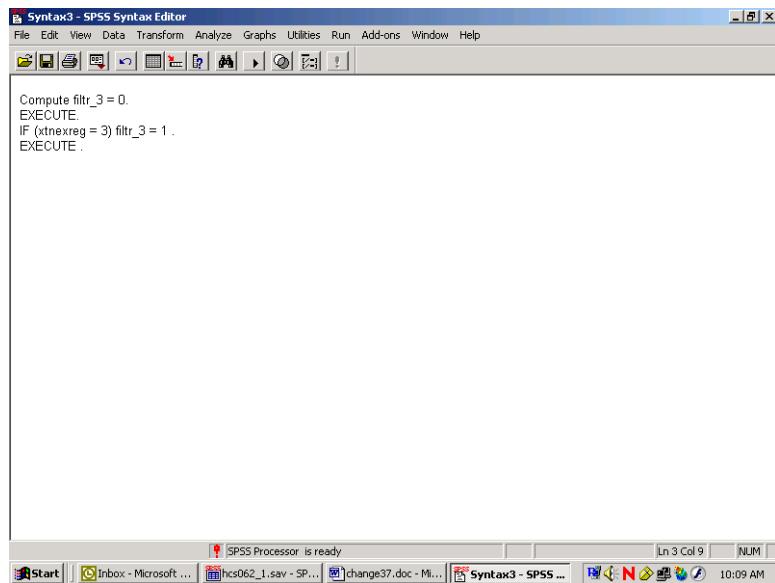

The first task is to **compute** a filter variable for all the cases in the file. A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the West, i.e., cases for which the variable **xtnexreg = 3**. You would build a filter variable named **filtr\_3**, which has the value **1** associated with the cases in the West and 0 for all the other cases in the file. The logic is: if **xtnexreg = 3**, then **filtr\_3 = 1**, else **filtr\_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

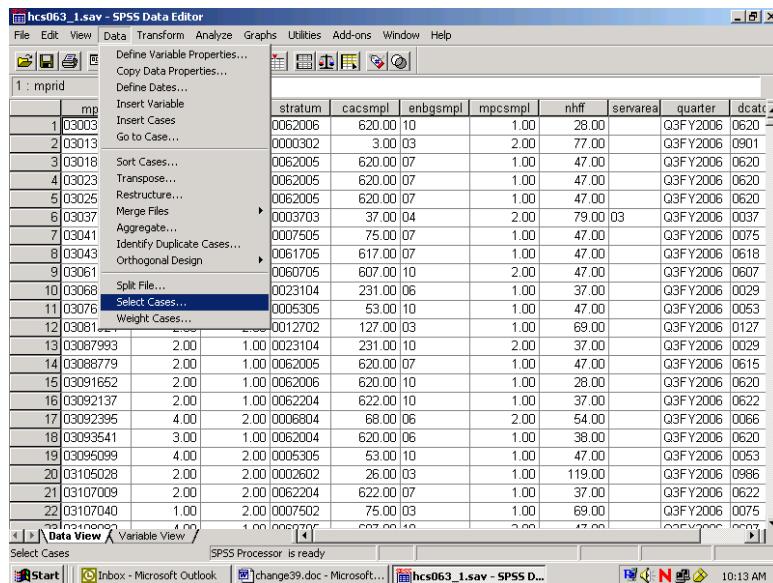

The screen that follows shows the syntax that was generated as you built the variable `filtr_3`.

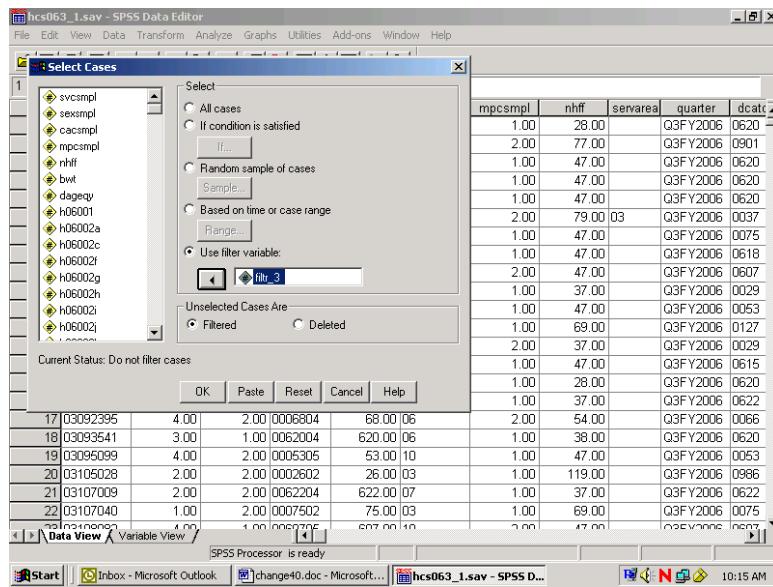

Once you build the filter variable, you can apply it for analyzing only those people from the West.

Using the **Data** menu, choose **Select Cases**.

In the dialog box, check **Use filter variable**. Move the variable **filtr\_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filtered** is checked under **Unselected Cases Are**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

The screenshot shows the SPSS Data Editor window with the title bar "hcs063\_1.sav - SPSS Data Editor". The menu bar includes File, Edit, View, Data, Transform, Analyze, Graphs, Utilities, Add-ons, Window, and Help. The toolbar has various icons for data manipulation. The status bar at the bottom shows "SPSS Processor is ready" and "Filter On". The data view shows a subset of cases from row 1 to 22, with columns including mpnid, svcsmpl, sexmpl, stratum, cacsmpl, enbgsmpl, mpcsmpl, nhff, servarea, quarter, and dcat. A filter icon is visible in the status bar.

| mpnid | svcsmpl  | sexmpl | stratum | cacsmpl | enbgsmpl | mpcsmpl | nhff | servarea | quarter  | dcat          |
|-------|----------|--------|---------|---------|----------|---------|------|----------|----------|---------------|
| 1     | 03003032 | 2.00   | 2.00    | 0062006 | 620.00   | 10      | 1.00 | 28.00    | Q3FY2006 | 0620          |
| 2     | 03013407 | 1.00   | 2.00    | 0000302 | 3.00     | 03      | 2.00 | 77.00    | Q3FY2006 | 0901          |
| 3     | 03018120 | 1.00   | 2.00    | 0062005 | 620.00   | 07      | 1.00 | 47.00    | Q3FY2006 | 0620          |
| 4     | 03023111 | 4.00   | 1.00    | 0062005 | 620.00   | 07      | 1.00 | 47.00    | Q3FY2006 | 0620          |
| 5     | 03025719 | 4.00   | 2.00    | 0062005 | 620.00   | 07      | 1.00 | 47.00    | Q3FY2006 | 0620          |
| 6     | 03037488 | 6.00   | 1.00    | 0003703 | 37.00    | 04      | 2.00 | 79.00    | 03       | Q3FY2006 0037 |
| 7     | 03041998 | 1.00   | 1.00    | 0007505 | 75.00    | 07      | 1.00 | 47.00    | Q3FY2006 | 0075          |
| 8     | 03043815 | 2.00   | 1.00    | 0061705 | 617.00   | 07      | 1.00 | 47.00    | Q3FY2006 | 0618          |
| 9     | 03061272 | 4.00   | 1.00    | 0060705 | 607.00   | 10      | 2.00 | 47.00    | Q3FY2006 | 0607          |
| 10    | 03068251 | 2.00   | 1.00    | 0023104 | 231.00   | 06      | 1.00 | 37.00    | Q3FY2006 | 0029          |
| 11    | 03076755 | 4.00   | 2.00    | 0005305 | 53.00    | 10      | 1.00 | 47.00    | Q3FY2006 | 0053          |
| 12    | 03081924 | 2.00   | 2.00    | 0012702 | 127.00   | 03      | 1.00 | 69.00    | Q3FY2006 | 0127          |
| 13    | 03087993 | 2.00   | 1.00    | 0023104 | 231.00   | 10      | 2.00 | 37.00    | Q3FY2006 | 0029          |
| 14    | 03088779 | 2.00   | 1.00    | 0062005 | 620.00   | 07      | 1.00 | 47.00    | Q3FY2006 | 0615          |
| 15    | 03091652 | 2.00   | 1.00    | 0062006 | 620.00   | 10      | 1.00 | 28.00    | Q3FY2006 | 0620          |
| 16    | 03092137 | 2.00   | 1.00    | 0062204 | 622.00   | 10      | 1.00 | 37.00    | Q3FY2006 | 0622          |
| 17    | 03092395 | 4.00   | 2.00    | 0006804 | 68.00    | 06      | 2.00 | 54.00    | Q3FY2006 | 0066          |
| 18    | 03093541 | 3.00   | 1.00    | 0062004 | 620.00   | 06      | 1.00 | 47.00    | Q3FY2006 | 0075          |
| 19    | 03095098 | 4.00   | 2.00    | 0005305 | 53.00    | 10      | 1.00 | 38.00    | Q3FY2006 | 0620          |
| 20    | 03105028 | 2.00   | 2.00    | 0002602 | 26.00    | 03      | 1.00 | 119.00   | Q3FY2006 | 0986          |
| 21    | 03107009 | 2.00   | 2.00    | 0062204 | 622.00   | 07      | 1.00 | 37.00    | Q3FY2006 | 0622          |
| 22    | 03107040 | 1.00   | 2.00    | 0007502 | 75.00    | 03      | 1.00 | 69.00    | Q3FY2006 | 0075          |

You can now produce tables for the subset of cases.

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see which filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

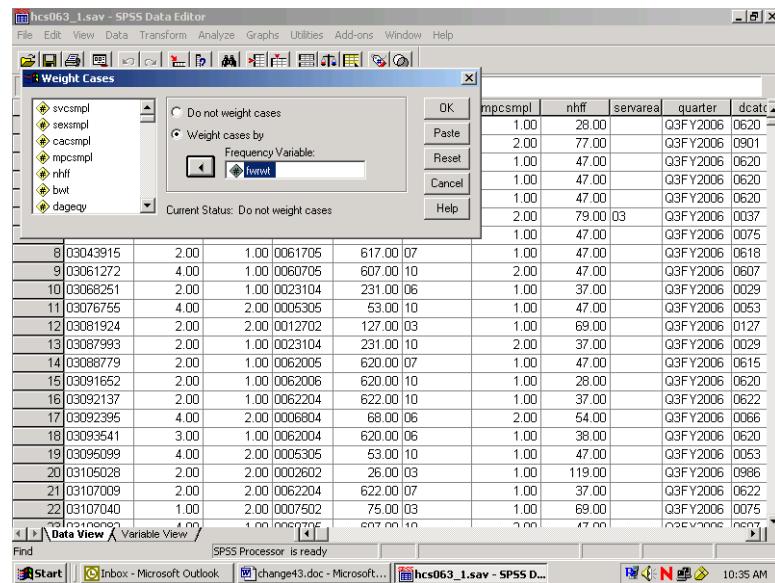

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

The screenshot shows the SPSS Select Cases dialog box. The left pane lists variables: svcsmpl, sexmpl, cacsmpl, mpcsmpl, nhff, bvt, dageqr, h6001, h6002a, h6002c, h6002, h6002g, h6002h, h6002i, h6002j. The right pane shows a subset of cases from row 17 to 22, with columns mpcsmpl, nhff, servarea, quarter, and dcat. The status bar at the bottom shows "SPSS Processor is ready" and "Filter On".

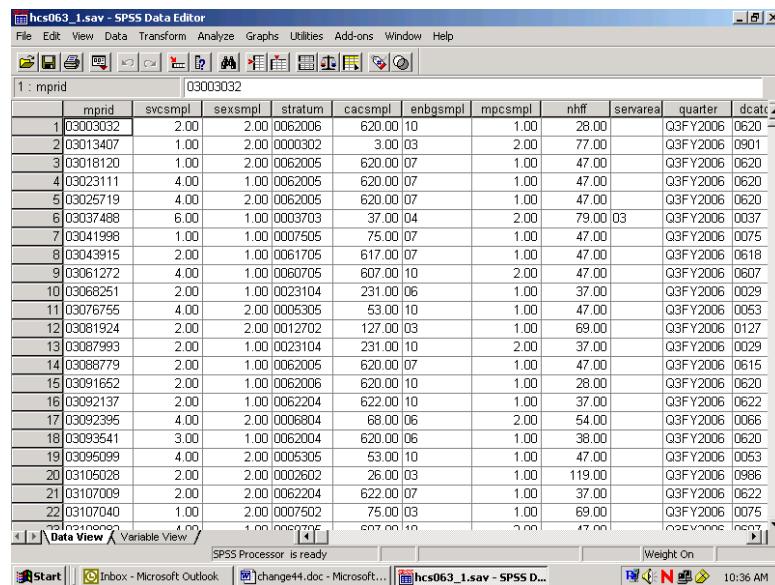

| mpcsmpl | nhff  | servarea | quarter  | dcat |
|---------|-------|----------|----------|------|
| 1.00    | 28.00 | Q3FY2006 | 0620     |      |
| 2.00    | 77.00 | Q3FY2006 | 0901     |      |
| 1.00    | 47.00 | Q3FY2006 | 0620     |      |
| 1.00    | 47.00 | Q3FY2006 | 0620     |      |
| 1.00    | 47.00 | Q3FY2006 | 0620     |      |
| 2.00    | 79.00 | 03       | Q3FY2006 | 0037 |
| 1.00    | 47.00 | Q3FY2006 | 0075     |      |
| 1.00    | 47.00 | Q3FY2006 | 0618     |      |
| 2.00    | 47.00 | Q3FY2006 | 0607     |      |
| 1.00    | 37.00 | Q3FY2006 | 0029     |      |
| 1.00    | 47.00 | Q3FY2006 | 0053     |      |
| 1.00    | 69.00 | Q3FY2006 | 0127     |      |
| 2.00    | 37.00 | Q3FY2006 | 0029     |      |
| 1.00    | 47.00 | Q3FY2006 | 0615     |      |
| 1.00    | 28.00 | Q3FY2006 | 0620     |      |
| 1.00    | 37.00 | Q3FY2006 | 0622     |      |
| 2.00    | 54.00 | Q3FY2006 | 0066     |      |
| 1.00    | 38.00 | Q3FY2006 | 0620     |      |
| 1.00    | 47.00 | Q3FY2006 | 0053     |      |
| 2.00    | 75.00 | 03       | Q3FY2006 | 0075 |

## Weighting Data

The data file includes a weighting variable, FWRWT, which should be applied to all procedure runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

## BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H06014, H06048, H06066, cacsmpl, xbnfgrp, xsexa, xtnexreg, xenrlmmt, FWRWT, and filtr\_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

### Calculating Means

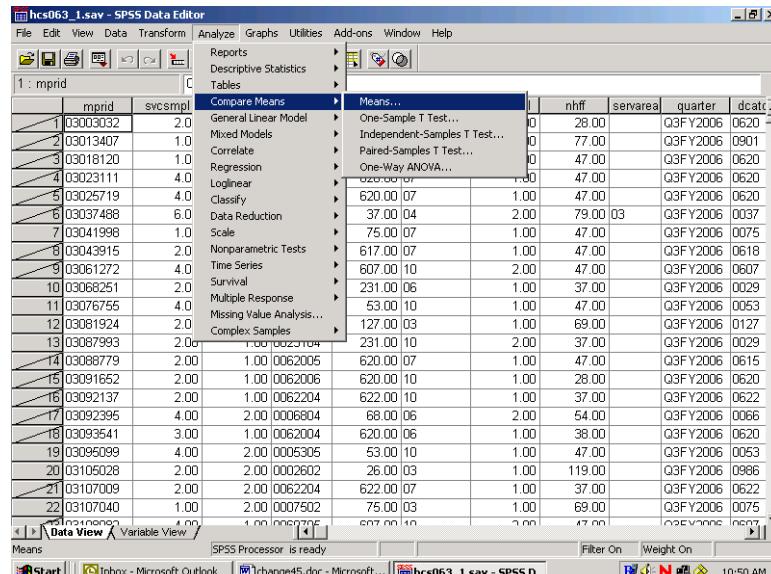

As an example, suppose you want to analyze the health care variables and you want to focus on the West (**xtnexreg = 3**). Suppose you are also interested in overall differences in the mean rating for care received as it relates to the beneficiary's self-evaluation of his health for the West region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H06048** – rating of the health plan, and **H06066** – assessment of the state of health. The statistic you want to see is the mean of the health care variables for each group in our breakdown.

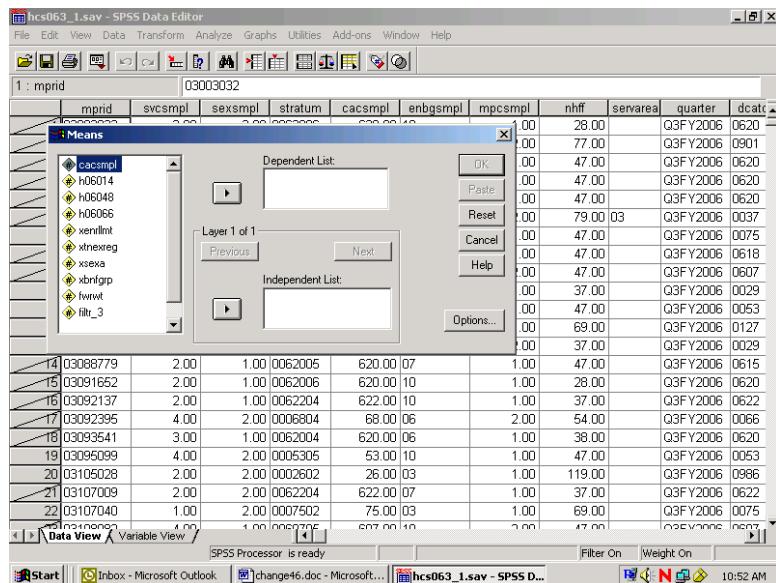

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **FWRWT**, which you would activate for procedure runs. The subset also includes the new variable, **filtr\_3**, which allows us to select only those cases in the West.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **FWRWT**. Reopen the **Data** menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr\_3**. On the status line, **Filter On** and **Weight On** should appear.

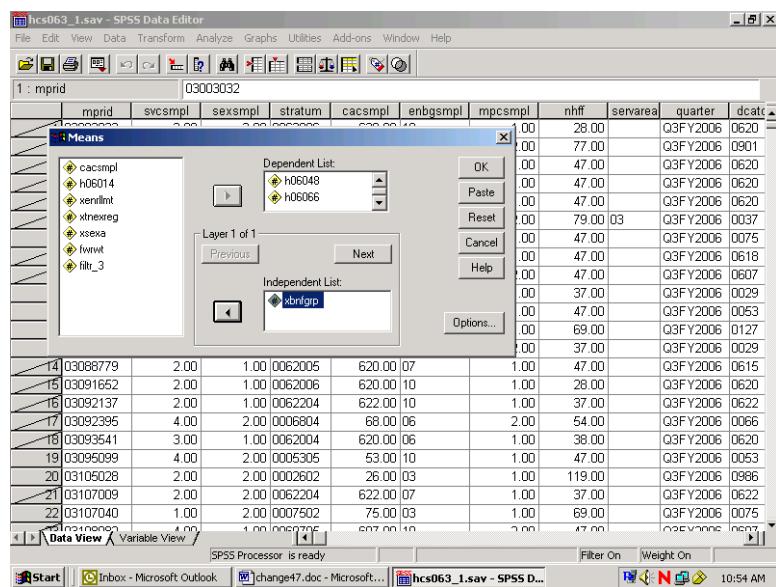

Open the **Analyze** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

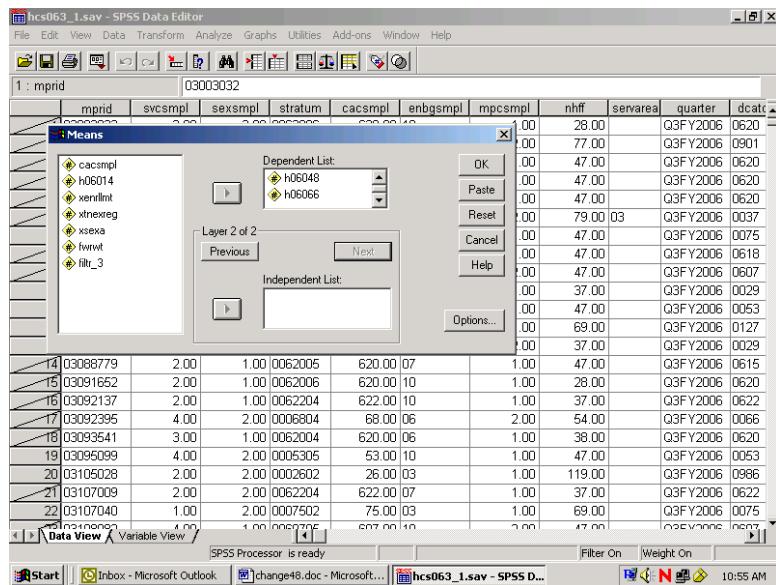

The dialog box for the Means procedure will open as in the following screen:

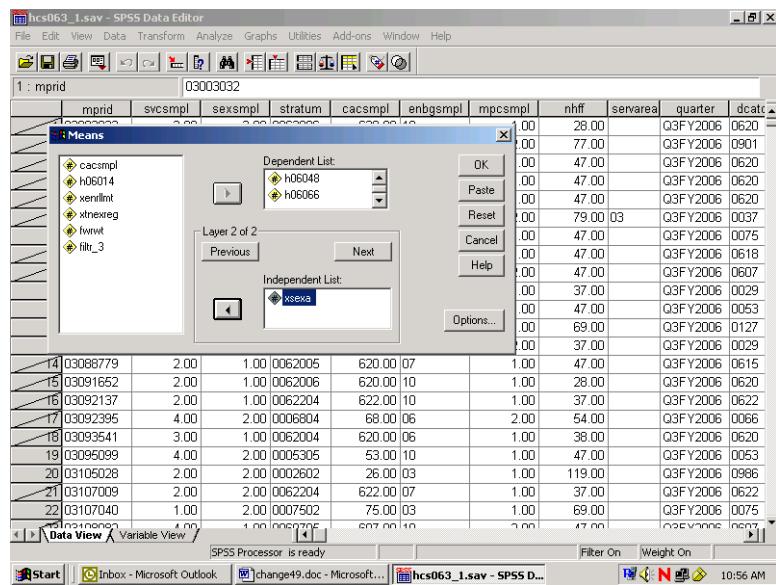

Move the health care variables **H06048** and **H06066**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **XBNFGRP** from the variable list on the left into the box under **Independent List**. **XBNFGRP** is the first grouping variable. The screen should look like the following:

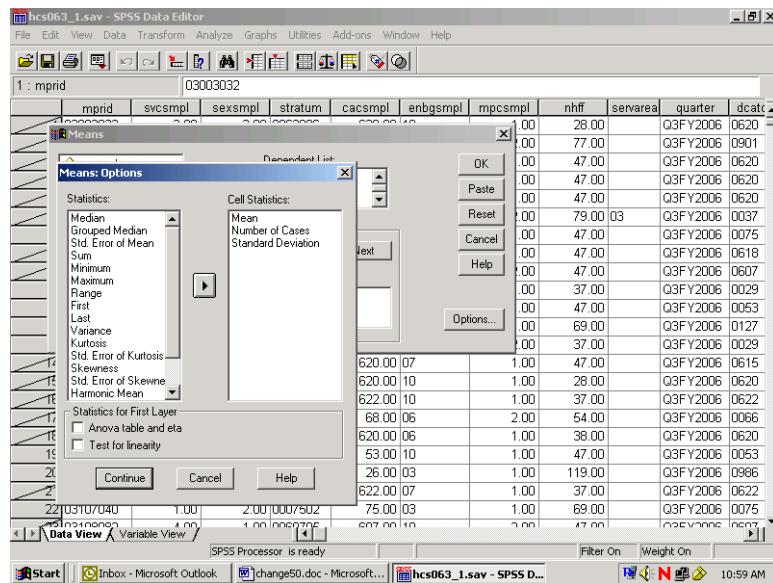

Click on **Next** in the center of the box to create a second layer. The following screen will open:

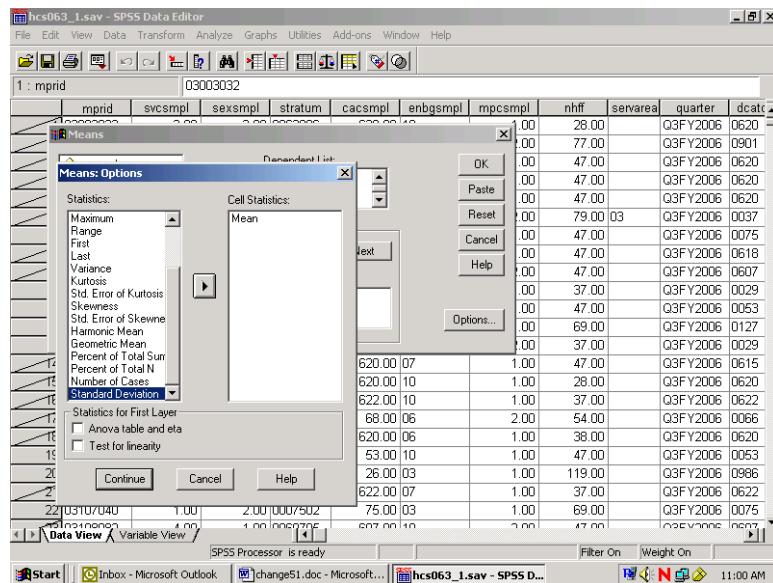

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsexa** from the variable list on the left into the box under **Independent List**. **Xsexa** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

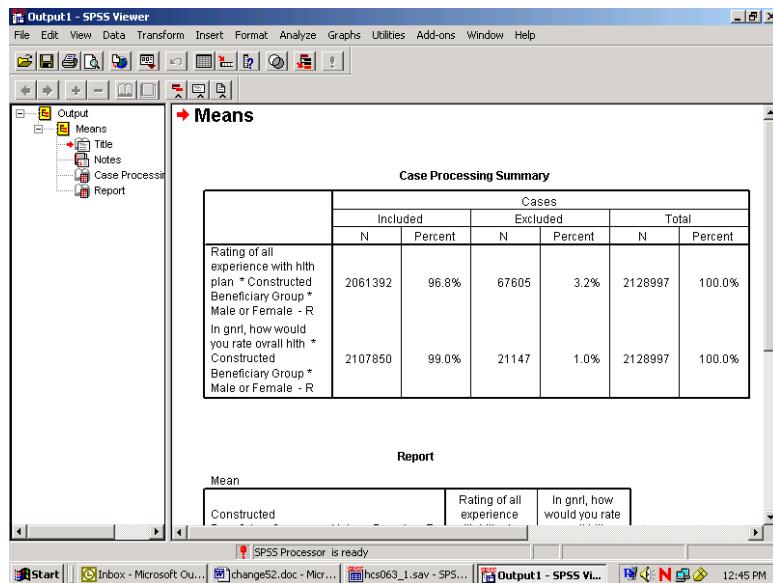

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

The screenshot shows the SPSS Viewer window with the title bar "Output1 - SPSS Viewer". The left pane displays a tree structure with "Output" expanded, showing "Means" as the selected item (indicated by a red border). Below the tree is a toolbar with various icons. The main pane contains a section titled "Means" with a sub-section "Case Processing Summary". This table provides a summary of included and excluded cases:

|  | Cases    |       |          |      |         |        |
|--|----------|-------|----------|------|---------|--------|
|  | Included |       | Excluded |      | Total   |        |
| N  | Percent  | N     | Percent  | N    | Percent |        |
| Rating of all experience with health plan * Constructed Beneficiary Group * Male or Female - R | 2061392  | 96.8% | 67605    | 3.2% | 2128997 | 100.0% |
| In gmt, how would you rate overall health * Constructed Beneficiary Group * Male or Female - R | 2107850  | 99.0% | 21147    | 1.0% | 2128997 | 100.0% |

Below the table is a "Report" section with a "Mean" table:

| Mean        | Rating of all experience | In gmt, how would you rate |
|-------------|--------------------------|----------------------------|
| Constructed |                          |                            |

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

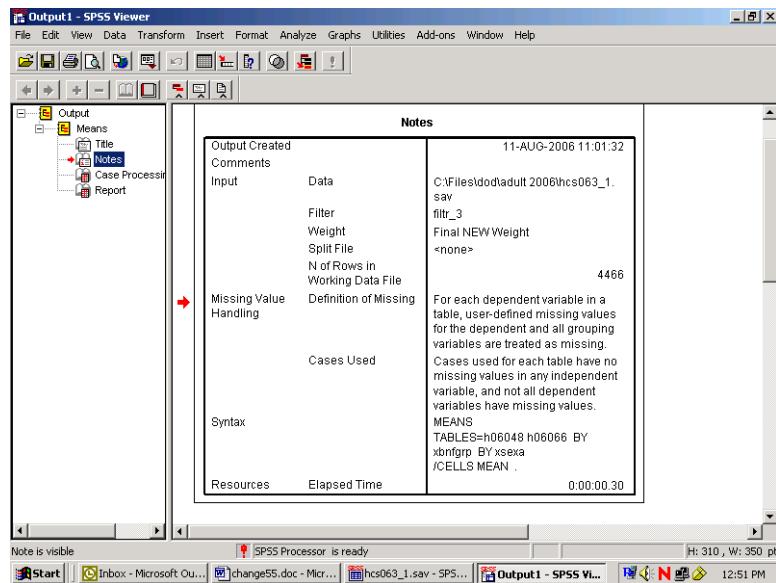

The screenshot shows the SPSS Viewer window with the title bar "Output1 - SPSS Viewer". The left pane displays a tree structure with "Output" expanded, showing "Mean Rating of Health Plan w/Health Assessment" as the selected item (indicated by a red border). Below the tree is a toolbar with various icons. The main pane contains a section titled "Mean Rating of Health Plan w/Health Assessment" with a sub-section "Case Processing Summary". This table provides a summary of included and excluded cases:

|  | Cases    |       |          |      |         |        |
|--|----------|-------|----------|------|---------|--------|
|  | Included |       | Excluded |      | Total   |        |
| N  | Percent  | N     | Percent  | N    | Percent |        |
| Rating of all experience with health plan * Constructed Beneficiary Group * Male or Female - R | 2061392  | 96.8% | 67605    | 3.2% | 2128997 | 100.0% |
| In gmt, how would you rate overall health * Constructed Beneficiary Group * Male or Female - R | 2107850  | 99.0% | 21147    | 1.0% | 2128997 | 100.0% |

Below the table is a "Report" section with a "Mean" table:

| Mean        | Rating of all experience | In gmt, how would you rate |
|-------------|--------------------------|----------------------------|
| Constructed |                          |                            |

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

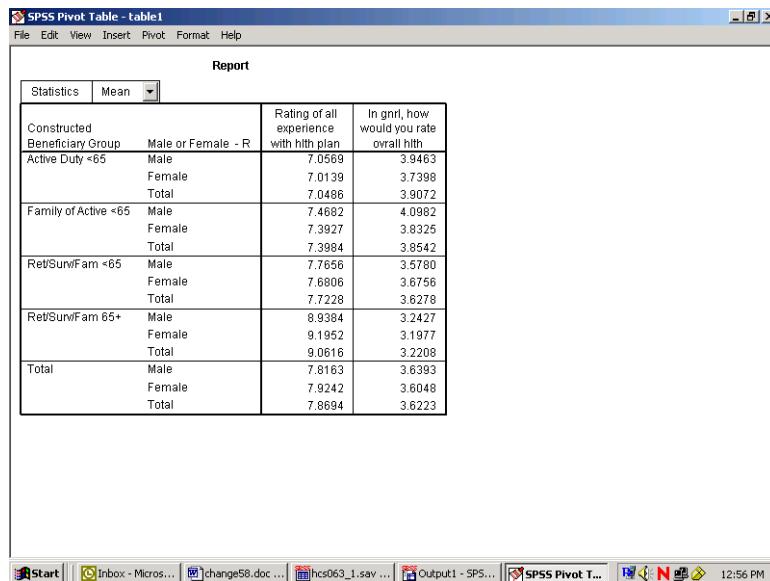

The screenshot shows the SPSS Output2 - SPSS Viewer window. On the left, there's a tree view with 'Output' selected, followed by 'Means', 'Title', 'Notes', 'Case Processing', and 'Report'. The main area displays a table titled 'Mean Rating of Health Plan w/ Health Assessment'. The table has two columns: 'Constructed Beneficiary Group' and 'Rating of all experience with health plan'. The data includes rows for Active Duty <65, Family of Active <65, Ret/Surv/Fam <65, Ret/Surv/Fam 65+, and Total, with sub-rows for Male, Female, and Total. A context menu is open over the table, with the 'SPSS Pivot Table Object' option highlighted.

| Constructed Beneficiary Group | Rating of all experience with health plan |
|-------------------------------|---|
| Active Duty <65               | 7.0208                                    |
| Male                          | 7.1507                                    |
| Female                        | 7.0453                                    |
| Total                         | 7.0453                                    |
| Family of Active <65          | 7.2289                                    |
| Male                          | 7.4210                                    |
| Female                        | 7.4090                                    |
| Total                         | 7.4090                                    |
| Ret/Surv/Fam <65              | 7.3851                                    |
| Male                          | 7.6776                                    |
| Female                        | 7.5315                                    |
| Total                         | 7.5315                                    |
| Ret/Surv/Fam 65+              | 9.0599                                    |
| Male                          | 9.9960                                    |
| Female                        | 9.0291                                    |
| Total                         | 9.0291                                    |
| Total                         | 7.6688                                    |
| Male                          | 7.8916                                    |
| Female                        | 7.7759                                    |
| Total                         | 7.7759                                    |

Select **SPSS Pivot Table Object** and **Open** as pictured below:

This screenshot is similar to the one above, showing the SPSS Output2 - SPSS Viewer window with the same table. However, the context menu is now closed, and the 'Edit' and 'Open' options under the 'SPSS Pivot Table Object' submenu are highlighted in blue, indicating they are selected.

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

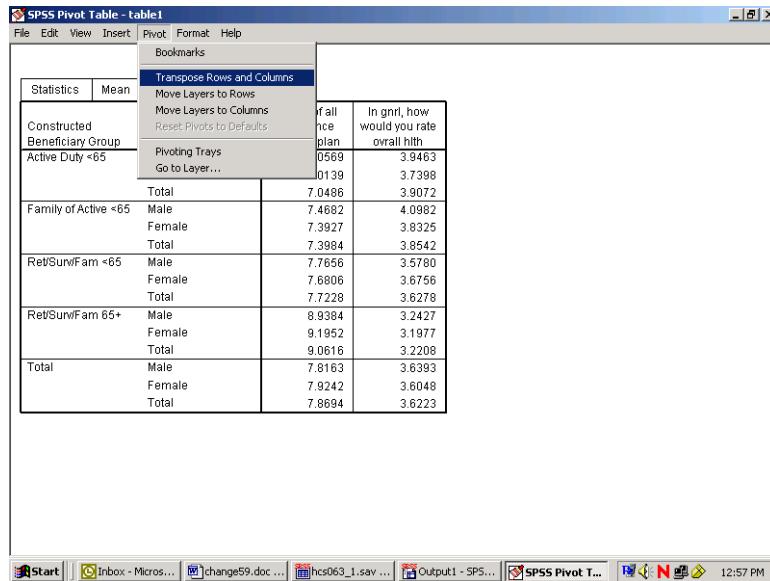

The screenshot shows the SPSS Pivot Table interface with a menu bar (File, Edit, View, Insert, Pivot, Format, Help) and a toolbar. A report titled 'Report' is displayed, showing a table with three columns: 'Constructed Beneficiary Group', 'Male or Female - R', and 'Rating of all experience with health plan'. The table includes rows for Active Duty <65, Family of Active <65, Ret/Surv/Fam <65, and Total, with further breakdowns by Male and Female. The data values range from 7.0486 to 7.9242.

| Constructed Beneficiary Group | Male or Female - R | Rating of all experience with health plan | In genl, how would you rate overall health |
|-------------------------------|--------------------|---|--|
| Active Duty <65               | Male               | 7.0569                                    | 3.9463                                     |
|                               | Female             | 7.0139                                    | 3.7398                                     |
|                               | Total              | 7.0486                                    | 3.9072                                     |
| Family of Active <65          | Male               | 7.4682                                    | 4.0982                                     |
|                               | Female             | 7.3927                                    | 3.8325                                     |
|                               | Total              | 7.3984                                    | 3.8542                                     |
| Ret/Surv/Fam <65              | Male               | 7.7656                                    | 3.5780                                     |
|                               | Female             | 7.6806                                    | 3.6756                                     |
|                               | Total              | 7.7228                                    | 3.6278                                     |
| Ret/Surv/Fam 65+              | Male               | 8.9384                                    | 3.2427                                     |
|                               | Female             | 9.1952                                    | 3.1977                                     |
|                               | Total              | 9.0616                                    | 3.2208                                     |
| Total                         | Male               | 7.8163                                    | 3.6393                                     |
|                               | Female             | 7.9242                                    | 3.6048                                     |
|                               | Total              | 7.8694                                    | 3.6223                                     |

In this special editor, there are many options for formatting the table.

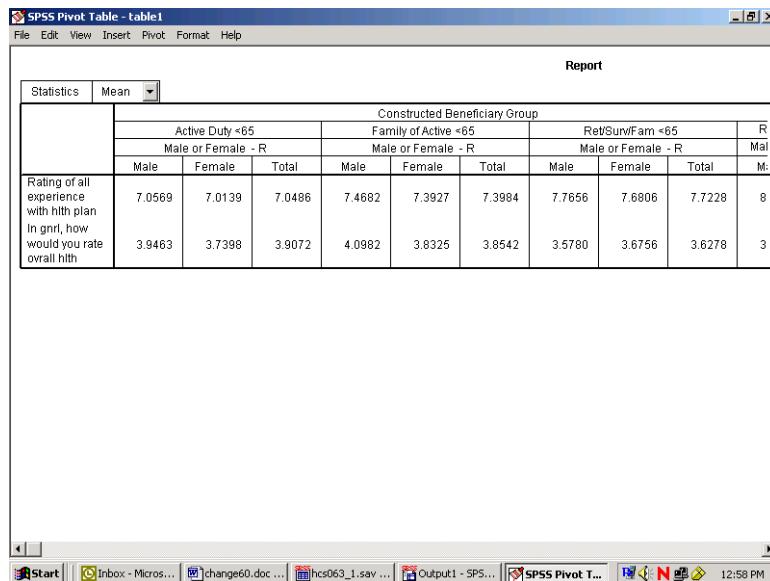

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

The screenshot shows the SPSS Pivot Table interface with a menu bar (File, Edit, View, Insert, Pivot, Format, Help). The 'Pivot' menu is open, and the 'Transpose Rows and Columns' option is highlighted. The rest of the menu options include Bookmarks, Move Layers to Rows, Move Layers to Columns, and Reset Pivot to Defaults. Below the menu, the same table structure as the first screenshot is visible.

| Constructed Beneficiary Group | Male or Female - R | Rating of all experience with health plan | In genl, how would you rate overall health |
|-------------------------------|--------------------|---|--|
| Active Duty <65               | Male               | 7.0569                                    | 3.9463                                     |
|                               | Female             | 7.0139                                    | 3.7398                                     |
|                               | Total              | 7.0486                                    | 3.9072                                     |
| Family of Active <65          | Male               | 7.4682                                    | 4.0982                                     |

| Ret/Surv/Fam 65+              | Male               | 8.9384                                    | 3.2427                                     |
|                               | Female             | 9.1952                                    | 3.1977                                     |
|                               | Total              | 9.0616                                    | 3.2208                                     |
| Total                         | Male               | 7.8163                                    | 3.6393                                     |
|                               | Female             | 7.9242                                    | 3.6048                                     |
|                               | Total              | 7.8694                                    | 3.6223                                     |

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all the table editing in the left section of the table, and the changes will spread through the entire table.

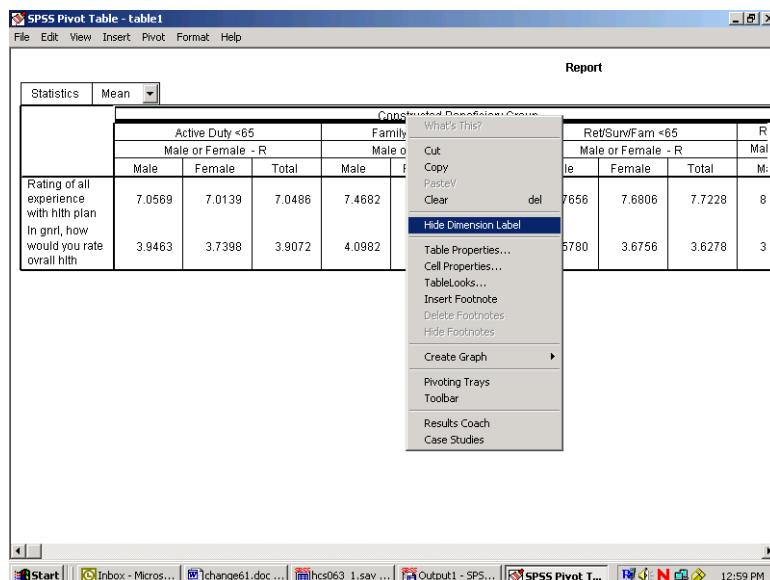

The screenshot shows the SPSS Pivot Table interface with a table titled "Report". The table has three columns: "Constructed Beneficiary Group", "Family of Active <65", and "RetSurvFam <65". The first column contains labels like "Active Duty <65", "Male or Female - R", and "Rating of all experience with hith plan In grnl, how would you rate overall hith". The second and third columns contain numerical data for Male and Female categories across different rows.

|  | Constructed Beneficiary Group |        |        | Family of Active <65 |        |        | RetSurvFam <65     |        |        | R |  |
|--|-------------------------------|--------|--------|----------------------|--------|--------|--------------------|--------|--------|---|--|
|  | Active Duty <65               |        |        | Male or Female - R   |        |        | Male or Female - R |        |        |   |  |
|  | Male                          | Female | Total  | Male                 | Female | Total  | Male               | Female | Total  |   |  |
| Rating of all experience with hith plan In grnl, how would you rate overall hith | 7.0568                        | 7.0139 | 7.0486 | 7.4682               | 7.3927 | 7.3984 | 7.7656             | 7.6806 | 7.7228 | 8 |  |
|  | 3.9463                        | 3.7398 | 3.9072 | 4.0982               | 3.8325 | 3.8542 | 3.5780             | 3.6756 | 3.6278 | 3 |  |

You would then notice that certain labels are redundant. The labels, **Constructed Beneficiary Group** and **Male or Female - R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Constructed Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

The screenshot shows the SPSS Pivot Table interface with a context menu open over the "Constructed Beneficiary Group" label in the first column. The menu includes options like "Cut", "Copy", "PasteV", "Clear", "del", and "Hide Dimension Label". The "Hide Dimension Label" option is highlighted with a blue selection bar.

|  | Constructed Beneficiary Group |        |        | Family |        |        | RetSurvFam <65     |        |        | R |  |
|--|-------------------------------|--------|--------|--------|--------|--------|--------------------|--------|--------|---|--|
|  | Active Duty <65               |        |        | Male o |        |        | Male or Female - R |        |        |   |  |
|  | Male                          | Female | Total  | Male   | Female | Total  | Male               | Female | Total  |   |  |
| Rating of all experience with hith plan In grnl, how would you rate overall hith | 7.0568                        | 7.0139 | 7.0486 | 7.4682 | 7.3927 | 7.3984 | 7.7656             | 7.6806 | 7.7228 | 8 |  |
|  | 3.9463                        | 3.7398 | 3.9072 | 4.0982 | 3.8325 | 3.8542 | 3.5780             | 3.6756 | 3.6278 | 3 |  |

Click inside the table section labeled **Male or Female - R** and repeat the above procedure. An improved table is shown in the following screen.

| Report                                 |                 |        |        |                      |        |        |                 |        |        |    |
|--|-----------------|--------|--------|----------------------|--------|--------|-----------------|--------|--------|----|
|  | Active Duty <65 |        |        | Family of Active <65 |        |        | RetSurv/Fam <65 |        |        | M: |
|  | Male            | Female | Total  | Male                 | Female | Total  | Male            | Female | Total  |    |
| Rating of all experience with hth plan | 7.0569          | 7.0139 | 7.0486 | 7.4682               | 7.3927 | 7.3984 | 7.7656          | 7.6806 | 7.7228 | 8  |
| In gmt, how would you rate overall hth | 3.9463          | 3.7398 | 3.9072 | 4.0982               | 3.8325 | 3.8542 | 3.5780          | 3.6756 | 3.6278 | 3  |

The mean values reported are formatted to allow space for the labels of the satisfaction variables. The spaces between the values are not pleasing to the eye. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the word, **Health State**. Do the same for the health care label, entering only the words, **Plan Rating**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

| Report       |                 |        |        |                      |        |        |                 |        |        |    |
|--------------|-----------------|--------|--------|----------------------|--------|--------|-----------------|--------|--------|----|
|              | Active Duty <65 |        |        | Family of Active <65 |        |        | RetSurv/Fam <65 |        |        | M: |
|              | Male            | Female | Total  | Male                 | Female | Total  | Male            | Female | Total  |    |
| Plan Rating  | 7.0569          | 7.0139 | 7.0486 | 7.4682               | 7.3927 | 7.3984 | 7.7656          | 7.6806 | 7.7228 | 8  |
| Health State | 3.9463          | 3.7398 | 3.9072 | 4.0982               | 3.8325 | 3.8542 | 3.5780          | 3.6756 | 3.6278 | 3  |

The resulting table is much more readable. You can then add the deleted information to clarify the table output. Open the **Insert** menu and choose **Title** as in the following:

This screenshot shows the SPSS Pivot Table interface with a table titled "table1". The table has three columns of statistics: Plan Rating, Health State, Male, Female, and Total. The table is displayed in a grid format with three rows of data.

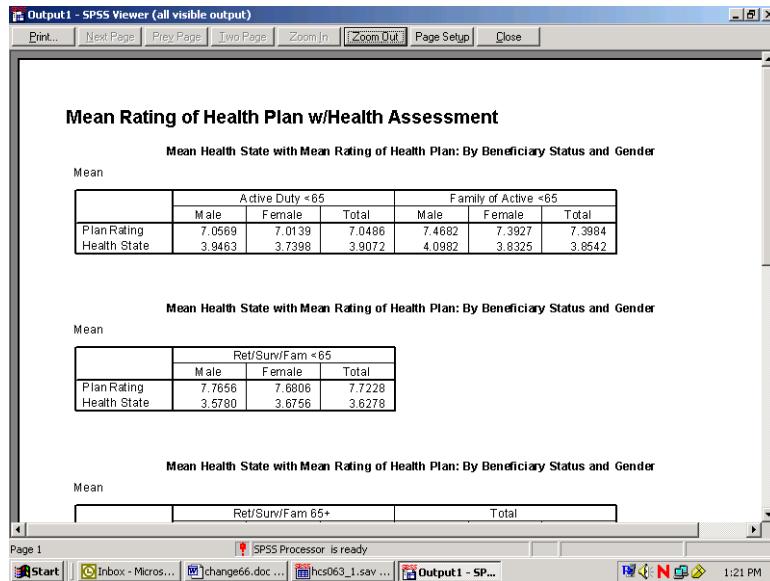

|              |        | Active Duty <65 |        |        | Family of Active <65 |        |        | RetSurvFam <65 |        |       | R |
|--------------|--------|-----------------|--------|--------|----------------------|--------|--------|----------------|--------|-------|---|
|              |        | Male            | Female | Total  | Male                 | Female | Total  | Male           | Female | Total | M |
| Plan Rating  | 7.0569 | 7.0139          | 7.0486 | 7.4682 | 7.3927               | 7.3984 | 7.7656 | 7.6806         | 7.7228 | 8     |   |
| Health State | 3.9463 | 3.7398          | 3.9072 | 4.0982 | 3.8325               | 3.8542 | 3.5780 | 3.6756         | 3.6278 | 3     |   |

Type in a new title for the table. The final result appears below.

This screenshot shows the SPSS Pivot Table interface with a table titled "table1". The table has a new title: "Mean Health State with Mean Rating of Health Plan: By Beneficiary Status and Gender". The table structure is identical to the one in the previous screenshot, with three columns of statistics: Plan Rating, Health State, Male, Female, and Total.

|              |        | Active Duty <65 |        |        | Family of Active <65 |        |        | RetSurvFam <65 |        |       | R |
|--------------|--------|-----------------|--------|--------|----------------------|--------|--------|----------------|--------|-------|---|
|              |        | Male            | Female | Total  | Male                 | Female | Total  | Male           | Female | Total | M |
| Plan Rating  | 7.0569 | 7.0139          | 7.0486 | 7.4682 | 7.3927               | 7.3984 | 7.7656 | 7.6806         | 7.7228 | 8     |   |
| Health State | 3.9463 | 3.7398          | 3.9072 | 4.0982 | 3.8325               | 3.8542 | 3.5780 | 3.6756         | 3.6278 | 3     |   |

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

## Calculating Percents

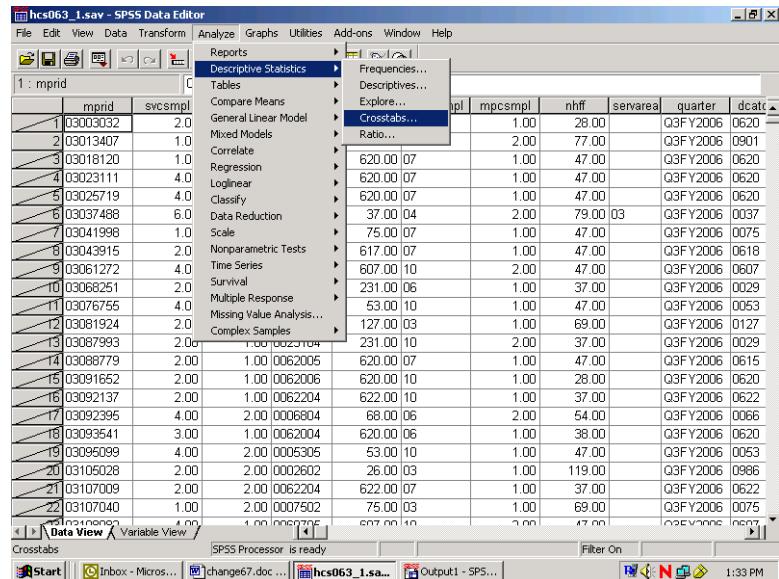

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

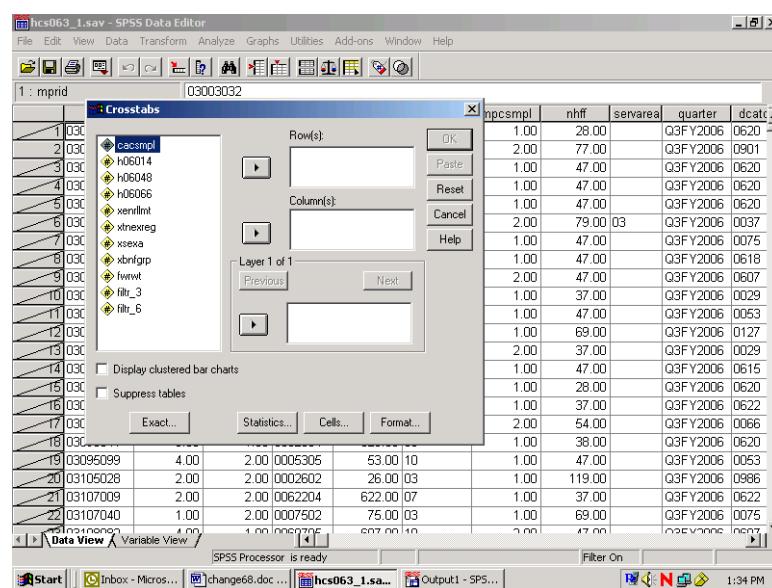

For example, suppose you want to see the percentage of people in the Southwest catchment areas who answered “yes” or “no” to the question, “Did you see a specialist in the last 12 months?” The variables in this analysis are **cacsmpl** – the catchment area, and **H06014** – the questionnaire variable. The cases for the analysis are from the Southwest only.

The first task is to build a new filter variable, assigning **1** to the variable when **XTNEXREG = 2**. You would call the variable **filtr\_6** and build it the same way you built the filter, **filtr\_3**. Cases from the Southwest are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

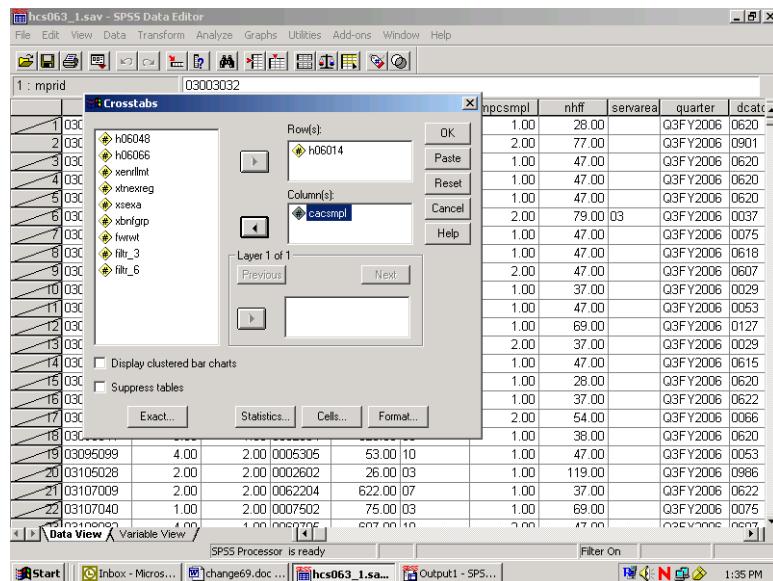

Next, open the **Analyze** menu in the **Data Window**, choosing **Descriptive Statistics** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

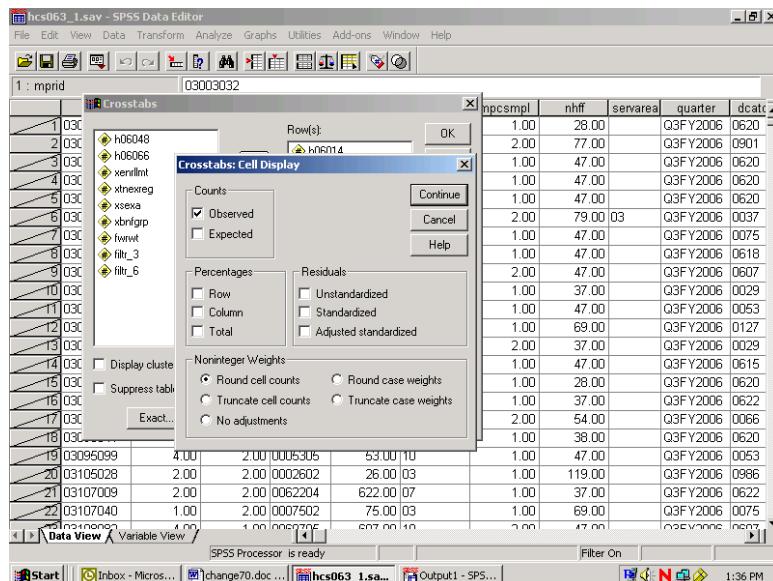

Move **H06014** from the variable list on the left into the box marked **Row(s):**, and move the variable **cacsmpl** into the box marked **Column(s):**. The screen will resemble the following:

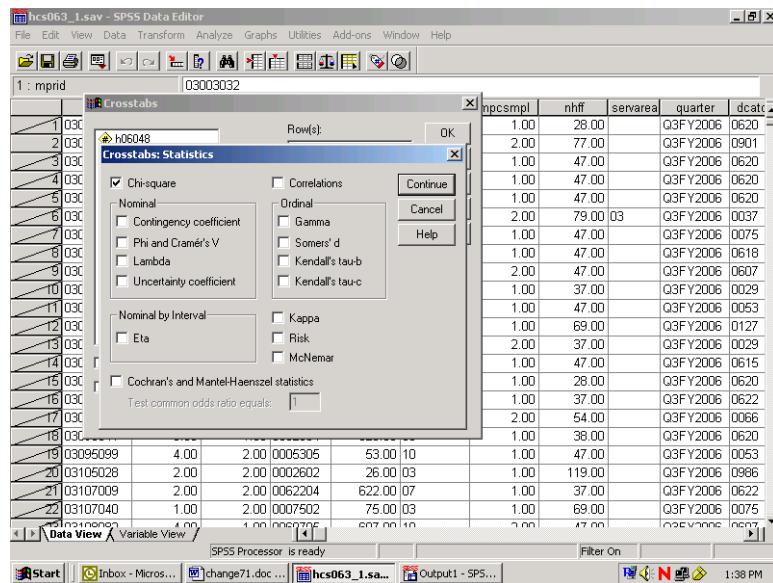

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

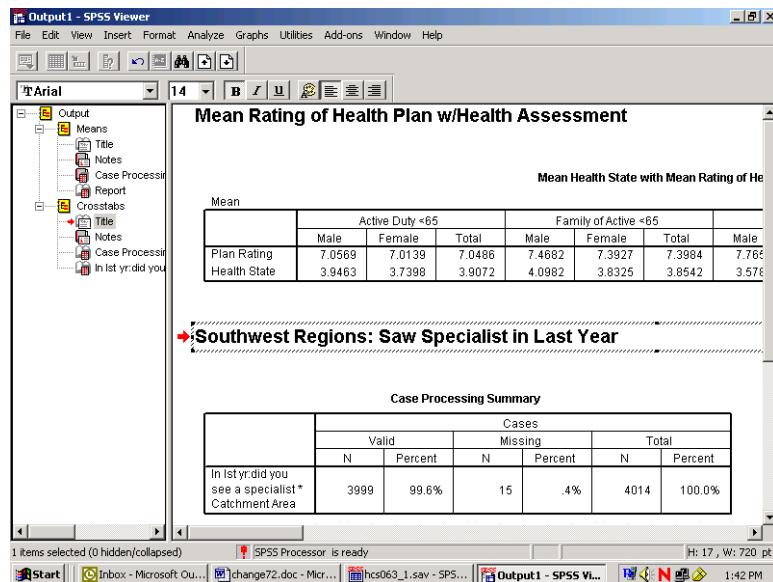

Under **Counts, Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each catchment area. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

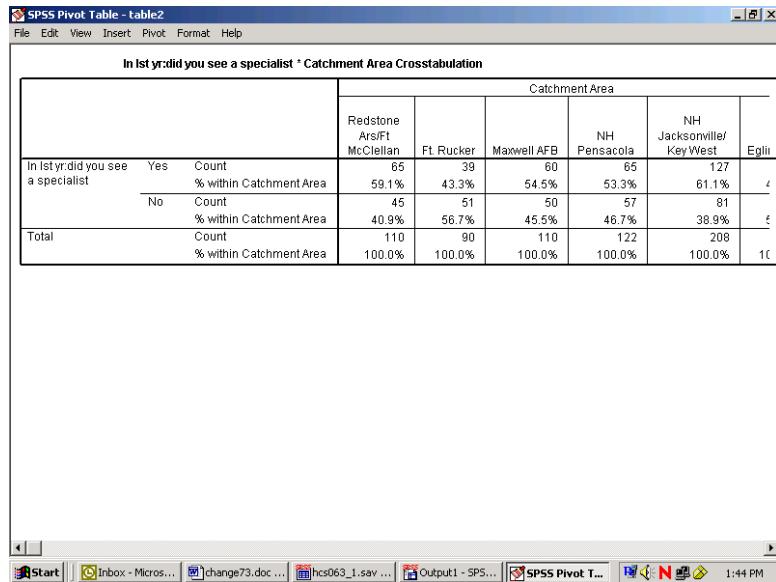

Check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output--in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

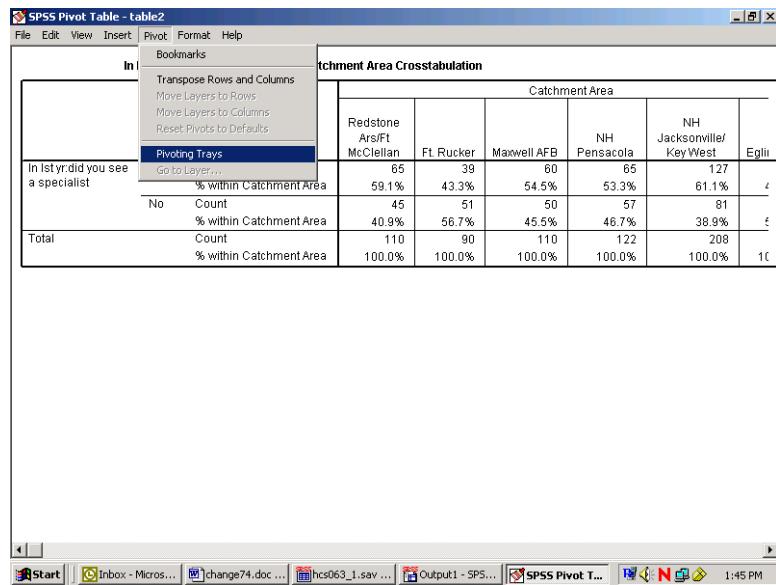

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and the **Case Processing Summary** as you did before.

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

The screenshot shows the SPSS Pivot Table interface with a maximized window. The title bar reads "SPSS Pivot Table - table2". The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. The main area displays a "Crosstabulation" table titled "In 1st yr:did you see a specialist \* Catchment Area Crosstabulation". The table has "In 1st yr:did you see a specialist" as the row dimension and "Catchment Area" as the column dimension. The columns represent Redstone Ars/Ft McClellan, Ft Rucker, Maxwell AFB, NH Pensacola, NH Jacksonville/KeyWest, and Eglin. The rows show "Yes" (Count: 65, % within Catchment Area: 59.1%), "No" (Count: 45, % within Catchment Area: 40.9%), and "Total" (Count: 110, % within Catchment Area: 100.0%). The table also includes a header row for the columns.

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

This screenshot shows the same SPSS Pivot Table window as above, but the **Pivot** menu is open, revealing options like Bookmarks, Transpose Rows and Columns, Move Layers to Rows, Move Layers to Columns, Reset Pivot to Defaults, and Pivoting Trays. The "Pivoting Trays" option is highlighted with a blue selection bar. The rest of the table and interface are identical to the previous screenshot.

The pivoting tool will appear:

The screenshot shows the SPSS Pivot Table interface. At the top is a menu bar with File, Edit, View, Insert, Pivot, Format, and Help. Below the menu is a title bar for "SPSS Pivot Table - table2". The main area displays a crosstabulation titled "In Ist yr:did you see a specialist \* Catchment Area Crosstabulation". The table has "In Ist yr:did you see a specialist" as the row variable and "Catchment Area" as the column variable. The columns represent Redstone Ars/Ft McClellan, Ft Rucker, Maxwell AFB, NH Pensacola, NH Jacksonville/KeyWest, and Eglin. The rows represent Yes, No, and Total. The data includes counts and percentages. Below the table is the "Pivoting Trays2" dialog box, which contains icons for Layers, Columns, Rows, and Pivot. The taskbar at the bottom shows various open files and the system clock.

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H06014** – saw specialist in the last 12 months, and **Statistics** – the percent of people in each catchment area. On the column axis is the variable, **cacsmp1** – the catchment area.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

The screenshot shows the SPSS Pivot Table interface after reformatting. The main area displays the same crosstabulation table, but the columns have been rearranged. The columns now represent Redstone Ars/Ft McClellan, Ft Rucker, Maxwell AFB, and the total or subtotal columns Count and % within Catchment Area. The rows remain the same: Yes, No, and Total. The data is presented in a more compact format. Below the table is the "Pivoting Trays2" dialog box. The taskbar at the bottom shows various open files and the system clock.

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **cacsmp1**. Select it by double-clicking and edit it for clarity (see the screen below).

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

|                                    |       | Southwest Regions: Catchment Areas |         |            |         |             |         |
|------------------------------------|-------|------------------------------------|---------|------------|---------|-------------|---------|
|                                    |       | Redstone Arsf/Ft McClellan         |         | Ft. Rucker |         | Maxwell AFB |         |
|                                    |       | Count                              | Percent | Count      | Percent | Count       | Percent |
| In 1st yr:did you see a specialist | Yes   | 65                                 | 59.1%   | 39         | 43.3%   | 60          |         |
|                                    | No    | 45                                 | 40.9%   | 51         | 56.7%   | 50          |         |
|                                    | Total | 110                                | 100.0%  | 90         | 100.0%  | 110         |         |

Next, notice that the label for **H06014** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

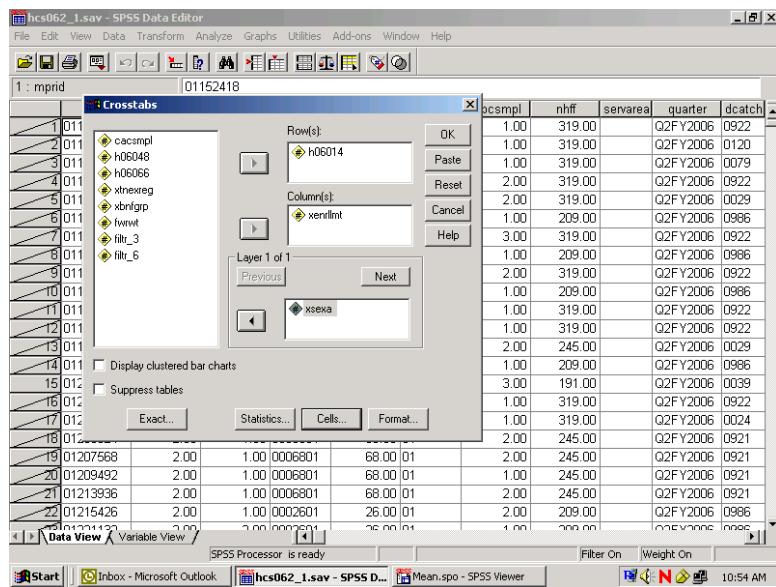

|  |       | Southwest Regions: Catchment Areas |         |            |         |             |         |
|--|-------|------------------------------------|---------|------------|---------|-------------|---------|
|  |       | Redstone Arsf/Ft McClellan         |         | Ft. Rucker |         | Maxwell AFB |         |
|  |       | Count                              | Percent | Count      | Percent | Count       | Percent |
|  | Yes   | 65                                 | 59.1%   | 39         | 43.3%   | 60          | 54.5%   |
|  | No    | 45                                 | 40.9%   | 51         | 56.7%   | 50          | 45.5%   |
|  | Total | 110                                | 100.0%  | 90         | 100.0%  | 110         | 100.0%  |

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H06014**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlmt**, who saw a specialist in the past 12 months. Suppose you are also interested in sex differences, **xsex**, among the groupings. **Xsex** is the **Layer** variable. You want to remain in the Southwest region, using **fwrwt** as the filter variable. The cases will be weighted by **fwrwt**.

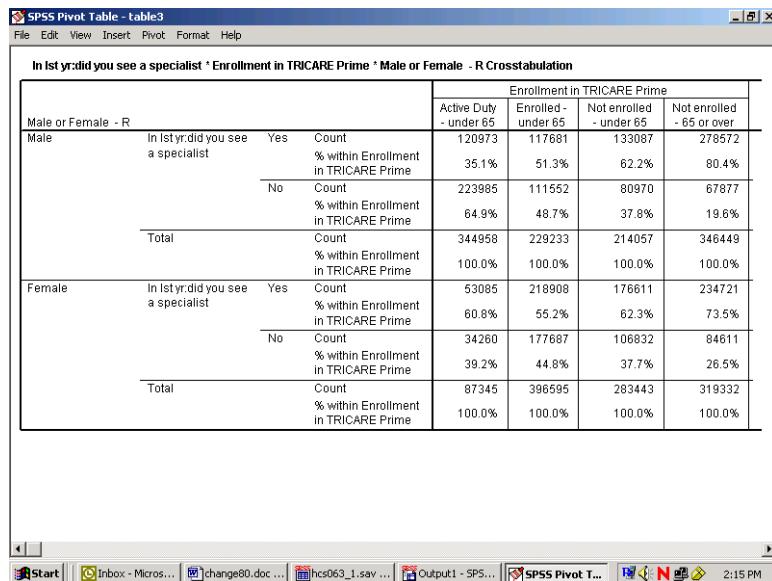

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

Do the following:

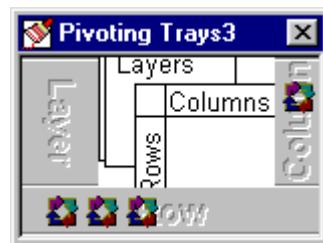

- Run **Crosstabs**.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

|        |                                       |     | Enrollment in TRICARE Prime             |                        |                            |                              |
|--------|---------------------------------------|-----|---|------------------------|----------------------------|------------------------------|
|        |                                       |     | Active Duty<br>- under 65               | Enrolled -<br>under 65 | Not enrolled<br>- under 65 | Not enrolled<br>- 65 or over |
| Male   | In 1st yr did you see<br>a specialist | Yes | Count                                   | 120973                 | 117681                     | 133087                       |
|        |                                       |     | % within Enrollment<br>in TRICARE Prime | 35.1%                  | 51.3%                      | 62.2%                        |
|        | No                                    |     | Count                                   | 223985                 | 111552                     | 80970                        |
|        |                                       |     | % within Enrollment<br>in TRICARE Prime | 64.9%                  | 48.7%                      | 37.8%                        |
| Female | In 1st yr did you see<br>a specialist | Yes | Count                                   | 344958                 | 229233                     | 214057                       |
|        |                                       |     | % within Enrollment<br>in TRICARE Prime | 100.0%                 | 100.0%                     | 100.0%                       |
|        | No                                    |     | Count                                   | 53085                  | 218908                     | 176611                       |
|        |                                       |     | % within Enrollment<br>in TRICARE Prime | 60.8%                  | 55.2%                      | 62.3%                        |
| Total  | In 1st yr did you see<br>a specialist | Yes | Count                                   | 342680                 | 177687                     | 106832                       |
|        |                                       |     | % within Enrollment<br>in TRICARE Prime | 39.2%                  | 44.8%                      | 37.7%                        |
|        | No                                    |     | Count                                   | 87345                  | 396595                     | 283443                       |
|        |                                       |     | % within Enrollment<br>in TRICARE Prime | 100.0%                 | 100.0%                     | 100.0%                       |

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **Male or Female - R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

The screenshot shows the SPSS Pivot Table interface with a crosstabulation table titled "In 1st yr did you see a specialist \* Enrollment in TRICARE Prime \* Male or Female - R Crosstabulation". The table includes columns for Active Duty - under 65, Enrolled - under 65, Not enrolled - under 65, and Male or Female - R. The rows are categorized by "In 1st yr did you see a specialist" (Yes, No) and "Total". The Pivoting Trays dialog box is open, showing the "Row" dimension selected.

|                                    |     |                                      | Enrollment in TRICARE Prime |        |                     |        |                         |        |                    |        |
|------------------------------------|-----|--------------------------------------|-----------------------------|--------|---------------------|--------|-------------------------|--------|--------------------|--------|
|                                    |     |                                      | Active Duty - under 65      |        | Enrolled - under 65 |        | Not enrolled - under 65 |        | Male or Female - R |        |
|                                    |     |                                      | Male                        | Female | Male                | Female | Male                    | Female | Male               | Female |
| In 1st yr did you see a specialist | Yes | Count                                | 120973                      | 53085  | 117681              | 218908 | 133087                  | 176611 | 2                  |        |
|                                    |     | % within Enrollment in TRICARE Prime | 35.1%                       | 60.8%  | 51.3%               | 55.2%  | 62.2%                   | 62.3%  |                    |        |
|                                    | No  | Count                                | 223985                      | 34260  | 111552              | 177687 | 80970                   | 106832 |                    |        |
|                                    |     | % within Enrollment in TRICARE Prime | 64.9%                       | 39.2%  | 48.7%               | 44.8%  | 37.8%                   | 37.7%  |                    |        |
| Total                              |     | Count                                | 344958                      | 87345  | 229233              | 396595 | 214057                  | 283443 | 3                  |        |
|                                    |     | % within Enrollment in TRICARE Prime | 100.0%                      | 100.0% | 100.0%              | 100.0% | 100.0%                  | 100.0% | 1                  |        |

Then drag the **Statistics** icon to the COLUMN dimension to produce the following change:

The screenshot shows the SPSS Pivot Table interface with the same crosstabulation table as before. However, the Pivoting Trays dialog box now shows the "Column" dimension selected. The table structure remains the same, but the data values have been updated to reflect the new dimension.

|                                    |     |                                      | Enrollment in TRICARE Prime |        |                     |        |                         |        |                    |        |

| In 1st yr did you see a specialist | Yes | Count                                | 120973                      | 53085  | 117681              | 218908 | 133087                  | 176611 | 51.3%              |        |
|                                    |     | % within Enrollment in TRICARE Prime | 35.1%                       | 60.8%  | 51.3%               | 55.2%  | 62.2%                   | 62.3%  |                    |        |
|                                    | No  | Count                                | 223985                      | 34260  | 111552              | 177687 | 80970                   | 106832 | 48.7%              |        |
|                                    |     | % within Enrollment in TRICARE Prime | 64.9%                       | 39.2%  | 48.7%               | 44.8%  | 37.8%                   | 37.7%  |                    |        |
| Total                              |     | Count                                | 344958                      | 87345  | 229233              | 396595 | 214057                  | 283443 | 100.0%             |        |
|                                    |     | % within Enrollment in TRICARE Prime | 100.0%                      | 100.0% | 100.0%              | 100.0% | 100.0%                  | 100.0% | 100.0%             | 1      |

Close the **Pivoting Trays** and hide the dimension label, **Male or Female - R**, in the table. Then, change the percent label to “Percent” and delete the label for **H06014** in the row dimension. Last, revise the label above the table to make it more informative.

The resulting table is both clear and informative.

|       |  | Enrollment in TRICARE Prime |        |         |                     |         |        |
|-------|--|-----------------------------|--------|---------|---------------------|---------|--------|

## CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the 2006 Quarter III Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

### Variance Estimation Methods

To account for complex estimators for the sample design,<sup>1</sup> it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or jackknife replication, the public release files for the 2006 Quarter III Adult HCSDB include the following variables:

- The stratum variable (STRATUM) for the Taylor series linearization method
- Quarterly final weight (FWRWT) and jackknife replicate weights (FWRWT01 to FWRWT60)

Two popular software packages are available for performing Taylor series linearization or the jackknife replication method: SUDAAN™ (Shah et al. 1997) and WesVarPC (Brick et al. 1996), respectively.<sup>2</sup> The discussion below explains how SUDAAN and WesVarPC are used to calculate variance estimates using Taylor series linearization and jackknife replication methods.

### Taylor Series Linearization Method

For most sample designs (including the 2006 Quarter III Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in "The 2006 Health Care Survey of DoD Beneficiaries: Adult Technical Manual".

---

<sup>1</sup>The 2006 HCSDB uses a stratified sampling design. For details, see "Health Care Survey of DoD Beneficiaries: 2006 Adult Sampling Report." Washington, DC: Mathematica Policy Research, November 2005.

<sup>2</sup>The latest version for SUDAAN 8.0 can be used for replication methods including jackknife variance estimation. SAS 8.0 also includes procedures for performing Taylor series utilization, but SUDAAN contains more options.

To calculate variance estimates based on the Taylor series linearization method with HCSDB's stratified sampling design, both the stratum variable (STRATUM) and the final weight (FWRWT) specified for each data record are needed.

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling designs. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the 2006 Quarter III Adult HCSDB, the data file for adults must be sorted by STRATUM before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is FWRWT

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- The rating of a specialist (H06015), among all beneficiaries in the past 12 months who saw a specialist (H06014=1) for each region (XTNEXREG)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;
WEIGHT      FWRWT;
NEST        STRATUM;
SUBPOPN    H06014=1;
SUBGROUP   XTNEXREG;
LEVELS      4;
VAR         H06015;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H06049) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;
WEIGHT      FWRWT;
NEST        STRATUM;
SUBPOPN    XTNEXREG = 3;
SUBGROUP   H06049 XENRLLMT;
LEVELS      3 5;
TABLES     H06049 *XENRLLMT;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.
- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Shah et al. (1997).

### **Jackknife Replication Method**

Another popular way to estimate the variance is to use a resampling method such as jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (FWRWT01-FWRWT60) for the 2006 Adult HCSDB Quarter III file. Construction of these weights is described in the Adult Technical Manual to be issued December 2007. With the replicate weights, you can produce jackknife standard errors using in-house or custom written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 7.5. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvar/demo/index.html>), the following example explains how it is used to produce jackknife variance estimates for statistics from the 2006 Quarter III Adult HCSDB.

Suppose you want to estimate the mean rating of specialists (H06015) by beneficiaries who went to a specialist in the past 12 months (H06014=1) for each region (XTNEXREG). You would use WesVarPC as follows.

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the **Prep** menu, choose the **Import Data Files** screen and import all variables for the analysis. For this example, input H06014, H06015, and XTNEXREG into the **Variables** box, FWRWT01-FWRWT60 into the **Replicates** box, and MPRID into the **ID** box. Also specify the replication method as JK1 on this screen.
- Create a data file for the subpopulation. Specify the subpopulation by choosing the **Subpop WesVarPC Data File** from the **Prep** menu: H06014=1.
- **Calculate estimates.** From the **Tables** menu, choose **New** and select the file created from the above procedure. Then, from the **Table Request** screen, specify H06015 as the **Analysis** variable, MEAN (H06015) as the **Compute Statistics**, and XTNEXREG as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

## Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

| <b>H06011 -</b><br><b>Health plan: problem to get a personal doctor or nurse you are happy with</b> |                   |                |                 |                |                        |
|---|-------------------|----------------|-----------------|----------------|------------------------|
| <b>Value</b>  | <b>Unweighted</b> |                | <b>Weighted</b> |                | <b>Formatted Value</b> |
|   | <b>Count</b>      | <b>Percent</b> | <b>Count</b>    | <b>Percent</b> |                        |
| .   | 517               | 3.75           | 257557.90       | 3.64           | Did not answer         |
| C   | 663               | 4.81           | 475748.80       | 6.73           | Should be skipped      |
| N   | 1188              | 8.63           | 870841.70       | 12.32          | Valid skip             |
| 1   | 1890              | 13.72          | 771348.20       | 10.92          | A big problem          |
| 2   | 2925              | 21.24          | 1283849.00      | 18.17          | A small problem        |
| 3   | 6589              | 47.84          | 3406791.00      | 48.21          | Not a problem          |

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the last range representing ages "75 years and older" includes 922 respondents age 75 and older.

| <b>DAGEQY -</b><br><b>Age at time of data collection</b> |                   |                |                 |                |                        |  |
|--|-------------------|----------------|-----------------|----------------|------------------------|--|
| <b>Value</b>   | <b>Unweighted</b> |                | <b>Weighted</b> |                | <b>Formatted Value</b> |  |

# Health Care Survey of DoD Beneficiaries

**PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING**

## **YOUR PRIVACY**

*All information that would let someone identify you or your family will be kept private. Providing information in this questionnaire is voluntary. There is no penalty if you choose not to respond. You may notice a number on the last page of this survey. This number is ONLY used to let us know if you returned your survey so we don't have to send you reminders.*

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

**Authority:** 10 U.S.C., Chapter 55; Section 706, Public Law 102-484; E.O. 9397.

**Purpose:** This survey helps health policy makers gauge beneficiary satisfaction with the current military health care system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

**Routine Uses:** None

**Disclosure:** Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

## **SURVEY INSTRUCTIONS**

Answer all the questions by checking the box to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see an arrow with a note that tells you what question to answer next, like this:

Yes → **Go to Question 42**

No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense  
(Health Affairs)  
c/o Synovate Survey Processing Center  
**PO Box 5030**  
**Chicago, IL 60680-4138**

## **SURVEY STARTS HERE**

**As an eligible TRICARE beneficiary, please complete this survey even if you did not receive your health care from a military facility.**

Please recognize that some specific questions about TRICARE benefits may not apply to you, depending on your entitlement and particular TRICARE program.

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

**1. Are you the person whose name appears on the mailing label of this envelope?**

- Yes → **Go to Question 2**
- No → Please give this questionnaire to the person addressed on the envelope.

**2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.**

**Military Health Plans**

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life
- TRICARE Supplemental Insurance

**Other Health Plans**

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not sure

**3. Currently, are you covered by Medicare Part A?**  
Medicare is the federal health insurance program for people aged 65 or older and for certain persons with disabilities. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

**4. Currently, are you covered by Medicare Part B?**

Medicare is the federal health insurance program for people aged 65 or older and for certain persons with disabilities. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

**5. Currently, are you covered by Medicare supplemental insurance?** Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

**6. Which health plan did you use for all or most of your health care in the last 12 months? MARK ONLY ONE.**

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- Medicare (may include TRICARE for Life)
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not sure
- Did not use any health plan in the last 12 months → **Go to Question 8**

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months
- 6 up to 12 months
- 12 up to 24 months
- 2 up to 5 years
- 5 up to 10 years
- 10 or more years

#### YOUR PERSONAL DOCTOR OR NURSE

The next questions ask about your own health care. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant. Do you have one person you think of as your personal doctor or nurse?

- Yes
- No → Go to Question 11

9. Using any number from 0 to 10, where 0 is the worst personal doctor or nurse possible and 10 is the best personal doctor or nurse possible, what number would you use to rate your personal doctor or nurse?

- 0 Worst personal doctor or nurse possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best personal doctor or nurse possible
- I don't have a personal doctor or nurse.

10. Did you have the same personal doctor or nurse before you joined this health plan?

- Yes → Go to Question 12
- No

11. Since you joined your health plan, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem
- A small problem
- Not a problem

#### GETTING HEALTH CARE FROM A SPECIALIST

When you answer the next questions, do not include dental visits.

12. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the last 12 months, did you or a doctor think you needed to see a specialist?

- Yes
- No → Go to Question 14

13. In the last 12 months, how much of a problem, if any, was it to see a specialist that you needed to see?

- A big problem
- A small problem
- Not a problem
- I didn't need a specialist in the last 12 months.

14. In the last 12 months, did you see a specialist?

- Yes
- No → Go to Question 16

15. We want to know your rating of the specialist you saw most often in the last 12 months. Using any number from 0 to 10, where 0 is the worst specialist possible and 10 is the best specialist possible, what number would you use to rate the specialist?

- 0 Worst specialist possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best specialist possible
- I didn't see a specialist in the last 12 months

#### YOUR HEALTH CARE IN THE LAST 12 MONTHS

18. In the last 12 months, did you have an illness, injury, or condition that needed care right away in a clinic, emergency room, or doctor's office?

- Yes
- No → Go to Question 21

19. In the last 12 months, when you needed care right away for an illness, injury, or condition, how often did you get care as soon as you wanted?

- Never
- Sometimes
- Usually
- Always
- I didn't need care right away for an illness, injury or condition in the last 12 months.

20. In the last 12 months, when you needed care right away for an illness, injury, or condition, how long did you usually have to wait between trying to get care and actually seeing a provider?

- Same day
- 1 day
- 2 days
- 3 days
- 4-7 days
- 8-14 days
- 15 days or longer
- I didn't need care right away for an illness, injury or condition in the last 12 months.

16. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

- Yes
- No → Go to Question 18

17. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?

- Never
- Sometimes
- Usually
- Always
- I didn't call for help or advice during regular office hours in the last 12 months.

21. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for health care.

In the last 12 months, not counting the times you needed health care right away, did you make any appointments with a doctor or other health provider for health care?

- Yes
- No → Go to Question 24

**22. In the last 12 months, not counting times you needed health care right away, how often did you get an appointment for health care as soon as you wanted?**

- Never
- Sometimes
- Usually
- Always
- I had no appointments in the last 12 months.

**23. In the last 12 months, not counting the times you needed health care right away, how many days did you usually have to wait between making an appointment and actually seeing a provider?**

- Same day
- 1 day
- 2-3 days
- 4-7 days
- 8-14 days
- 15-30 days
- 31 days or longer
- I had no appointments in the last 12 months.

**24. In the last 12 months, how many times did you go to an emergency room to get care for yourself?**

- None
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

**25. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?**

- None → Go to Question 38
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

**26. In the last 12 months, did you or a doctor believe you needed any care, tests, or treatment?**

- Yes
- No → Go to Question 28

**27. In the last 12 months, how much of a problem, if any, was it to get the care, tests or treatment you or a doctor believed necessary?**

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

**28. In the last 12 months, did you need approval from your health plan for any care, tests, or treatment?**

- Yes
- No → Go to Question 30

29. In the last 12 months, how much of a problem, if any, were delays in health care while you waited for approval from your health plan?

- A big problem
- A small problem
- Not a problem
- I had no visits in the last 12 months.

30. In the last 12 months, how often were you taken to the exam room within 15 minutes of your appointment?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

31. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

32. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

33. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

34. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

35. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

36. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- Never
- Sometimes
- Usually
- Always
- I had no visits in the last 12 months.

**37. Using any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible, what number would you use to rate all your health care in the last 12 months?**

- 0 Worst health care possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best health care possible
- I had no visits in the last 12 months.

**38. In general, how would you rate your overall mental or emotional health now?**

- Excellent
- Very good
- Good
- Fair
- Poor

**39. In the last 12 months, did you need any treatment or counseling for a personal or family problem?**

- Yes
- No → Go to Question 42

**40. In the last 12 months, how much of a problem, if any, was it to get the treatment or counseling you needed through your health plan?**

- A big problem
- A small problem
- Not a problem

**41. Using any number from 0 to 10, where 0 is the worst treatment or counseling possible and 10 is the best treatment or counseling possible, what number would you use to rate all your treatment or counseling in the last 12 months?**

- 0 Worst treatment or counseling possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best treatment or counseling possible

**42. In the last 12 months, where did you go most often for your health care? MARK ONLY ONE ANSWER.**

- A military facility – This includes:  
Military clinic  
Military hospital  
PRIMUS clinic  
NAVCARE clinic
- A civilian facility – This includes:  
Doctor's office  
Clinic  
Hospital  
Civilian TRICARE contractor
- Uniformed Services Family Health Plan facility (USFHP)
- Veterans Affairs (VA) clinic or hospital
- I went to none of the listed types of facilities in the last 12 months.

## CIVILIAN PROVIDERS

The following questions ask about your experiences with the TRICARE civilian provider network. TRICARE, including TRICARE Prime and Extra, is the health care system of the Department of Defense that provides care for active duty and retired military personnel and their dependents. TRICARE includes the hospitals, clinics and pharmacies of the three services, supplemented by a civilian network. The TRICARE civilian provider network is made up of the doctors, clinics, hospitals and other health care providers who are part of DoD's preferred provider pool. The next seven questions refer to health services you received from the civilian network.

43. In the last 12 months, how much of your health care did you receive from the TRICARE civilian provider network?

- All of my health care
- Most of my health care
- Some of my health care
- None of my health care
- I did not need health care in the last 12 months → Go to Question 59

44. In the last 12 months, how much of a problem was it to get the health care you wanted from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem
- I did not try to get health care from the civilian network.

45. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

In the last 12 months, how much of a problem was it to find a conveniently located personal doctor or nurse from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem → Go to Question 47
- I did not try to find a personal doctor from the civilian network → Go to Question 47

46. What problems did you encounter in finding a personal doctor from the civilian network? MARK ALL THAT APPLY.

- Travel distance too long
- Communicating with doctor(s)
- Doctor(s) not taking new patients
- Could not find the specialty I wanted
- Did not like doctor(s)
- Wait for an appointment was too long
- Could not find information about doctors
- Other \_\_\_\_\_

47. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the last 12 months, how much of a problem was it to find a conveniently located specialist from the TRICARE civilian provider network?

- A big problem
- A small problem
- Not a problem → Go to Question 49
- I did not try to find a specialist in the civilian network → Go to Question 49

**48. What problems did you encounter in finding a network specialist? MARK ALL THAT APPLY.**

- Travel distance too long
- Communicating with doctor(s)
- Doctor(s) not taking new patients
- Did not like doctor(s)
- Wait for an appointment was too long
- Could not find information about doctors
- Other \_\_\_\_\_

**49. In the last 12 months, did you learn that a doctor whom you wanted to see had left the TRICARE civilian provider network?**

- Yes
- No
- I did not want to see any network doctors

The following questions ask about your experiences with civilian providers that are not part of TRICARE's network. Under TRICARE Standard, TRICARE pays part of the cost when you see civilian doctors that are not preferred providers.

**50. In the last 12 months, have you tried to make an appointment with a civilian doctor who is not part of TRICARE's civilian network?**

- Yes
- No → Go to Question 59
- Don't know

**51. In the last 12 months, have you been told that a doctor you wanted to see was not seeing TRICARE patients or not seeing new TRICARE patients?**

- Yes, not seeing TRICARE patients
- Yes, not seeing new TRICARE patients
- No

**52. In the last 12 months, how much of a problem has it been to find doctors who will accept TRICARE?**

- A big problem
- A small problem
- Not a problem

**53. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.**

In the last 12 months, how much of a problem was it to find a civilian personal doctor or nurse who would accept TRICARE?

- A big problem
- A small problem
- Not a problem → Go to Question 55
- I did not try to find a civilian personal doctor → Go to Question 55

**54. What problems did you encounter in finding a personal doctor who would accept TRICARE? MARK ALL THAT APPLY.**

- Travel distance too long
- Communicating with doctor(s)
- Doctor(s) would not accept TRICARE fee schedule
- Could not find the specialty I wanted
- Did not like doctor(s)
- Wait for an appointment was too long
- Could not find information about doctors
- Other \_\_\_\_\_

**55. Specialists** are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of health care.

In the last 12 months, have you tried to make an appointment with a civilian specialist who is not part of TRICARE's network?

- Yes
- No → Go to Question 59
- Don't know → Go to Question 59

**56. What was the specialty of the last non-network civilian specialist you tried to see?**

- Surgeon
- Dermatologist
- Psychiatrist or psychologist
- Urologist
- Orthopedist
- Ear, nose and throat
- Cardiologist
- Allergist
- Obstetrician
- Other \_\_\_\_\_

**57. In the last 12 months, how much of a problem was it to get an appointment with the specialist in Question 56?**

- A big problem
- A small problem
- Not a problem → Go to Question 59

**58. What problems did you encounter in finding this specialist? MARK ALL THAT APPLY.**

- Travel distance too long
- Communicating with doctor(s)
- Doctor(s) would not accept TRICARE fee schedule
- Did not like doctor(s)
- Wait for an appointment was too long
- Could not find information about doctors
- Other \_\_\_\_\_

### YOUR HEALTH PLAN

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

**59. Claims** are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you. In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes
- No → Go to Question 62
- Don't know → Go to Question 62

**60. In the last 12 months, how often did your health plan handle your claims in a reasonable time?**

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

61. In the last 12 months, how often did your health plan handle your claims correctly?

- Never
- Sometimes
- Usually
- Always
- Don't know
- No claims were sent for me in the last 12 months.

62. In the last 12 months, did you look for any information about how your health plan works in written material or on the Internet?

- Yes
- No → Go to Question 64

63. In the last 12 months, how much of a problem, if any, was it to find or understand this information?

- A big problem
- A small problem
- Not a problem
- I didn't look for information from my health plan in the last 12 months.

64. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes
- No → Go to Question 66

65. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem
- A small problem
- Not a problem
- I didn't call my health plan's customer service in the last 12 months.

66. In the last 12 months, did you have to fill out any paperwork for your health plan?

- Yes
- No → Go to Question 68

67. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem
- A small problem
- Not a problem
- I didn't have any experiences with paperwork for my health plan in the last 12 months.

68. Using any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible, what number would you use to rate your health plan?

- 0      Worst health plan possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10     Best health plan possible

## PREVENTIVE CARE

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or blood pressure screening are examples of preventive care.

### 69. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

### 70. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it is not too high
- Don't know

### 71. When did you last have a flu shot?

- Less than 12 months ago
- 1-2 years ago
- More than 2 years ago
- Never had a flu shot

### 72. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes
- No → Go to Question 78
- Don't know → Go to Question 78

### 73. Do you now smoke every day, some days or not at all?

- Every day → Go to Question 75
- Some days → Go to Question 75
- Not at all → Go to Question 74
- Don't know → Go to Question 78

### 74. How long has it been since you quit smoking cigarettes?

- Less than 12 months → Go to Question 75
- 12 months or more → Go to Question 78
- Don't know → Go to Question 78

### 75. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months.

### 76. On how many visits was medication recommended or discussed to assist you with quitting smoking (for example: nicotine gum, patch, nasal spray, inhaler, prescription medication)?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months

### 77. On how many visits did your doctor or health provider recommend or discuss methods and strategies (other than medication) to assist you with quitting smoking?

- None
- 1 visit
- 2 to 4 visits
- 5 to 9 visits
- 10 or more visits
- I had no visits in the last 12 months

### 78. Are you male or female?

- Male → Go to Question 85
- Female → Go to Question 79

**79. When did you last have a Pap smear test?**

- Within the last 12 months
- 1 to 3 years ago
- More than 3 but less than 5 years ago
- 5 or more years ago
- Never had a Pap smear test

**80. Are you under age 40?**

- Yes → **Go to Question 82**
- No

**81. When was the last time your breasts were checked by mammography?**

- Within the last 12 months
- 1 to 2 years ago
- More than 2 years ago but less than 5 years ago
- 5 or more years ago
- Never had a mammogram

**82. Have you been pregnant in the last 12 months or are you pregnant now?**

- Yes, I am currently pregnant → **Go to Question 83**
- No, I am not currently pregnant, but have been pregnant in the past 12 months → **Go to Question 84**
- No, I am not currently pregnant, and have not been pregnant in the past 12 months → **Go to Question 85**

**83. In what trimester is your pregnancy?**

- First trimester (up to 12 weeks after 1<sup>st</sup> day of last period) → **Go to Question 85**
- Second trimester (13<sup>th</sup> through 27<sup>th</sup> week)
- Third trimester (28<sup>th</sup> week until delivery)

**84. In which trimester did you first receive prenatal care?**

- First trimester (up to 12 weeks after 1<sup>st</sup> day of last period)
- Second trimester (13<sup>th</sup> through 27<sup>th</sup> week)
- Third trimester (28<sup>th</sup> week until delivery)
- Did not receive prenatal care

**ABOUT YOU**

**85. In general, how would you rate your overall health now?**

- Excellent
- Very good
- Good
- Fair
- Poor

**86. Are you limited in any way in any activities because of any impairment or health problem?**

- Yes
- No

**87. How tall are you without your shoes on? Please give your answer in feet and inches.**

**Example:**

| Height                                |                                       |
|---------------------------------------|---------------------------------------|
| Feet                                  | Inches                                |
| 5                                     | 6                                     |
| <input type="checkbox"/> 1            | <input type="checkbox"/> 0            |
| <input type="checkbox"/> 2            | <input type="checkbox"/> 1            |
| <input type="checkbox"/> 3            | <input type="checkbox"/> 2            |
| <input type="checkbox"/> 4            | <input type="checkbox"/> 3            |
| <input checked="" type="checkbox"/> 5 | <input type="checkbox"/> 4            |
| <input type="checkbox"/> 6            | <input type="checkbox"/> 5            |
| <input type="checkbox"/> 7            | <input checked="" type="checkbox"/> 6 |
|                                       | <input type="checkbox"/> 7            |
|                                       | <input type="checkbox"/> 8            |
|                                       | <input type="checkbox"/> 9            |
|                                       | <input type="checkbox"/> 10           |
|                                       | <input type="checkbox"/> 11           |

| Height                     |                             |
|----------------------------|-----------------------------|
| Feet                       | Inches                      |
|                            |                             |
| <input type="checkbox"/> 1 | <input type="checkbox"/> 0  |
| <input type="checkbox"/> 2 | <input type="checkbox"/> 1  |
| <input type="checkbox"/> 3 | <input type="checkbox"/> 2  |
| <input type="checkbox"/> 4 | <input type="checkbox"/> 3  |
| <input type="checkbox"/> 5 | <input type="checkbox"/> 4  |
| <input type="checkbox"/> 6 | <input type="checkbox"/> 5  |
| <input type="checkbox"/> 7 | <input type="checkbox"/> 6  |
|                            | <input type="checkbox"/> 7  |
|                            | <input type="checkbox"/> 8  |
|                            | <input type="checkbox"/> 9  |
|                            | <input type="checkbox"/> 10 |
|                            | <input type="checkbox"/> 11 |

**88. How much do you weigh without your shoes on?  
Please give your answer in pounds.**

**Example:**

| Weight                                |                                       |                                       |
|---------------------------------------|---------------------------------------|---------------------------------------|
| Pounds                                |                                       |                                       |
| 1                                     | 6                                     | 0                                     |
| <input type="checkbox"/> 0            | <input type="checkbox"/> 0            | <input checked="" type="checkbox"/> 0 |
| <input checked="" type="checkbox"/> 1 | <input type="checkbox"/> 1            | <input type="checkbox"/> 1            |
| <input type="checkbox"/> 2            | <input type="checkbox"/> 2            | <input type="checkbox"/> 2            |
| <input type="checkbox"/> 3            | <input type="checkbox"/> 3            | <input type="checkbox"/> 3            |
|                                       | <input type="checkbox"/> 4            | <input type="checkbox"/> 4            |

**SURVEY FIELDING LETTERS – QUARTER III**

## SAMPLE NOTIFICATION LETTER

March 1, 2006

12345670  
PRIVATE DAVID BRYANT  
222 S. RIVERSIDE DRIVE  
APT 4C  
WHEATON, IL 60999

Dear Private David Bryant:

**We need your help!** The Department of Defense (DoD) is requesting your cooperation in completing a worldwide survey of all DoD health care beneficiaries aimed at understanding and improving your health care experiences. **In a few weeks**, we will mail you the **Health Care Survey of Department of Defense Beneficiaries** that includes questions about the health care services you have received in the past 12 months. Your views are important to us and your opinions count. By completing the survey, you will provide important information that will help us improve the health care services for the entire DoD health care community. Please take advantage of this opportunity to share your opinions by participating in the survey.

Taking part in this survey is voluntary. You are among only a few beneficiaries randomly selected to participate. As an eligible military beneficiary, your benefits include both civilian care and care you receive within our military facilities. **Even if you do not receive health care from a military facility, please still complete the survey.** All the information from the survey is private.

Your feedback is important to help us improve our services and to provide you with the best possible health care. Although we made every attempt to ensure that our information is correct, we apologize if you received this mailing in error. If you have received this in error, if the address above is incorrect, or if you have questions about the survey, please contact us by calling the Synovate Survey Processing Department at 1-877-236-2390 (within the U.S.) anytime, since this number accepts call 24 hours a day, or email us at [dod-surveyq3@synovate.net](mailto:dod-surveyq3@synovate.net). If you contact us you will be asked to provide your name, address, and the 8-digit number above your address on this letter. You also can send this letter via facsimile to 1-800-409-7681 (within the U.S.). All calls to these numbers are toll free.

Thank you for your service to our country, and thank you in advance for your help!

Sincerely,

Michael R. Peterson, DVM, MPH, DrPH  
Director  
Office of the Assistant Secretary of Defense (Health Affairs)  
TRICARE Management Activity/Health Program Analysis and Evaluation Directorate

## SAMPLE FIRST SURVEY

April 3, 2006

12345678  
PRIVATE DAVE BRYANT  
222 S. RIVERSIDE DRIVE  
SUITE 350  
CHICAGO, IL 60606-5809

Dear Private Dave Bryant:

**We need your help!** The Department of Defense (DoD) needs your cooperation in completing this survey. There are over 9.2 million military personnel and their families worldwide. You are among only a few who were randomly selected to receive this survey. Your responses will provide important information that will help us improve the health care services for the entire DoD health care community. Please take advantage of this opportunity.

The enclosed survey asks about your experiences receiving health care services in the past 12 months. This survey is also available on the Web. Access the web version by using this address: [www.synovate.net/q3dodsat](http://www.synovate.net/q3dodsat) and the password **999999** is assigned for your exclusive use. Return the completed survey by mail in the enclosed postage-paid envelope or via the web site to avoid a reminder and additional survey. As an eligible military beneficiary, your benefits include both civilian care and care you receive within our military facilities. **Even if you did not receive your health care from a military facility, we still ask that you complete the survey.**

Your feedback is important to help us improve our services and to provide you with the best possible health care. Although we made every attempt to ensure that our information is correct, we apologize if you received this mailing in error. If you have received this in error, if the address above is incorrect, or if you have questions about the survey, please contact us by using the pre-addressed envelope provided or by calling the Synovate Survey Processing Center at 1-877-236-2390 (within the U.S.) anytime, since this number accepts calls 24 hours a day, or email us at [dod-surveyq3@synovate.net](mailto:dod-surveyq3@synovate.net). If you call you will be asked to provide your name, address, and the 8-digit number above your address on this cover letter. You also can send this letter via facsimile to 1-800-409-7681 (within the U.S.). All calls to these numbers are toll free.

Taking part in this survey is voluntary. Your contact information and how you respond is kept private. Thank you for your service to our country. Your experience as a military beneficiary needs to be heard. Thank you for your help.

Sincerely,

Michael R. Peterson, DVM, MPH, DrPH  
Director  
Office of the Assistant Secretary of Defense (Health Affairs)  
TRICARE Management Activity/Health Program Analysis and Evaluation Directorate

### WE NEED YOUR HELP!

HELLO!

2D81-03

Recently, we mailed you the *Health Care Survey of DoD Beneficiaries*, a DoD-sponsored survey of all members. You are among only a few randomly selected to receive this survey and we have not heard from you yet! As an eligible military beneficiary, your benefits include both civilian care and care you receive within our military facilities. **Even if you did not receive your health care from a military facility, please complete the survey.**

Taking part in this survey is voluntary and the information you provide us is kept private. The end of the survey period is June 1, 2006 so return your copy today!

If you did not receive the survey or if you need another copy, please call toll free 1-877-236-2390 (within the U.S.) or email us at [dod-surveyq3@synovate.net](mailto:dod-surveyq3@synovate.net).

If you have already sent in your survey, please ignore this message.

THANK YOU!

Michael R. Peterson, DVM, MPH, DrPH  
Director, Office of the Assistant Secretary of Defense (Health Affairs)  
TRICARE Management Activity/Health Program Analysis and Evaluation Directorate

## SAMPLE SECOND SURVEY COVER LETTER

May 1, 2006

12345670  
PRIVATE DAVID BRYANT  
222 S. RIVERSIDE DRIVE  
APARTMENT 4C  
WHEATON, IL 60999

Dear Private David Bryant:

**We need your help!** We recently sent you a survey asking your opinions about the Department of Defense (DoD) health care system and have not heard from you. We hope that you will take advantage of this opportunity to share your health care experiences by participating in the survey. By completing the enclosed *Health Care Survey of DoD Beneficiaries*, you will provide important information that will help us improve the health care services for the entire DoD health care community. You may also complete the questionnaire on-line by connecting to [www.synovate.net/q3dodsat](http://www.synovate.net/q3dodsat). Your personal password is **999999**.

Your participation is completely voluntary, your views are important to us and your opinions count. You are among only a few beneficiaries selected to participate. Please be assured that all your contact information and what you have to say is private. Since DoD health care benefits include care received in both military and civilian facilities, **please complete the survey even if you did not receive any health care services from a military facility.**

If the address above is incorrect, please telephone the Synovate Survey Processing Center at 1-877-236-2390 (within the U.S.), available 24 hours a day, or email us at [dod-surveyq3@synovate.net](mailto:dod-surveyq3@synovate.net). If you contact us, please provide your name, address, and the 8-digit number above your address on this cover letter. You also can send this letter via facsimile with your correct address to 1-800-409-7681 (within the U.S.). All calls to these numbers are toll free.

Thank you for your service to your country. Your experience as a military beneficiary needs to be heard. Please take the time to respond.

Sincerely,

Michael R. Peterson, DVM, MPH, DrPH  
Director  
Office of the Assistant Secretary of Defense (Health Affairs)  
TRICARE Management Activity/Health Program Analysis and Evaluation Directorate

#### BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

| SAS     | ASCII/EBCDIC | Description                                     |
|---------|--------------|---|
| Numeric | Numeric      |   |
| .       | -9           | No response                                     |
| .O      | -7           | Out of range error                              |
| .N      | -6           | Not Applicable or valid skip                    |
| .D      | -5           | Scalable response of “Don’t know” or “not sure” |
| .I      | -4           | Incomplete grid error                           |
| .C      | -1           | Question should have been skipped.              |

Missing values ‘.’ and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:  
H06006, H06007**

| N1 | H06006<br>is:                      | H06007<br>is:                  | H06006<br>is coded as:      | H06007<br>is coded as:            | * |
|----|------------------------------------|--------------------------------|-----------------------------|-----------------------------------|---|
| 1  | 1-11, health plan,<br>-5, not sure | Marked, or missing<br>response | Stands as original<br>value | Stands as original<br>value       |   |
| 2  | -6, no usage in<br>past 12 months  | Marked response                | Stands as original<br>value | .C, question should be<br>skipped | F |
| 3  | -6, no usage in<br>past 12 months  | Missing response               | Stands as original<br>value | .N, valid skip                    | F |
| 4  | Missing response                   | Marked or missing<br>response  | Stands as original<br>value | Stands as original<br>value       |   |

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:**  
**H06008, H06009, H06010, H06011**

| N2 | H06008<br>is:              | H06009<br>is:                | H06010<br>is:    | H06011<br>is:    | H06008<br>is coded as:   | H06009<br>is coded as:                   | H06010<br>is coded as:  | H06011<br>is coded as:         | *   |
|----|----------------------------|------------------------------|------------------|------------------|--------------------------|--|---|--------------------------------|-----|
| 1  | 1: yes or missing response | -6: Don't have a personal Dr | Any value        | Any value        | 2: no                    | .C, question should be skipped           | .N, valid skip if missing;<br>.C, question should be skipped, if marked | Stands as original value       | B F |
| 2  | 1: yes                     | 0-10 or missing response     | 1: yes           | 1-3              | Stands as original value | Stands as original value                 | Stands as original value  | .C, question should be skipped | F   |
| 3  | 1: yes                     | 0-10 or missing response     | Missing response | 1-3              | Stands as original value | Stands as original value                 | 2: no   | Stands as original value       | B   |
| 4  | 1: yes                     | 0-10 or missing response     | 1: yes           | Missing response | Stands as original value | Stands as original value                 | Stands as original value  | .N, valid skip if missing      | F   |
| 5  | 1: yes                     | 0-10 or missing response     | 2: no            | Any value        | Stands as original value | Stands as original value                 | Stands as original value  | Stands as original value       |     |
| 6  | 1: yes                     | 0-10 or missing response     | Missing response | Missing response | Stands as original value | Stands as original value                 | Stands as original value  | Stands as original value       |     |
| 7  | 2: no or missing response  | 0-10                         | 1: yes           | 1-3              | 1: yes                   | Stands as original value                 | Stands as original value  | .C, question should be skipped | F B |
| 8  | 2: no or missing response  | 0-10                         | Missing response | 1-3              | 1: yes                   | Stands as original value                 | Stands as original value  | Stands as original value       | B   |
| 9  | 2: no or missing response  | 0-10                         | Missing response | Missing response | 1: yes                   | Stands as original value                 | Stands as original value  | Stands as original value       | B   |
| 10 | 2: no                      | Missing response             | 1: yes           | 1-3              | Stands as original value | .N, valid skip if missing                | .C, question should be skipped  | Stands as original value       | F   |
| 11 | 2: no                      | -6: Don't have a personal Dr | Any value        | Any value        | Stands as original value | .C, question should be skipped if marked | .N, valid skip if missing;<br>.C, question should be skipped if marked  | Stands as original value       | B F |

**Coding Table for Note 2 continued:**

| N2 | H06008<br>is:             | H06009<br>is:    | H06010<br>is:    | H06011<br>is: | H06008<br>is coded as:   | H06009<br>is coded as:    | H06010<br>is coded as:   | H06011<br>is coded as:  | *   |
|----|---------------------------|------------------|------------------|---------------|--------------------------|---------------------------|--------------------------|---|-----|
| 12 | 2: no or missing response | Any value        | 1: yes           | Any value     | 1: yes                   | Stands as original value  | Stands as original value | .N, valid skip if missing; .C, question should be skipped if marked | B F |
| 13 | 2: no or missing response | Any value        | 2: no            | Any value     | 1: yes                   | Stands as original value  | Stands as original value | Stands as original value  | B   |
| 14 | 2: no                     | Missing response | Missing response | Any value     | Stands as original value | .N, valid skip if missing | .N, valid skip           | Stands as original value  | F   |
| 15 | Missing response          | Missing response | Missing response | Any value     | Stands as original value | Stands as original value  | Stands as original value | Stands as original value  |     |

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 3:  
H06012, H06013**

| N3 | H06012 is:                 | H06013 is:                                      | H06012 is coded as:      | H06013 is coded as:   | *   |
|----|----------------------------|---|--------------------------|---|-----|
| 1  | 1: yes                     | 1, 2, 3, or missing response                    | Stands as original value | Stands as original value  |     |
| 2  | 1: yes or missing response | -6: didn't need to see a specialist             | 2: No                    | .C question should be skipped                                       | B F |
| 3  | 2: no or missing response  | 1, 2, 3   | 1: yes                   | Stands as original value  | B   |
| 4  | 2: no                      | Missing, or -6: didn't need to see a specialist | Stands as original value | .N, valid skip if missing, .C, question should be skipped if marked | F   |
| 5  | Missing response           | Missing response                                | Stands as original value | Stands as original value  |     |

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 4:  
H06014, H06015**

| N4 | H06014 is:                 | H06015 is:                                      | H06014 is coded as:      | H06015 is coded as:   | *   |
|----|----------------------------|---|--------------------------|---|-----|
| 1  | 1: yes                     | 0-10, or missing response                       | Stands as original value | Stands as original value  |     |
| 2  | 1: yes or missing response | -6: didn't need to see a specialist             | 2: No                    | .C question should be skipped                                       | B F |
| 3  | 2: no or missing response  | 0-10  | 1: yes                   | Stands as original value  | B   |
| 4  | 2: no                      | Missing, or -6: didn't need to see a specialist | Stands as original value | .N, valid skip if missing, .C, question should be skipped if marked | F   |
| 5  | Missing response           | Missing response                                | Stands as original value | Stands as original value  |     |

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 5:**  
**H06016, H06017**

| N5 | H06016 is:                 | H06017 is:                          | H06016 is coded as:      | H06017 is coded as:  | *      |
|----|----------------------------|-------------------------------------|--------------------------|--|--------|
| 1  | 1: yes                     | 1-4: how often, or missing response | Stands as original value | Stands as original value   |        |
| 2  | 1: yes or missing response | -6: no calls                        | 2: no                    | .C, question should be skipped   | B<br>F |
| 3  | 2: no or missing response  | 1-4: how often                      | 1: yes                   | Stands as original value   | B      |
| 4  | 2: no                      | -6: no calls or missing             | Stands as original value | .N, valid skip if missing;<br>.C, question should be skipped if marked | F      |
| 5  | Missing response           | Missing response                    | Stands as original value | Stands as original value   |        |

\* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:**  
**H06018, H06019, H06020**

| N6 | H06018 is:                 | H06019-H06020 are:               | H06018 is coded as:      | H06019-H06020 are coded as:  | *      |

| 9  | Missing response           | “All are blank”                  | Stands as original value | Stand as original value  |        |

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 6:

Responses to H06019-H06020 are all missing.

Definition of “Blank or NA” in Coding Table for Note 6:

All of the following are true: H06019-H06020 are a combination of not applicable (-6) or missing.

Definition of “One marked and one NA” in Coding Table for Note 6:

H06019-H06020 have one response marked not applicable (-6) and one marked response (other than not applicable).

Definition of “marked” in Coding Table for Note 6:

Any pattern of marks outside the definitions “all are blank”, “One marked and one NA”, and “Blank or NA.”

**Coding Table for Note 7:  
H06021, H06022, H06023**

| N7 | H06021<br>is:             | H06022-H06023<br>are:            | H06021<br>is coded as:   | H06022-H06023<br>are coded as:                                      | *      |
|----|---------------------------|----------------------------------|--------------------------|---|--------|

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10E:

Responses to S06V14A-S06V14H are all unmarked.

Definition of “marked” in Coding Table for Note 10E:

Any pattern of marks outside the definitions “all are blank.”

**Coding Table for Note 10F:**

**S06V15, S06V16, S06V17, S06V18A-S06V18G**

| N10F | S06V15<br>is:   | S06V16, S06V17,<br>S06V18A-S06V18G<br>are:              | S06V15<br>is coded as:   | S06V16, S06V17, S06V18A-<br>S06V18G<br>are coded as:                       | * |
|------|---|---|--------------------------|--|---|
| 1    | .N, valid skip, or<br>.C, question should<br>be skipped | .N, valid skip, or<br>.C, question should<br>be skipped | Stands as original value | Stands as original value   |   |
| 2    | 1: yes  | Any value   | Stands as original value | Stands as original value   |   |
| 3    | 2: no, -5: Don't<br>know                                | Any value   | Stands as original value | .N, valid skip if unmarked,<br>.C, question should be skipped<br>if marked | F |
| 4    | Missing response  | At least one is<br>“Marked”                             | 1: yes                   | Stands as original value   | B |
| 5    | Missing response  | “All are blank”   | Stands as original value | ., if “Not marked”;<br>Stand as original value<br>otherwise                | F |

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10F:

Responses to S06V16, S06V17, S06V18A-S06V18G are all missing or unmarked.

Definition of “marked” in Coding Table for Note 10F:

Any pattern of marks outside the definitions “all are blank.”

**Coding Table for Note 10G:  
S06V17, S06V18A-S06V18G**

| N10G | S06V17<br>is:   | S06V18A-S06V18G<br>are:                                 | S06V17<br>is coded as:   | S06V18A-S06V18G<br>are coded as:   | * |
|------|---|---|--------------------------|--|---|
| 1    | .N, valid skip, or<br>.C, question should<br>be skipped | .N, valid skip, or<br>.C, question should<br>be skipped | Stands as original value | Stands as original value   |   |
| 2    | 3: no problem   | Any value   | Stands as original value | .N, valid skip if unmarked,<br>.C, question should be skipped<br>if marked | F |
| 3    | 1-2: problem  | Any value   | Stands as original value | Stands as original value   |   |
| 4    | Missing response  | At least one is<br>“Marked”                             | Stands as original value | Stand as original value  |   |
| 5    | Missing response  | “All are blank”   | Stands as original value | ., if “Not marked”   | F |

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10G:

Responses to S06V18A-S06V18G are all unmarked.

Definition of “marked” in Coding Table for Note 10G:

Any pattern of marks outside the definitions “all are blank.”

| 6   | Missing response                   | “All are blank”  | Stands as original value | Stand as original value   |        |

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 13:

Responses to H06040-H06041 are all missing.

Definition of “blank or NA” in Coding Table for Note 13:

Responses to H06040-H06041 are either all not applicable (-6) or a combination of missing and not applicable (-5).

Definition of “blank or don’t know” in Coding Table for Note 13:

Responses to H06040-H06041 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 13:

Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

**Table for Note 14:**  
**H06042, H06043**

| N14 | H06042<br>is:              | H06043<br>is:  | H06042<br>is coded as:   | H06043<br>is coded as:  | *      |
|-----|----------------------------|--|--------------------------|---|--------|
| 1   | 1: yes                     | 1, 2, 3: how much of a problem, missing response           | Stands as original value | Stands as original value  |        |

SEX (PNSEXCD) is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H06058), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

**Note 18 (Part B):**

|------|--------------|---|--|---|
| 1    | 1: Male      | “All are blank”                             | .N, valid skip   | F |
| 2    | 1: Male      | At least one is “marked”                    | .N, valid skip if missing;<br>.C, question should be skipped if marked | F |
| 3    | 2: Female    | “All are blank” or at least one is “marked” | Stands as original value   |   |
| 4    | Missing      | “All are blank” or at least one is “marked” | Missing value  | F |

\* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 18b:

All variables H06059--H06065 are missing.

Definition of “marked” in Coding Table for Note 18b:

Any pattern of marks outside the definition “all are blank.”

**Coding Table for Note 19**  
**XSEXA, AGE, H06060, H06061**

| N19 | XSEXA<br>is: | AGE<br>is: | H06060<br>is:                                     | H06061<br>is:                                    | H06060<br>is coded as:   | H06061<br>is coded as:   | *      |
|-----|--------------|------------|---|--|--------------------------|--|--------|
| 1   | 1: Male      | Any value  | .C, question should be skipped, or .N, valid skip | C, question should be skipped, or .N, valid skip | Stands as original value | Stands as original value   |        |
| 2   | 2: Female    | Any value  | 2: 40 or over                                     | Marked, missing response                         | Stands as original value | Stand as original value  |        |
| 3   | 2: Female    | Any value  | 1: under 40                                       | Marked, missing response                         | Stands as original value | .N, valid skip if missing;<br>.C, question should be skipped if marked | F      |
| 4   | 2: Female    | Any value  | Missing   | Marked   | 2: > 40                  | Stands as original value   | B      |
| 5   | 2: Female    | < 40       | Missing   | Missing  | 1: < 40                  | .N, valid skip   | F<br>B |
| 6   | 2: Female    | >=40       | Missing   | Missing  | 1: < 40                  | .N, valid skip   | F<br>B |
| 7   | 2: Female    | Missing    | Missing   | Missing  | Stands as original value | Stands as original value   |        |
| 8   | Missing      | Any value  | Missing   | Missing  | Stands as original value | Stands as original value   |        |

\* Indication of backward coding (B) or forward coding (F).

AGE (DAGEQY) is from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

| 212 | MISS_9   | Num  | 8   | 983  | HAMISS.   | Count of: No response - invalid skip     |
| 213 | MISS_TOT | Num  | 8   | 991  | HAMISS.   | Total number of missing responses        |
| 214 | XENRLLMT | Num  | 8   | 999  | ENROLL.   | Enrollment in TRICARE Prime              |
| 215 | XENR_PCM | Num  | 8   | 1007 | PCM.      | Enrollment by PCM type                   |
| 216 | XINS_COV | Num  | 8   | 1015 | INSURE.   | Insurance Coverage                       |
| 217 | XREGION  | Num  | 3   | 1023 | CREG.     | XREGION - Region                         |
| 218 | XTNEXREG | Num  | 3   | 1026 | TNEX.     | TNEX Region                              |
| 219 | CONUS    | Num  | 3   | 1029 | CONUSMHS. | CONUS - CONUS/OCONUS Indicator           |
| 220 | XOCONUS  | Num  | 3   | 1032 | XOCONUS.  | Overseas Europe/Pacific/Latin Indicator  |
| 221 | OUTCATCH | Num  | 8   | 1035 | OCATCH.   | Out of catchment area indicator          |
| 222 | XSEXA    | Num  | 8   | 1043 | HASEX.    | Male or Female - R                       |
| 223 | XBMI     | Num  | 8   | 1051 |           | Body Mass Index                          |
| 224 | XBMICAT  | Num  | 3   | 1059 | XBMICAT.  | Body Mass Index Category                 |
| 225 | XBNFGRP  | Num  | 8   | 1062 | XBGC_S.   | Constructed Beneficiary Group            |
| 226 | XSERVAFF | Num  | 3   | 1070 | XSERVAFF. | Service Affiliation                      |
| 227 | KMIOFFC  | Num  | 8   | 1073 | HAYNN.    | Office wait of more than 15 min-Mil      |
| 228 | KCIVOFFC | Num  | 8   | 1081 | HAYNN.    | Office wait of more than 15 min-Civ      |
| 229 | KBGPB1   | Num  | 8   | 1089 | HAYNN.    | Big problem getting referrals to spclst  |
| 230 | KBGPB2   | Num  | 8   | 1097 | HAYNN.    | Big problem getting necessary care       |
| 231 | KMLOPOQY | Num  | 8   | 1105 | HAGRID.   | Outpat. visits-use Military fcnty most   |
| 232 | KCIVOPQY | Num  | 8   | 1113 | HAGRID.   | Outpat. visits-use Civilian fcnty most   |
| 233 | KCIVINS  | Num  | 8   | 1121 | HAYNN2_.  | Beneficiary coverd by civilian insurance |
| 234 | HP_PRNTL | Num  | 8   | 1129 | PRNTL.    | Prgnt in 1st yr, receivd cre 1st trimstr |
| 235 | HP_MAMOG | Num  | 8   | 1137 | HAYNN.    | Women 40>, mammography in pst 2 yrs      |
| 236 | HP_MAM50 | Num  | 8   | 1145 | HAYNN.    | Women 50>, mammography in pst 2 yrs      |
| 237 | HP_PAP   | Num  | 8   | 1153 | HAYNN.    | All women, Pap smear in last 3 yrs       |
| 238 | HP_BP    | Num  | 8   | 1161 | HAYNN2_.  | Bld prsre chck in last 2 yrs,know rslts  |
| 239 | HP_FLU   | Num  | 8   | 1169 | HAYNN.    | 65 and older, flu shot in last 12 mnths  |
| 240 | HP_OBESE | Num  | 8   | 1177 | HAYNN.    | Obese/Morbidly obese                     |
| 241 | HP_SMOKE | Num  | 8   | 1185 | HAYNN.    | Advised to quit smoking in last 12 mnths |
| 242 | HP_SMOKH | Num  | 8   | 1193 | SMOKE.    | Smoker under HEDIS definition            |
| 243 | HP_CESH  | Num  | 8   | 1201 | SMOKE.    | Had smoking cessation counseling - HEDIS |
| 244 | XCATCH   | Num  | 8   | 1209 |           | XCATCH - Catchment Area (Reporting)      |

## The CONTENTS Procedure
