Chapter

1

Introduction

The 2002 Adult Health Care Survey of Department of Defense Beneficiaries (HCSDB) is the primary tool with which the TRICARE Management Activity (TMA) of the Assistant Secretary of Defense (Health Affairs) monitors the opinions and experiences of military health system (MHS) beneficiaries. The HCSDB was conducted annually from 1995 to 2000; subsequently, it has been conducted quarterly. Specifically, the HCSDB is designed to answer the following questions:

- How *satisfied* are DoD beneficiaries with their health care and their health plan?
- How does overall satisfaction with military treatment facilities (MTFs) compare with satisfaction with civilian treatment facilities (CTFs)?
- Does *access* to military and civilian facilities meet TRICARE standards?
- Is beneficiaries' use of preventive health care services in line with national goals, such as those outlined in *Healthy People 2010*?
- Has beneficiaries' use of MHS services changed over time?
- What aspects of MHS care contribute most to beneficiary satisfaction with their health care experiences? With which aspects are beneficiaries least satisfied?
- What are the demographic characteristics of MHS beneficiaries?

The HCSDB is a quarterly mail survey of a representative sample of MHS beneficiaries. It is sponsored by the TRICARE Management Activity in the Office of the Assistant Secretary of Defense (Health Affairs) [OASD(HA)] under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The DoD Defense Manpower Data Center (DMDC) prepares the sampling frame, which consists of selected variables for each MHS beneficiary in the Defense Enrollment Eligibility Reporting System (DEERS) database on a specified reference date. DEERS includes everyone who is eligible for a MHS benefit (i.e., everyone in the Uniformed Services--Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for more than 30 days -- and other special categories of people who qualify for benefits). DEERS includes those on active duty, those retired from military careers, immediate family members of people in the previous two categories, and surviving family members of people in these categories.

Each quarter, Mathematica Policy Research, Inc. (MPR, Washington, D.C.) prepares a sample of 45,000 adult beneficiaries. National Research Corporation (NRC) fields the survey each quarter. MPR analyzes the survey data, reports on the results, and once per year prepares this document, the 2002 Health Survey of DoD Beneficiaries: Adult Technical Manual.

The manual is designed as a reference tool to be used by analysts in the OASD/HA as they interpret the survey findings and prepare briefings. The manual provides detailed documentation on the following: naming conventions for variables, editing procedures, selection of records, computation of response rates, recoding of variables, computation of weights, variance estimation, and construction of tables and charts for the reports. The manual enables an analyst to link each

cell in each table (or chart) in the reports to the associated question in the adult questionnaire and/or to the variable in the survey database. The manual also enables an analyst to follow, and replicate if desired, the processing of the raw survey data through each step in the production of the final database.

A. OVERVIEW OF THE HCSDB

1. Sample Design

The 2002 adult sample design is based on three sample stratifications--enrollment type, beneficiary type, and geographic area. *Enrollment type* is defined by whether or not the beneficiary is enrolled in TRICARE Prime. Unlike in previous surveys, we did not create separate strata for beneficiaries enrolled in Prime with a military primary care manager (PCM) and beneficiaries enrolled in Prime with a civilian PCM.

Beneficiary type is defined as active duty, active duty family members, retirees and family members under age 65, and non-active duty beneficiaries and their family members age 65 and over. Compared with previous surveys, this stratification causes a larger proportion of the sample to be allocated to active duty personnel and their family members, and a smaller proportion of the sample to be allocated to retirees.

The *geographic area* stratification depends on enrollment type. Beneficiaries enrolled in Prime that have a military PCM typically receive much of their health care from a military treatment facility (MTF), that is a military hospital or clinic. The geographic stratification for such beneficiaries is determined by the MTF that bears the financial responsibility for the beneficiary's health care. This stratification does not depend on the location of the beneficiary's residence, although most such beneficiaries live within the catchment area of the responsible MTF.

Those enrolled in Prime with a civilian PCM typically receive much of their health care from a TRICARE contractor. The geographic stratification for these beneficiaries is the catchment area in which they live.

Those not enrolled in Prime typically receive much of their care through TRICARE Extra/Standard (CHAMPUS) or through a non-MHS health plan. The service area they live in determines the geographic stratification. Conceptually, the service area is the health care market area in which the beneficiary resides. Operationally, the service area is the group of catchment areas in the metropolitan area the beneficiary lives in. For beneficiaries who do not live in a metropolitan area, the service area is the same as the catchment area where they live.

Similar to last year's survey, more military clinics, as opposed to military hospitals, were included in the list of geographic areas. This means that a larger proportion of the 2002 sample is allocated to beneficiaries who receive much of their health care from a military clinic, and a smaller proportion is allocated to those receiving much of their care from a military hospital.

2. 2002 Adult HCSDB

The HCSDB questionnaire was converted from an annual to a quarterly survey in 2000, and is fielded in each quarter to a representative sample of MHS beneficiaries. The adult questionnaire for Quarter 4 is reproduced in Appendix A. The 2002 survey consists of an unchanging core questionnaire with supplements that differ from quarter to quarter.

The core adult questionnaire includes the following topics:

- Use of health care
- Use of preventive health care
- Type of health plan covering the beneficiary
- Satisfaction with health plan
- Satisfaction with health care
- Access to health care
- Demographic characteristics

The name of this year's survey reflects a new naming convention. Prior to 2000, the year in the survey's name reflected the year that respondents were asked to think about when answering the questions. For example, although the 2000 HCSDB was fielded in 2001, it asked beneficiaries to think about the prior 12 months (mostly 2000) as the reference period for their responses. Under the new naming convention, the survey title refers to the year the questionnaires are fielded, so this year's survey is the 2002 HSCDB. Because of the name change, there is no "2001" survey, even though the questionnaire was administered continuously in each quarter of 2001 and 2002.

3. Survey Response – Quarters I - IV

Each quarter in 2002, we sent surveys to a random sample of 45,000 adult MHS beneficiaries. In Quarter 1, we received completed surveys from 29 percent of the sample. In Quarters II and III, 33 percent of sample members returned completed surveys. In Quarter IV, we received completed surveys from 29 percent of the beneficiaries sampled. Information pertaining to how we developed these response rates is presented in Chapter 4.

It should be noted that above cited response rates do not reflect late arriving responses from the surveys fielded in the first three quarters. The response rates are based on the number of completed surveys returned to the survey vendor at the end of the fielding period. The annual combined dataset, however, includes the surveys returned after the end of the fielding period. Therefore, the revised annual response rates were 31 percent for Quarters I and II, and 32 and 29 percent for Quarters III and IV, respectively.

4. Database Development

MPR edits the data, selects records for inclusion in the final database, and constructs variables to be used in reports. To ensure that the survey data is representative of the DEERS population, MPR develops weights to take account of the initial sampling, the sampled individuals who chose not to respond to the survey, and post-stratification if the beneficiary's key information is updated.

5. Reports

MPR analyzed the data and produced several reports explaining the findings on topics such as satisfaction, access to care, health care use, and use of preventive services. These reports will be available on the TRICARE website at <http://www.TRICARE.USD.mil>:

- 2002 TRICARE Consumer Reports
- 2002 TRICARE Consumer Watch
- National Executive Summary Report

B. ORGANIZATION OF THIS MANUAL

Chapter 2 presents the procedures used in fielding the survey. Chapter 3 explains how the database was developed. It covers naming conventions, editing procedures, record selection criteria, descriptions of all variable types, definitions of each constructed variable, the development of satisfaction and health status scales, and weighting procedures. Chapter 4 describes how the database was analyzed and describes the rules for developing response rates and table and chart specifications for the National Executive Summary Report. In addition, it includes an explanation of the dependent variables and independent variables, and the methodology for estimating the variance of estimates. The manual concludes with the following technical appendices:

- Appendix A: Annotated questionnaire – Quarters I-IV survey questionnaire annotated with database variable names
- Appendix B: Survey Fielding Letters – Letters sent to the respondents
- Appendix C: Plan for Data Quality – Coding Scheme – Quarters I-IV
- Appendix D: A table mapping MTFs to the catchment area and region. The table also indicates the type of facility, such as teaching hospital or clinic, and the service affiliation of the MTF.
- Appendix E: Response rate tables for selected domains
- Appendix F: Technical Description of the 2002 TRICARE Consumer Reports
- Appendix G: SAS Code for File Development
- Appendix H: SAS Code for Statistical and Web Specifications for the 2002 TRICARE Consumer Reports
- Appendix I: SAS Code for 2002 TRICARE Consumer Watch
- Appendix J: The SUDAAN code for calculating variance estimates
- Appendix K: SAS Code for the 2002 National Executive Summary Report

Chapter
2

Survey of Adults

This chapter presents information on the survey administration cycle for the Quarter 4, 2002 Adult Health Care Survey of DoD Beneficiaries (HCSDB), with specific details on the survey mailing cycle and the number of surveys received.

A. SURVEY OPERATIONS ACTIVITIES

The operational support for mailing the survey involved four mailings to beneficiaries between September 3, 2002 and November 11, 2002. Targeted mailings and re-mailings have been integrated into the mailing administration in order to increase response rates. The mailings are as follows: notification letter, first survey mailing, reminder/thank you post card, and second survey mailing. The notification letter was a short letter of explanation encouraging beneficiaries to participate. The first and second surveys were mailed with a cover letter of explanation. The reminder/thank you post card was mailed between the first and second surveys reminding beneficiaries to complete the survey and thanking those beneficiaries who had completed the survey. Examples of these are available in Appendix B. All mailings have been completed. The field period closed on December 6, 2002.

B. ADDRESS UPDATE ACTIVITIES PRIOR TO AND DURING SURVEY ADMINISTRATION

National Research Corporation (NRC) received the sample file from MPR on August 8, 2002. The file contained 45,000 records of DoD beneficiaries and 74 variables constructed from the Defense Enrollment Eligibility Reporting System (DEERS). The file was sent to an NCOA vendor for address updating on August 8, 2002. NRC sent a copy of all sample records to an outside vendor to receive address hygiene services and to be interfaced with the National Change of Address (NCOA) database to obtain updated address information. The NCOA vendor returned the updated address file and this information, along with the sample file from MPR, were loaded into NRC's proprietary software system known as Qualysis. Qualysis is NRC's "quality process" software and business discipline that standardizes and automates the entire survey process from data quality checks to the scanning of returned surveys.

The Configuration Manager module in Qualysis contains the layout for all mail items (e.g., the survey, cover letters, thank you/reminder postcards), mail methodology, and cover letter personalization. The notification letter was sent to the mailing address provided by the NCOA vendor when available. Records that were not updated by the NCOA vendor were mailed to one of the three DEERS addresses: residential address, sponsor address, and unit address. When possible, the residential address was given preference over the sponsor address and likewise the sponsor address was given preference over the unit address. When all records had been assigned an address for the notification letter-mailing step, Qualysis began generating the personalized letters. The notification letter was mailed on September 3, 2002.

The process of updating addresses is a continuous process throughout the survey administration cycle. During survey administration, address updates are obtained from multiple sources:

- Self report by beneficiaries (via telephone, voice mail, or fax).
- Address correction information from the United States Postal Service (USPS).
- Out of date forwarding address information from the USPS.
- Mail items returned by the USPS as non-deliverable.

Updated address information was added to Qualysis through the use of the DoD Beneficiary Update System (DoDBUS), an interface created by NRC developers to allow new address information to be entered into Qualysis and to track changes when using the DEERS supplied addresses.

Address information received directly from the beneficiary was considered the most accurate and was the first address used whenever possible. Beneficiaries were provided with toll free telephone and toll free fax phone numbers and voice mail option to use in order to update their addresses. Collect calls were also available if a beneficiary could not access the toll free telephone number. The telephone and fax numbers were printed on the notification letter, the reminder/thank you card, and the cover letter that accompanied the first survey.

The United States Postal Service also provided address update information in the form of Address Correction Services. This service is accessed by the use of the "Address Service Requested" indicia on the notification letter located on the outer envelopes of the first and second surveys. Many post offices returned updated address information on diskettes, which were loaded, into Qualysis. Post offices that did not have access to this technology returned copies of the mail piece with the old and new addresses provided. This information was entered into Qualysis through the DoDBUS.

The DoDBUS also provided the interface to enter non-deliverable mail pieces and mark the address used for that mail step as invalid. If other addresses were available, the DoDBUS operator would choose the next available address for the next mail step. When all addresses had been exhausted, the record was marked as a "final non-deliverable" and no further mailings were attempted. Second surveys that were returned as non-deliverable were also marked as "final non-deliverables" as it was the final mail step in this methodology.

Based on data from the final returns data set, a total of 2,422 beneficiaries did not have sufficient address information and were not included in any of the mail steps. The remaining beneficiaries were mailed the notification letter. Prior to mailing the first survey, NRC removed any beneficiaries who were marked as "final non-deliverable" or any beneficiary who contacted NRC and refused to participate or was found to be ineligible. First surveys were mailed on October 7, 2002. The reminder/thank you card was mailed on October 21, 2002. The reminder card was sent to all beneficiaries who received the first survey, with the exception of those beneficiaries whose first survey was returned and their record marked as "final non-deliverable". Second surveys were mailed on November 11, 2002. Second surveys were mailed to all beneficiaries who did not return a first survey and whose records had not been marked as "final non-deliverable".

Table 2.1 summarizes address sources by each of the four beneficiary categories. This table shows the source of the last address used in sending a mailing piece to a beneficiary. As in previous years, the largest number of invalid addresses fell in the Active Duty category. It has been speculated that this is due, in part, to this group's mobility. However, the table also suggests that DEERS supplied addresses were used 80% of the time.

TABLE 2.1

FREQUENCY AND PERCENT DISTRIBUTION OF FINAL DISPOSITION OF SURVEY SAMPLE BY BENEFICIARY GROUP – QUARTERS 1-IV

Final Survey Disposition	Active Duty	Active Duty Dependents	Retirees and Family Members < 65	Retirees and Family Members > 65	Total
Returned non-blank survey	17,022 9.5%	13,277 7.4%	17,299 9.6%	7,712 4.3%	55,310 30.8%
Blank - temp ill or incapacitated	0 0.9%	0 0.0%	1 0.0%	2 0.0%	3 0.9%
Blank - deceased	7 0.0%	4 0.0%	48 0.0%	108 1.1%	167 1.1%
Blank - incarcerated or perm incapacitated	0 0.0%	1 0.0%	7 0.0%	15 0.0%	23 0.0%
Blank - left military or divorced during fielding period	34 0.0%	16 0.0%	6 0.0%	1 0.0%	57 0.0%
Blank - not eligible for MHS during fielding period	14 0.0%	65 0.0%	26 0.0%	2 0.0%	107 0.0%
Blank - other eligible	11 0.0%	23 0.0%	13 0.0%	7 0.0%	54 0.0%
Blank - no reason	53,349 29.6%	26,314 14.6%	13,584 7.5%	1,971 1.1%	95,218 52.8%
No return - active refuser	16 0.0%	26 0.0%	20 0.0%	9 0.0%	71 0.0%
PND - no address remaining	6,487 3.6%	2,184 1.2%	1,288 0.7%	354 0.2%	10,635 5.7%
PND - address remaining	4,092 2.3%	3,656 2.0%	435 0.3%	57 0.0%	8,240 4.6%
Original Non-Locatable - no address at start	6,874 3.8%	1,734 1.0%	853 0.5%	306 0.2%	9,767 5.5%
Beneficiary writes and refuses participation	1 0.0%	2 0.0%	1 0.0%	0 0.0%	4 0.0%
Total =					180,000 100.0%

* Note: This table does not include duplicate surveys.

Table 2.2 summarizes the address sources for returned surveys exclusive for Quarter 4 of the 2002 Adult HCSDb data file. The data shows that over 84% of the returned surveys were mailed to the residential beneficiary address supplied by DEERS.

TABLE 2.2
FREQUENCY OF ADDRESS SOURCES FOR RETURNED SURVEYS
(N = 13,022)

Address Type	Frequency (n)	Percent of Returns
DEERS Residential	11,054	84.9%
DEERS Sponsor	138	1.1%
DEERS Unit	230	1.8%
Phone/Voice Mail	89	0.7%
NCOA	1,002	7.7%
Fax	24	0.2%
ACR & ODF	785	3.7%
Electronic ACR	0	0.00%
Total	13,022	100.00%

Note: If beneficiaries returned more than one completed survey, both surveys were included in the numbers in Table 2.2.

C. LETTER PROCESSING PROCEDURES

A vital component involved in the effective management and monitoring of the data collection process is the Survey Control System (SCS). The SCS ensures that data are accurate, integrated, and available during all phases of the survey administration. NRC's unique identifier - known as a "lithocode" - links all records in the SCS to the original sample file. The lithocode is a unique identification number assigned by Qualysis at the time that letters or surveys are generated. A new lithocode number is created for each mail step. These lithocodes are stored for each beneficiary in a table in the SCS. This allows NRC staff to determine whether a returned survey is a first or second survey and identify instances where a beneficiary may return both the first and second survey. The lithocode also allows the surveys to be monitored without use of a beneficiary's social security number or other information that could identify the beneficiary. Lithocodes are used to identify the beneficiary when returned surveys are scanned, whenever beneficiaries are removed from future mailings due to refusal/ineligibility or no valid address, and when addresses are updated or changed in DoDBUS.

D. SURVEY ADMINISTRATION TIMELINE

The HCSDb mailing process was designed so that each beneficiary with a usable address could receive up to four documents: a notification letter, a first survey, a reminder/thank you card, and a second survey. If a beneficiary returned a first survey, a second survey was not sent. If a beneficiary refused to participate or was ineligible, they were removed from future mail steps as well. Beneficiaries who were marked as "final non-deliverable" also were removed from future mail steps.

A total of 42,578 notification letters were mailed on September 3, 2002. Immediately following this mailing, NRC staff began entering address changes and updating records to indicate beneficiaries who identified themselves as refusing to participate or as ineligible to participate. There were 1,033

records marked as “final non-deliverable” and 103 records marked as refused/ineligible prior to mailing the first survey. The survey is a 16-page booklet accompanied by a cover letter of explanation and a postage paid return envelope. A total of 41,442 first surveys were mailed to beneficiaries on October 7, 2002.

The reminder/thank you card was sent to 39,443 beneficiaries on October 21, 2002. The number of reminder/thank you cards was reduced by 332 records marked as “final non-deliverables”, 74 records marked as refused/ineligible, and 1,593 records marked due to beneficiaries who returned the first survey.

The second survey was mailed to 31,450 beneficiaries on November 11, 2002. This number was reduced by 944 records marked as “final non-deliverables”, 111 records marked as refused/ineligible, and 6,938 records marked due to beneficiaries who returned the first survey.

Prior to the mailing of the first survey, 20 questionnaires were completed by NRC staff and scanned into the SCS. A data set file was created and copies of the questionnaires were sent to the analysis contractor to determine if the file was readable and scanned correctly.

Table 2.3 summarizes the HCSDB mailings. Data includes the date of each mail step, the quantity mailed in each step, and the number of records that were removed prior to the next mail step.

TABLE 2.3
MAILING TIMELINE – QUARTER IV

Mail Step	Action	Records Removed	Sample
	Total Sample Size Subtract no address Subtract bad address Total: beneficiaries not receiving a pre note	263 2,159	45,000 2,422
Notification Letter	Mailed on 09/03/02 Subtract PND Subtract ineligible/refused Total	1,033 103	42,578 1,136
First Survey	Mailed on 10/07/02 Subtract PND Subtract ineligible/refused Subtract 1 st surveys received Total	332 74 1,593	41,442 1,999
Reminder/Thank You Post Card	Mailed on 10/21/02 Subtract PND Subtract ineligible/refused Subtract 1st Surveys received Total	944 111 6,938	39,443 7,993
Second Survey	Mailed on 11/11/02		31,450

E. PROCESSING AND CLASSIFICATION OF INCOMING SURVEYS

Returned surveys were visually checked for any written comments prior to scanning. Refusal or ineligibility comments were entered into Qualysis using the DoDBUS. Any other comments were referred to the Account Director to be forwarded to the DoD Task Manager.

Each morning, NRC staff open non-deliverables and update address changes or "final non-deliverable" status for each record. Surveys are scanned using software called FAQSS. The Scanner Interface module of Qualysis receives the information from FAQSS and identifies the beneficiary and their responses to the survey questions.

Surveys must be imported from the Qualysis directory into the FAQSS System by running a "create text definitions files" from the scanner interface application. During the import process, the surveys are run through three passes. In the first pass, the lithocode is read. Any unread lithocodes are manually entered. The system then creates a lithocode list. From the complete lithocode list, Qualysis exports the text definition files to match the lithocodes. Lastly, FAQSS separates the files into batches and moves them into the processing queue.

The next step in scanning is batch processing. This template is used by the processor to find response areas and to read the responses as valid or spurious. If the system is not 99 percent certain of a response, it is sent to a data editing workstation.

Any questionable marks as detected by the processor are brought up at the data editing station for review by an editor. The editor decides if the mark is a valid response and enters the appropriate system instructions. If the editor is unable to determine the response, a "non-response" instruction is entered. From scanner interface, a transfer results application is applied which moves the scanning files into the Qualysis database and logs the transaction. A final check is then performed to ensure that all surveys have been entered in the Qualysis database.

Throughout the administration of HCSDB, all records are marked with a final disposition code known as FLAG_FIN. Some records (such as no valid addresses) can be marked prior to the first mail step. Other records cannot be marked until all mail steps have been completed. The FLAG_FIN variables and their descriptions are

- FLAG_FIN=1
Returned survey – survey was completed and returned.
- FLAG_FIN=2
Returned ineligible – survey was returned with at least one question marked and information that the beneficiary was ineligible. The information indicating ineligibility may have come by phone, fax, or the survey itself.
- FLAG_FIN=3
Returned blank – temporarily ill or incapacitated. Survey was returned blank along with information that the beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=4
Returned blank – deceased. Survey was returned blank along with information that the beneficiary was deceased. These sample members were ineligible.
- FLAG_FIN=5
Returned blank – incarcerated or permanently incapacitated. Survey was returned blank along with information that the beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.

- FLAG_FIN=6
Returned blank – left military or divorced after 04/30/02, retired. Survey was returned blank along with information that the beneficiary left the military after 04/30/02, divorced after 04/30/02, or retired. These sample members were eligible.
- FLAG_FIN=7
Returned blank – not eligible on 04/30/02. Survey was returned blank along with information that the beneficiary was not eligible for Military Health System Plan on 04/30/02. These sample members were ineligible.
- FLAG_FIN=8
Returned blank – other eligible. Survey was returned blank along with a reason given by the sample member. These sample members were eligible.
- FLAG_FIN=9
Returned blank – no reason. Survey was returned blank without an explanation. These sample members were eligible.
- FLAG_FIN=10
No return – temporarily ill or incapacitated. Survey was not returned and beneficiary was temporarily ill or incapacitated. These sample members were eligible.
- FLAG_FIN=11
No return – active refuser. Survey was not returned and beneficiary refused to take part in the survey. These sample members were eligible.
- FLAG_FIN=12
No return – deceased. Survey was not returned and beneficiary deceased. These sample members were ineligible.
- FLAG_FIN=13
No return – incarcerated or permanently incapacitated. Survey was not returned, beneficiary was incarcerated or permanently hospitalized. These sample members were ineligible.
- FLAG_FIN=14
No return – left military or divorced after 04/30/02, retired. Survey was not returned, beneficiary left service after 04/30/02, divorced after 04/30/02, or retired. These sample members were eligible.
- FLAG_FIN=15
No return – not eligible on 04/30/02. Survey was not returned, beneficiary was not eligible for Military Health System Plan on 04/30/02. These sample members were ineligible.
- FLAG_FIN=16
No return – other eligible. Survey was not returned, beneficiary gave other reason for not completing the survey. These sample members were eligible.
- FLAG_FIN=17
No return – no reason. Survey was not returned, beneficiary gave no reason.
- FLAG_FIN=18
PND – no address remaining. All addresses were attempted, mailing was returned PND.

- FLAG_FIN=19
PND – address remaining at the close of field. At the close of field, the last address used was found invalid, next available was not attempted.
- FLAG_FIN=20
Original Non-Locatable – no address at start of mailing. Substantially incomplete or blank address field before the survey was administered, no mailings attempted.
- FLAG_FIN=21
Beneficiary provides written documentation declining to participate but doesn't specify a reason.
- FLAG_FIN=22
Beneficiary indicates they are hospitalized but without providing any way to determine whether incapacity is temporary or permanent. Therefore, eligibility determination cannot be made.
- FLAG_FIN=23
Returned blank – deployed. Survey was returned blank along with information that the beneficiary was deployed.
- FLAG_FIN=24
No return – deployed. Survey was not returned, beneficiary was deployed.

Table 2.4 documents the final disposition of the survey sample by each beneficiary group. The ENBGSMPL variable was used to create the beneficiary groups. The ENBGSMPL variable has values 1-10. The value of 1 is = Active Duty; values of 2, 3, & 4 = Active Duty Dependents, values of 5, 6, & 7 = Retired and Family Members < 65; and values of 8, 9, & 10 = Retired and Family Members > 65.

TABLE 2.4

FREQUENCY AND PERCENT DISTRIBUTION OF FINAL DISPOSITION OF SURVEY SAMPLE BY BENEFICIARY GROUP

Final Survey Disposition	Active Duty	Active Duty Dependents	Retirees and Family Members < 65	Retirees and Family Members > 65	Total
Returned non-blank survey	3,775 8.39%	2,789 6.20%	4,230 9.40%	2,123 4.72%	12,917 28.70%
Returned - ineligible	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - temp ill or incapacitated	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - deceased	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - incarcerated or perm incapacitated	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - left military or divorced after 04/30/02	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - not eligible for MHS on 04/30/02	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - other eligible	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - no reason	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
No return - temp ill or incapacitated	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
No return - active refuser	2 0.00%	11 0.02%	3 0.01%	2 0.00%	18 0.04%
No return - deceased	3 0.01%	1 0.00%	5 0.01%	11 0.02%	20 0.04%
No return - incarcerated or perm incapacitated	0 0.00%	1 0.00%	2 0.00%	3 0.01%	6 0.01%
No return - left military or divorced after 04/30/02	8 0.02%	10 0.02%	5 0.01%	1 0.00%	24 0.05%
No return - not eligible on 04/30/02	1 0.01%	6 0.01%	6 0.01%	0 0.00%	13 0.03%
No return - other eligible	5 0.01%	5 0.01%	2 0.00%	3 0.01%	11 0.02%
No return - no reason given	13,723 30.50%	6,843 15.21%	3,684 8.19%	595 1.32%	24,928 55.40%
PND - no address remaining	1,630 3.62%	480 1.07%	264 0.59%	74 0.16%	2,337 5.19%
PND - address remaining	1,157 2.57%	954 2.12%	148 0.33%	20 0.04%	2,279 5.06%
Original Non-Locatable - no address at start	1,692 3.76%	433 0.96%	228 0.51%	69 0.15%	2,422 5.38%
Beneficiary writes and refuses participation	1 0.00%	0 0.00%	0 0.00%	0 0.00%	1 0.00%
Hospitalized - unknown if temp or perm incapacitated	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
Blank - deployed	0 0.00%	0 0.00%	0 0.00%	0 0.00%	0 0.00%
No return - deployed	57 0.13%	3 0.01%	1 0.00%	0 0.00%	22 0.05%
Total	21,985 48.86%	11,536 25.64%	8,578 19.06%	2,901 6.45%	45,000 100.00%

* Note: This table does not include duplicate surveys.

The data in Table 2.5 displays the number of first and second surveys returned.

TABLE 2.5
RETURNED SURVEYS BY SURVEY TYPE

Survey Indicator	First Survey	Second Survey	Total
Returned non-blank survey	10,407 79.92%	2,510 19.28%	12,917 99.19%
Returned non-blank duplicate survey	0 0.00%	105 0.81%	105 0.81%
Total	10,407 79.92%	2,615 20.08%	13,022 100.00%

Note: This table includes duplicate surveys.

Chapter

3

Database

This chapter explains the process of developing the raw survey data into a final database free of inconsistencies and ready for analysis. We discuss the design of the database; cleaning, editing, and implementing the coding scheme; record selection; and constructing variables.

A. DATABASE DESIGN

The 2002 Adult HCSDb consists of variables from various sources. When NRC delivers the file to MPR after fielding the sample, the following types of variables are present:

- DEERS information on beneficiary group, social security number, sex, age, etc.
- Sampling variables used to place beneficiaries in appropriate strata
- Core and supplemental questionnaire responses
- NRC information from fielding the sample, such as scan date and flags developed during the fielding to assist us in determining eligibility

MPR added the following types of variables to the database:

- Updated DEERS variables from the time of data collection to be used for post-stratification
- Coding Scheme flags
- Constructed variables for analysis
- Weights

In addition, MPR updated and cleaned the questionnaire responses using the coding scheme tables found in Appendix C. Each quarter, the final public-use file will contain only the recoded responses; this will help users to avoid using an uncleaned response for analysis. We structured the final database so that all variables from a particular source are grouped by position. Table 3.1 lists all variables in the annual database by source and briefly describes these sources. For specific information on variable location within the database, refer to the “2002 Adult Health Care Survey of DoD Beneficiaries: Adult Codebook and User’s Guide.”

1. Data Sources

a. DEERS

Standard Technologies, Inc. (STI) provided the sampling frame to MPR prior to the selection of the sample. DEERS information such as sex, date of birth, and service are retained in the database; this data is current as of the time of sample selection.

b. Sampling Variables

MPR developed variables during the sample selection procedure that were instrumental in placing beneficiaries in appropriate strata. Many of the variables are retained on the database.

c. Questionnaire Responses

These variables represent the cleaned values for all responses to the questionnaire. The original values scanned in by NRC are cleaned and recoded as necessary to ensure that responses are consistent throughout the questionnaire. The coding scheme tables found in Appendix C are the basis for insuring data quality.

d. Survey Fielding Variables

In the process of fielding the survey, NRC created a number of variables that we retain in the database. Certain of these variables, information that came in by phone, for example, assist us in determining eligibility.

e. Coding Scheme Flags

Each table of the Coding Scheme (see Appendix C) has a flag associated with it that indicates the pattern of original responses and any recodes that were done. For example, the table for Note 5 has a flag N5.

f. Constructed Variables

MPR constructed additional variables that were used in the TRICARE Consumer Reports, TRICARE Consumer Watch, and the National Executive Summary Report. Often these variables were regroupings of questionnaire responses or the creation of a binary variable to indicate whether or not a TRICARE standard was met. Complete information on each constructed variable is found in section 3.D.

g. Weights

MPR developed weights for each record in the final database. Weights are required for the following reasons:

- To compensate for variable probabilities of selection
- To adjust for differential response rates
- To improve the precision of survey-based estimates through post-stratification

SAMPLING VARIABLES

MPRID	Unique MPR identifier
SVCSMPL	Branch of Service
SEXSMPL	Sex
STRATUM	Sampling stratum
CACSMPL	Catchment Area
ENBGSMPL	Enrollment by beneficiary category
MPCSMPL	Sampling military rank
NHFF	Stratum Sample Size

SERVAREA	Service Area
DCATCH	Catchment Area
DMIS_ID	DMIS ID
E1	Eligibility indicator for period = 1
E2	Eligibility indicator for period = 2
E3	Eligibility indicator for period = 3
E4	Eligibility indicator for period = 4
E5	Eligibility indicator for period = 5
E6	Eligibility indicator for period = 6
E7	Eligibility indicator for period = 7
E8	Eligibility indicator for period = 8
ONTIME	Responded within 8 weeks of mail-out

DEERS VARIABLES

SERVAFF	Service Affiliation
MRTLSTAT	Marital Status
RACEETHN	Race/Ethnicity
PNSEXCD	Person Gender
LEGDDSCD	DDS Code
DAGEQY	Age at time of data collection
PCM	Primary Manager Code (CIV or MIL)
TSPSITE	TSP Site (regardless of age)
DBENCAT	Beneficiary Category
DMEDELG	Medical Privilege Code
DSPONSVC	Derived Sponsor Branch of Service
MBRRELCD	Member Relationship Code
MEDTYPE	Medicare Type
PATCAT	Aggregated Beneficiary Category
PNLCATCD	Personnel Category Code (Duty Status)
FIELDAGE	Age at start of fielding period
FNSTATUS	Final Status
KEYCOUNT	Number of key questions answered

QUESTIONNAIRE CORE VARIABLES

H02001	Are you the person listed on the envelope?
H02002A	Which of the following healthcare plans are you currently covered by - TRICARE Prime?
H02002C	Which of the following healthcare plans are you currently covered by - TRICARE Extra/Standard (CHAMPUS)?
H02002F	Which of the following healthcare plans are you currently covered by – MEDICARE?
H02002G	Which of the following healthcare plans are you currently covered by – FEHBP?

H02002H	Which of the following healthcare plans are you currently covered by – MEDICAID?
H02002I	Which of the following healthcare plans are you currently covered by – Civilian HMO?
H02002J	Which of the following healthcare plans are you currently covered by – Other civilian?
H02002K	Which of the following healthcare plans are you currently covered by – USFHP?
H02002L	Which of the following healthcare plans are you currently covered by – Not sure?
H02002M	Which of the following healthcare plans are you currently covered by – Veterans?
H02002N	Which of the following healthcare plans are you currently covered by – TRICARE Plus?
H02002O	Which of the following healthcare plans are you currently covered by – TRICARE for Life
H02003	Currently, are you covered by Medicare Part A?
H02004	Currently, are you covered by Medicare Part B?
H02005	Currently, are you covered by Medicare supplemental insurance?
H02006	Which health plan did you use for all or most of your healthcare in the last 12 months?
H02007	How many months or years in a row have you been in this health plan?
H02008	When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?
H02009	With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?
H02010	Do you have one person you think of as your personal doctor or nurse?
H02011	Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?
H02012	Are you currently enrolled in TRICARE Prime?
H02013	As a member of TRICARE Prime, do you have a Primary Care Manager (PCM) based in a military or civilian facility?
H02014	Do you know your PCM's name?
H02015	In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?
H02016	In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?
H02017	In the last 12 months, did you see a specialist?
H02018	Use any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible. How would you rate the specialist?
H02019	In the last 12 months, was the specialist you saw most often the same doctor as your personal doctor?
H02020	In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?
H02021	In the last 12 months, when you called during regular office hours, how often did you get the help or advice you need?
H02022	In the last 12 months, did you make any appointments with a doctor or other health provider for regular or routine health care?
H02023	In the last 12 months, how often did you get an appointment for regular or routine healthcare as soon as you wanted?

H02024	In the last 12 months, how many days did you usually have to wait between making an appointment for regular or routine care and actually seeing a provider?
H02025	In the last 12 months, did you have an illness or injury that needed care right away from a doctor's office, clinic or emergency room?
H02026	In the last 12 months, when you needed care right away for an illness or injury, how often did you get care as soon as you wanted?
H02027	In the last 12 months, how long did you usually have to wait between trying to get care and actually seeing a provider for an illness or injury?
H02028	In the last 12 months, how many times did you go to an emergency room to get care for yourself?
H02029	In the last 12 months (not counting times you went to an emergency room) how many times did you go to a doctor's office or clinic to get care for yourself?
H02030	In the last 12 months, how much of a problem, if any, was it to get care you or a doctor believed necessary?
H02031	In the last 12 months, how much of a problem, if any, were delays in healthcare while you waited for approval from your health plan?
H02032	In the last 12 months, how often did you wait in the doctor's office or clinic more than 15 minutes past your appointment time to see the person you went to see?
H02033	In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?
H02034	In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?
H02035	In the last 12 months, how often did doctors or other health providers listen carefully to you?
H02036	In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?
H02037	In the last 12 months, how often did doctors or other health providers show respect for what you had to say?
H02038	In the last 12 months, how often did doctors or other health providers spend enough time with you?
H02039	Use any number from 0 to 10 where 0 is the worst healthcare possible, and 10 is the best healthcare possible. How would you rate your healthcare?
H02040	In the last 12 months, how many prescriptions did you have that were written by a civilian provider but were filled at a military pharmacy? Include refills.
H02041	In the last 12 months, where did you go most often for your health care?
H02042	What is the single most important reason to you in your decision to use a military treatment facility for your healthcare?
H02043	In the last 12 months, did you or anyone else send in any claims to your health plan?
H02044	In the last 12 months, how often did your health plan handle your claims in a reasonable time?
H02045	In the last 12 months, how often did your health plan handle your claims correctly?
H02046	In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?
H02047	In the last 12 months, did you look for any information in written materials from your health plan?

H02048	In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?
H02049	In the last 12 months, did you call your health plan's customer service to get information or help?
H02050	In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?
H02051	In the last 12 months, have you called or written your health plan with a complaint or problem?
H02052	How long did it take for the health plan to resolve your complaint?
H02053	Was your complaint or problem settled to your satisfaction?
H02054	In the last 12 months, did you have any experiences with paperwork for your health plan?
H02055	In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?
H02056	Use any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible. How would you rate your health plan now?
H02057	If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?
H02058	Not counting when you were sick or pregnant, when was the last time you had a general medical or physical examination or checkup?
H02059	When did you last have a blood pressure reading?
H02060	Do you know if your blood pressure is too high?
H02061	When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?
H02062	When did you last have a flu shot?
H02063	Have you ever smoked at least 100 cigarettes in your entire life?
H02064	Do you now smoke everyday, some days or not at all?
H02065	How long has it been since you quit smoking cigarettes?
H02066	In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?
H02067	Are you male or female?
H02068	When was the last time you had a prostate gland examination or blood test for prostate disease?
H02069	When did you last have a Pap smear test?
H02070	Are you under age 40?
H02071	When was the last time your breasts were checked by mammography?
H02072	When was the last time you had a breast exam by a health care professional?
H02073	Have you been pregnant in the last 12 months or are you pregnant now?
H02074	In what trimester is your pregnancy?
H02075	In which trimester did you first receive prenatal care?
H02076	In general, how would you rate your overall health plan?
H02077	Are you of Hispanic or Latino origin or descent?

SREDA	What is the highest grade or level of school that you have completed – 8th grade or less?
SRRACEA	What is your race - White?
SRRACEB	What is your race - Black or African American?
SRRACEC	What is your race - American Indian or Alaska Native?
SRRACED	What is your race - Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, or Vietnamese)?
SRRACEE	What is your race - Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian, or Chamorro)?
SRAGE	What is your age now?

QUARTER 1 : SUPPLEMENTAL VARIABLES

S02S01	Overall, how would you rate your health during the past four weeks?
S02S02	During the past four weeks, how much did physical health problems limit your usual physical activities?
S02S03	During the past four weeks, how much difficulty did you have doing your daily work, both at home and away from home because of your physical health?
S02S04	How much bodily pain have you had during the past four weeks?
S02S05	During the past four weeks, how much energy did you have?
S02S06	During the past four weeks, how much did your physical health or emotional problems limit your social activities with family or friends?
S02S07	During the past four weeks, how much have you been bothered by emotional problems?
S02S08	During the past four weeks, how much did personal or emotional problems keep you from doing your usual work, school or other daily activities?
S02S09	Compared to one year ago, how would you rate your health in general now?
S02L01	Before receiving this survey, were you aware of TRICARE for Life?
S02L02	How much of a problem, if any, is it to understand your health benefits under TRICARE for Life?
S02L03A	What additional information about TRICARE for Life would you like to have? – What is covered?
S02L03B	What additional information about TRICARE for Life would you like to have? – Who is eligible?
S02L03C	What additional information about TRICARE for Life would you like to have? – How your doctor gets paid?
S02L03D	What additional information about TRICARE for Life would you like to have? – How TRICARE affects VA benefits?
S02L03E	What additional information about TRICARE for Life would you like to have? – Whether private insurance should be dropped?
S02L03F	What additional information about TRICARE for Life would you like to have? – Where to get help or information?
S02L03G	What additional information about TRICARE for Life would you like to have? – How to make sure you are eligible?
S02L03H	What additional information about TRICARE for Life would you like to have? – Which doctors you can see?

S02L03I	What additional information about TRICARE for Life would you like to have? – Do not need additional information.
S02L04A	How helpful were the following sources of information about your benefits under TRICARE for Life? – TRICARE benefits counselor or advisor
S02L04B	How helpful were the following sources of information about your benefits under TRICARE for Life? – TRICARE toll-free phone number
S02L04C	How helpful were the following sources of information about your benefits under TRICARE for Life? – Medicare or Social Security
S02L04D	How helpful were the following sources of information about your benefits under TRICARE for Life? – Your primary doctor
S02L04E	How helpful were the following sources of information about your benefits under TRICARE for Life? – TRICARE website
S02L04F	How helpful were the following sources of information about your benefits under TRICARE for Life? – Direct mailings from TRICARE
S02L04G	How helpful were the following sources of information about your benefits under TRICARE for Life? – Military publication
S02L04H	How helpful were the following sources of information about your benefits under TRICARE for Life? – Civilian retiree publication
S02L04I	How helpful were the following sources of information about your benefits under TRICARE for Life? – Other
S02L05	On which of the sources listed in Question 92 did you rely most for information about TRICARE for Life?
S02L06	As a result of the new benefits under TRICARE for Life, did you enroll in Medicare Part B?
S02L07	As a result of your new benefits under TRICARE for Life, did you drop a Medigap (private Medicare supplement) insurance policy or other private health insurance policy?
S02L08	As a result of your new benefits under TRICARE for Life, did you disenroll from a civilian HMO?
S02L09	Under TRICARE for Life, where do you plan to get most of your health care?
S02L10	Since October 1, 2001, have you received medical care from civilian sources (other than prescription drugs)?
S02L11	Did any health care provider ask for payment from you at the time of service for medical care you received since October 1, 2001?
S02L12	A bill is a request for payment for services received. Did you get a bill or bills for medical care you received since October 1, 2001 that you thought should have been covered by both Medicare and TRICARE?
S02L13A	How have you responded to the bill or bills? – Paid or intend to pay bill
S02L13B	How have you responded to the bill or bills? – Ignoring bill
S02L13C	How have you responded to the bill or bills? – Have contacted or intend to contact provider
S02L13D	How have you responded to the bill or bills? – Have contacted or intend to contact TRICARE
S02L13E	How have you responded to the bill or bills? – Have contacted or intend to contact Medicare
S02L14	Has the billing matter been resolved to your satisfaction?

S02L15	As a result of your new benefits under TRICARE for Life and TRICARE Senior Pharmacy, did you change the type of pharmacy where you get prescription drugs?
S02L16	Since April 1, 2001 at what type of pharmacy have you filled most of your prescriptions?
S02L17	Please indicate the extent to which you agree or disagree with the following statement about TRICARE for Life: I am satisfied with my TRICARE for Life benefits.

QUARTER 2 : SUPPLEMENTAL VARIABLES

S02C01	Is this person a general doctor, a specialist doctor, a physician assistant, or a nurse?
S02C02	How many months or years have you been going to your personal doctor or nurse?
S02C03	Do you have a physical or medical condition that seriously interferes with your ability to work, attend school, or manage your day-to-day activities?
S02C04	Does your personal doctor or nurse understand how any health problems you have affect your day-to-day life?
S02C05	In the last 12 months, how many times did you go to specialists for care for yourself?
S02C06	In the last 12 months, were any decisions made about your health care?
S02C07	In the last 12 months, how often were you involved as much as you wanted in these decisions about your health care?
S02C08	In the last 12 months, how much of a problem, if any, was it to get your doctors or other health providers to agree with you on the best way to manage your health conditions or problems?
S02C09	Use any number from 0 to 10 where 0 is the worst healthcare possible, and 10 is the best healthcare possible. How would you rate all of your healthcare?
S02C10	In the last 12 months, did you have a health problem for which you needed special medical equipment, such as a cane, a wheelchair, or oxygen equipment?
S02C11	In the last 12 months, did you have any health problems that needed special therapy, such as physical, occupational, or speech therapy?
S02C12	In the last 12 months, how much of a problem, if any, was it to get the <u>special therapy</u> you needed through your health plan?
S02C13	In the last 12 months, did you need someone to come into your home to give you home health care or assistance?
S02C14	In the last 12 months, how much of a problem, if any, was it to get the care or assistance you needed through your health plan?
S02C15	Because of any impairment or health problem, do you need the help of other persons with your personal care needs, such as eating, dressing, or getting around the house?
S02C16	Because of any impairment or health problem, do you need help with your routine needs, such as everyday household chores, doing necessary business, shopping, or getting around for other purposes?
S02C17	Do you have a physical or medical condition that seriously interferes with your independence, participation in the community, or quality of life?
S02C18	We want to know your rating of how well your health plan has done in providing the equipment, services, and help you need.
S02C19	In the last 12 months, have you been a patient in a hospital overnight or longer?
S02C20	Do you now have any physical or medical conditions that have lasted for at least 3 months? [Women: DO NOT include pregnancy.]

S02C21	In the last 12 months, have you seen a doctor or other health provider more than twice for any of these conditions?
S02C22	Have you been taking prescription medicine for at least 3 months for any of these conditions?
S02E01	In the past 12 months, have you received any eyewear from a military treatment facility?
S02E02	Did you receive your eyewear as soon as you wanted?
S02E03	In the past 12 months, how much of a problem, if any, was it to get eyeglass frames that you considered appealing, from a military treatment facility?
S02E04	In the past 12 months, how much of a problem, if any, was it to get eyeqear or eyeglasses that had the correct prescription?
S02E05	In the past 12 months, how much of a problem, if any, was it to get eyeglass frames that properly fit you?
S02E06	Do you wear "Frame of Choice" eyewear?
S02E07	Is your "Frame of Choice" your preferred military eyewear?
S02E08	What is the most important factor in your decision to use military-issue eyewear or eyeglasses?
S02E09	Would you recommend military-issue eyeglasses to your family and friends?

QUARTER 3 : SUPPLEMENTAL VARIABLES

S02D01	In the last 12 months, did you get care from a dentist's office or dental clinic?
S02D02	In the last 12 months, how many times did you go to a dentist's office or dental clinic for care for yourself?
S02D03	How would you rate your dental care?
S02M01	In the last 12 months, did you need any treatment or counseling for a personal or family problem?
S02M02	In the last 12 months, how much of a problem, if any, was it to get the treatment or counseling you needed through your health plan?
S02M03	How would you rate your treatment or counseling?
S02P01	In the last 12 months, did you get any new prescription medicine or refill a prescription?
S02P02	In the last 12 months, how much of a problem, if any, was it to get your prescription medicine from your health plan?
S02P03	In the last 12 months, how often did you get the prescription medicine you needed from your health plan?
S02X01	In general, how would you rate your overall mental or emotional health now?
S02X02	How would you rate your life overall right now?

QUARTER 4 : SUPPLEMENTAL VARIABLES

S02T01	How much do you feel you know about what medical services TFL covers or does not cover?
S02T02	How much do you feel you know about how much you have to pay for medical services?
S02T03	How much do you feel you know about supplemental or Medigap coverage such as what it covers or how it works with TRICARE for Life to pay medical claims?
S02T04	How much do you feel you know about getting medical services at a MTF?

S02T05	How much do you feel you know about choosing or finding a doctor or other health care provider?
S02T06	In the past 12 months, how much of your healthcare, other than prescription drugs, did you get from MTFs?
S02T07	In the past 12 months, how many times did you visit a doctor's office, clinic or emergency room at a MTF?
S02T08	In the past 12 months, how many nights did you stay overnight as a patient at a MTF?
S02T09A	In the past 12 months, did you use a MTF for emergency care from an emergency room?
S02T09B	In the past 12 months, did you use a MTF for urgent care from someplace other than an emergency room?
S02T09C	In the past 12 months, did you use a MTF preventive care, such as a prostate exam or a breast exam?
S02T09D	In the past 12 months, did you use a MTF for routine care, such as a physical check-up?
S02T09E	In the past 12 months, did you use a MTF for hospital care in which you stayed overnight at a MTF?
S02T09F	In the past 12 months, did you use a MTF for labs and x-rays?
S02T09G	In the past 12 months, did you use a MTF for surgery or diagnostic procedures that did not require an overnight stay?
S02T09H	In the past 12 months, did you use a MTF for care from a specialist?
S02T10	In the past 12 months, where have you gotten most of your prescriptions filled?
S02T11	In the 12 months <u>before</u> TRICARE for Life became available (<u>before</u> October 1, 2001), how much of your healthcare, other than prescription drugs, did you get from MTFs?
S02T12	In the past 12 months (<u>after</u> October 1, 2001), how much of a problem was it to get as much healthcare as you wanted from MTFs?

SURVEY FIELDING VARIABLES

FLAG_FIN	Final Disposition
DUPFLAG	Multiple Response Indicator

CODING SCHEME FLAGS AND COUNTS

N1	Coding Scheme flag for Note 1
N2	Coding Scheme flag for Note 2
N3	Coding Scheme flag for Note 3
N4	Coding Scheme flag for Note 4
N5	Coding Scheme flag for Note 5
N6	Coding Scheme flag for Note 6
N7	Coding Scheme flag for Note 7
N8	Coding Scheme flag for Note 8
N9	Coding Scheme flag for Note 9
N10	Coding Scheme flag for Note 10
N11	Coding Scheme flag for Note 11

N31	Coding Scheme flag for Note 31
N32	Coding Scheme flag for Note 32
N33	Coding Scheme flag for Note 33
N34	Coding Scheme flag for Note 34
N35	Coding Scheme flag for Note 35
MISS_1	Count of skip pattern violations
MISS_4	Count of incomplete grid errors
MISS_5	Count of scalable response of "don't know" or "not sure"
MISS_6	Count of not applicable/valid skips
MISS_7	Count of out-of-range errors
MISS_8	Count of multiple response errors
MISS_9	Count of no response (invalid skip)
MISS_TOT	Total number of missing responses

CONSTRUCTED VARIABLES

QUARTER	Survey Quarter
XENRLLMT	Beneficiary's enrollment status in TRICARE Prime
XENR_PCM	TRICARE Enrollment by PCM type
XINS_COV	Insurance Coverage
XQENROLL	TRICARE Enrollment according to questionnaire responses
XREGION	Beneficiary's regional assignment (15 regions and unassigned)
CONUS	CONUS/OCONUS Indicator
OUTCATCH	Out of catchment area Indicator
XSEXA	Beneficiary's sex- Male or Female
XBNFGRP	Beneficiary group with population age 65 and over excluded from Active Duty and Family Members of Active Duty

KDISENRL	Intention to disenroll, coded as binary form 1 / 2
KMILOFFC	Waited more than 15 minutes at military facility, coded in binary form 1 / 2
KCIVOFFC	Waited more than 15 minutes at civilian facility, coded in binary form 1 / 2
KBGPRB1	Big problem getting referrals to a specialist coded in binary form 1 / 2
KBGPRB2	Big problem getting necessary care coded in binary form 1 / 2
KMILOPQY	Outpatient visits to military facility
KCIVOPQY	Outpatient visits to civilian facility
KCIVINS	Beneficiary is covered by civilian insurance
KPRSCPTN	7 or more civilian prescriptions filled by military pharmacy, coded in binary form 1 / 2
KBRSTCR	Women age 40 and older who have ever had a mammogram and a breast exam
HP_PRNTL	If pregnant in the last year, received prenatal care in first trimester, coded in binary form 1 / 2
HP_MAMOG	Women age 40 and over, had a mammogram within past 2 years, coded in binary form 1 / 2
HP_MAM50	Women age 50 and over, had a mammogram within past 2 years, coded in binary form 1 / 2
HP_PAP	For all women, had a pap smear in last 3 years, coded in binary form 1 / 2
HP_BP	Had a blood pressure check in last 2 years and know results, coded in binary form 1 / 2
HP_FLU	For persons age 65 and older, had a flu shot in last 12 months, coded in binary form 1 / 2
HP_PROS	For men age 50 and over, had a prostate exam within last 12 months, coded in binary form 1 / 2
HP_GP	Had a general medical or physical examination or checkup in the last 12 months.
HP_BRST	For all women age 40 and older, had a breast physical exam in the past 12 months.
HP_CHOL	Had a cholesterol screening in the past 5years.
HP_SMOKE	For all current adult smokers and those who quit smoking within the past year, were advised to quit smoking by a health provider in the past 12 months
HP_SMOKH	Smoker under HEDIS definition
HP_CESS	Had smoking cessation counseling
SF8PF	Physical Functioning
SF8RP	Role Physical
SF8BP	Bodily Pain
SF8GH	General Health
SF8VT	Vitality
SF8SF	Social Functioning
SF8RE	Role Emotional
SF8MH	Mental Health
PCS_8	Physical Health Summary
MCS_8	Mental Health Summary
KMID_H	Below Median Physical Health

KMID_MH	Below Median Mental Health
WEIGHTS	
BWT	Basic Sampling Weight
ADJ_CELL	Adjusted STRATUM Cell
WRWT	Final weight
WRWT1-WRWT60	Replicated/Jackknife weight 1-60
CWRWT	Combined Annual Weights
CWRWT1-240	Combined Replicate Weights 1-240

Weighting procedures are discussed in section 3.E.

2. Variable Naming Conventions

To preserve continuity with survey data from previous years, MPR followed the same variable naming conventions for the core questions used for the 1996, 1997, 1998, 1999, and 2000 survey data with a few exceptions. Variable naming conventions for the 2002 Adult HCSDB core and supplemental questions, shown in Table 3.2 correspond to those of previous years. The suffix “__O” will be used to distinguish the original version of the variable from the recoded version. The public use files for the adult survey will contain only recoded variables.

Variables created from most survey questions begin with the character “H”. The next two characters are the third and fourth digits of the survey year. A small number of self-reputed demographic variables begin with the characters “SR”.

Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. Supplemental questions contain the same number of alphanumeric characters as the core questions; each variable begins with an “S” to distinguish it as a supplemental question.

3. Missing Value Conventions

The 2002 conventions for missing variables are the same as the 2000 conventions. All missing value conventions used in the 2002 HCSDB are shown in Table 3.3

TABLE 3.2

NAMING CONVENTIONS FOR 2002 HCSDB VARIABLES – QUARTERS I-IV
(VARIABLES REPRESENTING SURVEY QUESTIONS)

1 st Character: Survey Type	2 nd – 3 rd Characters: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
<p>H= Health Beneficiaries (18 and older, Adult Questionnaire)</p> <hr/> <p>S = Supplemental Question</p>	<p>02</p>	<p>001 to 077</p> <hr/> <p>Quarter 1 S01-S09 – Supplemental questions using the SF-8 battery of health status questions.</p> <p>L01-L17 – Supplemental questions on awareness and use of TRICARE For Life by beneficiaries age 65 and over who enroll in Medicare Part B.</p> <p>Quarter 2 CO1-C22 – Supplemental questions on specialists and special therapy</p> <p>E01 – E09 – Supplemental questions on eyeglasses and eyewear</p> <p>Quarter 3 D01 – D03 Supplemental questions on dental care</p> <p>M01 – M03 Supplemental questions on mental well-being.</p> <p>P01 – P03 Supplemental questions on prescription drugs</p> <p>X01- X02 Supplemental questions on overall health</p> <p>Quarter 4 T01 – T12 Supplemental questions on TRICARE for LIFE</p>	<p>A to O are used to label responses associated with a multiple response question</p> <p>_O denotes an original version of a recoded variable</p> <hr/>

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People 2010</i> variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)
SF8=SF8 Health status variables	Descriptive text, e.g., SF8 MH (mental health score)

TABLE 3.3
CODING OF MISSING DATA AND “NOT APPLICABLE” RESPONSES

ASCII or Raw Source Data	Edited and Cleaned SAS Data	Description
Numeric	Numeric	
-9	.	No response
-8	.A	Multiple response error
-7	.O	Out of range error
-6	.N	Not applicable or valid skip
-5	.D	Scalable response of “Don’t know” or “Not sure”
-4	.I	Incomplete grid error
-1	.C	Question should have been skipped, not answered
	.B	No survey received

B. CLEANING AND EDITING

Data cleaning and editing procedures ensure that the data are free of inconsistencies and errors. Standard edit checks include the following:

- Checks for multiple surveys returned for any one person
- Checks for multiple responses to any question that should have one response
- Range checks for appropriate values within a single question
- Logic checks for consistent responses throughout the questionnaire

We computed frequencies and cross tabulations of values at various stages in the process to verify the accuracy of the data. Data editing and cleaning proceeded in the following way:

1. Scan Review

NRC spot checked the scanned results from the original survey to verify the accuracy of the scanning process and made any necessary corrections by viewing the returned survey.

2. Additional NRC Editing and Coding

In preparing the database for MPR, NRC used variable names and response values provided by MPR in the annotated questionnaires (see Appendix A). NRC delivered to MPR a database in SAS format. In this database, any questions with no response were encoded with a SAS missing value code of ' '. Also, as part of the scanning procedure, NRC entered the SAS missing value of '.A' for any question with multiple responses where a single response was required.

3. Duplicate or Multiple Surveys

At this stage, NRC delivered to MPR a file containing one record for every beneficiary in the sample, plus additional records for every duplicate survey or multiple surveys received from any beneficiary. These duplicates and multiples were eliminated during record selection, and only the most complete questionnaire in the group was retained in the final database. Record selection is discussed in Section 3.C.

4. Removal of Sensitive or Confidential Information

The file that MPR received from NRC contained sensitive information such as Social Security Number (SSN). Any confidential information was immediately removed from the file. Each beneficiary had already been given a generic ID (MPRID) substitute during sample selection, the MPRID was retained as a means to uniquely identify each individual.

5. Initial Frequencies

MPR computed frequencies for all fields in the original data file. These tabulations served as a reference for the file in its original form and allowed comparison to final frequencies from previous years, helping to pinpoint problem areas that needed cleaning and editing. MPR examined these frequencies and cross-tabulations, using the results to adapt and modify the cleaning and editing specifications as necessary.

6. Data Cleaning and Recoding of Variables

MPR's plan for data quality for each quarter is found in the 2002 Adult Coding Scheme. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. The Coding Scheme tables are found in Appendix C. These tables outline in detail the approach for recoding self-reported fields, doing range checks, logic checks, and skip pattern checks to ensure that responses are consistent throughout the questionnaire. The Coding Scheme tables specify all possible original responses and any recoding, also indicating if backward coding or forward coding was used. Every skip pattern is assigned a note number shown in the annotated questionnaire (Appendix A). This note number defines the flag (for example, the Note 5 flag is N5) that is set to indicate the pattern of the original responses and any recoding. Thus, if the value of N5 is 2, the reader can look at line 2 in the Note 5 table for the original and recoded response values.

The SAS program implementing the coding scheme is found in Appendix G.

a. Check Self-Reported Fields

Several survey questions seek information that can be verified with DEERS data and/or sampling variables. Nevertheless, in recoding these self-reported fields (such as sex, active duty status, and TRICARE enrollment) we used the questionnaire responses unless they were missing; in which case, we used the DEERS data. For example, if the question on the sex of the beneficiary was not answered, the recoded variable for self-reported sex was not considered missing but was given the DEERS value for gender. If there was any disagreement between questionnaire responses and DEERS data, the questionnaire response generally took precedence.

In many tables and charts in the reports, the DEERS information was used rather than the recoded self-reported information for active duty status and TRICARE enrollment.

b. Skip Pattern Checks

At several points in the survey, the respondent should skip certain questions. If the response pattern is inconsistent with the skip pattern, each response in the series will be checked to determine which are most accurate, given the answers to other questions. Questions that are appropriately skipped were set to the SAS missing value of '.N'. Inconsistent responses, such as answering questions that should be skipped or not answering questions that should be answered, were examined for patterns that could be resolved. Frequently, responses to subsequent questions provide the information needed to infer the response to a question that was left blank. The 2002 Adult Coding Scheme (see Appendix C) specifically addresses every skip pattern and shows the recoded values for variables within each pattern; we back coded and/or forward coded to ensure that all responses are consistent within a sequence.

c. Missing Values

NRC initially encoded any question with missing responses to a SAS missing value code of '.'. After verifying skip patterns, MPR recoded some of these responses to reflect valid skips (SAS missing value code of '.N'). The complete list of codes for types of missing values such as multiple responses, incomplete grids, and questions that should not have been answered is shown in Table 3.3.

Occasionally, missing questionnaire responses can be inferred by examining other responses. For example, if a respondent fails to answer Question 20 about getting advice or help over the phone from his/her doctor's office or clinic, but goes on to answer how often he/she received help or advice, then we assume that the answer to Question 21 should have been "yes". Using this technique, we recoded some missing questionnaire responses to legitimate responses.

d. Multiple Response Errors

If a respondent gives more than one answer to a question that should have only one answer, the response to that question was generally coded with a SAS missing value of '.A'. Using an approach similar to that used for missing values, we examined other questionnaire responses in an attempt to infer what the respondent intended for those questions with multiple marks. For example, if there are multiple responses to H02020 "In the last 12 months, did you call a doctor's office or clinic *during regular office hours* to get help or advice *for yourself?*" and the response to H02021 indicates that the respondent usually got the medical advice they needed for themselves, we assume that the response to H02020 should have been "yes".

e. Logic Checks

Most logic problems are due to inconsistent skip patterns, for example, when a male answers a question intended for women only. Other internal inconsistencies were resolved in the same manner as skip pattern inconsistencies — by looking at the answers to all related questions. For instance, several questions related to smoking were examined as a group to determine the most appropriate response pattern so that any inconsistent response could be reconciled to the other responses in the group.

7. Quality Assurance

MPR created an edit flag for each Coding Scheme table that indicates what, if any, edits were made in the cleaning and editing process. This logic was also used in previous years; variables such as N5 (see Appendix C) indicate exactly what pattern of the Coding Scheme was followed for a particular set of responses. These edit flags have a unique value for each set of original and recoded values, allowing us to match original values and recoded values for any particular sequence.

In order to validate the editing and cleaning process, MPR prepared cross-tabulations between the original variables and the recoded variables with the corresponding edit flag. This revealed any discrepancies that needed to be addressed. In addition, we compared unweighted frequencies of each variable with the frequencies from the original file to verify that each variable was accurately recoded. MPR reviewed these tabulations for each variable in the survey. If necessary, the earlier edit procedures were modified and the Coding Scheme program rerun. The resulting file was clean and ready for analysis.

C. RECORD SELECTION

To select final records, we first defined a code that classifies each sampled beneficiary as to his/her final response status. To determine this response status, we used postal delivery information provided by NRC for each sampled beneficiary. This information is contained in the FLAG_FIN variable which is described in Table 3.4

TABLE 3.4
FLAG_FIN VARIABLE FOR 2002 HCSDDB

Value	Questionnaire Return Disposition	Reason/Explanation Given	Eligibility
1	Returned survey	Completed and returned	Eligible
2	Returned ineligible	Returned with at least one question marked and information that the beneficiary was ineligible	Ineligible
3	Returned blank	Information sent that beneficiary is temporarily ill or incapacitated	Eligible
4	Returned blank	Information sent that beneficiary is deceased	Ineligible
5	Returned blank	Information sent that beneficiary is incarcerated or permanently incapacitated	Ineligible
6	Returned blank	Information sent that beneficiary left military, or divorced after reference date, or retired	Eligible
7	Returned blank	Information sent that beneficiary was not eligible reference date	Ineligible
8	Returned blank	Blank form accompanied by reason for not participating	Eligible
9	Returned blank	No reason given	----
10	No return	Temporarily ill or incapacitated. Information came in by phone	Eligible
11	No return	Active refuser. Information came in by phone	Eligible
12	No return	Deceased. Information came in by phone	Ineligible
13	No return	Incarcerated or permanently incapacitated. Information came in by phone	Ineligible
14	No return	Left military or divorced after reference date, or retired. Information came in by phone	Eligible
15	No return	Not eligible on reference date. Information came in by phone	Ineligible
16	No return	Other eligible. Information came in by phone	Eligible
17	No return	No reason	---
18	PND	No address remaining	---
19	PND	Address remaining at the close of field	---
20	Original Non-Locatable	No address at start of mailing	---
21	No return or returned blank	Written documentation declining participation, no reason given	Eligible
22	No return or returned blank	Hospitalized but no indication if temporary or permanent	---
23	Returned blank	Deployed	Eligible
24	No return	Deployed	Eligible

Using the above variables in Table 3.4, we classified all sampled beneficiaries into four groups:

- **Group 1:** Eligible, Questionnaire Returned. Beneficiaries who were eligible for the survey and returned a questionnaire with at least one question answered (FLAG_FIN = 1)
- **Group 2:** Eligible, Questionnaire Not Returned (or returned blank). Beneficiaries who did not complete a questionnaire but who were determined to be eligible for military health care by the reference date, that is, not deceased, not incarcerated, not permanently hospitalized (FLAG_FIN = 3, 6, 8, 10, 11, 14, 16, 21, 23, 24)

- **Group 3:** Ineligible Beneficiaries who were ineligible because of death, institutionalization, or no longer being in the MHS as of the reference date (FLAG_FIN = 2, 4, 5, 7, 12, 13, 15)
- **Group 4:** Eligibility Unknown. Beneficiaries who did not complete a questionnaire and for whom survey eligibility could not be determined (FLAG_FIN = 9, 17, 18, 19, 20, 22)

Group 1 was then divided into two subgroups according to the number of survey items completed (including legitimate skip responses):

- G1-1. Complete Questionnaire Returned
- G1-2. Incomplete Questionnaire Returned

G1-1 consists of eligible respondents who answered “enough” questions to be classified as having completed the questionnaire. G1-2 consists of eligible respondents who answered only a few questions. To determine if a questionnaire is complete, 29 key questions were chosen. These key questions were adapted from the complete questionnaire rule for the CAHPS 2.0. The key survey variables are: H02006, H02008, H02009, H02010, H02011, H02012, H02013, H02015, H02017, H02018, H02020, H02021, H02022, H02025, H02026, H02028, H02029, H02030, H02032, H02039, H02041, H02047, H02049, H02054, H02056, H02077, S02S01, SREDA, and SRRACE. If fifteen or more of these key items are completed, then the questionnaire can be counted as complete.

Furthermore, we also subdivided Group 4 into the following:

- G4-1 for Locatable-blank return/no reason or no return/no reason (FLAG_FIN = 9, 17, 22)
- G4-2 for Nonlocatable-postal nondeliverable/no address, postal nondeliverable/had address, or original nonlocatable (FLAG_FIN = 18, 19, 20).

With this information, we can calculate the location rate (see Section 4.A).

With a code (FNSTATUS) for the final response/eligible status, we classified all sampled beneficiaries using the following values of FNSTATUS:

- 11 for G1-1
- 12 for G1-2
- 20 for Group 2
- 30 for Group 3
- 41 for G4-1
- 42 for G4-2

There were 132 duplicate questionnaires (Quarters I-IV) in the data set NRC delivered. All duplicates were classified into one of the above six groups. We then retained the one questionnaire for each beneficiary that had the most "valid" information for the usual record selection process. For example, if two returned questionnaires from the same beneficiary have FNSTATUS code values of 11, 12, 20, 41, or 42, we retained the questionnaire with the smaller value. However, if one of a pair of questionnaires belongs to Group 3 (FNSTATUS = 3, i.e., ineligible), then we regarded the questionnaire as being ineligible.

Only beneficiaries with FNSTATUS = 11 were retained. All other records were dropped. In Quarters I-IV, we retained 13,063 respondents.

D. CONSTRUCTED VARIABLES

One of the most important aspects of database development is the formation of constructed variables and scale variables to support analysis. Constructed variables are formed when no single question in the survey defines the construct of interest. In Table 3.1 there is a list of all constructed variables for 2002.

1. Demographic Variables

a. Region (XREGION)

Catchment area codes (CACSMPL) are used to classify beneficiaries into specific regions. The XREGION variable partitions all catchment areas into non-overlapped regions so that we can report catchment-level estimates in the catchment reports. The regions are defined as follows:

- 1 = Northeast
- 2 = Mid-Atlantic
- 3 = Southeast
- 4 = Gulfsouth
- 5 = Heartland
- 6 = Southwest
- 7,8 = Central
- 9 = Southern California
- 10 = Golden Gate
- 11 = Northwest
- 12 = Hawaii
- 13 = Europe
- 14 = Western Pacific Command (Asia)
- 15 = TRICARE Latin America
- 16 = Alaska
- . = Unassigned (CACSMPL = 9999)

For the purposes of our analysis, Region 7 and Region 8 were combined.

```
/* XREGION -HEALTH CARE REGIONS */
```

```
IF CACSMPL IN ('0035', '0036', '0037', '0066', '0067', '0068', '0069', '0081', '0086', '0100',
               '0123', '0306', '0310', '0321', '0326', '0330', '0385', '0413', '6201', '9901')
    THEN XREGION= 1;
ELSE IF CACSMPL IN ('0089', '0090', '0091', '0092', '0120', '0121', '0122', '0124', '0335',
                   '0432', '0433', '0378', '0387', '0508', '7143', '7286', '7294', '9902')
    THEN XREGION= 2;
ELSE IF CACSMPL IN ('0039', '0041', '0045', '0046', '0047', '0048', '0049', '0050', '0051',
                   '0101', '0103', '0104', '0105', '0337', '0356', '0422', '0511', '9903')
    THEN XREGION= 3;
ELSE IF CACSMPL IN ('0001', '0002', '0003', '0004', '0038', '0042', '0043', '0073', '0074',
```

```

        '0107', '0297', '7139', '9904')
        THEN XREGION= 4;
    ELSE IF CACSMPL IN ('0055', '0056', '0060', '0061', '0095', '9905')
        THEN XREGION= 5;
    ELSE IF CACSMPL IN ('0013', '0062', '0064', '0096', '0097', '0098', '0109', '0110', '0112',
        '0113', '0114', '0117', '0118', '0338', '0363', '0364', '0365', '0366', '1587', '1592',
        '7236', '9906')
        THEN XREGION= 6;
    ELSE IF CACSMPL IN ('0008', '0009', '0010', '0079', '0083', '0084', '0085', '0108', '9907')
        THEN XREGION= 7;
    ELSE IF CACSMPL IN ('0031', '0032', '0033', '0053', '0057', '0058', '0059', '0075', '0076',
        '0077', '0078', '0093', '0094', '0106', '0119', '0129', '0252', '7200', '7293', '9908')
        THEN XREGION= 8;
    ELSE IF CACSMPL IN ('0018', '0019', '0024', '0026', '0029', '0030', '0131', '0213', '0248', '5205',
        '9909')
        THEN XREGION= 9;
    ELSE IF CACSMPL IN ('0014', '0015', '0028', '0235', '0250', '9910')
        THEN XREGION=10;
    ELSE IF CACSMPL IN ('0125', '0126', '0127', '0128', '0395', '1646', '9911')
        THEN XREGION=11;
    ELSE IF CACSMPL IN ('0052', '0280', '0287', '0534', '7043', '9912')
        THEN XREGION=12;
    ELSE IF CACSMPL IN ('0606', '0607', '0609', '0617', '0618', '0623', '0624', '0629', '0633',
        '0635', '0653', '0805', '0806', '0808', '0814', '8931', '8982', '9913')
        THEN XREGION=13;
    ELSE IF CACSMPL IN ('0610', '0612', '0620', '0621', '0622', '0637', '0638', '0639', '0640',
        '0802', '0804', '0853', '0862', '9914')
        THEN XREGION=14;
    ELSE IF CACSMPL IN ('0449', '0613', '0615', '0616', '9915')
        THEN XREGION=15;
    ELSE IF CACSMPL IN ('0005', '0006', '0203', '9916')
        THEN XREGION=16;
    ELSE IF CACSMPL = 9999
        THEN XREGION= .;
    
```

b. Continental United States (CONUS)

XREGION is used to classify beneficiaries either in the continental United States (CONUS) or overseas (OCONUS).

Assign indicator of CONUS based on XREGION. CONUS stands for Contential United States but it includes both Alaska and Hawaii.

```

IF XREGION IN (1,2,3,4,5,6,7,8,9,10,11,12,16) THEN CONUS=1;
ELSE IF XREGION IN (13,14,15) THEN CONUS=0;
ELSE IF XREGION = . THEN CONUS=.;
    
```

c. Out of Catchment Area (OUTCATCH)

CACSMPL is used to classify beneficiaries either in a catchment area or outside a catchment area.

Assign indicator of OUTCATCH based on CACSMPL.

```

IF CACSMPL > 9900 THEN OUTCATCH=1; /* Out of catchment area */
ELSE OUTCATCH=0; /* Catchment area */
    
```

d. Gender of Beneficiary (XSEXA)

XSEXA is constructed using self reported sex, gender identified on the DEERS database, and answers to gender specific questions.

/** Note 25 - gender H02067, SEX, H02068, H02069--H02075, XSEXA */

/* use SRSEX & responses to gender specific questions

if there is discrepancy between SRSEX and SEX */

/* set imputed MALE, FEMALE based on gender specific questions */

```

IF H02068 > 0 THEN MALE=1; /* prostate */
ELSE MALE = 0;
IF H02069>0 OR H02070>0 OR H02071>0 OR H02072>0 OR H02073>0
OR H02074>0 OR H02075>0 THEN FEMALE=1; /* mammogram/pap
smear/PREGNANT*/
ELSE FEMALE = 0;
IF H02067=. OR H02067=.A THEN DO;
IF (SEX='F' AND MALE AND FEMALE) THEN DO;
N25A=1;
XSEXA=2;
END;
ELSE IF (SEX='F' AND MALE=0 AND FEMALE=0) THEN DO;
N25A=2;
XSEXA=2;
END;
ELSE IF (SEX='M' AND MALE AND FEMALE) THEN DO;
N25A=3;
XSEXA=1;
END;
ELSE IF (SEX='M' AND MALE=0 AND FEMALE=0) THEN DO;
N25A=4;
XSEXA=1;
END;
ELSE IF MALE AND NOT FEMALE THEN DO;
N25A=5;
XSEXA=1;
END;
ELSE IF FEMALE AND NOT MALE THEN DO;
N25A=6;
XSEXA=2;
END;
ELSE IF (SEX='Z' AND MALE AND FEMALE) THEN DO;
N25A=7;
XSEXA=.;
END;
ELSE IF (SEX='Z' AND MALE=0 AND FEMALE=0) THEN DO;
N25A=8;
XSEXA=.;
END;
END;
ELSE IF (H02067=1) THEN DO;
IF MALE AND NOT FEMALE THEN DO;
N25A=9;
XSEXA=1;
END;

```

```

ELSE IF NOT MALE AND FMALE THEN DO;
  IF SEX='F' THEN DO;
    N25A=10;
    XSEXA=2;
  END;
ELSE DO;
  N25A=11;
  XSEXA=1;
END;
END;
ELSE IF MALE AND FMALE THEN DO;
  N25A=12;
  XSEXA=1;
END;
ELSE IF MALE=0 AND FMALE=0 THEN DO;
  N25A=13;
  XSEXA=1;
END;
END;
ELSE IF (H02067=2) THEN DO;
  IF NOT MALE AND FMALE THEN DO;
    N25A=14;
    XSEXA=2;
  END;
ELSE IF MALE AND NOT FMALE THEN DO;
  IF SEX='M' THEN DO;
    N25A=15;
    XSEXA=1;
  END;
ELSE DO;
  N25A=16;
  XSEXA=2;
END;
END;
END;
ELSE IF MALE AND FMALE THEN DO;
  N25A=17;
  XSEXA=2;
END;
ELSE IF MALE=0 AND FMALE=0 THEN DO;
  N25A=18;
  XSEXA=2;
END;
END;
END;

```

e. Beneficiary Group (XBNFGRP)

We redefined beneficiary groups to exclude active duty personnel and active duty family members who are age 65 or older. The variable XBNFGRP reconstructs beneficiary groups into the following values:

1 = Active Duty, under 65

2 = Family members of active duty, under 65

3 = Retirees, survivors, and family members, under 65

4 = Retirees, survivors, and family members, 65 or over

. = Unknown/other

/* XBNFGRP-Beneficiary Group that excludes those 65 and over-Active Duty and Family Members of Active Duty */

```
IF FIELDAGE >= 65 AND ENBGSMPL IN (1, 2, 3, 4) THEN XBNFGRP = .;
ELSE IF ENBGSMPL = 1 THEN XBNFGRP = 1;
ELSE IF ENBGSMPL IN (2, 3, 4) THEN XBNFGRP = 2;
ELSE IF ENBGSMPL IN (5, 6, 7) THEN XBNFGRP = 3;
ELSE IF ENBGSMPL IN (8, 9, 10) THEN XBNFGRP = 4;
```

2. TRICARE Prime Enrollment and Insurance Coverage

a. TRICARE Prime Enrollment Status (XENRLLMT)

For reporting purposes, a person is considered enrolled in TRICARE Prime if they are under 65 and the poststratification enrollment type (ENBGSMPL), based on DEERS data, indicates that they were enrolled at the time of data collection. Because it is important to view the experiences of active duty personnel separately from other enrollees, there is a separate category for active duty (under 65) — they are automatically enrolled in Prime. The five categories for TRICARE Prime enrollment are as follows:

1 = Active duty, under 65

2 = Other enrollees, under 65

3 = Not enrolled in TRICARE Prime, under 65

4 = Not enrolled in TRICARE Prime, 65 or over

5 = Enrolled in TRICARE Prime, 65 or over

. = Unknown

/* XENRLLMT--ENROLLMENT STATUS */

```
IF 18 <= FIELDAGE < 65 THEN DO;
```

```
  IF ENBGSMPL = 1 THEN XENRLLMT = 1;          /* Active duty (<65) */
```

```
  ELSE IF ENBGSMPL IN (2, 3, 5, 6) THEN XENRLLMT = 2; /* Non-active duty enrolled (<65)*/
```

```
  ELSE IF ENBGSMPL IN (4, 7) THEN XENRLLMT = 3;    /* Not Enrolled (<65)*/
```

```
END;
```

```
ELSE IF FIELDAGE >= 65 THEN DO;
```

```
  IF ENBGSMPL = 10 THEN XENRLLMT = 4;          /* Not Enrolled (65+)*/
```

```
  IF ENBGSMPL IN (8, 9) THEN XENRLLMT = 5;     /* Enrolled (65+) */
```

```
END;
```

b. TRICARE Prime Enrollment Status by Primary Care Manager (XENR_PCM)

This variable, similar to the previous variable XENRLLMT, separates the 'other enrollees' category into those with a military primary care manager (PCM) and those with a civilian PCM. Active duty personnel are automatically enrolled and always have a military PCM. XENR_PCM has six possible values:

- 1 = Active duty, under 65, military PCM
- 2 = Other enrollees, under 65, military PCM
- 3 = Other enrollees, under 65, civilian PCM
- 4 = Not enrolled in TRICARE Prime, under 65
- 5 = Not enrolled in TRICARE Prime, 65 or over
- 6 = Enrolled in TRICARE Prime, 65 or over, military PCM
- 7 = Enrolled in TRICARE Prime, 65 or over, civilian PCM
- . = Unknown

```

/* XENR_PCM--ENROLLMENT BY PCM TYPE */
IF 18 <= FIELDAGE < 65 THEN DO;
  IF ENBGSMPL = 1 THEN XENR_PCM = 1;          /* Active duty (<65) */
  ELSE IF ENBGSMPL IN (3, 6) THEN XENR_PCM = 2; /* Enrolled (<65) - mil PCM */
  ELSE IF ENBGSMPL IN (2, 5) THEN XENR_PCM = 3; /* Enrolled (<65) - civ PCM */
  ELSE IF ENBGSMPL IN (4, 7) THEN XENR_PCM = 4; /* Not Enrolled (<65) */
END;
ELSE IF FIELDAGE >= 65 THEN DO;
  IF ENBGSMPL = 10 THEN XENR_PCM = 5;        /* Not Enrolled (65+) */
  IF ENBGSMPL = 9 THEN XENR_PCM = 6;        /* Enrolled (65+)-mil PCM */
  IF ENBGSMPL = 8 THEN XENR_PCM = 7;        /* Enrolled (65+)-civ PCM */ /*NJ_Q2*/
END;

```

c. TRICARE Prime Enrollment Status by PCM from Questionnaire Responses (XQENROLL)

The variable XQENROLL is analogous to the previous variable XENR_PCM but rather than using the DEERS information to determine enrollment, the responses to questions 12 and 13 are used to determine the status of the respondent according to the following categories:

- 1 = Active duty, under 65, military PCM
- 2 = Other enrollees, under 65, military PCM
- 3 = Other enrollees, under 65, civilian PCM
- 4 = Not enrolled in TRICARE Prime, under 65
- 5 = Not enrolled in TRICARE Prime, 65 or over
- . = Unknown

If a respondent is unsure about their PCM, a default value comes from the poststratification variable (ENBGSMPL).

```

/* XQENROLL--ENROLLMENT ACCORDING TO QUESTIONNAIRE RESPONSES AND */
/* USING DEERS SAMPLING VALUES */
IF ENBGSMPL = 1 AND 18 <= FIELDAGE < 65 THEN XQENROLL = 1; /* Active Duty (<65)*/

ELSE IF 18 <= FIELDAGE < 65 AND H02012 = 1 THEN DO;
  IF H02013 = 1 THEN XQENROLL = 2;          /* Enrolled (<65) - mil PCM */

```

```

ELSE IF H02013 = 2 THEN XQENROLL = 3;          /* Enrolled (<65) - civ PCM */

ELSE IF H02013 = 3 THEN DO;
  IF ENBGSMPL IN (3, 6) THEN XQENROLL = 2;      /* Enrolled (<65) - Mil PCM */
  ELSE IF ENBGSMPL IN (2, 5) THEN XQENROLL = 3; /* Enrolled (<65) - Civ PCM */
END;
END;
ELSE IF H02012 NE 1 THEN DO;
  IF 18 <= FIELDAGE < 65 THEN XQENROLL = 4;    /* Not enrolled (<65) */
  ELSE IF FIELDAGE >= 65 THEN XQENROLL = 5;    /* Not enrolled (>=65) */
END;

```

d. Most-Used Health Plan (XINS_COV)

The respondent's most-used health plan comes directly from Question 6 (unless the respondent is active duty). All active duty personnel are automatically enrolled in Prime. The eight categories for this variable are as follows:

- 1 = Active duty, under 65
- 2 = Other TRICARE Prime enrollees, under 65
- 3 = TRICARE Standard/Extra (CHAMPUS)
- 4 = Medicare Part A and/or Part B
- 5 = Other civilian health insurance or civilian HMO
- 6 = Prime, 65 or over
- 7 = TRICARE Plus and Medicare
- 8 = Veterans Administration (VA)
- . = Unknown

```

/* XINS_COV--INSURANCE COVERAGE */
IF XENRLLMT = 1 THEN XINS_COV = 1;              /* Prime <65-Active Duty */
ELSE IF 18 <= FIELDAGE < 65 AND H02006 IN (1) THEN XINS_COV = 2; /* Prime <65-Non-active
Duty */
ELSE IF H02006 = 3 THEN XINS_COV = 3;          /* Standard/Extra */
ELSE IF H02006 = 11 THEN XINS_COV = 7;        /* Plus and Medicare */
ELSE IF H02006 IN (4, 12) THEN XINS_COV = 4;   /* Medicare and TFL */
ELSE IF H02006 IN (5,6, 7, 8, 9) THEN XINS_COV = 5; /* Other civilian health insurance*/
ELSE IF H02006 = 10 THEN XINS_COV = 8;        /* Veterans Administration (VA) */
ELSE IF (FIELDAGE >= 65 AND XENRLLMT = 5 AND H002006 = 1) THEN XINS_COV = 6;
/* Prime, >= 65 */
ELSE IF H02003 = 1 AND H02004 = 1 AND H02006 NE.N THEN XINS_COV = 4; /*NEW Q2
Medicare/Medicaid */

```

e. Types of Coverage (KCIVINS)

A binary variable was created to indicate if the respondent is covered by Civilian insurance (KCIVINS).

This variables has the following values:

1 = Yes

2 = No

. = Unknown

```
/* KCIVINS--IS BENEFICIARY COVERED BY CIVILIAN INSURANCE */
IF H02002G=1 OR H02002I=1 OR H02002J=1 THEN KCIVINS=1; /* YES */
ELSE KCIVINS=2; /* NO */
```

3. Satisfaction Measures

a. Enrollment Intentions (KDISENRL)

If a non-active duty respondent is enrolled in TRICARE Prime, he or she is asked about the likelihood of disenrolling (Question 57). A binary variable is created to group the responses to the enrollment questions into these categories:

1 = response of likely or very likely

2 = all other valid responses

. = missing response

```
/* KDISENRL--INTENTION TO DISNEROLL */
IF H02057 IN (4, 5) THEN KDISENRL = 1; /* Yes */
ELSE IF H02057 IN (1, 2, 3, .D) THEN KDISENRL = 2; /* No */
```

4. Access to Care (KMILOFFC, KCIVOFFC, KBGPRB1, KBGPRB2)

Some of the survey questions on access relate to a TRICARE performance standard. For these questions, we constructed binary variables, separately for beneficiaries using military and civilian facilities, to approximate the TRICARE standard. Table 3.5 presents those standards that were analyzed in the reports. The new variables have the following values:

1 = Standard was met

2 = Standard was not met

= Missing information

TABLE 3.5

TRICARE STANDARDS FOR ACCESS

Access Measure	TRICARE Standard	Variable Name	Relevant Question
Waiting Room Wait	Within 15 minutes	KMILOFFC, KCIVOFFC	32

```

/* KMILOFFC--OFFICE WAIT MORE THAN 15 MINUTES AT MILITARY FACILITES
   KCIVOFFC--OFFICE WAIT MORE THAN 15 MINUTES AT CIVILIAN FACILITES */
IF H02041 = 1 THEN DO;           /* Military */
  IF H02032 IN (3,4) THEN KMILOFFC = 1;   /* Yes */
  ELSE IF H02032 IN (1,2) THEN KMILOFFC = 2; /* No */
END;
ELSE IF H02041 IN (2, 3, 4) THEN DO;     /* Civilian */
  IF H02032 IN (3,4) THEN KCIVOFFC = 1;   /* Yes */
  ELSE IF H02032 IN (1,2) THEN KCIVOFFC = 2; /* No */
END;

```

Question 16 asks how much of a problem, if any, it was to get a referral to a specialist. The responses to this question are regrouped by a binary variable KBGPRB1. KBGPRB1 looks at these two categories:

- 1 = Those who reported a "big problem"
- 2 = Those who reported not a "big problem"
- . = Missing response

```

/* KBGPRB1--BIG PROBLEM GETTING REFERRALS TO SPECIALISTS */
IF H02016 = 1 THEN KBGPRB1 = 1;       /* YES */
ELSE IF H02016 IN (2,3) THEN KBGPRB1 = 2; /* NO */

```

Similarly, variable KBGPRB2 was constructed. Question 30 asks about how much of a problem, if any, it was to get the care you or a doctor believed necessary. The responses to this question are regrouped by a binary variable KBGPRB2. KBGPRB2 looks at these two categories:

- 1 = Those who reported a "big problem"
- 2 = Those who reported not a "big problem"
- . = Missing response

```

/* KBGPRB2--BIG PROBLEM GETTING NECESSARY CARE */
IF H02030 = 1 THEN KBGPRB2 = 1;       /* YES */
ELSE IF H02030 IN (2,3) THEN KBGPRB2 = 2; /* NO */

```

5. Preventive Care (KBRSTCR, HP_PRNTL, HP_MAMOG, HP_MAM50, HP_PAP, HP_BP, HP_FLU, HP_PROS, HP_GP, HP_CHOL, HP_SMOKE, HP_BRST HP_SMOKH, HP_CESS)

As in some of the access analyses, preventive care analyses incorporated either a TRICARE standard or a federal Healthy People 2010 objective. We constructed new binary variables from the responses to indicate whether the respondent received the preventive care service within the recommended time period. See Table 3.6 for the list of the variables developed for analysis of

preventive care; these variables will be compared to the TRICARE standard or Healthy People 2010 Goal. The new variables have the following values:

1 = Received service within the recommended time period

2 = Did not receive service within the recommended time period

. = Missing information

```
/* KBRSTCR--WOMEN 40>=, EVER HAD MAMMOGRAM & EVER HAD BREAST EXAM */
IF XSEXA = 2 AND FIELDAGE >= 40 THEN DO;
  IF (H02071 IN (5, 4, 3, 2) AND H02072 IN (5, 4, 3, 2)) THEN KBRSTCR = 1; /* Yes */
  ELSE IF (H02071 = 1 OR H02072=1) THEN KBRSTCR = 2; /* No */
END;
```

```
/* HP_PRNTL--IF PREGNANT LAST YEAR, RECEIVED PRENATAL CARE IN 1ST TRIMESTER */
IF H02073 IN (1,2) THEN DO; /* Pregnant in last 12 months */
  IF H02075 = 4 THEN HP_PRNTL = 1; /* Yes */
  ELSE IF (H02074 = 1 AND H02075 = 1) THEN HP_PRNTL = .; /* <3 months pregnant now */
  ELSE IF H02075 IN (1,2,3) THEN HP_PRNTL = 2; /* No */
END;
```

```
/* HP_MAMOG--FOR WOMEN AGE 40 AND OVER, HAD MAMMOGRAM W/IN PAST 2 YEARS */
IF XSEXA = 2 AND FIELDAGE >= 40 THEN DO;
  IF H02071 IN (5, 4) THEN HP_MAMOG = 1; /* Yes */
  ELSE IF H02071 IN (1, 2, 3) THEN HP_MAMOG = 2; /* No */
END;
```

```
/* HP_MAM50--FOR WOMEN AGE 50 AND OVER, HAD MAMMOGRAM W/IN PAST 2 YEARS */
IF XSEXA = 2 AND FIELDAGE >= 50 THEN DO;
  IF H02071 IN (5, 4) THEN HP_MAM50 = 1; /* Yes */
  ELSE IF H02071 IN (1, 2, 3) THEN HP_MAM50 = 2; /* No */
END;
```

```
/* HP_PAP--FOR ALL WOMEN, HAD PAP SMEAR IN LAST 3 YEARS */
IF XSEXA = 2 THEN DO;
  IF H02069 IN (4, 5) THEN HP_PAP = 1; /* Yes */

TABLE 3.6

PREVENTIVE CARE STANDARDS

Preventive Care Delivered	Question Number – Q1	Variable Name	Received Service In Recommended Time Period (Numerator)	Population Involved (Denominator)	Standard
General Physical	58	HP_GP	Number with care in the past 12 months	Adults	None
Blood Pressure Check	59 & 60	HP_BP	Number with care in the past 24 months and know the results	Adults	95% within past 2 years
Cholesterol Screening	61	HP_CHOL	Number with care in the past 60 months	Adults	80% in the past 60 months
Flu Shot	62	HP_FLU	Number with care in the past 12 months	Adults age 65 and older	90% in past year, age 65 and over
Pap Smear	69	HP_PAP	Number with care in the past 36 months	Adult females	90% in the past 36 months
Mammography	71	HP_MAMOG	Number with care in the past 24 months	Females age 40 and over	70% in the past 24 months
Mammography	71	HP_MAM50	Number with care in the past 24 months	Females age 50 and over	60% in the past 24 months
Breast Exam	72	HP_BRST	Number with care in the past 12 months	Females age 40 and over	60% in the past 12 months
Prostate Exam	68	HP_PROS	Number with care in the past 12 months.	Males age 50 and over	All males age 50 and over an annual exam and PSA blood test
Smoking Counseling	66	HP_SMOKE	Number with care in the past 12 months	All current adult smokers and those who quit smoking within the past year	75% in past year
Prenatal Care	75	HP_PRNTL	Number with care in the first trimester	Currently pregnant adult females and all adult females who were pregnant in the past 12 months, excluding those less than 3 months pregnant who haven't received care	90% had care in first trimester

6. Utilization

a. Outpatient Utilization (KMILOPQY, KCIVOPQY)

Question 29 contains the total outpatient visits. This is called KMILOPQY and adjusted to reflect zero visits for those with no care or those who get their care from civilian facilities or KCIVOPQY, after similar adjustments for no care at civilian facilities.

```

/* KMILOPQY--OUTPATIENT VISITS TO MILITARY FACILITY
   KCIVOPQY--OUTPATIENT VISITS TO CIVILIAN FACILITY */
IF H02041 = 1 THEN DO;
  KMILOPQY=H02029;
  KCIVOPQY=1;
END;
ELSE IF H02041 IN (2, 3, 4) THEN DO;
  KCIVOPQY=H02029;
  KMILOPQY=1;
END;
ELSE IF H02041 = 5 THEN DO;
  KMILOPQY=1;
  KCIVOPQY=1;
END;

```

b. Use of Military Pharmacies to Fill Civilian Prescriptions (KPRSCPTN)

KPRSCPTN is a binary variable created to indicate if a respondent had six or more prescriptions that were written by a civilian provider but were filled by a military pharmacy.

```

/* KPRSCPTN--6 OR MORE CIVILIAN PRESCRIPTIONS FILLED BY MILITARY PHARMACY */
IF H02040 IN (3,4,5) THEN KPRSCPTN = 1; /* YES */
IF H02040 IN (1,2) THEN KPRSCPTN = 2; /* NO */

```

7. Health Status (SF8PF, SF8RP, SF8BP, SF8GH, SF8VT, SF8SF, SF8RE, SF8MH PCS_8, MCS_8, KMID_H, KMID_MH)

Results for the health status are reported in summary measure format using the system provided in the manual "SF-8: How to Score the SF-8 Physical and Mental Health Summary Scales" (Ware, Kosinski, and Keller 1995). The SF-8 scale is based on a battery of questions developed by the Medical Outcomes Trust. The summary scales measure physical and mental health components and eight health subscales including physical functioning, role-physical, bodily-pain, general health, vitality, social functioning, role-emotional and mental health. The SF-8 was administered in Quarter I, 2002.

/* Physical Functioning - SF8PF */

ELSE IF S02S08=3 THEN SF8RE=38.09;
ELSE IF S02S08=2 THEN SF8RE=45.66;
ELSE IF S02S08=1 THEN SF8RE=52.42;
ELSE SF8RE=.;

/* Mental Health - SF8MH */

```

IF S02S07=5 THEN SF8MH=21.40;
ELSE IF S02S07=4 THEN SF8MH=31.62;
ELSE IF S02S07=3 THEN SF8MH=41.53;
ELSE IF S02S07=2 THEN SF8MH=49.59;
ELSE IF S02S07=1 THEN SF8MH=56.79;
ELSE SF8MH=.;

```

The final equations to create the physical health and mental health summary scores are listed below. The equations show the weighting and aggregation of indicator variables.

$$PCS_8 = (0.30544 * SF8PF) + (0.49395 * SF8RP) + (0.33962 * SF8BP) + (0.20007 * SF8GH) + (0.10304 * SF8VT) + (0.01253 * SF8SF) + (0.03484 * SF8RE) + (-0.29206 * SF8MH) + (-9.36839);$$

$$MCS_8 = (-0.19183 * SF8PF) + (-0.17030 * SF8RP) + (-0.02507 * SF8BP) + (0.03625 * SF8GH) + (0.25699 * SF8VT) + (0.21312 * SF8SF) + (0.37965 * SF8RE) + (0.71838 * SF8MH) + (-10.11675);$$

Many of the reports show the percentage of respondents whose health status measures fall below the national median after adjustments for age and gender (KMID_H, KMID_MH). These are binary variables where a value of 1 indicates that the condition is true and a values of 2 indicates that the condition if false.

E. WEIGHTING PROCEDURES

Quarterly and Annual estimates based on the 2002 HCSDB must account for the survey's complex sample design and for possible bias due to nonresponse. As a part of sample selection, MPR constructed sampling weights (BWT) that reflect the differential selection probabilities used to sample beneficiaries across strata. Nonresponse can also lead to bias in the estimate of the respondent sample with respect to the total population of DoD health care beneficiaries. Adjustments were made to the sampling weights, BWT, to compensate for such bias, using a

weighting class method. We also generated replicate weights for the final database so that users have the option of obtaining variance estimates with a replication method as well as the Taylor series method. This section presents these weighting procedures for the 2002 Adult HCSDb.

1. Constructing the Sampling Weight

The sampling weight was constructed on the basis of the sample design. In the 2002 Adult HCSDb, stratified sampling was used to select the samples that would receive the questionnaire. Sampling was independently executed within strata defined by combinations of three domains: enrollment status groups; beneficiary groups; and geographic areas.

The sample was selected with differential probabilities of selection across strata. Sample sizes were driven by predetermined precision requirements. For further details of the 2002 adult sample design, see the *Health Care Survey of DoD Beneficiaries: 2001 Adult Sampling Report* (MPR, 2001). Our first step in weighting was to construct sampling weights that reflect these unequal sampling rates. These sampling weights can be viewed as the number of population elements each sampled beneficiary represents. The sampling weight was defined as the inverse of the beneficiary's selection probability or:

$$(1) \quad W_s(h, i) = \frac{N(h)}{n(h)}$$

where:

$W_s(h, i)$ is the sampling weight for the i -th sampled beneficiary within the h -th stratum,

$N(h)$ is the total number of beneficiaries in the h -th stratum, and

$n(h)$ is the number of sampled beneficiaries from stratum h .

The sum of the sampling weights over selections i , from the h -th stratum equals the total population size of the h -th stratum or $N(h)$.

2. Adjustment for Total Nonresponse

Survey estimates obtained from respondent data only can be biased with respect to describing characteristics of the total population (Lessler and Kalsbeek 1992). The choice of an appropriate method depends on the response mechanism that underlies the study population. To reduce this bias, we developed procedures to compensate for the potential bias due to nonresponse. We adjusted for nonresponse independently within classes, with the assumptions that both response and characteristics directly or indirectly related to survey variables are homogeneous within class. Two types of nonresponse were associated with the 2002 Adult HCSDb:

- Unit or total nonresponse occurs when a sampled beneficiary did not respond to the survey questionnaire (e.g., refusals, no questionnaire returned, blank questionnaire returned, bad address).
- Item nonresponse occurs when a question that should have been answered is not answered (e.g., refusal to answer, no response).

Because item response rates in previous surveys were high, statistical imputation, a technique used to compensate for item nonresponse, was not used in the 2002 Adult HCSDb. To account for unit or total nonresponse, we implemented a weighting class adjustment.

3. Weighting Class Adjustments

Weighting class adjustments were made by partitioning the sample into groups, called *weighting classes*, and then adjusting the weights of respondents within each class so that they sum to the weight total for nonrespondents and respondents from that class. Implicit in the weighting class adjustment is the assumption that — had the nonrespondents responded — their responses would have been distributed in the same way as the responses of the other respondents in their weighting class.

The 2002 Adult HCSDDB weighting classes were defined on the basis of the stratification variables: TRICARE Prime enrollment status, beneficiary group, and geographic area.

Nonresponse adjustment factors for the 2002 Adult HCSDDB were calculated in two steps. First, we adjusted the sampling weights to account for sampled beneficiaries for whom eligibility status could not be determined. Sampled beneficiaries were then grouped as follows according to their response status d :

- $d=1$ Eligible — completed questionnaire returned (FNSTATUS = 11)
- $d=2$ Eligible — incomplete or no questionnaire returned (FNSTATUS = 12 or 20)
- $d=3$ Ineligible — deceased, incarcerated or permanently incapacitated beneficiary (FNSTATUS = 30)
- $d=4$ Eligibility unknown — no questionnaire or eligibility data (FNSTATUS = 41 or 42)

Within weighting class c , the weights of the $d=4$ nonrespondents with unknown eligibility were redistributed to the cases for which eligibility was known ($d=1,2,3$), using an adjustment factor $A_{wc1}(c,d)$ that was defined to be zero for $d=4$ and defined as:

$$(2) \quad A_{wc1}(c,d) = \frac{\sum_{i \in S(c)} W_s(c,i)}{\sum_{i \in S(c)} I_1(i)W_s(c,i) + \sum_{i \in S(c)} I_2(i)W_s(c,i) + \sum_{i \in S(c)} I_3W_s(c,i)} \quad \text{for } d = 1, 2, 3$$

where:

$A_{wc1}(c,d)$ is the eligibility-status adjustment factor for weighting class c and response status code d ,

$I_d(i)$ is the indicator function that has a value of 1 if sampled unit i has a response status code of d and 0 otherwise,

$S(c)$ is the set of sample members belonging to weighting class c , and

$W_s(c,i)$ is the sampling weight (BWT) for the i -th sample beneficiary from weighting class c before adjustment.

The adjustment $A_{wc1}(c,d)$ was then applied to the sampling weights to obtain the eligibility-status adjusted weight. Beneficiaries in weighting class c with response status code of d were assigned the eligibility-status adjusted weight:

$$(3) \quad W_{wc1}(c,d,i) = A_{wc1}(c,d) W_s(c,i) \quad \text{for } d = 1, 2, 3$$

Note that since $d=4$ cases have adjustment factors of zero, they also have adjusted weights of zero.

The next step in weighting was to adjust for incomplete or missing questionnaires from beneficiaries known to be eligible. For this adjustment, the weighting class c from the previous step was again partitioned into groups according to the beneficiary's response status code d . Within weighting class c , the weights of the $d=2$ nonresponding eligibles were redistributed to the responding eligibles $d=1$, using an adjustment factor $A_{wc2}(c,d)$ that was defined to be zero for $d=2,4$. For Group 1 ($d=1$), the questionnaire-completion adjustment or $A_{wc2}(c,1)$ factor for class c was computed as:

$$(4) \quad A_{wc2}(c,1) = \frac{\sum_{i \in S(c)} I_1(i)W_{wc1}(c,i) + \sum_{i \in S(c)} I_2(i)W_{wc1}(c,i)}{\sum_{i \in S(c)} I_1(i)W_{wc1}(c,i)}$$

By definition, all $d=3$ ineligible beneficiaries "respond," so the $d=3$ adjustment factor is 1, or $A_{wc2}(c,3)=1$. The questionnaire-completion adjusted weight was calculated as the product of the questionnaire-completion adjustment $A_{wc2}(c,d)$ and the previous eligibility-status adjusted weight $W_{wc1}(c,d,i)$, or:

$$(5) \quad W_{wc2}(c,d,i) = A_2(c,d) W_{wc1}(c,d,i)$$

As a result of this step, all nonrespondents ($d=2,4$) had questionnaire-completion adjusted weights of zero, while the weight for ineligible cases ($d=3$) remained unchanged, or $W_{wc2}(c,3,i)=W_{wc1}(c,3,i)$.

4. Calculation of Combined Annual Weights

A dataset combining the four consecutive quarterly data was constructed. Since there were a total of 2,401 late respondents who were not included in the Quarters 1–3 2002 files, the first three quarters were re-weighted before they were merged into the combined annual dataset. The new Quarters 1–3 datasets contain the responses of respondents who "trickled" in past the deadline for the survey. In addition, a few additional changes were made in re-weighting the data in order to provide consistent small cell collapsements among the quarters. First, we uniformly collapsed small cells for all four quarters. Collapsing cells uniformly across all quarters ensures that all quarters, ultimately, contain identical catchment areas and identical final adjusted cells. We applied the Quarter 4 general collapsing rules for small cells to all four quarters. After implementing the abovementioned changes to the data and obtaining new weights, the Quarter 1 – Quarter 3 datasets and the Quarter 4 dataset were merged to form a combined annual dataset with data for all four quarters.

Because combined sample sizes are sufficiently large to provide statistically reliable estimates with this combined dataset, users will be able to calculate survey estimates for finer domains, such as catchment areas. Construction of an appropriate weight will allow users to consider the combined data as the data from a single survey. Quarterly weights are still included so that users may continue to calculate quarterly estimates and retain the ability to combine any sequential four quarters into a combined data set.

The method used for combining the four quarters and calculating combined estimates assumes that the variance in estimates from one quarter to the next is merely due sampling variation. That is, combined estimates can be calculated from the four independent samples by averaging the estimates for the four quarters. These combined estimates will, in fact, be more precise than the quarterly estimates because they average out the variation across quarters (For a further discussion, see Friedman, et al. 2002).

We calculated the final survey weight for each quarter within the combined dataset. Without the loss of generality, let us denote the current quarter by Q4. Then, the combined dataset would include the four quarterly datasets: Q1, Q2, Q3, and Q4. Let us denote quarterly final survey weights by $WQ1$, $WQ2$, $WQ3$, and $WQ4$. To retain the sum of the weights from the combined data as the population count, we average the population over the four quarters, by rescaling each quarterly survey weights to meet the following condition:

$$(6) \quad WCOM = q_i x WQ_i$$

where q_i is between 0 and 1 with the constraint $q_1 + q_2 + q_3 + q_4 = 1$. We can make choice of q_i based on various assumptions. We have decided that each quarterly contribution should be equal. If we assume an equal relationship among the quarters, then, each q_i is as follows:

$$q_1 = 0.25; q_2 = 0.25; q_3 = 0.25; q_4 = 0.25$$

Then, the weight for the combined annual data will be $WCOM$ in (6).

The final data file retains the quarterly sampling stratum variables and quarterly weight as well as the combined weight. The file also contains an indicator variable for the quarters. From this combined dataset, one can calculate both combined data and revised quarterly estimates.

5. Trimming Extreme Weights

In evaluating the final combined annual analysis weight, we observed that a few weights were outliers, that is, well outside the distribution of the vast majority of the weights. Large variation in weights leads to larger variances and reduced precision of estimates. We identified five cases with extraordinarily large weights. All of these cases were in out-of-catchment areas and were sampled in the first quarter. We decided to trim these weights. This procedure might introduce a small bias in estimates, but it significantly reduces the variance.

First, we identified trimming classes. The objective of forming these classes was to keep like beneficiaries together. We identified five trimming classes, three of which were a combination of out-of-catchment areas and regions 13 (Europe), 14 (Western Pacific), and 15 (Latin America and Canada). The fourth class was comprised of cases not assigned to a catchment area. The fifth trimming class consists of all other cases. We reviewed the distribution of the weights within each trimming class, and identified reasonable cut off levels for the maximum weight in each class. In the class composed of all other cases, we observed no outliers and did not trim any weights.

The goal of trimming is to set a maximum weight while maintaining the original sums of weights within each class. After choosing a maximum weight we then calculated an adjustment factor for each class. This adjustment factor ensures that the sum of the weights remains constant. Let t be the number of cases in trimming class c that are greater than the maximum weight K .

Then, the trimming adjustment $A_{tc}(c)$ is defined as:

$$(7) \quad \begin{aligned} \text{If } t > 0 \quad A_{tc}(c) &= \frac{\sum WCOM(c) - t(c)K(c)}{\sum WCOM(c) - \sum_{d=1} WCOM(c)} \\ \text{If } t = 0 \quad A_{tc}(c) &= 1 \end{aligned}$$

where $WCOM$ is the final weight for the combined data and $d = 1$ indicates cases with weights greater than K . The final weight for the combined data is

(8) $WCOM_t = A_{tc}(c)WCOM(c)$

To check the effect of weight trimming, we estimated various measures before trimming and after trimming and compared them to the 2001 estimates. As you can see in Table 3.7 below, the differences in the overall estimates are small and not unidirectional. On the regional level, however, some differences were detected, yet these differences too were not unidirectional, so it is difficult to determine whether the trimmed or the untrimmed estimates are more accurate.

TABLE 3.7
ESTIMATES BEFORE AND AFTER WEIGHT TRIMMING

Variable	Description	2002 Before trimming		2002 After trimming		2001 Estimates	
		Count	Percent	Count	Percent	Count	Percent
HP_BP	Had a blood pressure check in past 2 yrs	49,517	91.8	49,517	91.8	53,609	88.0
HP_BRST	(Women 40+) had a breast exam in past 2 yrs	10,055	68.5	10,055	68.5	11,899	68.8
HP_CHOL	Had a cholesterol screening in past 5 yrs	42,896	81.7	42,896	81.7	48,189	81.1
HP_FLU	(Age 65+) had a flu shot in past year	5,412	70.5	5,412	70.6	8,172	73.3
HP_GP	Had an examination or checkup in past yr	29,773	56.9	29,773	56.9	33,814	56.6
HP_MAMOG	(Women 40+) had a mammogram in past 2 yrs	12,083	83.4	12,083	83.5	14,155	84.1
HP_PAP	(All women) had a pap smear in past 3 yrs	24,804	86.9	24,804	86.9	28,861	88.1
HP_PRNTL	(If pregnant in past yr) received prenatal care in 1 st trimester	2,311	85.0	2,311	85.0	2,514	88.2
HP_SMOKE	(Adult smokers and recent quitters) advised to quit smoking in past yr	6,346	62.3	6,346	62.2	6,591	60.7
HP_PROS	(Men 50+) had a prostate exam within past yr	6,458	65.9	6,458	65.7	8,503	65.5
HP_MAM50	(Women 50+) had a mammogram within past 2 yrs	8,222	85.5	8,222	85.6	9,881	85.7
KDISENRL	Intention to disenroll	2,190	6.1	2,190	6.1	2,547	7.7

4. Calculation of Jackknife Replicate

A series of jackknife replicate weights are calculated and attached to each beneficiary record in the database. In jackknife replication, a prescribed number of replicates are generated by deleting selected cases from the full sample. Software for replication methods requires either replicate weights or sample design information, including the sampling weight and stratification information. WesVarPC[®] (Brick et al. 1996) is a publicly available package for replications methods which may be used to produce variance estimates. WesVarPC allows jackknife variance estimation for two primary sampling units per stratum up to 100 strata, or up to 256 replicates without stratification. However, the design for the 2002 HCSDB for adults involves 382 adjustment cells. To use WesVarPC, we modified the design to create fewer strata. The two options for doing this are to (1) form fewer than 256 replicates by ignoring stratification or (2) form replicates by collapsing strata to fewer than 100 and by assigning each unit to one of two pseudo primary sampling units (PSUs).

For either option, the entire weighting process as described in the previous sections must be applied for each jackknife replicate.

We use option 1 to construct the quarterly jackknife replicates as follows. First, the entire file of sampled beneficiaries is sorted in sample selection order in which the stratification variables are used in the sorting process. Next, 60 mutually exclusive and exhaustive systematic subsamples of the full sample are identified in the sorted file. A jackknife replicate is then obtained by dropping one subsample from the full sample. As each subsample is dropped in turn, the same number of different jackknife replicates as subsamples is defined. The entire weighting process as applied to the full sample is then applied separately to each of the jackknife replicates to produce a set of replicate weights for each record. Then, the series of jackknife replicate weights (WRWT1 – WRWT60) is attached to the final data in order to construct jackknife replication variance estimates. These replicate weights should be used to estimate variances of quarterly estimates.

We also constructed 240 jackknife replicates for combined estimates by calculating the weights in a manner similar to the one described above. For the combined data, a jackknife replicate was obtained by using the quarterly jackknife replicate weights and the quarterly analysis weights. To compute the replicate weights for the combined file from quarter q_i (where $i = 1$ to 4) we used the quarterly replicate weight $WRWT_j$ where $j = 1$ to 60 and the quarterly weight WQ_k (where $k = 1$ to 4) for all cases where i is not equal to k . Therefore, we have four times sixty or 240 jackknife replicates. For each replicate each quarter contributes an equal 25 percent toward the total weight. For example, for the first replicate, we used the replicates weights associated with the first replicate in quarter 1, $WRWT_1$, and the final quarterly weights for quarters 2, 3, and 4, WQ_2 , WQ_3 , and WQ_4 . The combined replicate weight is then calculated as:

$$(9) \quad \begin{array}{ll} \text{If quarter } i = 1, \text{ then} & CWRWT_1 = 0.25 \times WRWT_1 \\ \text{Otherwise} & CWRWT_1 = 0.25 \times WQ_i \end{array}$$

Like the analysis weight, each replicate weight (CWRWT1-CWRWT240) for the combined data set was trimmed. The same procedure described above was used for each replicate weight. These trimmed replicate weights are the final variables needed for jackknife variance estimation for combined annual estimates.

Analysis

This chapter explains how the HCSDB variables were processed during the analysis phase of the project. It covers the procedure for calculating response rates, developing dependent and independent variables for the analysis and estimating the variance of the statistics. The National Executive Summary Report is described briefly along with an outline of the steps involved in creating charts for the reports.

A. RESPONSE RATES

In this section, we present the procedures for response rate calculations along with a brief analysis of response rates for domains of interest. Response rates for the 2002 Adult HCSDB were calculated in the same way as they were calculated in 2001. The procedure is based on the guidelines established by the Council of American Survey Research Organization (CASRO 1982) in defining a response rate.

1. Definition of Response Rates

In calculating response rates and related measures, we considered two different rates: *unweighted* and *weighted*. The unweighted version of the response rate represents the counted proportion of respondents among all sampled units, and the *weighted* version indicates the estimated proportion of respondents among all population units, and it is weighted by the sampling weight. When sampling rates across all strata are equal, these two approaches give the same result. However, the 2002 HCSDB used different sampling rates across strata. So, it is useful to show both “unweighted” and “weighted” response rates. We calculated these two response rates in the same way. As presented in Chapter 3, all sampled beneficiaries were completely classified into these four main (six detailed) groups: Group 1 (G1-1 and G1-2), Group 2, Group 3, and Group 4 (G4-1 and G4-2):

- Group 1 (G1-1): eligible and complete questionnaire returned;
- Group 1 (G1-2): eligible and incomplete questionnaire returned;
- Group 2: eligible and questionnaire not returned;
- Group 3: ineligible
- Group 4 (G4-1): eligibility unknown and locatable; and
- Group 4 (G4-2): eligibility unknown and unlocatable.

The unweighted counts reflect the number of sampled cases (n_i for Group i , where $i=1,2,3,4$), and the weighted counts reflect the estimated population size¹ (\hat{N}_i for Group i , where $i=1,2,3,4$) for the four main response categories.

These weighted and unweighted counts were also calculated for the subgroups G1-1, G1-2, G4-1, and G4-2, where we denote the unweighted counts by $n_{1,1}$, $n_{1,2}$, $n_{4,1}$, and $n_{4,2}$, and the weighted counts by $\hat{N}_{1,1}$, $\hat{N}_{1,2}$, $\hat{N}_{4,1}$, and $\hat{N}_{4,2}$. With these values, we calculated response rates as follows.

Response rates are a product of two measures: the location rate and the completion rate. To calculate the location rate, we first estimated the number of Group 4 “located” beneficiaries who were expected to be eligible for the survey:

(1)

$$l = \left(\frac{n_1 + n_2}{n_1 + n_2 + n_3} \right) n_{4,1} \quad \text{and} \quad l_w = \left(\frac{\hat{N}_1 + \hat{N}_2}{\hat{N}_1 + \hat{N}_2 + \hat{N}_3} \right) \hat{N}_{4,1}$$

where l and l_w are unweighted and weighted estimates of the number of “located” beneficiaries among Group 4. Then, the unweighted and weighted “location rates” are defined by:

(2)

$$LR = \frac{n_1 + n_2 + l}{n_1 + n_2 + n_4 \left(\frac{n_1 + n_2}{n_1 + n_2 + n_3} \right)} \quad \text{and} \quad LR_w = \frac{\hat{N}_1 + \hat{N}_2 + l_w}{\hat{N}_1 + \hat{N}_2 + \hat{N}_4 \left(\frac{\hat{N}_1 + \hat{N}_2}{\hat{N}_1 + \hat{N}_2 + \hat{N}_3} \right)}$$

And the corresponding unweighted and weighted “completion rates” are defined by:

(3)

$$CR = \frac{n_{1,1}}{n_1 + n_2 + l} \quad \text{and} \quad CR_w = \frac{\hat{N}_{1,1}}{\hat{N}_1 + \hat{N}_2 + l_w}$$

¹The weighted sum of sampled units can be regarded as an estimated population size. The base weight (BWT) was used in calculating weighted counts, where BWT is the inverse of selection probability.

The final response rates in Equation (4) can be obtained by multiplying the location rate in Equation (2) by the completion rate in Equation (3).

(4)

$$FRR = LR \times CR \text{ and } FRR_w = LR_w \times CR_w$$

In the definitions in Equations (1) through (4), the subscript “w” indicates that all calculations involve weighted counts. The method used to calculate response rates is consistent with the CASRO guidelines.

2. Reporting

We examined response rates to identify patterns across different domains or characteristics. While analysts prefer weighted rates that reflect the estimated proportion of respondents among all population beneficiaries, operational staff often is interested in getting unweighted measures. All tables include unweighted and weighted values under columns headed “Unweighted” and “Weighted”, respectively. In the following, we focus on discussing unweighted response rates for domains of interest.

Table 4.1 includes response rates for the 2002 Adult HCSDB for all quarters of 2002 as well as for the combined annual dataset (for a further discussion of the combining process, please see section E.4 at the end of this chapter). It also contains response rates by beneficiary groups, and by enrollment status.

- Overall: The overall unweighted response rate for the combined 2002 Adult HCSDB was about 30 percent (which is found in Table 4.1 in the row of “Overall”). This rate is substantially lower than the 35 percent rate achieved in the first quarter 2000 survey.
- Beneficiary group and enrollment status: All response rates according to beneficiary groups and enrollment status show similar patterns as the 2000 survey, i.e., active duty beneficiaries had the lowest response rates and beneficiaries 65 years and older had the highest rate.¹
- The response rates for the first three quarters include late responders (respondents whose surveys “trickled-in” after the deadline). Therefore, the first three quarters have a higher level of response than the fourth quarter.

¹ However, response patterns vary considerably across beneficiary and enrollment groups. The relatively low level of response for active duty persons and their family members may be related to frequent relocations and subsequent difficulty in obtaining updated address information within the fielding period.

TABLE 4.1

RESPONSE RATES OVERALL AND BY ENROLLEE BENEFICIARY GROUP: QUARTERS I- IV, 2002

	Q1 2002		Q2 2002		Q3 2002		Q4 2002		COMBINED	
	RR (%)	RR _w (%)								
Overall	31.0	46.0	31.2	46.7	31.5	45.9	28.5	44.3	30.4	46.0
Active duty	21.1	18.2	19.8	18.6	19.9	18.9	17.0	16.0	19.4	18.2
Active duty family, enrollee	32.5	31.8	32.0	32.9	32.8	33.6	27.3	27.7	31.2	31.8
Active duty family, non-enrollee	21.7	22.8	21.4	23.5	21.3	22.9	18.5	20.8	20.7	22.8
Retired,<65,enrollee	58.5	58.2	55.5	56.6	57.6	58.6	54.8	57.9	56.6	58.2
Retired,<65,non- enrollee	45.2	50.4	46.7	52.0	46.5	50.9	43.8	48.7	45.6	50.4
Retired,65+	73.3	73.0	73.1	73.4	71.7	71.6	72.3	73.1	72.6	73.0

RR = Unweighted data

RR_w = Weighted data

For domains of special interest, Appendix E contains tables showing response rates and weighted response rates for each quarter and the combined dataset. We summarize results about combined response rates for selected domains as follows:

- Regions: Response rates across regions range from 16 percent for Western Pacific Command to 39 percent for Golden Gate (Table E.1).
- Sex: Response rate for men is 27 percent as compared to 36 percent for women. (Table E.2).
- Conus: Response rate for CONUS is 33 percent as compared to 18 percent for OCONUS. (Table E.3).
- Catchment areas: Combined response rates across catchment areas range from 13 percent for NH Yokosura to 46 percent for Ft. Belvoir. (Table E.4).
- Beneficiary groups by sex: Women respond at a higher rate than men for both active duty and active duty family members, 22 percent versus 19 percent and 29 percent versus 17 percent, respectively. The opposite pattern emerges for retirees, survivors and family members 65 and older. The response rates for retirees less than 65 are virtually the same for men and women. (Table E.5).
- Beneficiary group by service affiliation (Army, Navy, Air Force, Marine Corps, Coast Guard): Among service affiliations, the smallest combined response rate comes from active duty in the Marine Corps with 11 percent and the largest from beneficiaries over 65 from the Coast Guard with 79 percent (Table E.6).

B. VARIANCE ESTIMATION

Due to the complex sample design, variance estimation for the 2002 HCSDB is not simple, and may be most easily achieved using one of two methods. The first, the Taylor Series Linearization via SUDAAN™ (Shah et al. 1996), is a direct variance estimation method, which may be used to calculate the standard errors (the squared root of the variance) of estimates. For the 2002 HCSDB analyses, we used the Taylor series linearization method. For analysts who prefer a replication method of variance estimation, replicate weights for jackknife replication are provided in the public use file. This section details the two approaches to calculating variance estimates associated with the 2002 HCSDB of the characteristics of interest.

1. Taylor Series Linearization

MPR uses Taylor series linearization to produce standard errors for the estimates from the 2002 HCSDB. For most sample designs, including the 2002 HCSDB, design-based variance estimates for linear estimators of totals and means can be obtained with explicit formulas. Estimators for nonlinear parameters, such as ratios, do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion for the estimator (Woodruff 1971). To calculate variance estimates based on the Taylor series linearization method, given HCSDB's stratified sampling design, we need to identify stratum as well as the final analysis weight for each data record. We included these variables on the final database. For variance estimation, we use the general-purpose statistical software package SUDAAN to produce Taylor series variance estimates. SUDAAN is the most widely used of the publicly available software packages based on the Taylor series linearization method. In SUDAAN, the user specifies the sample design and includes the stratum variables and the analysis weight for each record. Unlike WesVarPC, SUDAAN allows for unlimited strata, so stratification effects can be incorporated in calculating standard errors.

Some of the reported estimates are composite scale scores that are linear functions of individual estimates. The sampling variances for these scale estimates can be directly obtained from the usual design-based variance estimation formula by incorporating the covariance terms among individual items within the scale.

$$\text{Let } \bar{y} = \frac{\sum_{h=1}^L \sum_{i=1}^{n_h} W_{hi} Y_{hi}}{\sum_h \sum_i W_{hi}}$$

denote an estimator of a composite scale where the individual composite measure for beneficiary (h, i) consists of r items is thus denoted as:

$$Y_{hi} = \sum_{j=1}^r X_{hi,j} / r .$$

Then, a customary variance estimator of \bar{y} is the sum of the item variances and covariances among item estimates:

$$v(\bar{y}) = \frac{1}{r^2} \left\{ \sum_{j=1}^r \text{var}(\bar{x}_j) + \sum_{j \neq j'} \text{cov}(\bar{x}_j, \bar{x}_{j'}) \right\} ,$$

Variance components can be obtained from the usual survey specific software such as SUDAAN and WesVarPC..

2. Jackknife Replication

Resampling methods are often used in estimating the variance for surveys with complex designs. In resampling, the sample is treated as if it was a population, and many smaller samples are drawn from the original sample (Lohr, pages 298-308). The subsamples are then used to compute the variance. Replication methods have been recommended for surveys in which the sample design is complex, nonresponse adjustments are needed, and statistics of interest are complicated. In such

surveys, the usual design-based estimation formula is extremely difficult or impossible to develop (see, for example, Wolter 1985, pages 317-318). Jackknife replicate weights can be used to calculate the standard errors of estimates. An estimate of a characteristic of interest is calculated (with the same formula as the full sample estimate) using each set of replicate weights; these replicate estimates are used to derive the variance of the full sample statistic.

The jackknife variance of the full sample statistic of interest is estimated from the variability among the replicated estimates. When the replicate weights are produced according to the above procedure, jackknife replicate standard errors can be produced using custom written software or publicly available statistical software. For instance, WesVarPC® (Brick et al. 1996) is a popular software package that calculates standard errors based on replication methods. It produces standard errors for functions of survey estimates such as differences and ratios as well as simple estimates such as mean, proportion, and totals. Additional details about the jackknife replication approach are given in Wolter (1985). Like other replication methods, the jackknife variance estimation can be easily implemented for any form of estimate without further algebraic work.

C. SIGNIFICANCE TESTS

In certain charts in the adult report cards and the National Executive Summary Report (NESR) statistical testing is done to show which columns of the chart (values of the independent variable) are statistically different from all CONUS regions as a whole. Positional arrows show if a region is statistically better than the CONUS regions (an arrow pointing up) or statistically worse than the CONUS regions (an arrow pointing down); if there is no arrow, there is no statistical difference.

The null hypothesis for this significance test is that the mean for the column is essentially equal with the CONUS mean, and the alternative is that the mean for the column is different from the CONUS mean. That is, we are testing:

$$H_0: \mu_1 = \mu_2 \quad \text{vs.} \quad H_a: \mu_1 \neq \mu_2$$

For instance, μ_1 might represent the characteristic of interest for the active duty group while μ_2 might represent the same characteristic for all CONUS regions.

With large sample sizes, the estimator $\overline{y_1} - \overline{y_2}$ is approximately distributed as a normal distribution with mean zero and variance $\sigma_{y_1-y_2}^2$ under the null hypothesis. In testing the hypothesis, a test Statistic T is thus calculated as:

$$T = \frac{\overline{y_1} - \overline{y_2}}{\hat{\sigma}_{y_1-y_2}}$$

With $\alpha = 0.05$, the null hypothesis should be rejected if $|T| > 1.96$. The denominator of T, the standard error of $\overline{y_1} - \overline{y_2}$, can be calculated as the square root of the variance estimator $\hat{\sigma}_{y_1-y_2}^2$:

$$\hat{\sigma}_{y_1-y_2}^2 = \text{var}(\overline{y_1}) + \text{var}(\overline{y_2}) - 2 \text{cov}(\overline{y_1}, \overline{y_2}).$$

If $\overline{y_1}$ and $\overline{y_2}$ are independent, then the covariance term equals zero and thus the variance estimator can be easily obtained as the sum of two individual variance estimators. However, there

are some cases in which the condition of independence does not hold. For example, Active Duty MTF group is not independent with the CONUS regions because these two domains share Active duty group within the CONUS regions. So the covariance term should be incorporated in calculating the variance estimator of the estimator of the difference. With suitable algebra and program modification, these covariance terms were calculated for all such cases. All detailed programs are included in Appendices H and K.

D. DEMOGRAPHIC ADJUSTMENTS

All scores in the TRICARE Consumer Reports are adjusted for patient characteristics affecting their scores. Scores can be adjusted for a wide range of socioeconomic and demographic variables.

The purpose of risk adjustment is to make comparisons of outcomes, either internally or to external benchmarks, that control for characteristics beyond the health care provider's control. Based on previous work with satisfaction scales derived from CAHPS, it appears that satisfaction increases with age and decreases with poor health across social classes and insurance types. Besides controlling for these factors, the methodology used:

- Permits risk-adjusted comparisons among regions and catchment areas within and across beneficiary and enrollment groups
- Permits testing the hypothesis that the difference in risk-adjusted scores between a region or catchment area and a benchmark is due to chance
- Is appropriate for CAHPS composites and global satisfaction ratings.

The methodology used is an adaptation of that found in CAHPS 2.0 Survey and Reporting Kit (DHHS, 1999)

The model used for this adjustment is:

$$Y_{ijkl} = \beta_{1l}A_{1l} + \beta_{2l}A_{2l} + \dots + \beta_{7l}A_{7l} + \beta_{8l}P_l + \varepsilon_{ijkl} ,$$

where Y_{ijkl} is a dependent variable, β_{ql} 's are parameters to be estimated, A_{ql} 's are age dummy variables ($A_{ql} = 1$ if the beneficiary is in age group q , and 0 otherwise; $A_1 =$ age 18-24, $A_2 =$ age 24-34, $A_3 =$ age 35-44, $A_4 =$ age 45-54, $A_5 =$ age 55-64, $A_6 =$ age 65-74, and $A_7 =$ age 75 and older), P_l is health status. The subscripts i, j, k and l refer to the region, MTF, and beneficiary, and beneficiary in enrollment group, respectively.

Given 15 regions and $J+1$ catchment areas, the specifications that we use are:

$$\varepsilon_{ijkl} = \delta_{0l} + \delta_{1l}R_{1l} + \delta_{2l}R_{2l} + \dots + \delta_{15l}R_{15l} + w_{ijkl} ,$$

where R_i 's are regional dummy variables ($R_i = 1$ if the beneficiary is in region i and beneficiary group l , and 0 otherwise), and

$$\varepsilon_{ijkl} = \gamma_{0l} + \gamma_{1l}H_{1l} + \gamma_{2l}H_{2l} + \dots + \gamma_{Jl}H_{Jl} + w_{ijkl} ,$$

where H_j 's are catchment area dummy variables ($H_j = 1$ if the beneficiary is in catchment area j and beneficiary group l , and 0 otherwise). The first specification is used when catchment area values are not reported, and the second when catchment areas are reported.

The methods for calculating demographically adjusted values and testing hypotheses of differences in demographically adjusted scores among providers vary with the way ε_{ijkl} is defined. For specification 1, the adjusted mean of the dependent variable Y for region i can be obtained as:

$$\bar{y}_i = \hat{\delta}_0 + \hat{\delta}_i + \hat{\beta}_1 \hat{A}_1 + \hat{\beta}_2 \hat{A}_2 + \dots + \hat{\beta}_7 \hat{A}_7 + \hat{\beta}_8 \hat{P},$$

where $\hat{\beta}_i$'s are estimated model parameters, \hat{A}_i 's are weighted proportions of age group i among the total U.S. population, and \hat{P} is the weighted MHS means of the variable P . For beneficiary group l , the adjusted regional value is:

$$\bar{y}_{il} = \hat{\delta}_{0l} + \hat{\delta}_{il} + \hat{\beta}_{1l} \hat{A}_1 + \hat{\beta}_{2l} \hat{A}_{2l} + \dots + \hat{\beta}_{7l} \hat{A}_{7l} + \hat{\beta}_{8l} \hat{P}_l,$$

where \hat{A}_q 's are weighted proportions of age group q in the MHS.

For specification 2, an adjusted catchment area value can be calculated as:

$$\bar{y}_{ijl} = \hat{\gamma}_{0l} + \hat{\gamma}_{ijl} + \hat{\beta}_{1l} \hat{A}_{1l} + \hat{\beta}_{2l} \hat{A}_{2l} + \dots + \hat{\beta}_{7l} \hat{A}_{7l} + \hat{\beta}_{8l} \hat{P}_l,$$

while the regional value can be calculated as:

$$\bar{y}_{il} = \hat{\gamma}_{0l} + \bar{\hat{\gamma}}_{il} + \hat{\beta}_{1l} \hat{A}_{1l} + \hat{\beta}_{2l} \hat{A}_{2l} + \dots + \hat{\beta}_{7l} \hat{A}_{7l} + \hat{\beta}_{8l} \hat{P}_l,$$

where $\bar{\hat{\gamma}}_{il}$ is the weighted mean for all catchment areas in Region i .

Standard errors then can be estimated as the standard error of residuals for catchment areas or regions using SUDAAN. These standard errors can be used in hypothesis tests comparing adjusted values to other adjusted values or to external benchmarks. Composite values are calculated as averages of regional or catchment area adjusted values for questions making up the composites, in which each question is equally weighted.

Benchmarks can also be adjusted for age and health status as are scores taken from survey responses. If the benchmark data set contains age and health status information, we fit a model of the form

$$y = \alpha + \beta_1 A_1 + \beta_2 A_2 + \dots + \beta_7 A_7 + \beta_8 P$$

where the A 's are age groups and P is health status. Then the adjusted benchmark is

$$\hat{y}_l = \hat{\alpha} + \hat{\beta}_1 \bar{A}_{1l} + \hat{\beta}_2 \bar{A}_{2l} + \dots + \hat{\beta}_7 \bar{A}_{7l} + \hat{\beta}_8 \bar{P}_l$$

using the mean values of A and P for beneficiary group l .

The adjusted values for that beneficiary group can then be compared to a benchmark appropriate for their age distribution and health status.

In some cases, it may be desirable for a single benchmark to be presented in comparison to many beneficiary groups. We accomplish this by recentering scores for beneficiary groups. In the Consumer Reports, described below, the benchmark presented is the all users beneficiary group,

but scores for many other beneficiary groups are also presented. Each score and benchmark is calculated for the appropriate beneficiary group. Then a recentering factor for each beneficiary group is calculated as the difference in adjusted benchmarks between a beneficiary group and the all users group. For the all users group, that recentering factor is zero. The recentering factor is added to score for each region or catchment area for that beneficiary group. Thus beneficiary groups can also be compared controlling for age and health status and can be compared to the same benchmark.

E. CALCULATING SCORES

Consumer Reports (see below) include four types of scores, CAHPS composites, ratings, a preventive care composite and a total score.

1. Composites and Ratings

The preventive care composite is calculated as $P_i = \sum w_i r_i$, where w is the proportion of the eligible population for whom the preventive care measure is relevant and r is the proportion of that eligible group receiving preventive care.

CAHPS composites are calculated as

$$S_i = (1/n_i) \sum (q_j/k_j),$$

where n_i is the number of questions in the composite i , q_j is the number giving a favorable response to question j in the composite i , and k_j is the number responding to that question j . The value n_i is calculated using sampling weights. CAHPS ratings are calculated as

$$S_i = q_i/k_i,$$

where q_i is the number giving a favorable response and k_i is the (weighted) number responding to rating i . All scores are adjusted for age and health status (see above).

2. Total Score

The total score, T , is a weighted average of 11 scales shown in the Consumer Reports. $T = \sum w_i S_i$, where S_i is a composite or rating score calculated for a geographic area such as a region. The total weight is $w_i = f_i p_i$.

The weights f_i come from $F(1) = \sum f_i S_i$, where $F(1)$ is the first component identified in principal components analysis. For an observation to be included, all variables must be non-missing. These weights are the same for all enrollment groups and beneficiary groups. The total score $T = \sum w_i S_i$, where S_i are composite scores or rating scores and $w_i = f_i$ are factor weights for CAHPS composites or ratings based on principal components analysis using NCBD data. The factor analysis is performed over ratings and composites calculated for health plans. Composite scores from the benchmark data are

$$S_{hi} = (1/n_i) \sum (q_{hj}/k_{hj}),$$

where k_{hj} is the number of people in health plan h responding to question j , q_{hj} is the number in health plan h giving a favorable response to j in composite i . Ratings are

$$S_{hi} = q_{hi}/k_{hi}$$

the proportion responding favorably. These values are adjusted for age and health status.

The weights f_i come from $F(1)=\sum f_i S_{hi}$, where $F(1)$ is the first component identified in principal components analysis. The preventive care composite receives a weight of 1/11.

F. TESTS FOR TREND

In the Consumer Reports (see below), we use linear regression to estimate and test for statistical significance a quarterly rate of change. Our estimate for the rate of change is

$$T = \frac{\sum_{t=1}^4 w_t (S_t - \bar{S})(t - \bar{t})}{\sum_{t=1}^4 w_t (t - \bar{t})^2},$$

where t is the quarter, S_i is the score and w_i is the total weight of quarter i 's observations. In order to test the hypothesis that trend is zero, we use the standard error for the trend coefficient

$$\sigma = \frac{\sqrt{\sum_{t=1}^4 w_t^2 \sigma_t^2}}{\sum_{t=1}^4 w_t}, \text{ and}$$

$$S = \sigma / \sqrt{\sum_{t=1}^4 w_t (t - \bar{t})^2 / \sum_{t=1}^4 w_t}$$

where σ_i is the standard error for quarter i . The hypothesis test is based on a t-test of the hypothesis that $T=0$, where n is the total number of observations for all 4 quarters $p=\text{Prob}(\text{abs}(T/S)>0,n)$.

G. DEPENDENT AND INDEPENDENT VARIABLES

Dependent, or outcome, variables represent the research questions the survey is designed to answer. For example, beneficiary satisfaction and access are dependent variables in this analysis. The research questions are listed in Chapter I. Generally, dependent variables form the rows of the tables and the vertical axis of the charts.

Independent, or explanatory, variables do not directly represent research questions, but they may help to explain the differences in one or more of the outcome variables. They may also be correlated with one or more dependent variables. For example, a beneficiary's satisfaction with health care may be correlated with their age and/or TRICARE Prime enrollment status. Each table is designed to help determine whether a particular dependent variable is correlated with a particular independent variable. Independent variables form the columns of the tables and the horizontal axis of the charts.

In analyzing the relationship between dependent and independent variables, MPR produced charts and tables that are found in the reports described below. Beginning with the HCSDB in a SAS format, MPR programmers developed SAS procedures such as PROC FREQ and PROC MEANS and SAS-callable SUDAAN procedures such as PROC DESCRIPT and PROC CROSSTAB to generate the relevant statistics (e.g., per cents, means, and standard errors). These statistical values were moved directly from SAS programs to Excel tables using a dynamic data exchange to populate the cells of the tables. Graphical displays were generated from table values wherever feasible.

H. REPORTS

This section lists the three types of reports produced and states the main purpose of each report: 2002 TRICARE Consumer Reports, the TRICARE Consumer Watch, and the National Executive Summary Report (NESR). The 2002 TRICARE Consumer Reports and the TRICARE Consumer Watch are presented on a quarterly basis and display results from the most recent quarter. The NESR is produced annually and describes findings from all four quarters of survey data.

1. 2002 TRICARE Consumer Reports

a. Purpose

The purpose of the Consumer Reports is to provide Lead Agents and MTF commanders with a comprehensive description of TRICARE beneficiaries' satisfaction with care, access to care, and use of preventive care, in comparison with other regions and catchment areas, and with relevant national benchmarks. MHS scores are adjusted using demographic characteristics. Both quarterly and annual Consumer Reports are produced. The quarterly reports present results from the most recent quarter for each region and for CONUS MHS by beneficiary status and enrollment group, making it easy for the reader to compare findings across groups and quarters. The annual report is a cumulative report that combines results from four quarters and previous years and presents results by catchment area and region.

b. Consumer Report Production

1. Content

The quarterly Consumer Reports presents 12 scores for all beneficiary groups and all enrollment by region and CONUS MHS overall. Scores are presented in the following areas: getting needed care, getting care quickly, courteous and helpful office staff, how well doctors communicate, customer service, claims processing, rating of the health plan, health care, personal doctor, and specialist, and preventive care standards. The first 6 scores are CAHPS composites, which group together responses to several related survey questions. The CAHPS composite questions are shown in Appendix F.

The four ratings of health care and health care providers are: health plan, health care, PCM, and specialist. Rating is based on a scale of 0 to 10, where 0 is the worst and 10 is the best. The scores are adjusted for patient age and health status and are presented relative to national benchmarks, which are also adjusted for age and health status.

The Preventive Care Composite is based on how beneficiaries compare preventive care services offered through the MHS with the Healthy People 2010 goals. Preventive care indicators include prenatal care, hypertension, mammography and Pap smears.

A total score combines the other 11 scales into a global performance rating.

2. Format

a. Programming Specifications

Data for the Consumer Reports is arranged in a SAS data set, consists of records indexed by region, catchment area, enrollment group, beneficiary category, and table column. A benchmark corresponding to the MHS population is also included in the SAS data set. Records contain scores and categorical variables showing their existence and directions of significant differences. The

benchmark record contains national mean values, where available, for a comparable non-MHS population.

The data file serves as the basis for the electronic reports and quality assurance. The file for the 2002 HCSDDB is updated each quarter and referenced by the report card application. In each quarter, a separate annual and quarterly file is created. The quarterly and annual reports are coded with HTML and a program generates the information in the form of a data set corresponding to the cells in the tables of the reports described below. Appendix H contains the programs to generate the Consumer Reports.

b. Web Specifications

Quarterly Consumer Reports are published in a tabular, interactive, HTML format on TRICARE's website, allowing users to "drill down" in the reports to follow the performance of the MHS over time by enrollment status and beneficiary group. Each report consists of several pages of tables. The first set of tables presents the findings for a single quarter for all enrollment and beneficiary groups by region and CONUS MHS. A second set of tables presents the findings for the current quarter and for the past quarters for each enrollment and beneficiary group, by regions and CONUS MHS. Significant differences between the scores and the benchmark are indicated by color, bolding and italics. Scores significantly above the benchmark are green and bold. Scores significantly below the benchmark are red and italicized.

Like the quarterly report, the annual report is presented in HTML tabular format. One set of tables shows cumulative scores for the 2002 HCSDDB by region for all beneficiary groups and enrollment groups. Another set shows scores for the questions that make up the composite, along with composites or ratings from prior years. The third set of tables shows scores for the catchment areas that make up the MHS regions.

2. TRICARE Consumer Watch

a. Purpose

Like the TRICARE Consumer Reports, the TRICARE Consumer Watch is targeted to Lead Agents and MTF commanders. TRICARE Consumer Watch presents key results from the quarterly HCSDDB in a graphical format. The exhibits present TRICARE beneficiaries' experiences with their health care and health plan and utilization rates for preventive services. Each quarter, the Consumer Watch contains a special report on a specific aspect of health care affecting TRICARE beneficiaries. The TRICARE Consumer Watch is produced on a quarterly basis for all regions and three service affiliations. In the fourth quarter, the TRICARE Consumer Watch is produced for all catchment areas.

b. 2002 TRICARE Consumer Watch Production

1. Content

The Consumer Watch contains graphs presenting three ratings and six composite scores. These graphs are based on data from the Consumer Reports. Beneficiaries are asked to rate their experiences with their health care and health plan, and their personal provider on a scale of 0 to 10 where 0 is the worst and 10 is the best. Composite scores evaluate beneficiaries' experiences with: getting needed care, getting care quickly, courteous and helpful office staff, how well doctors communicate, customer service, and claims processing. Using data from the National CAHPS Benchmarking Database, ratings and composites are compared to experiences of individuals in civilian health plans. Ratings and composites are also compared to results from previous surveys.

Utilization of preventive care services are measured against the goals established by Healthy People 2010 as well as results from the prior years. Preventive care indicators include preventive cancer screenings, such as mammography and Pap smears, hypertension screening, and prenatal care.

Another graph depicts current Prime enrollees' intent to disenroll from TRICARE Prime. This graph compares the percentage of retirees or family members of active duty or retirees who plan to disenroll for each region and CONUS. Each quarter, the special report section highlights a certain health care topic. The first quarter features data on beneficiaries' experiences with the new TRICARE For Life program: what information they want about it, what changes in private or Medicare coverage they are planning, where they plan to get their care, and what problems they have encountered.

2. Format

a. Programming Specifications

Data for the Consumer Watch is arranged in a SAS data set, and consists of records indexed by region, catchment area, enrollment group, and beneficiary category. Scores for the rating and composite graphs utilize the same programs as the TRICARE Consumer Reports. The data file for the Consumer Watch is updated each quarter. The programs to generate the Consumer Watch are in Appendix I.

b. Report Production Specifications

Though the Consumer Watch files reside on TRICARE's website, it is designed to be used primarily in print form. The reports are created in portable document format (PDF). The Consumer Watch is arranged on two pages; the key findings are presented as bar graphs. Preventive care scores are presented in table format.

3. National Executive Summary Report

a. Purpose

The purpose of the National Executive Summary Report is to provide OASD(HA), in general, and TMA, in particular, with a comprehensive national summary of the HCSDB findings. The National Executive Summary Report bar charts reflect survey data from all respondents in the domestic MHS.

b. Procedures for Report Production

1. Content

There are multiple steps required to design tables and charts and then to populate them with data from the HCSDB. These steps are described below.

2. Format

a. Programming Specifications

MPR wrote the programs to populate the charts in SAS, using SAS-callable SUDAAN. There are two different types of programs used to create the charts. One type of program creates the charts that show the average ratings of a variable, and the second type of program is used to create the charts that show percentages. The programs for average ratings use the SAS procedure PROC

DESCRIPT, and the VAR, TABLES, SUBGROUP, SUBPOPN, and OUTPUT statements are changed for each chart. The programs that calculate percentages use the PROC CROSSTAB procedure, and the TABLES, SUBGROUP, SUBPOPN, and OUTPUT statements in that procedure are changed for each chart. There is a separate program for each chart, and for each chapter of the report there is an overall program that runs all of the individual chart programs in that chapter. The chapter program contains macro variables for region, name of the data file, location of program files, and name of the Excel file containing the charts. This facilitates making changes when the programs are run for each region, as all changes are made just once in the overall chapter program.

Each chart program also contains a DDE link to run the SAS output for each chart into the Excel file, onto the worksheet that contains the standard error table associated with the chart. The data is set up to run into cells on the worksheet that are below the table that is already there. The DDE link contains row and column references for where to start running the data into Excel and where to end. The data series for each chart and the standard error tables then reference these cells. A sample cell reference looks like:

- =Table1!\$A\$1

This example takes the value from the first column (A) and first row (1) of the worksheet labeled Table1.

There are separate programs that calculate significance so that arrows can be added to the charts to indicate whether a finding is significantly higher or lower than the CONUS MHS average or to an external benchmark. Output of these programs is a value of 0, 1, or 2 for each bar in the chart;

- 0 denotes no significant difference
- 1 denotes a value significantly higher than CONUS MHS
- 2 denotes a value significantly lower than CONUS MHS

These values are moved into the appropriate Excel worksheet using a DDE link within the significance test program. A macro written in VBA adds the appropriate arrows to the charts by identifying the value for each bar in the chart and drawing the appropriate arrow to the left of the data label above the bar.

Finally, each completed chart is moved from Excel into its corresponding Word template. To ensure uniformity of the size of each chart within the Word template, all charts are formatted in Excel to be the same size when printed. This is done manually, and each step listed below must be done for each chart:

- The first step in moving the charts from Excel to Word is to hold down the Shift key while selecting the Edit menu on the Excel toolbar and then selecting the option to Copy Picture. This brings up a menu with options for copying both the size and appearance of the picture as it is shown on the screen or when printed. For both options, the charts are copied with the option of "as shown when printed".
- The Word template is then brought up on the screen, and the chart is pasted into the Word document by selecting either Ctrl-V or Paste on the Edit menu.

The chart can then be moved to the correct place in the template, and a border is placed around the chart by selecting the Format menu on the Word tool bar and clicking on Picture. When this brings up another menu, select the Colors and Lines tab, change the line color to black, and then click the OK button on the menu to draw a solid border. The programs that generate the National Executive Summary Report are in Appendix K.

b. Report Production Specifications

The first step in creating the charts/tables for the reports is creating a chart/table shell in Excel. Charts in Excel are created using the Chart Wizard:

- First select the type of chart to show. For most charts in the reports, these are clustered column charts.
- Next select the data range, which is the group of cells that contain the data to go into the charts. These data are grouped into series, and the series labels are used in the legend, while group labels are used as x-axis labels.
- Select Chart Options. This is where the axis titles are entered and where formatting of the axes, gridlines, legend, and data labels occur.
- Finally, place the chart on the correct worksheet.

Once all of the charts for the reports are created, they should be formatted with the same fonts and colors and set up to be the same size when printed. The size of the charts is established by using Page Setup from the File menu and changing the margins as follows:

- Top margin is 0.975
- Right margin is 1.0
- Bottom margin is 4.8
- Left margin is 0.9.

In addition, each chart is set to print landscape.

To create tables in Excel, start with a blank worksheet and type the title across the top row. The headings for each column in the table go into the second row, and row labels go into the first column of the worksheet. Once all of the labels are in place, format the table in this manner:

- Align the labels
- Add borders and shading
- Cells that contain the data should be centered and formatted to show one decimal place
- Cells that contain the standard errors should be formatted to appear in parentheses

Once all of the charts and tables are created in Excel, three macros written in Visual Basic for Applications (VBA) within Excel will automate tasks required for each region. One macro requires the user to input the region number or name, then changes all region references in chart labels, table titles, table labels, and any other references within the spreadsheet to the new region number or name. Two other macros copy the worksheets containing tables to new worksheets, in order to make printing of the tables easier and quicker.

The next step in producing the report is to develop a template page in Word for each chart. The top of the page of each template shows the chart title and associated questions. In the middle of each page is a space for the chart. The bottom left side of the page shows the population, sample size, and descriptions of the chart axes, and the bottom right side of the page includes the description of what the chart shows and the findings section.

Finally, each completed chart is moved from Excel into its corresponding Word template. To ensure uniformity of the size of each chart within the Word template, all charts are formatted in Excel to be the same size when printed. This is done manually, and each step listed below must be done for each chart:

- The first step in moving the charts from Excel to Word is to hold down the Shift key while selecting the Edit menu on the Excel toolbar and then selecting the option to Copy Picture. This brings up a menu with options for copying both the size and appearance of the picture as it is shown on the screen or when printed. For both options, the charts are copied with the option of “as shown when printed”.
- The Word template is then brought up on the screen, and the chart is pasted into the Word document by selecting either Ctrl-V or Paste on the Edit menu.

The chart can then be moved to the correct place in the template, and a border is placed around the chart by selecting the Format menu on the Word tool bar and clicking on Picture. When this brings up another menu, select the Colors and Lines tab, change the line color to black, and then click the OK button on the menu to draw a solid border

APPENDIX A

ANNOTATED QUESTIONNAIRE – QUARTERS I-IV

Health Care Survey of DoD Beneficiaries

January 2002

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes **Go to Question 1**
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-9462

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

—————SURVEY STARTS HERE—————

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. **Are you the person whose name appears on the mailing label of this envelope?**

- Yes **Go to Question 2**
 No **Please give this questionnaire to the person addressed on the envelope.**

0B6JQP23
18781297

2. Which of the following health plans are you currently covered by? MARK ALL THAT APPLY.

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. Currently, are you covered by Medicare Part A? Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. Currently, are you covered by Medicare Part B? Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. Currently, are you covered by Medicare supplemental insurance? Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. Which health plan did you use for all or most of your healthcare in the last 12 months? MARK ONLY ONE.

a. Military Health Plan

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus and Medicare
- TRICARE for Life and Medicare

b. Other Health Plan

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure
- Did not use any health plan in the last 12 months **Go to Question 8**

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months 12 up to 24 months 5 up to 10 years
 6 up to 12 months 2 up to 5 years 10 or more years

_____YOUR PERSONAL DOCTOR, OR NURSE_____

The next questions ask you about your own healthcare. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?

- Yes No Go to Question 10

9. With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem A small problem Not a problem I didn't get a new personal doctor or nurse.

10. Do you have one person you think of as your personal doctor or nurse?

- Yes No Go to Question 12

11. We want to know your rating of your personal doctor or nurse.

Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?

- 0 Worst personal doctor or nurse possible
 1
 2
 3
 4
 5
 6
 7
 8
 9
 10 Best personal doctor or nurse possible
 I don't have a personal doctor or nurse.

12. Are you currently enrolled in TRICARE Prime?

- Yes No Go to Question 15

0B6JQP45
18781297

13. As a member of TRICARE Prime, do you have a Primary Care Manager (PCM) based in a military or civilian facility?

(In TRICARE Prime, a PCM is a healthcare provider who is your primary point of contact with the health system. He or she provides routine care, coordinates your total healthcare, arranges for hospital admissions, makes referrals to specialists, maintains health records, and recommends preventive and wellness services.)

- A primary care manager based at a military facility Not sure
 A primary care manager based at a civilian facility Not a member of TRICARE Prime

14. Do you know your PCM's name?

- Yes No

—————GETTING HEALTHCARE FROM A SPECIALIST—————

When you answer the next questions, do not include dental visits.

15. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

- Yes No Go to Question 17

16. In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?

- A big problem Not a problem
 A small problem I didn't need to see a specialist in the last 12 months.

17. In the last 12 months, did you see a specialist?

- Yes No Go to Question 20

18. We want to know your rating of the specialist you saw most often in the last 12 months, including a personal doctor if he or she was a specialist.

Use any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible. How would you rate the specialist?

- 0 Worst specialist possible
 1
 2
 3
 4
 5
 6
 7
 8
 9
 10 Best specialist possible
 I didn't see a specialist in the last 12 months.

19. In the last 12 months, was the specialist you saw most often the same doctor as your personal doctor?

- Yes No I don't have a personal doctor or I didn't see a specialist in the last 12 months.

—————CALLING DOCTORS' OFFICES—————

20. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

- Yes No **Go to Question 22**

21. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed ?

- Never Usually I didn't call for help or advice during regular office hours in the last 12 months.
 Sometimes Always

—————YOUR HEALTHCARE IN THE LAST 12 MONTHS—————

22. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for healthcare.

In the last 12 months, did you make any appointments with a doctor or other health provider for regular or routine healthcare?

- Yes No **Go to Question 25**

23. In the last 12 months, how often did you get an appointment for regular or routine healthcare as soon as you wanted?

- Never Usually I didn't need an appointment for regular or routine care in the last 12 months.
 Sometimes Always

24. In the last 12 months, how many days did you usually have to wait between making an appointment for regular or routine care and actually seeing a provider?

- Same day 4-7 days 31 days or longer
 1 day 8-14 days I tried but could not get an appointment.
 2-3 days 15-30 days I didn't need an appointment for regular or routine care in the last 12 months.

25. In the last 12 months, did you have an illness or injury that needed care right away from a doctor's office, clinic, or emergency room?

- Yes No **Go to Question 28**

26. In the last 12 months, when you needed care right away for an illness or injury, how often did you get care as soon as you wanted?

- Never Usually I didn't need care right away for an illness or injury in last 12 months.
 Sometimes Always

0B6JQP67
18781297

27. In the last 12 months, how long did you usually have to wait between trying to get care and actually seeing a provider for an illness or injury?

- Same day 3 days 15 days or longer
 1 day 4-7 days I didn't need care right away for an illness or injury in the last 12 months.
 2 days 8-14 days

28. In the last 12 months, how many times did you go to an emergency room to get care for yourself?

- None 1 2-3 4-6 More than 6

29. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?

- None **Go to Question 40** 1 2 3 4 5 to 9 10 or more

30. In the last 12 months, how much of a problem, if any, was it to get the care you or a doctor believed necessary?

- A big problem A small problem Not a problem I had no visits in the last 12 months.

31. In the last 12 months, how much of a problem, if any, were delays in healthcare while you waited for approval from your health plan?

- A big problem A small problem Not a problem I had no visits in the last 12 months.

32. In the last 12 months, how often did you wait in the doctor's office or clinic more than 15 minutes past your appointment time to see the person you went to see?

- Never Sometimes Usually Always I had no visits in the last 12 months.

33. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- Never Sometimes Usually Always I had no visits in the last 12 months.

34. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- Never Sometimes Usually Always I had no visits in the last 12 months.

35. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- Never Sometimes Usually Always I had no visits in the last 12 months.

36. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- Never Sometimes Usually Always I had no visits in the last 12 months.

37. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- Never Sometimes Usually Always I had no visits in the last 12 months.

38. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- Never Sometimes Usually Always I had no visits in the last 12 months.

39. We want to know your rating of all your healthcare in the last 12 months from all doctors and other health providers.

Use any number from 0 to 10 where 0 is the worst healthcare possible, and 10 is the best healthcare possible. How would you rate all your healthcare?

—————YOUR HEALTH PLAN—————

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

0B6JQP89
18781297

43. **Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you.**
- In the last 12 months, did you or anyone else send in any claims to your health plan?**
- Yes No **Go to Question 47** Don't know **Go to Question 47**
44. **In the last 12 months, how often did your health plan handle your claims in a reasonable time?**
- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.
45. **In the last 12 months, how often did your health plan handle your claims correctly?**
- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.
46. **In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?**
- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.
47. **In the last 12 months, did you look for any information in written materials from your health plan?**
- Yes No **Go to Question 49**
48. **In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?**
- A big problem Not a problem
 A small problem I didn't look for information from my health plan in the last 12 months.
49. **In the last 12 months, did you call your health plan's customer service to get information or help?**
- Yes No **Go to Question 51**
50. **In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?**
- A big problem Not a problem
 A small problem I didn't call my health plan's customer service in the last 12 months.
51. **In the last 12 months, have you called or written your health plan with a complaint or problem?**
- Yes No **Go to Question 54**
52. **How long did it take for the health plan to resolve your complaint?**
- Same day 4 or more weeks
 1 week I am still waiting for it to be settled.
 2 weeks I haven't called or written with a complaint or problem in the last 12 months.
 3 weeks

53. Was your complaint or problem settled to your satisfaction?

- Yes I am still waiting for it to be settled.
 No I haven't called or written with a complaint or problem in the last 12 months.

54. Paperwork means things like having your records changed, processing forms, or other paperwork related to getting care.

In the last 12 months, did you have any experiences with paperwork for your health plan?

- Yes No Go to Question 56

55. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem Not a problem
 A small problem I didn't have any experiences with paperwork for my health plan in the last 12 months.

56. We want to know your rating of all your experience with your health plan.

Use any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible. How would you rate your health plan now?

57. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely Likely I am not currently enrolled in TRICARE Prime.
 Unlikely Very likely
 Neither likely nor unlikely Not sure

—————PREVENTIVE CARE—————

Preventive care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventive care.

58. Not counting when you were sick or pregnant, when was the last time you had a general medical or physical examination or checkup?

- Less than 12 months ago 5 or more years ago
 1 to 2 years ago Never had a general physical or checkup
 More than 2 but less than 5 years ago

0B6JQP78
18781297

59. **When did you last have a blood pressure reading?**

- Less than 12 months ago 1 to 2 years ago More than 2 years ago

60. **Do you know if your blood pressure is too high?**

- Yes, it is too high No, it is not too high Don't know

61. **When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?**

- Less than 12 months ago More than 2 but less than 5 years ago Never had a cholesterol screening
 1 to 2 years ago 5 or more years ago

62. **When did you last have a flu shot?**

- Less than 12 months ago 1 to 2 years ago More than 2 years ago Never had a flu shot

63. **Have you ever smoked at least 100 cigarettes in your entire life?**

- Yes No **Go to Question 67** Don't know **Go to Question 67**

64. **Do you now smoke every day, some days or not at all?**

- Every day **Go to Question 66** Not at all **Go to Question 65**
 Some days **Go to Question 66** Don't know **Go to Question 67**

65. **How long has it been since you quit smoking cigarettes?**

- Less than 12 months **Go to Question 66** Don't know **Go to Question 67**
 12 months or more **Go to Question 67**

66. **In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?**

- None 1 visit 2 to 4 visits 5 to 9 visits 10 or more visits

67. **Are you male or female?**

- Male **Go to Question 68** Female **Go to Question 69**

68. **When was the last time you had a prostate gland examination or blood test for prostate disease?**

- Within the last 12 months More than 2 but less than 5 years ago Never had a prostate gland examination
 1 to 2 years ago 5 or more years ago

Go to Question 76

69. **When did you last have a Pap smear test?**

- Within the last 12 months More than 3 but less than 5 years ago Never had a Pap smear test
 1 to 3 years ago 5 or more years ago

70. Are you under age 40?

- Yes **Go to Question 73** No

71. When was the last time your breasts were checked by mammography?

- Within the last 12 months More than 2 years but less than 5 years ago Never had a mammogram
 1 to 2 years ago 5 or more years ago

72. When was the last time you had a breast exam by a healthcare professional?

- Within the last 12 months More than 2 years but less than 5 years ago Never had a breast exam
 1 to 2 years ago 5 or more years ago

73. Have you been pregnant in the last 12 months or are you pregnant now?

- Yes, I am currently pregnant **Go to Question 74**
 No, I am not currently pregnant, but have been in the past 12 months **Go to Question 75**
 No, I am not currently pregnant, and have not been pregnant in the past 12 months **Go to Question 76**

74. In what trimester is your pregnancy?

- First trimester Second trimester Third trimester

75. In which trimester did you first receive prenatal care?

- First trimester Second trimester Third trimester Did not receive prenatal care

—————ABOUT YOU—————

These questions are about your health now and your current daily activities. Please try to answer every question as accurately as you can. Please circle one answer for each question.

76. Overall, how would you rate your health during the past 4 weeks?

- Excellent Very Good Good Fair Poor Very Poor

77. During the past 4 weeks, how much did physical health problems limit your usual physical activities (such as walking or climbing stairs)?

- Not at all Very little Somewhat Quite a lot Could not do physical activities

78. During the past 4 weeks, how much difficulty did you have doing your daily work, both at home and away from home, because of your physical health?

- Not at all A little bit Some Quite a lot Could not do daily work

79. How much bodily pain have you had during the past 4 weeks?

- None Very mild Mild Moderate Severe Very severe

0B6JQP56
18781297

80. During the past 4 weeks, how much energy did you have?

- Very much Quite a lot Some A little None

81. During the past 4 weeks, how much did your physical health or emotional problems limit your social activities with family or friends?

- Not at all Very little Somewhat Quite a lot Could not do social activities

82. During the past 4 weeks, how much have you been bothered by emotional problems (such as feeling anxious, depressed or irritable)?

- Not at all Slightly Moderately Quite a lot Extremely

83. During the past 4 weeks, how much did personal or emotional problems keep you from doing your usual work, school or other daily activities?

- Not at all Very little Somewhat Quite a lot Could not do daily activities

84. For this last question, we would like you to shift your focus to look back over the past year. Compared to one year ago, how would you rate your health in general now?

- Much better now than one year ago Somewhat worse now than one year ago
 Somewhat better now than one year ago Much worse now than one year ago
 About the same as one year ago

85. What is the highest grade or level of school that you have completed?

- 8th grade or less Some college or 2-year degree
 Some high school, but did not graduate 4-year college graduate
 High school graduate or GED More than 4-year college degree

86. Are you of Hispanic or Latino origin or descent? (Mark "NO" if not Spanish/Hispanic/Latino.)

- No, not Spanish, Hispanic, or Latino Yes, Cuban
 Yes, Mexican, Mexican American, Chicano Yes, other Spanish, Hispanic, or Latino
 Yes, Puerto Rican

87. What is your race? (Mark ONE OR MORE races to indicate what you consider yourself to be.)

- White
 Black or African American
 American Indian or Alaska Native
 Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
 Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian, or Chamorro)

88. What is your age now?

- 18 to 24 Go to the End of the Questionnaire 55 to 64 Go to the End of the Questionnaire
 25 to 34 Go to the End of the Questionnaire 65 to 74 Go to Question 89
 35 to 44 Go to the End of the Questionnaire 75 or older Go to Question 89
 45 to 54 Go to the End of the Questionnaire

TRICARE FOR LIFE

As of October 1, 2001, military retirees age 65 or over who enroll in Medicare Part B are eligible for a new benefit called TRICARE for Life. Under TRICARE for Life, TRICARE acts as supplemental insurance to Medicare. The following questions ask about how these new benefits have affected you.

89. Before receiving this survey, were you aware of TRICARE for life?

- Yes No **Go to Question 103**

90. How much of a problem, if any, is it to understand your health benefits under TRICARE for Life?

- A big problem A small problem Not a problem I am not covered by TRICARE for Life

91. What additional information about TRICARE for Life would you like to have? MARK ALL THAT APPLY

- | | |
|---|---|
| <input type="radio"/> What is covered | <input type="radio"/> Where to get help or information |
| <input type="radio"/> Who is eligible | <input type="radio"/> How to make sure you are eligible |
| <input type="radio"/> How your doctor gets paid | <input type="radio"/> Which doctors you can see |
| <input type="radio"/> How TRICARE for Life affects VA benefits | <input type="radio"/> I do not need additional information about TRICARE for Life |
| <input type="radio"/> Whether private insurance should be dropped | |

92. How helpful were the following sources of information about your benefits under TRICARE for Life? MARK ALL THAT APPLY.

	Very helpful	Somewhat helpful	Not helpful	Did not consult
a. A local TRICARE benefits counselor or advisor (for example, a Beneficiary Counseling and Assistance Coordinator or BCAC)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. A TRICARE toll-free phone number (for example, 1-888-DOD-LIFE or 1-877-DOD-MEDS)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Medicare or Social Security	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Your primary doctor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

f. Direct mailings from TRICARE	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. A military publication	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. A civilian retiree publication	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Other	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

93. On which of the sources listed in Question 92 did you rely most for information about TRICARE for Life? MARK ONLY ONE.

- A local TRICARE benefits counselor or advisor (for example, BCAC)
- A TRICARE toll-free phone number (for example, 1-888-DOD-LIFE or 1-877-DOD-MEDS)
- Medicare or Social Security
- Your primary doctor
- The TRICARE website
- Direct mailings from TRICARE
- A military publication
- A civilian retiree publication
- Other

	*0B6JQP34* 18781297	
---	------------------------	---

94. **As a result of the new benefits under TRICARE for Life, did you enroll in Medicare Part B?**

- Yes
- No, I was already enrolled in Medicare Part B
- No, I have not enrolled in Medicare Part B but I plan to enroll
- No, I have not enrolled in Medicare Part B and do not intend to **Go to Question 103**
- I am not eligible for TRICARE for Life **Go to Question 103**

95. **As a result of your new benefits under TRICARE for Life, did you drop a Medigap (private Medicare supplement) insurance policy or other private health insurance policy?**

- Yes
- No, I was not covered by Medigap or other private insurance
- No, I did not drop my Medigap or other private insurance but I plan to do so
- No, I did not drop my Medigap or other private insurance and do not intend to
- I am not eligible for TRICARE for Life **Go to Question 103**

96. **As a result of your new benefits under TRICARE for Life, did you disenroll from a civilian HMO?**

- Yes
- No
- I am not eligible for TRICARE for Life **Go to Question 103**

97. **Under TRICARE for Life, where do you plan to get most of your health care?**

- From military facilities
- From VA facilities
- From civilian facilities
- I am not eligible for TRICARE for Life **Go to Question 103**

98. **Since October 1, 2001, have you received medical care from civilian sources (other than prescription drugs)?**

- Yes
- No **Go to Question 103**

99. **Did any health care provider ask for payment from you at the time of service for medical care you received since October 1, 2001?**

- Yes
- No
- I have not received medical care since October 1 **Go to Question 103**

100. **A bill is a request for payment for services received. Did you get a bill or bills for medical care you received since October 1, 2001 that you thought should have been covered by both Medicare and TRICARE?**

- Yes
- No **Go to Question 103**
- I have not received medical care since October 1 **Go to Question 103**

101. **How have you responded to the bill or bills? MARK ALL THAT APPLY.**

- I paid or intend to pay the bill or bills
- I am ignoring the bill or bills
- I have contacted or intend to contact the provider
- I have contacted or intend to contact TRICARE
- I have contacted or intend to contact Medicare

102. **Has the billing matter been resolved to your satisfaction?**

- Yes
- No
- I have not received a bill or bills since October 1 **Go to Question 103**

Health Care Survey of DoD Beneficiaries

April 2002

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes **Go to Question 1**
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-9462

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

—————**SURVEY STARTS HERE**—————

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. Are you the person whose name appears on the mailing label of this envelope?

- Yes **Go to Question 2**
 No **Please give this questionnaire to the person addressed on the envelope.**

0C4XTK2E
20385848

2. **By which of the following health plans are you currently covered? MARK ALL THAT APPLY.**

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. **Currently, are you covered by Medicare Part A?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. **Currently, are you covered by Medicare Part B?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. **Currently, are you covered by Medicare supplemental insurance?** Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. **Which health plan did you use for all or most of your healthcare in the last 12 months? MARK ONLY ONE.**

a. Military Health Plan

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus and Medicare
- TRICARE for Life and Medicare

b. Other Health Plan

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure
- Did not use any health plan in the last 12 months **Go to Question 8**

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months 12 up to 24 months 5 up to 10 years
 6 up to 12 months 2 up to 5 years 10 or more years

8. In the last 12 months, where did you go most often for your healthcare? MARK ONLY ONE ANSWER.

- A military facility - This includes: Military clinic, Military hospital, PRIMUS clinic, NAVCARE clinic
 A civilian facility - This includes: Doctor's office, Clinic, Hospital, Civilian TRICARE contractor
 Uniformed Services Family Health Plan facility (USFHP)
 Veterans Affairs (VA) clinic or hospital
 I went to none of the listed types of facilities in the last 12 months.

_____YOUR PERSONAL DOCTOR, OR NURSE_____

The next questions ask you about your own healthcare. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

9. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?

- Yes No Go to Question 11

10. With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem A small problem Not a problem I didn't get a new personal doctor or nurse.

11. Do you have one person you think of as your personal doctor or nurse?

- Yes No Go to Question 17

12. Is this person a general doctor, a specialist doctor, a physician assistant, or a nurse?

- General doctor (Family practice or internal medicine) Nurse
 Specialist doctor I don't have a personal doctor or nurse
 Physician assistant

13. How many months or years have you been going to your personal doctor or nurse?

- Less than 6 months 12 up to 24 months 5 years or more
 6 up to 12 months 2 up to 5 years I don't have a personal doctor or nurse

0C4XTK4G
20385848

14. Do you have a physical or medical condition that seriously interferes with your ability to work, attend school, or manage your day-to-day activities?

- Yes No Go to Question 16

15. Does your personal doctor or nurse understand how any health problems you have affect your day-to-day life?

- Yes No I don't have any health problems or I don't have a personal doctor or nurse

16. We want to know your rating of your personal doctor or nurse.

Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?

- 0 Worst personal doctor or nurse possible
 1
 2
 3
 4
 5
 6
 7
 8
 9
 10 Best personal doctor or nurse possible
 I don't have a personal doctor or nurse.

17. Are you currently enrolled in TRICARE Prime?

- Yes No Go to Question 20

18. As a member of TRICARE Prime, do you have a Primary Care Manager (PCM) based in a military or civilian facility?

(In TRICARE Prime, a PCM is a healthcare provider who is your primary point of contact with the health system. He or she provides routine care, coordinates your total healthcare, arranges for hospital admissions, makes referrals to specialists, maintains health records, and recommends preventive and wellness services.)

- A primary care manager based at a military facility Not sure
 A primary care manager based at a civilian facility Not a member of TRICARE Prime

19. Do you know your PCM's name?

- Yes No

—————GETTING HEALTHCARE FROM A SPECIALIST—————

When you answer the next questions, do not include dental visits.

20. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

- Yes No Go to Question 22

21. In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?

- A big problem Not a problem
 A small problem I didn't need to see a specialist in the last 12 months.

22. In the last 12 months, did you see a specialist?

- Yes No Go to Question 26

23. In the past 12 months, how many times did you go to specialists for care for yourself?

- None Go to Question 26

49. In the last 12 months, did you have a health problem for which you needed special medical equipment, such as a cane, a wheelchair, or oxygen equipment?

- Yes No Go to Question 51

50. In the last 12 months, how much of a problem, if any, was it to get the special medical equipment you needed through your health plan?

- A big problem Not a problem
 A small problem I didn't need to get any special medical equipment in the last 12 months

51. In the last 12 months, did you have any health problems that needed special therapy, such a physical, occupational, or speech therapy?

- Yes No Go to Question 53

52. In the last 12 months, how much of problem, if any, was it to get the special therapy you needed through your health plan?

- A big problem Not a problem
 A small problem I didn't need special therapy in the last 12 months

53. Home health care or assistance means home nursing, help with bathing or dressing, and help with basic household tasks.

In the last 12 months, did you need someone to come into your home to give you home health care or assistance?

- Yes No Go to Question 55

54. In the last 12 months, how much of a problem, if any, was it to get the care or assistance you needed through your health plan?

- A big problem Not a problem
 A small problem I didn't need home health care or assistance in the last 12

—————YOUR HEALTH PLAN—————

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

55. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you.

In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes No Go to Question 59 Don't know Go to Question 59

56. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

57. In the last 12 months, how often did your health plan handle your claims correctly?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

58. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

59. In the last 12 months, did you look for any information in written materials from your health plan?

- Yes No Go to Question 61

60. In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?

- A big problem Not a problem
 A small problem I didn't look for information from my health plan in the last 12 months.

61. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes No Go to Question 63

0C4XTK7J
20385848

62. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem Not a problem
 A small problem I didn't call my health plan's customer service in the last 12 months.

63. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes No Go to Question 66

64. How long did it take for the health plan to resolve your complaint?

- Same day 4 or more weeks
 1 week I am still waiting for it to be settled.
 2 weeks I haven't called or written with a complaint or problem in the last 12 months.
 3 weeks

65. Was your complaint or problem settled to your satisfaction?

- Yes I am still waiting for it to be settled.
 No I haven't called or written with a complaint or problem in the last 12 months.

66. Paperwork means things like having your records changed, processing forms, or other paperwork related to getting care.

In the last 12 months, did you have any experiences with paperwork for your health plan?

- Yes No Go to Question 68

67. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem Not a problem
 A small problem I didn't have any experiences with paperwork for my health plan in the last 12 months.

68. We want to know your rating of all your experience with your health plan.

- Yes No

103. In the last 12 months, how much of a problem, if any, was it to get eyeglass frames that you considered appealing, from a military treatment facility?

- A big problem A small problem Not a problem

104. In the last 12 months, how much of a problem, if any, was it to get eyewear or eyeglasses that had the correct prescription?

- A big problem A small problem Not a problem

Health Care Survey of DoD Beneficiaries

July 2002

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes **Go to Question 1**
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-9462

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

—————SURVEY STARTS HERE—————

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. Are you the person whose name appears on the mailing label of this envelope?

- Yes **Go to Question 2**
 No **Please give this questionnaire to the person addressed on the envelope.**

0DAKNX2F
22328349

2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. **Currently, are you covered by Medicare Part A?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. **Currently, are you covered by Medicare Part B?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. **Currently, are you covered by Medicare supplemental insurance?** Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. **Which health plan did you use for all or most of your healthcare in the last 12 months? MARK ONLY ONE.**

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not sure
- Did not use any health plan in the last 12 months **Go to Question 8**

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months 12 up to 24 months 5 up to 10 years
 6 up to 12 months 2 up to 5 years 10 or more years

—————YOUR PERSONAL DOCTOR, OR NURSE—————

The next questions ask about your own healthcare. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. **A personal doctor or nurse** is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?

- Yes No Go to Question 10

9. With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem A small problem Not a problem I didn't get a new personal doctor or nurse.

10. Do you have one person you think of as your personal doctor or nurse?

- Yes No Go to Question 12

11. We want to know your rating of your personal doctor or nurse.

Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?

—————YOUR HEALTH PLAN—————

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

52. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you.

In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes No **Go to Question 56** Don't know **Go to Question 56**

53. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

54. In the last 12 months, how often did your health plan handle your claims correctly?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

55. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

0DAKNX7K
22328349

56. In the last 12 months, did you look for any information in written materials from your health plan?

- Yes No Go to Question 58

57. In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?

- A big problem Not a problem
 A small problem I didn't look for information from my health plan in the last 12 months.

58. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes No Go to Question 60

59. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem Not a problem
 A small problem I didn't call my health plan's customer service in the last 12 months.

60. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes No Go to Question 63

61. How long did it take for the health plan to resolve your complaint?

- Same day 4 or more weeks
 1 week I am still waiting for it to be settled.
 2 weeks I haven't called or written with a complaint or problem in the last 12 months.
 3 weeks

62. Was your complaint or problem settled to your satisfaction?

- Yes I am still waiting for it to be settled.
 No I haven't called or written with a complaint or problem in the last 12 months.

63. Paperwork means things like having your records changed, processing forms, or other paperwork related to getting care.

In the last 12 months, did you have any experiences with paperwork for your health plan?

- Yes No Go to Question 65

64. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem Not a problem
 A small problem I didn't have any experiences with paperwork for my health plan in the last 12 months.

65. We want to know your rating of all your experience with your health plan.

Use any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible. How would you rate your health plan now?

66. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely
- Unlikely
- Neither likely nor unlikely
- Likely
- Very likely
- Not sure
- I am not currently enrolled in TRICARE Prime.

-----PREVENTATIVE CARE-----

Preventative care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventative care.

67. Not counting when you were sick or pregnant, when was the last time you had a general medical or physical examination or checkup?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a general physical or checkup

68. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

69. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it is not too high
- Don't know

70. When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a cholesterol screening

0DAKNX5I
22328349

71. When did you last have a flu shot?

- Less than 12 months ago 1 to 2 years ago More than 2 years ago Never had a flu shot

72. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes No **Go to Question 76** Don't know **Go to Question 76**

73. Do you now smoke every day, some days or not at all?

- Every day **Go to Question 75** Not at all **Go to Question 74**
 Some days **Go to Question 75** Don't know **Go to Question 76**

74. How long has it been since you quit smoking cigarettes?

- Less than 12 months **Go to Question 75** Don't know **Go to Question 76**
 12 months or more **Go to Question 76**

75. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None 1 visit 2 to 4 visits 5 to 9 visits 10 or more visits

76. Are you male or female?

- Male **Go to Question 77** Female **Go to Question 78**

77. When was the last time you had a prostate gland examination or blood test for prostate disease?

- Within the last 12 months More than 2 but less than 5 years ago Never had a prostate gland examination
 1 to 2 years ago 5 or more years ago

Go to Question 85

78. When did you last have a Pap smear test?

- Within the last 12 months More than 3 but less than 5 years ago Never had a Pap smear test
 1 to 3 years ago 5 or more years ago

79. Are you under age 40?

- Yes **Go to Question 82** No

80. When was the last time your breasts were checked by mammography?

- Within the last 12 months More than 2 years but less than 5 years ago Never had a mammogram
 1 to 2 years ago 5 or more years ago

81. When was the last time you had a breast exam by a healthcare professional?

- Within the last 12 months More than 2 years but less than 5 years ago Never had a breast exam
 1 to 2 years ago 5 or more years ago

82. Have you been pregnant in the last 12 months or are you pregnant now?

- Yes, I am currently pregnant **Go to Question 83**
 No, I am not currently pregnant, but have been in the past 12 months **Go to Question 84**
 No, I am not currently pregnant, and have not been pregnant in the past 12 months **Go to Question 85**

83. In what trimester is your pregnancy?

- First trimester Second trimester Third trimester

84. In which trimester did you first receive prenatal care?

- First trimester Second trimester Third trimester Did not receive prenatal care

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes **Go to Question 1**
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-9462

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

-----SURVEY STARTS HERE-----

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

1. Are you the person whose name appears on the mailing label of this envelope?

- Yes **Go to Question 2**
 No **Please give this questionnaire to the person addressed on the envelope.**

002AMD26

0107077

2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. **Currently, are you covered by Medicare Part A?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. **Currently, are you covered by Medicare Part B?** Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

5. **Currently, are you covered by Medicare supplemental insurance?** Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
- No, I am not covered by Medicare supplemental insurance

6. **Which health plan did you use for all or most of your healthcare in the last 12 months? MARK ONLY ONE.**

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not sure
- Did not use any health plan in the last 12 months **Go to Question 8**

002AMD37

0107077

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. How many months or years in a row have you been in this health plan?

- Less than 6 months 12 up to 24 months 5 up to 10 years
 6 up to 12 months 2 up to 5 years 10 or more years

-----YOUR PERSONAL DOCTOR, OR NURSE-----

The next questions ask about your own healthcare. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.

When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?

- Yes No **Go to Question 10**

9. With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem Not a problem
 A small problem I didn't get a new personal doctor or nurse.

10. Do you have one person you think of as your personal doctor or nurse?

- Yes No **Go to Question 12**

11. We want to know your rating of your personal doctor or nurse.

Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?

- 0 Worst personal doctor or nurse possible

 9
 10 Best personal doctor or nurse possible
 I don't have a personal doctor or nurse.

12. Are you currently enrolled in TRICARE Prime?

- Yes No **Go to Question 15**

002AMD48

0107077

13. As a member of TRICARE Prime, do you have a Primary Care Manager (PCM) based in a military or civilian facility?

(In TRICARE Prime, a PCM is a healthcare provider who is your primary point of contact with the health system. He or she provides routine care, coordinates your total healthcare, arranges for hospital admissions, makes referrals to specialists, maintains health records, and recommends preventive and wellness services.)

- A primary care manager based at a military facility Not sure
 A primary care manager based at a civilian facility Not a member of TRICARE Prime

14. Do you know your PCM's name?

- Yes No

-----GETTING HEALTHCARE FROM A SPECIALIST-----

When you answer the next questions, do not include dental visits.

15. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

- Yes No **Go to Question 17**

16. In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?

- A big problem Not a problem
 A small problem I didn't need to see a specialist in the last 12 months.

17. In the last 12 months, did you see a specialist?

- Yes No **Go to Question 20**

18. We want to know your rating of the specialist you saw most often in the last 12 months, including a personal doctor if he or she was a specialist.

Use any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible. How would you rate the specialist?

- 0 Worst specialist possible

 9
 10 Best specialist possible
 I didn't see a specialist in the last 12 months.

002AMD59

0107077

19. In the last 12 months, was the specialist you saw most often the same doctor as your personal doctor?

- Yes No I don't have a personal doctor or I didn't see a specialist in the last 12 months.

-----CALLING DOCTORS' OFFICES-----

20. In the last 12 months, did you call a doctor's office or clinic during regular office hours to get help or advice for yourself?

- Yes No **Go to Question 22**

21. In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?

- Never Always
 Sometimes I didn't call for help or advice during regular office hours in the last 12 months.
 Usually

-----YOUR HEALTHCARE IN THE LAST 12 MONTHS-----

22. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for healthcare.

In the last 12 months, did you make any appointments with a doctor or other health provider for regular or routine healthcare?

- Yes No **Go to Question 25**

23. In the last 12 months, how often did you get an appointment for regular or routine healthcare as soon as you wanted?

- Never Always
 Sometimes I didn't need an appointment for regular or routine care in the last 12 months.
 Usually

24. In the last 12 months, how many days did you usually have to wait between making an appointment for regular or routine care and actually seeing a provider?

- Same day 15-30 days
 1 day 31 days or longer
 2-3 days I tried but could not get an appointment.
 4-7 days I didn't need an appointment for regular or routine care in the last 12 months.
 8-14 days

25. In the last 12 months, did you have an illness or injury that needed care right away from a doctor's office, clinic, or emergency room?

- Yes No **Go to Question 28**

002AMD6A

0107077

26. In the last 12 months, when you needed care right away for an illness or injury, how often did you get care as soon as you wanted?

-----YOUR HEALTH PLAN-----

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

43. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you.

In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes No **Go to Question 47** Don't know **Go to Question 47**

44. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

45. In the last 12 months, how often did your health plan handle your claims correctly?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

46. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

47. In the last 12 months, did you look for any information in written materials from your health plan?

- Yes No **Go to Question 49**

48. In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?

- A big problem Not a problem
 A small problem I didn't look for information from my health plan in the last 12 months.

002AMD9D

0107077

49. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes No **Go to Question 51**

50. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem Not a problem
 A small problem I didn't call my health plan's customer service in the last 12 months.

51. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes No **Go to Question 54**

52. How long did it take for the health plan to resolve your complaint?

- Same day 4 or more weeks
 1 week I am still waiting for it to be settled.
 2 weeks I haven't called or written with a complaint or problem in the last 12 months.
 3 weeks

53. Was your complaint or problem settled to your satisfaction?

- Yes I am still waiting for it to be settled.
 No I haven't called or written with a complaint or problem in the last 12 months.

54. Paperwork means things like having your records changed, processing forms, or other paperwork related to getting care.

In the last 12 months, did you have any experiences with paperwork for your health plan?

- Yes No **Go to Question 56**

55. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem
 A small problem
 Not a problem
 I didn't have any experiences with paperwork for my health plan in the last 12 months.

002AMDAE

0107077

56. We want to know your rating of all your experience with your health plan.

Use any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible. How would you rate your health plan now?

- 0 Worst health plan possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best health plan possible

57. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely
- Unlikely
- Neither likely nor unlikely
- Likely
- Very likely
- Not sure
- I am not currently enrolled in TRICARE Prime.

-----PREVENTATIVE CARE-----

Preventative care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventative care.

58. Not counting when you were sick or pregnant, when was the last time you had a general medical or physical examination or checkup?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a general physical or checkup

59. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

60. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it is not too high
- Don't know

61. When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a cholesterol screening

002AMDBF

0107077

62. When did you last have a flu shot?

- Less than 12 months ago More than 2 years ago
 1 to 2 years ago Never had a flu shot

63. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes No **Go to Question 67** Don't know **Go to Question 67**

64. Do you now smoke every day, some days or not at all?

- Every day **Go to Question 66** Not at all **Go to Question 65**
 Some days **Go to Question 66** Don't know **Go to Question 67**

65. How long has it been since you quit smoking cigarettes?

- Less than 12 months **Go to Question 66** Don't know **Go to Question 67**
 12 months or more **Go to Question 67**

66. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None 1 visit 2 to 4 visits 5 to 9 visits 10 or more visits

67. Are you male or female?

- Male **Go to Question 68** Female **Go to Question 69**

68. When was the last time you had a prostate gland examination or blood test for prostate disease?

- Within the last 12 months 5 or more years ago
 1 to 2 years ago Never had a prostate gland examination
 More than 2 but less than 5 years ago

Go to Question 76

69. When did you last have a Pap smear test?

- Within the last 12 months 5 or more years ago
 1 to 3 years ago Never had a Pap smear test
 More than 3 but less than 5 years ago

70. Are you under age 40?

- Yes **Go to Question 73** No

71. When was the last time your breasts were checked by mammography?

- Within the last 12 months 5 or more years ago
 1 to 2 years ago Never had a mammogram
 More than 2 years but less than 5 years ago

002AMDCG

0107077

72. When was the last time you had a breast exam by a healthcare professional?

- Within the last 12 months
- 1 to 2 years ago
- More than 2 years but less than 5 years ago
- 5 or more years ago
- Never had a breast exam

73. Have you been pregnant in the last 12 months or are you pregnant now?

- Yes, I am currently pregnant **Go to Question 74**
- No, I am not currently pregnant, but have been in the past 12 months **Go to Question 75**
- No, I am not currently pregnant, and have not been pregnant in the past 12 months **Go to Question 76**

74. In what trimester is your pregnancy?

- First trimester
- Second trimester
- Third trimester

75. In which trimester did you first receive prenatal care?

- First trimester
- Second trimester
- Third trimester
- Did not receive prenatal care

-----ABOUT YOU-----

76. In general, how would you rate your overall health now?

- Excellent
- Very Good
- Good
- Fair
- Poor

77. What is the highest grade or level of school that you have completed?

- 8th grade or less
- Some high school, but did not graduate
- High school graduate or GED
- Some college or 2-year degree
- 4-year college graduate
- More than 4-year college degree

78. Are you of Hispanic or Latino origin or descent? (Mark "NO" if not Spanish/Hispanic/Latino.)

- No, not Spanish, Hispanic, or Latino
- Yes, Mexican, Mexican American, Chicano
- Yes, Puerto Rican
- Yes, Cuban
- Yes, other Spanish, Hispanic, or Latino

79. What is your race? (Mark ONE OR MORE races to indicate what you consider yourself to be.)

- White
- Black or African American
- American Indian or Alaska Native
- Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, Vietnamese)
- Native Hawaiian or other Pacific Islander (e.g., Somoan, Guamanian, or Chamorro)

002AMDDH

0107077

80. What is your age now?

- 18 to 24 **Go to the end of the questionnaire**
- 25 to 34 **Go to the end of the questionnaire**
- 35 to 44 **Go to the end of the questionnaire**
- 45 to 54 **Go to the end of the questionnaire**
- 55 to 64 **Go to the end of the questionnaire**
- 65 to 74
- 75 or older

Congress has authorized new benefits for Medicare-eligible military retirees, known as TRICARE for Life, effective October 1, 2001. TRICARE for Life supplements Medicare coverage for military retirees who are enrolled in Medicare Part B. If medical services are covered by Medicare, TRICARE for Life pays deductibles and coinsurance. For services that are not covered by Medicare, TRICARE for Life offers the same coverage that TRICARE provides for its other beneficiaries.

The following questions ask about how well you understand your health benefits and how your use of health care has changed since TRICARE for Life became available.

81. How much do you feel you know about what medical services TRICARE for Life covers or does not cover?

- Just about everything I need to know
- Most of what I need to know
- Some of what I need to know
- Little of what I need to know
- Almost nothing of what I need to know

82. How much do you feel you know about how much you have to pay for medical services?

- Just about everything I need to know
- Most of what I need to know
- Some of what I need to know
- Little of what I need to know
- Almost nothing of what I need to know

83. How much do you feel you know about supplemental coverage (also known as Medigap coverage) such as what it covers or how it works with TRICARE for Life to pay medical claims?

- Just about everything I need to know
- Most of what I need to know
- Some of what I need to know
- Little of what I need to know
- Almost nothing of what I need to know

84. How much do you feel you know about getting medical services at a MTF?

- Just about everything I need to know
- Most of what I need to know
- Some of what I need to know
- Little of what I need to know
- Almost nothing of what I need to know

85. How much do you feel you know about choosing or finding a doctor or other health care provider?

- Just about everything I need to know
- Most of what I need to know
- Some of what I need to know
- Little of what I need to know
- Almost nothing of what I need to know

002AMDEI

0107077

86. In the past 12 months, how much of your healthcare, other than prescription drugs, did you get from MTFs?

- None of my healthcare
- Some, but not most of my healthcare
- Most, but not all of my healthcare
- All of my healthcare
- I did not receive any healthcare in the past 12 months

87. In the past 12 months, how many times did you visit a doctor's office, clinic or emergency room at a MTF?

- None
- 1
- 2
- 3
- 4
- 5 to 9
- 10 or more

88. In the past 12 months, how many nights did you stay overnight as a patient at a MTF?

- None
- 1
- 2 to 4
- 5 to 7
- 8 to 9
- 10 or more

89. In the past 12 months, did you use a MTF for any of the following? MARK ALL THAT APPLY.

- Emergency care from an emergency room
- Urgent care from someplace other than an emergency room
- Preventive care, such as a prostate exam or a breast exam
- Routine care, such as a physical check-up
- Hospital care in which you stayed overnight at a MTF
- Labs and x-rays
- Surgery or diagnostic procedures that did not require an overnight stay
- Care from a specialist

90. In the past 12 months, where did you get most of your prescriptions filled?

- At military pharmacies
- At civilian pharmacies in the TRICARE network
- At civilian pharmacies outside the TRICARE network
- At the National Mail Order Pharmacy (NMOP)
- I have not filled any prescriptions in the past 12 months

91. In the 12 months before TRICARE for Life became available (October 2000 through September 2001), how much of your healthcare, other than prescription drugs, did you get from MTFs?

- None of my healthcare
- Some, but not most of my healthcare
- Most, but not all of my healthcare
- All of my healthcare
- I did not receive any healthcare in the 12 months prior to October 1, 2001

92. Since October 1, 2001 how much of a problem was it to get as much healthcare as you wanted from MTFs?

- A big problem
- A small problem
- Not a problem

RADIOLOGY JONATHON WILKENSONS I
1245 Q ST STE 400
LINCOLN, NE 68508-1430

Dear Radiology Jonathon Wilkensons I:

We need your help! The Department of Defense is very interested in what you think about your healthcare. In a few weeks, you will get the **2002 Health Care Survey of DoD Beneficiaries Questionnaire** that asks about your healthcare. By answering the survey questions, you will provide important information to help us improve the healthcare services for our entire military community. Your feedback will make a difference.

You are among only a few military beneficiaries who are being sent this survey. I hope you will take the time to fill it out and send it back in the enclosed envelope. Your responses are important to us even if you do not receive your healthcare through the military healthcare system. Of course, what you have to say is private.

If your address above is incorrect, please telephone the Survey Operations Center at 1-800-866-1821 (within the U.S.) or call collect at 1-402-475-5003 (outside the U.S.) between the hours of 9:00 AM and 7:00 PM EST to give your correct address. You also can send this letter via facsimile with your correct address to 1-800-733-5751. All calls to these numbers are toll free.

Thank you in advance for your help!

Sincerely,

Thomas F. Carrato
Executive Director

Dear Radiology Jonathon Wilkensons I:

We need your help! I am very interested in your opinions about your healthcare. Enclosed is the **2002 Health Care Survey of DoD Beneficiaries Questionnaire**. This is your opportunity to tell the Department of Defense how well your health needs are being met. Your answers will provide important information to help us improve the healthcare services for our entire military community. Your feedback will make a difference.

You are among only a few military beneficiaries who are being sent this survey. To get accurate results, we need to get survey responses from you and others who were selected to complete this this voluntary survey. Your responses are important to us even if you do not receive your healthcare through the military healthcare system. Of course, what you have to say is private.

We hope you will take this chance to tell us about your healthcare. Please return the completed survey in the enclosed postage-paid envelope within the next 7 days. If your address above is incorrect, please telephone the Survey Operations Center at 1-800-866-1821 (within the U.S.) or call collect at 1-402-475-5003 (outside the U.S.) between the hours of 9:00 AM and 7:00 PM EST to give your correct address. Dear Radiology Jonathon Wilkensons I:

We need your help! The Department of Defense recently sent you the *2002 Health Care Survey of DoD Beneficiaries Questionnaire*. Your answers will provide important information to help us improve the healthcare services for our entire military community. If you have sent back a completed survey, thank you! Your answers will help us serve you better.

Please fill out the enclosed survey that asks about your healthcare in the last 12 months. To get accurate results, we need to get answers from you and others who were asked to take part in this voluntary survey. Your responses are important to us even if you do not receive your healthcare from the military healthcare system. Your responses will remain private.

If the address above is incorrect, please telephone the Survey Operations Center at 1-800-866-1821 (within the U.S.) or call collect at 1-402-475-5003 (outside the U.S.) between the hours of 9:00 AM and 7:00 PM EST to have it corrected. You also can send this letter via facsimile with your correct address to 1-800-733-5751. All calls to these numbers are toll free.

We hope you will take this chance to give us your feedback. Thank you in advance for your help to improve healthcare for everyone.

Sincerely,

Thomas F. Carrato
Executive Director

APPENDIX C

CODING SCHEME AND CODING TABLES – QUARTERS I-IV

CODING SCHEME AND CODING TABLES – QUARTER I

2002 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS		ASCII/EBCDIC	
Numeric		Numeric	Description
.		-9	No response
.A		-8	Multiple response error
.O		-7	Out of range error
.N		-6	Not Applicable or valid skip
.D		-5	Scalable response of “Don’t know” or “not sure”
.I		-4	Incomplete grid error
.C		-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H02006, H02007**

N1	H02006 is:	H02007 is:	H02006 is coded as:	H02007 is coded as:	*
1	1-10, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H02008, H02009**

N2	H02008 is:	H02009 is:	H02008 is coded as:	H02009 is coded as:	*
1	1: yes	1-3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't get a new doctor	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1- 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't get a new doctor	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 3:
H02010, H02011**

N3	H02010 is:	H02011 is:	H02010 is coded as:	H02011 is coded as:	*
1	1: yes	0-10, missing, or multiple response	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	-6, I don't have a personal doctor or nurse	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	0-10 or multiple response	1: yes	Stands as original value	B
4	2: no	-6, I don't have a personal doctor or nurse, or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B
7	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 4:
H02012, H02013, H02014**

N4	H02012 is:	H02013 & H02014 are:	H02012 is coded as:	H02013 & H02014 are coded as:	*
1	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 4:
Responses to H02013 and H02014 are both missing.

Definition of "blank or NA" in Coding Table for Note 4:
Response to H02013 is not applicable (-6), and H02014 is missing.

Definition of "marked" in Coding Table for Note 4:
Any pattern of marks outside the definitions "all are blank" and "blank or NA"

**Coding Table for Note 5:
H02015, H02016**

N5	H02015 is:	H02016 is:	H02015 is coded as:	H02016 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:
H02017, H02018, H02019**

N6	H02017 is:	H02018 & H02019 Are:	H02017 is coded as:	H02018 & H02019 Are coded as:	*
1	1: yes	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2:no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"All are blank" or "blank or NA"	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 6:
H02018 and H02019 are both missing.

Definition of "blank or NA" in Coding Table for Note 6:
H02018 and H02019 are either both not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 6:
Any pattern of marks outside the definitions "all are blank" and "blank or NA."

**Coding Table for Note 7:
H02020, H02021**

N7	H02020 is:	H02021 is:	H02020 is coded as:	H02021 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often	1: yes	Stands as original value	B
4	2: no	-6: no calls, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 8:
H02022, H02023, H02024**

N8	H02022 is:	H02023 & H02024 are:	H02022 is coded as:	H02023 & H02024 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:
Responses to H02023 and H02024 are both missing.

Definition of “blank or NA” in Coding Table for Note 8:
Responses to H02023 and H02024 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 8:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 9:
H02025, H02026, H02027**

N9	H02025 is:	H02026 & H02027 are:	H02025 is coded as:	H02026 & H02027 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:

Responses to H02026 and H02027 are both missing.

Definition of “blank or NA” in Coding Table for Note 9:

Responses to H02026 and H02027 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 9:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 10:
H02029, H02030-H02039**

N10	H02029 is:	H02030- H02039 are:	H02029 is coded as:	H02030- H02039 are coded as:	*
1	1: None	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	1: none, missing, or multiple response	At least one is “marked”	Stands as original value	Stand as original value	
3	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B
4	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	1: None	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10:

Responses to H02030-H02039 are all missing.

Definition of “Blank or No or NA” in Coding Table for Note 10:

Responses to H02030-H02039, are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 10:

Any pattern of marks outside the definitions “all are blank” and “Blank or No or NA.”

**Coding Table for Note 11:
H02043, H02044-H02046**

N11 H02043 is:		H02044-H02046 are:	H02043 is coded as:	H02044-H02046 are coded as:	*
1	1: yes	At least one is "marked" "all are blank" or "blank or don't know"	Stands as original value	Stand as original value	
2	1: yes, -5: don't know, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	-5: don't know	At least one is "marked"	1:yes	Stand as original value	B
4	-5: don't know	"Blank or don't know"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	B F
5	2: no, missing, or multiple response	At least one is "marked" or "blank or don't know"	1: yes	Stand as original value	B
6	2: no, -5: don't know	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
7	Missing response	"All are blank"	Stands as original value	Stand as original value	
8	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 11:
Responses to H02044-H02046 are all missing.

Definition of "blank or NA" in Coding Table for Note 11:
Responses to H02044-H02046 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of "blank or don't know" in Coding Table for Note 11:
Responses to H02044-H02046 are either all don't know (-5) or a combination of missing and don't know (-5).

Definition of "marked" in Coding Table for Note 11:
Any pattern of marks outside the definitions "all are blank," "blank or NA," or "blank or don't know."

**Table for Note 12:
H02047, H02048**

N12	H02047 is:	H02048 is:	H02047 is coded as:	H02048 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: yes but never got information, 3: no, missing, or multiple response	1-3: categorize problem or multiple response	1: yes	Stands as original value	B
4	2: yes but never got information, 3: no	-6: not applicable or missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 13:
H02049, H02050**

N13	H02049 is:	H02050 is:	H02049 is coded as:	H02050 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 14:
H02051, H02052, H02053**

N14	H02051 is:	H02052 & H02053 are:	H02051 is coded as:	H02052 & H02053 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 14:
Responses to H02052 and H02053 are both missing.

Definition of “blank or NA” in Coding Table for Note 14:
Responses to H02052 and H02053 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 14:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 15:
H02054, H02055**

N15	H02054 is:	H02055 is:	H02054 is coded as:	H02055 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem, or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable or missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 22:
SRAGE, S02L01--S02L17**

N22	SRAGE is:	S02L01--S02L17 are:	SRAGE is coded as:	S02L01--S02L17 are coded as:	*
1	1-5	At least one is "marked" or "all are blank"	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	Missing, or multiple response	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
3	6 or 7	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 22:
All variables S02L01--S02L17 are missing.

Definition of "marked" in Coding Table for Note 22:
Any pattern of marks outside the definition "all are blank."

**Coding Table for Note 24:
H02063--H02066**

N24	H02063 Is:	H02064 is:	H02065 is:	H02066 is:	H02063 is coded as:	H02064 is coded as:	H02065 is coded as:	H02066 is coded as:	*
1	1: ever smoked	3 or 4: still smoke	Marked or multiple response	Any value	Stands as original value	Stands as original value	.C, question should be skipped	Stands as original value	F
2	1: ever smoked	3 or 4: still smoke	Missing response	Any value	Stands as original value	Stands as original value	.N, valid skip	Stands as original value	
3	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Marked or multiple response	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
4	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Missing response	Stands as original value	Stands as original value	Stands as original value	.N, valid skip	
5	1: ever smoked	2: quit	3: quit <1 year ago, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
6	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Marked or multiple response	Stands as original value	2: quit	Stands as original value	.C, question should be skipped	F B
7	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Missing response	Stands as original value	2: quit	Stands as original value	.N, valid skip	F B
8	1: ever smoked	-5: don't know, missing, or multiple response	3: quit <1 year ago	Any value	Stands as original value	2: quit	Stands as original value	Stands as original value	B
9	1: ever smoked	-5: don't know, missing, or multiple response	-5: don't know, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
10	2: never, -5: don't know, missing, or multiple response	3 or 4: still smoke	Marked or multiple response	Any value	1: ever smoked	Stands as original value	.C, question should be skipped	Stands as original value	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 24 continued:

N24	H02063 Is:	H02064 is:	H02065 is:	H02066 is:	H02063 is coded as:	H02064 is coded as:	H02065 is coded as:	H02066 is coded as:	*

29	Missing or multiple response	-5: don't know	Missing response	Missing response	Stands as original value	Stands as original value	.N, valid skip	.N, valid skip	
30	Missing or multiple response	-5: don't know	Missing response	Marked or multiple response	Stands as original value	Stands as original value	.N, valid skip	.C, question should be skipped	F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 25:

Note 25(Part A):

H02067, SEX, XSEX, H02068-H02075

N25	H02067:	SEX is:	H02068 is:	H02069--H02075 are:	XSEX is coded as:
A					
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEX is the recoded gender variable after taking into account the self-reported response (H02067), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

**Note 25 (Part B):
XSEXA, H02068**

N25B	XSEXA is:	H02068 is:	H02068 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

**Note 25 (Part C):
XSEXA, H02069 - H02075**

N25C	XSEXA is:	H02069--H02075 are:	H02069 --H02075 are coded as:	*
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 25c:
All variables H02069--H02075 are missing.

Definition of “marked” in Coding Table for Note 25c:
Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 26
XSEXA, AGE, H02070, H02071, H02072

N26	XSEXA is:	AGE is:	H02070 is:	H02071 & H02072 are:	H02070 is coded as:	H02071 & H02072 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Marked or multiple response	2: > 40	Stand as original value	
5	2: Female	Any value	Multiple response	Missing	1: < 40	.N, valid skip	B F
6	2: Female	Any value	Missing	Marked or multiple response	2: > 40	Stand as original value	B
7	2: Female	< 40	Missing	Missing	1: < 40	.N, valid skip	F
8	2: Female	>=40	Missing	Missing	1: < 40	.N, valid skip	B
9	2: Female	Missing	Missing	Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 27:
XSEXA, H02073, H02074, H02075**

N27	XSEXA is:	H02073 is:	H02074 is:	H02075 is:	H02073 is coded as:	H02074 is coded as:	H02075 is coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 28:
S02L01, S02L02-S02L14**

N28	S02L01 is:	S02L02--S02L14 is:	S02L01 is coded as:	S02L02--S02L14 is coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stands as original value	
3	2:no, missing, or multiple response	At least one is "marked"	1: yes	Stands as original value	B
4	2: no	"All are blank" or "Blank or NA"	Stands as original value	.N valid skip if missing	F
5	Missing response	"All are blank"	Stands as original value	Stands as original value	
6	Multiple response	"All are blank" or "blank or NA"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 28:

Variables S02L02 S02L04A--S02L04I S02L05 S02L06 S02L07 S02L08 S02L09 S02L10 S02L11 S02L12 S02L14 are missing and S02L03A--S02L03I S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note28:

Variables S02L02 S02L04A--S02L04I S02L05 S02L06 S02L07 S02L08 S02L09 S02L10 S02L11 S02L12 S02L14 are either missing or not applicable (-6) and S02L03A--S02L03I S02L13A--S02L13E are not marked (2).

**Coding Table for Note 29:
S02L06, S02L07-S02L14**

N29	S02L06 is:	S02L07-S02L14 are:	S02L06 is coded as:	S02L07-S02L14 are coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-3	At least one is "marked" or "all are blank"	Stands as original value	Stands as original value	
3	4: no, -6: Not eligible TRICARE for Life, missing, or multiple response	At least one is "marked"	Stands as original value	Stands as original value	
4	4: no, -6: Not eligible TRICARE for Life	"All are blank" or "Blank or NA"	Stands as original value	.N Should be skipped	F
5	Missing or multiple response	"All are blank"	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L07 S02L08 S02L09 S02L10 S02L11 S02L12 S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note29:

Variables S02L07 S02L08 S02L09 S02L10 S02L11 S02L12 S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 30:
S02L07, S02L08-S02L14**

N30	S02L07 is:	S02L08-S02L14 are:	S02L07 is coded as:	S02L08-S02L14 are coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-4	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
3	-6: not eligible, missing, or multiple response	At least one is "marked"	Stands as original value	Stands as original value	
4	-6: not eligible	"Blank or don't know"	Stands as original value	.N, valid skip if missing	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	-6: Not Eligible	.N, valid skip if missing	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L08 S02L09 S02L10 S02L11 S02L12 S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note 29:

Variables S02L08 S02L09 S02L10 S02L11 S02L12 S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 31:
S02L08, S02L09-S02L14**

N31	S02L08 is:	S02L09-S02L14 are:	S02L08 is coded as:	S02L09-S02L14 are coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-2	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
3	-6: not eligible, missing, or multiple response	At least one is "marked"	Stands as original value	Stands as original value	
4	-6: not eligible	"Blank or don't know"	Stands as original value	.N, valid skip if missing	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	-6: Not Eligible	.N, valid skip if missing	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L09 S02L10 S02L11 S02L12 S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note 29:

Variables S02L09 S02L10 S02L11 S02L12 S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 32:
S02L09, S02L10-S02L14**

N32	S02L09 is:	S02L10-S02L14 are:	S02L09 is coded as:	S02L10-S02L14 are coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-3	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
3	-6: Not eligible, missing, or multiple response	At least one is "marked"	Stands as original value	Stands as original value	
4	-6: not eligible	"Blank or don't know"	Stands as original value	.N, valid skip if missing	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	-6: Not eligible	.N, valid skip if missing	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L10 S02L11 S02L12 S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note29:

Variables S02L10 S02L11 S02L12 S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 33:
S02L10, S02L11-S02L14**

N33	S02L10 is:	S02L11--S02L14 is:	S02L10 is coded as:	S02L11--S02L14 is coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stands as original value	
3	2:no, missing, or multiple response	At least one is "marked"	1: yes	Stands as original value	F
4	2: no	"All are blank" or "Blank or NA"	Stands as original value	.N valid skip if missing	B
5	Missing response	"All are blank"	Stands as original value	Stands as original value	
6	Multiple response	"All are blank" or "blank or NA"	2: no	.N, valid skip	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L11 S02L12 S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note29:

Variables S02L11 S02L12 S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 34:
S02L11, S02L12-S02L16**

N34	S02L11 is:	S02L12-S02L16 are:	S02L11 is coded as:	S02L12-S02L16 are coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-2	At least one is "marked" or "all are blank"	Stands as original value	Stands as original value	
3	-6: Have not received medical care, or multiple response	At least one is "marked"	Stands as original value	Stands as original value	B
4	-6: not eligible, Multiple Response	"All are blank" or "Blank or NA"	Stands as original value	.N Should be skipped	F
5	Missing response	"All are blank"	Stands as original value	Stands as original value	
6	Multiple response	"All are blank"	-6: Have not received medical care	.N, valid skip if missing	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L12 S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note29:

Variables S02L12 S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 35:
S02L12, S02L13-S02L16**

N35	S02L12 is:	S02L13-S02L16 are:	S02L12 is coded as:	S02L13-S02L16 are coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1: Yes	At least one is "marked" or "all are blank"	Stands as original value	Stands as original value	
3	4: no, -6: Have not received a bill, missing, or multiple response	At least one is "marked"	Stands as original value	Stands as original value	
4	4: no, -6: Have not received a bill	"All are blank" or "Blank or NA"	Stands as original value	.N Should be skipped	F
5	Missing or multiple response	"All are blank"	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:

Variables S02L14 are missing and S02L13A--S02L13E are not marked (2).

Definition of "blank or NA" in Coding Table for Note29:

Variables S02L14 are either missing or not applicable (-6) and S02L13A--S02L13E are not marked (2).

**Coding Table for Note 36:
S02L14, S02L15-S02L16**

N36	S02L14 is:	S02L15-S02L16 are:	S02L14 is coded as:	S02L15-S02L16 are coded as:	*
1	1: yes	At least one is "marked" "all are blank" or "blank or don't know"	Stands as original value	Stand as original value	
2	1: yes, -6: not eligible, missing, or multiple response	"Blank or NA"	-6: Not Eligible	.N, valid skip if missing; .C, question should be skipped if marked	B
3	-6: not eligible	At least one is "marked"	1:yes	Stand as original value	B
4	-6: not eligible	"Blank or don't know"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	B F
5	2,: no, missing, or multiple response	At least one is "marked" or "blank or don't know"	1: yes	Stand as original value	B
6	2,: no, -6: not eligible	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
7	Missing response	"All are blank"	Stands as original value	Stand as original value	
8	Multiple response	"All are blank"	-6: Not Eligible	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

CODING SCHEME AND CODING TABLES – QUARTER II

2002 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS		ASCII/EBCDIC	Description
Numeric		Numeric	
.		-9	No response
.A		-8	Multiple response error
.O		-7	Out of range error
.N		-6	Not Applicable or valid skip
.D		-5	Scalable response of “Don’t know” or “not sure”
.I		-4	Incomplete grid error
.C		-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H02006, H02007**

N1	H02006 is:	H02007 is:	H02006 is coded as:	H02007 is coded as:	*
1	1-12, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H02008, H02009**

N2	H02008 is:	H02009 is:	H02008 is coded as:	H02009 is coded as:	*
1	1: yes	1-3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't get a new doctor	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1- 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't get a new doctor	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 3:
H02010, S02C01-S02C04, H02011**

N3	H02010 is:	S02C01-S02C04, H02011 is:	H02010 is coded as:	S02C01-S02C04, H02011 is coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or no or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stands as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 3:
Responses to S02C01-S02C04 and H02011 are all missing.

Definition of “blank or no or NA” in Coding Table for Note 3:
All of the following are true: S00C03 is either ‘2’ or missing, S00C01, S00C02, S00C04, and H02011 are a combination of not applicable (-6) or missing.

Definition of “marked” in Coding Table for Note 3:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 4:
S02C03, S02C04**

N4	S02C03 is:	S02C04 is:	S02C03 is coded as:	S02C04 is coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stands as original value	
2	1: yes	1, 2, missing, or multiple response	Stands as original value	Stands as original value	
3	1: yes, missing, or multiple response	-6: don't have health problems or don't have personal doctor or nurse	2: No	.C, question should be skipped	B
4	2: no, missing, or multiple response	1, 2	1: yes	Stands as original value	B
5	2: no	Missing, multiple response, or -6: don't have health problems or don't have personal doctor or nurse	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
6	Missing response	Multiple response	1: yes	Stands as original value	B
7	Missing response	Missing response	Stands as original value	Stands as original value	
8	Multiple response	Multiple response	Stands as original value	Stands as original value	
9	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 5:
H02012, H02013, H02014**

N5	H02012 is:	H02013 & H02014 are:	H02012 is coded as:	H02013 & H02014 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 5:
Responses to H02013 and H02014 are both missing.

Definition of “blank or NA” in Coding Table for Note 5:
Response to H02013 is not applicable (-6), and H02014 is missing.

Definition of “marked” in Coding Table for Note 5:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 6:
H02015, H02016**

N6	H02015 is:	H02016 is:	H02015 is coded as:	H02016 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn’t need to see a specialist	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn’t need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 7:
H02017, S02C05, H02018, H02019**

N7	H02017 is:	S02C05, H02018, H02019 Are:	H02017 is coded as:	S02C05, H02018, H02019 Are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2:no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
S02C05, H02018 and H0219 are all missing.

Definition of “blank or NA” in Coding Table for Note 7:
S02C05, H02018 and H02019 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 8:
S02C05, H02018 & H02019**

N8	S02C05 is:	H02018 & H02019 are:	S02C05 is coded as:	H02018 & H02019 are coded as:	*
1	.N, valid skip, or .C, question should be skipped	.N, valid skip, or .C, question should be skipped	Stands as original value	Stand as original value	
2	-6: None	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
3	-6: None, missing, or multiple response	At least one is “marked”	Stands as original value	Stand as original value	
4	1-6, missing, or multiple response	“Blank or NA”	-6: None	.N, valid skip if missing, .C, question should be skipped if marked	B
5	1-6	At least one is “marked” or “All are blank”	Stands as original value	Stand as original value	
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	-6:None	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:
Both H02018 and H02019 are missing.

Definition of “blank or NA” in Coding Table for Note 8:
Responses to questions H02018 and H02019 are either both not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 8:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 9:
H02020, H02021**

N9	H02020 is:	H02021 is:	H02020 is coded as:	H02021 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often	1: yes	Stands as original value	B
4	2: no	-6: no calls, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 10:
H02022, H02023, H02024**

N10	H02022 is:	H02023 & H02024 are:	H02022 is coded as:	H02023 & H02024 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10:
Responses to H02023 and H02024 are both missing.

Definition of “blank or NA” in Coding Table for Note 10:
Responses to H02023 and H02024 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 10:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 11:
H02025, H02026, H02027**

N11	H02025 is:	H02026 & H02027 are:	H02025 is coded as:	H02026 & H02027 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11:
Responses to H02026 and H02027 are both missing.

Definition of “blank or NA” in Coding Table for Note 11:
Responses to H02026 and H02027 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 11:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 12:
H02029, H02030-H02039, S02C06-S02C08**

N12	H02029 is:	H02030- H02039, S02C06-S02C08 are:	H02029 is coded as:	H02030- H02039, S02C06-S02C08 are coded as:	*
1	1: None	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	1: none, missing, or multiple response	At least one is “marked”	Stands as original value	Stand as original value	
3	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B
4	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	1: None	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 12:

Responses to H02030-H02039 and S02C06-S02C08 are all missing.

Definition of “Blank or No or NA” in Coding Table for Note 12:

Responses to H02030-H02039, and S02C07, and S02C08 are either all not applicable (-6) or a combination of missing response and not applicable (-6), and S02C06 is either No (2) or missing.

Definition of “marked” in Coding Table for Note 12:

Any pattern of marks outside the definitions “all are blank” and “Blank or No or NA.”

**Coding Table for Note 13:
S02C06, S02C07, S02C08**

N13	S02C06 is:	S02C07 & S02C08 are:	S02C06 is coded as:	S02C07 & S02C08 are coded as:	*
1	.N, valid skip .C, question should be skipped	.N, valid skip .C, question should be skipped	Stands as original value	Stand as original value	
2	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
3	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
4	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
5	2: no	“Blank or NA” or “All are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
6	Missing response	“All are blank”	Stands as original value	Stand as original value	
7	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 13:
Responses to S02C07 and S02C08 are both missing.

Definition of “Blank or NA” in Coding Table for Note 13:
Responses to S02C07 and S02C08 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 13:
Any pattern of marks outside the definitions “all are blank” and “Blank or No or NA.”

**Coding Table for Note 14:
S02C09, S02C10**

N14	S02C09 is:	S02C10 is:	S02C09 is coded as:	S02C10 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need special medical equipment	2: No	.C, question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't need special medical equipment	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	B
8	Multiple response	Missing response	2: no	.N, valid skip	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 15:
S02C11, S02C12**

N15	S02C11 is:	S02C12 is:	S02C11 is coded as:	S02C12 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need special therapy	2: No	.C, question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't need special therapy	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	B
8	Multiple response	Missing response	2: no	.N, valid skip	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 16:
S02C13, S02C14**

N16	S02C13 is:	S02C14 is:	S02C13 is coded as:	S02C14 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need home healthcare	2: No	.C, question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't need home healthcare	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17:
H02043, H02044-H02046**

N17 H02043 is:		H02044-H02046 are:	H02043 is coded as:	H02044-H02046 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value	
2	1: yes, -5: don’t know, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	-5: don’t know	At least one is “marked”	1:yes	Stand as original value	B
4	-5: don’t know	“Blank or don’t know”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	B F
5	2: no, missing, or multiple response	At least one is “marked” or “blank or don’t know”	1: yes	Stand as original value	B
6	2: no, -5: don’t know	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
7	Missing response	“All are blank”	Stands as original value	Stand as original value	
8	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 17:
Responses to H02044-H02046 are all missing.

Definition of “blank or NA” in Coding Table for Note 17:
Responses to H02044-H02046 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 17:
Responses to H02044-H02046 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 17:
Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

**Table for Note 18:
H02047, H02048**

N18	H02047 is:	H02048 is:	H02047 is coded as:	H02048 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 19:
H02049, H02050**

N19	H02049 is:	H02050 is:	H02049 is coded as:	H02050 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 20:
H02051, H02052, H02053**

N20	H02051 is:	H02052 & H02053 are:	H02051 is coded as:	H02052 & H02053 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 20:
Responses to H02052 and H02053 are both missing.

Definition of “blank or NA” in Coding Table for Note 20:
Responses to H02052 and H02053 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 20:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 21:
H02054, H02055**

N21	H02054 is:	H02055 is:	H02054 is coded as:	H02055 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem, or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable or missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 24:
H02063--H02066**

N24	H02063 Is:	H02064 is:	H02065 is:	H02066 is:	H02063 is coded as:	H02064 is coded as:	H02065 is coded as:	H02066 is coded as:	*
1	1: ever smoked	3 or 4: still smoke	Marked or multiple response	Any value	Stands as original value	Stands as original value	.C, question should be skipped	Stands as original value	F
2	1: ever smoked	3 or 4: still smoke	Missing response	Any value	Stands as original value	Stands as original value	.N, valid skip	Stands as original value	
3	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Marked or multiple response	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
4	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Missing response	Stands as original value	Stands as original value	Stands as original value	.N, valid skip	
5	1: ever smoked	2: quit	3: quit <1 year ago, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
6	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Marked or multiple response	Stands as original value	2: quit	Stands as original value	.C, question should be skipped	F B

Coding Table for Note 25:

Note 25(Part A):

H02067, SEX, XSEX, H02068-H02075

N25	H02067:	SEX is:	H02068 is:	H02069--H02075 are:	XSEX is coded as:
A					
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEX is the recoded gender variable after taking into account the self-reported response (H02067), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

**Note 25 (Part B):
XSEXA, H02068**

N25B	XSEXA is:	H02068 is:	H02068 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

**Note 25 (Part C):
XSEXA, H02069 - H02075**

N25C	XSEXA is:	H02069--H02075 are:	H02069 --H02075 are coded as:	*
1	1: Male	"All are blank"	.N, valid skip	F
2	1: Male	At least one is "marked"	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	"All are blank" or at least one is "marked"	Stands as original value	
4	Missing	"All are blank" or at least one is "marked"	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 25c:
All variables H02069--H02075 are missing.

Definition of "marked" in Coding Table for Note 25c:
Any pattern of marks outside the definition "all are blank."

Coding Table for Note 26
XSEXA, AGE, H02070, H02071, H02072

N26	XSEXA is:	AGE is:	H02070 is:	H02071 & H02072 are:	H02070 is coded as:	H02071 & H02072 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Marked or multiple response	2: > 40	Stand as original value	
5	2: Female	Any value	Multiple response	Missing	1: < 40	.N, valid skip	B F

7	2: Female	< 40	Missing	Missing	1: < 40	.N, valid skip	F
8	2: Female	>=40	Missing	Missing	1: < 40	.N, valid skip	B
9	2: Female	Missing	Missing	Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 27:
XSEXA, H02073, H02074, H02075**

N27	XSEXA is:	H02073 is:	H02074 is:	H02075 is:	H02073 is coded as:	H02074 is coded as:	H02075 is coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 28:
S02C20, S02C21, S02C22**

N28	S02C020 is:	S02C21 & S02C22 are:	S02C20 is coded as:	S02C21 & S02C22 are coded as:	*
1	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"Blank or NA" or "All are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 28:

Responses to S02C21 and S02C22 are both missing.

Definition of "Blank or NA" in Coding Table for Note 28:

Responses to S02C21 and S02C22 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of "marked" in Coding Table for Note 28:

Any pattern of marks outside the definitions "all are blank" and "Blank or No or NA."

**Coding Table for Note 29:
S02E01, S02E02-S02E09**

N29	S02E01 is:	S02E02-S02E09 are:	S02E01 is coded as:	S02E02-S02E09 are coded as:	*
1	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 29:
Responses to S02E02-S02E09 are all missing.

Definition of "blank or NA" in Coding Table for Note 29:
Responses to S02E02-S02E09 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of "marked" in Coding Table for Note 29:
Any pattern of marks outside the definitions "all are blank," "blank or NA," or "blank or don't know."

**Coding Table for Note 30:
S02E06, S02E07**

N30	S02E06 is:	S02E07 is:	S02E06 is coded as:	S02E07 is coded as:	*
1	.N, valid skip .C, question should be skipped	.N, valid skip .C, question should be skipped	Stands as original value	Stand as original value	
2	1: yes, Missing or Multiple Response	1-2, missing, or multiple response	Stands as original value	Stands as original value	
3	2: no or -6: I am not active duty	1-2, Missing, or multiple response	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
4	Missing response	Multiple response	1: yes	Stands as original value	B
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	Stands as original value	.N, valid skip	B
7	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of forward coding (F).

CODING SCHEME AND CODING TABLES - QUARTER III

2000 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS		ASCII/EBCDIC	Description
Numeric		Numeric	
.		-9	No response
.A		-8	Multiple response error
.O		-7	Out of range error
.N		-6	Not Applicable or valid skip
.D		-5	Scalable response of "Don't know" or "not sure"
.I		-4	Incomplete grid error
.C		-1	Question should have been skipped.

Missing values '.', multiple responses '.A', and incomplete grids '.I' are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H02006, H02007**

N1	H02006 is:	H02007 is:	H02006 is coded as:	H02007 is coded as:	*
1	1-12, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H02008, H02009**

N2	H02008 is:	H02009 is:	H02008 is coded as:	H02009 is coded as:	*
1	1: yes	1-3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't get a new doctor	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1- 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't get a new doctor	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 3:
H02010, H02011**

N3	H02010 is:	H02011 is:	H02010 is coded as:	H02011 is coded as:	*
1	1: yes	0-10, missing, or multiple response	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	-6, I don't have a personal doctor or nurse	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	0-10 or multiple response	1: yes	Stands as original value	B
4	2: no	-6, I don't have a personal doctor or nurse, or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Missing response	Multiple response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 4:
H02012, H02013, H02014**

N4	H02012 is:	H02013 & H02014 are:	H02012 is coded as:	H02013 & H02014 are coded as:	*
1	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 4:
Responses to H02013 and H02014 are both missing.

Definition of "blank or NA" in Coding Table for Note 4:
Response to H02013 is not applicable (-6), and H02014 is missing.

Definition of "marked" in Coding Table for Note 4:
Any pattern of marks outside the definitions "all are blank" and "blank or NA"

**Coding Table for Note 5:
H02013, H02014**

N5	H02013 is:	H02014 is:	H02013 is coded as:	H02014 is coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-2, missing or multiple response	1,2, missing or multiple response	Stands as original value	Stands as original value	
3	3: not sure, -6: Not a member of TRICARE Prime, missing, or multiple response	1,2, missing or multiple response	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:
H02015, H02016**

N6	H02015 is:	H02016 is:	H02015 is coded as:	H02016 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 7:
H02017, H02018, H02019**

N7	H02017 is:	H02018, H02019 Are:	H02017 is coded as:	H02018, H02019 Are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2:no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
H02018 and H0219 are all missing.

Definition of “blank or NA” in Coding Table for Note 7:
H02018 and H02019 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 8:
H02020, H02021**

N8	H02020 is:	H02021 is:	H02020 is coded as:	H02021 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often	1: yes	Stands as original value	B
4	2: no	-6: no calls, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 9:
H02022, H02023, H02024**

N9	H02022 is:	H02023 & H02024 are:	H02022 is coded as:	H02023 & H02024 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:
Responses to H02023 and H02024 are both missing.

Definition of “blank or NA” in Coding Table for Note 9:
Responses to H02023 and H02024 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 9:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 10:
H02025, H02026, H02027**

N10	H02025 is:	H02026 & H02027 are:	H02025 is coded as:	H02026 & H02027 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10:
Responses to H02026 and H02027 are both missing.

Definition of “blank or NA” in Coding Table for Note 10:
Responses to H02026 and H02027 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 10:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 11:
H02029, H02030-H02039**

N12	H02029 is:	H02030- H02039 are:	H02029 is coded as:	H02030- H02039 are coded as:	*
1	1: None	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	1: none, missing, or multiple response	At least one is “marked”	Stands as original value	Stand as original value	
3	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B
4	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	1: None	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11:

Responses to H02030-H02039 are all missing.

Definition of “Blank or No or NA” in Coding Table for Note 11:

Responses to H02030-H02039 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 11:

Any pattern of marks outside the definitions “all are blank” and “Blank or No or NA.”

**Coding Table for Note 12:
S02D01, S02D02-S02D03**

N12	S02D01 is:	S02D02 is:	S02D03 is:	S02D01 is coded as:	S02D02 & S02D03 are coded as:	*
1	1:yes	Any value	0-10 or multiple response	Stands as original value	Stands as original value	
2	1: Yes	1:none or missing	Missing or -6: didn't have any dental care	2:No	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	1: Yes	2-7 or multiple response	Any value	Stands as original value	Stands as original value	
4	2: No	1: none or missing	-6: didn't have any dental care, or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: No, missing, or multiple response	Any value	0-10 or multiple response	1:Yes	Stands as original value	B
6	2: No, missing, or multiple response	2-7 or multiple response	Any value	1:Yes	Stands as original value	B
7	Missing	1:none or missing	-6: didn't have any dental care, or missing	Stands as original value	Stands as original value	
8	Multiple response	1:none or missing	-6: didn't have any dental care, or missing	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 13:
S02M01, S02M02-S02M03**

N13	S02M01 is:	S02M02 & S02M03 are:	S02M01 is coded as:	S02M02 & S02M03 are coded as:	*
1	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 13:
Responses to S02M02 and S02M03 are both missing.

Definition of "blank or NA" in Coding Table for Note 13:
Responses to S02M02 and S02M03 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of "marked" in Coding Table for Note 13:
Any pattern of marks outside the definitions "all are blank" and "blank or NA"

**Coding Table for Note 14:
S02P01, S02P02-S02P03**

N14	S02P01 is:	S02P02 & S02P03 are:	S02P01 is coded as:	S02P02 & S02P03 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 14:
Responses to S02P02 and S02P03 are both missing.

Definition of “blank or NA” in Coding Table for Note 14:
Responses to S02P02 and S02P03 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 14:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 15:
H02043, H02044-H02046**

N15	H02043 is:	H02044-H02046 are:	H02043 is coded as:	H02044-H02046 are coded as:	*
1	1: yes	At least one is "marked", "all are blank" or "blank or don't know"	Stands as original value	Stand as original value	
2	1: yes, -5: don't know, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	-5: don't know	At least one is "marked"	1:yes	Stand as original value	B
4	-5: don't know	"Blank or don't know"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	B F
5	2: no, missing, or multiple response	At least one is "marked" or "blank or don't know"	1: yes	Stand as original value	B
6	2: no, -5: don't know	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
7	Missing response	"All are blank"	Stands as original value	Stand as original value	
8	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 15:
Responses to H02044-H02046 are all missing.

Definition of "blank or NA" in Coding Table for Note 15:
Responses to H02044-H02046 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of "blank or don't know" in Coding Table for Note 15:
Responses to H02044-H02046 are either all don't know (-5) or a combination of missing and don't know (-5).

Definition of "marked" in Coding Table for Note 15:
Any pattern of marks outside the definitions "all are blank," "blank or NA," or "blank or don't know."

**Table for Note 16:
H02047, H02048**

N16	H02047 is:	H02048 is:	H02047 is coded as:	H02048 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17:
H02049, H02050**

N17	H02049 is:	H02050 is:	H02049 is coded as:	H02050 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 18:
H02051, H02052, H02053**

N18	H02051 is:	H02052 & H02053 are:	H02051 is coded as:	H02052 & H02053 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 18:

Responses to H02052 and H02053 are both missing.

Definition of “blank or NA” in Coding Table for Note 18:

Responses to H02052 and H02053 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 18:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 19:
H02054, H02055**

N19	H02054 is:	H02055 is:	H02054 is coded as:	H02055 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem, or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable or missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 25:

Note 25(Part A):

H02067, SEX, XSEX, H02068-H02075

N25	H02067:	SEX is:	H02068 is:	H02069--H02075 are:	XSEX is coded as:
A					
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEX is the recoded gender variable after taking into account the self-reported response (H02067), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

**Note 25 (Part B):
XSEXA, H02068**

N25B	XSEXA is:	H02068 is:	H02068 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

**Note 25 (Part C):
XSEXA, H02069 - H02075**

N25C	XSEXA is:	H02069--H02075 are:	H02069 --H02075 are coded as:	*
1	1: Male	"All are blank"	.N, valid skip	F
2	1: Male	At least one is "marked"	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	"All are blank" or at least one is "marked"	Stands as original value	
4	Missing	"All are blank" or at least one is "marked"	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 25c:
All variables H02069--H02075 are missing.

Definition of "marked" in Coding Table for Note 25c:
Any pattern of marks outside the definition "all are blank."

Coding Table for Note 26
XSEXA, AGE, H02070, H02071, H02072

N26	XSEXA is:	AGE is:	H02070 is:	H02071 & H02072 are:	H02070 is coded as:	H02071 & H02072 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Marked or multiple response	2: > 40	Stand as original value	
5	2: Female	Any value	Multiple response	Missing	1: < 40	.N, valid skip	B F
6	2: Female	Any value	Missing	Marked or multiple response	2: > 40	Stand as original value	B
7	2: Female	< 40	Missing	Missing	1: < 40	.N, valid skip	F
8	2: Female	>=40	Missing	Missing	1: < 40	.N, valid skip	B
9	2: Female	Missing	Missing	Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 27:
XSEXA, H02073, H02074, H02075**

N27	XSEXA is:	H02073 is:	H02074 is:	H02075 is:	H02073 is coded as:	H02074 is coded as:	H02075 is coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

CODING SCHEME AND CODING TABLES – QUARTER IV

2002 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB) CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS		ASCII/EBCDIC	
Numeric		Numeric	Description
.		-9	No response
.A		-8	Multiple response error
.O		-7	Out of range error
.N		-6	Not Applicable or valid skip
.D		-5	Scalable response of “Don’t know” or “not sure”
.I		-4	Incomplete grid error
.C		-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

**Coding Table for Note 1:
H02006, H02007**

N1	H02006 is:	H02007 is:	H02006 is coded as:	H02007 is coded as:	*
1	1-11, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 2:
H02008, H02009**

N2	H02008 is:	H02009 is:	H02008 is coded as:	H02009 is coded as:	*
1	1: yes	1-3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't get a new doctor	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1- 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't get a new doctor	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 3:
H02010, H02011**

N3	H02010 is:	H02011 is:	H02010 is coded as:	H02011 is coded as:	*
1	1: yes	0-10, missing, or multiple response	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	-6, I don't have a personal doctor or nurse	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	0-10 or multiple response	1: yes	Stands as original value	B
4	2: no	-6, I don't have a personal doctor or nurse, or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 4:
H02012, H02013, H02014**

N4	H02012 is:	H02013 & H02014 are:	H02012 is coded as:	H02013 & H02014 are coded as:	*
1	1: yes	At least one is "marked" or "all are blank"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"Blank or NA" or "all are blank"	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 4:
Responses to H02013 and H02014 are both missing.

Definition of "blank or NA" in Coding Table for Note 4:
Response to H02013 is not applicable (-6), and H02014 is missing.

Definition of "marked" in Coding Table for Note 4:
Any pattern of marks outside the definitions "all are blank" and "blank or NA"

**Coding Table for Note 5:
H02013, H02014**

N5	H02013 is:	H02014 is:	H02013 is coded as:	H02014 is coded as:	*
1	.N valid skip or .C question should be skipped	.N valid skip or .C question should be skipped	Stands as original value	Stands as original value	
2	1-2, missing or multiple response	1,2, missing or multiple response	Stands as original value	Stands as original value	
3	3: not sure, -6: Not a member of TRICARE Prime	1,2, missing or multiple response	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 6:
H02015, H02016**

N6	H02015 is:	H02016 is:	H02015 is coded as:	H02016 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3	1: yes	Stands as original value	B
4	2: no	Missing, multiple response, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 7:
H02017, H02018, H02019**

N7	H02017 is:	H02018, H02019 Are:	H02017 is coded as:	H02018, H02019 Are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2:no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
H02018 and H0219 are both missing.

Definition of “blank or NA” in Coding Table for Note 7:
H02018 and H02019 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 8:
H02020, H02021**

N8	H02020 is:	H02021 is:	H02020 is coded as:	H02021 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often	1: yes	Stands as original value	B
4	2: no	-6: no calls, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 9:
H02022, H02023, H02024**

N9	H02022 is:	H02023 & H02024 are:	H02022 is coded as:	H02023 & H02024 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:
Responses to H02023 and H02024 are both missing.

Definition of “blank or NA” in Coding Table for Note 9:
Responses to H02023 and H02024 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 9:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 10:
H02025, H02026, H02027**

N10	H02025 is:	H02026 & H02027 are:	H02025 is coded as:	H02026 & H02027 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10:
Responses to H02026 and H02027 are both missing.

Definition of “blank or NA” in Coding Table for Note 10:
Responses to H02026 and H02027 are either both not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 10:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 11:
H02029, H02030-H02039**

N12	H02029 is:	H02030- H02039 are:	H02029 is coded as:	H02030- H02039 are coded as:	*
1	1: None	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
2	1: none	At least one is “marked”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
3	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B
4	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	1: None	.N, valid skip	B
7	Missing or Multiple response	At least one is “marked”	Stands as original value	Stands as original value	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 11:

Responses to H02030-H02039 are all missing.

Definition of “Blank or NA” in Coding Table for Note 11:

Responses to H02030-H02039 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 11:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

**Coding Table for Note 15:
H02043, H02044-H02046**

N15	H02043 is:	H02044-H02046 are:	H02043 is coded as:	H02044-H02046 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value	
2	1: yes, -5: don’t know, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	-5: don’t know	At least one is “marked”	1:yes	Stand as original value	B
4	-5: don’t know	“Blank or don’t know”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	B F
5	2: no, missing, or multiple response	At least one is “marked” or “blank or don’t know”	1: yes	Stand as original value	B
6	2: no, -5: don’t know	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
7	Missing response	“All are blank”	Stands as original value	Stand as original value	
8	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 15:
Responses to H02044-H02046 are all missing.

Definition of “blank or NA” in Coding Table for Note 15:
Responses to H02044-H02046 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 15:
Responses to H02044-H02046 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 15:
Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

**Table for Note 16:
H02047, H02048**

N16	H02047 is:	H02048 is:	H02047 is coded as:	H02048 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 17:
H02049, H02050**

N17	H02049 is:	H02050 is:	H02049 is coded as:	H02050 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem	1: yes	Stands as original value	B
4	2: no	-6: not applicable, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Multiple response	Stands as original value	Stands as original value	
8	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 18:
H02051, H02052, H02053**

N18	H02051 is:	H02052 & H02053 are:	H02051 is coded as:	H02052 & H02053 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 18:

Responses to H02052 and H02053 are both missing.

Definition of “blank or NA” in Coding Table for Note 18:

Responses to H02052 and H02053 are either all not applicable (-6) or a combination of missing response and not applicable (-6).

Definition of “marked” in Coding Table for Note 18:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 19:
H02054, H02055**

N19	H02054 is:	H02055 is:	H02054 is coded as:	H02055 is coded as:	*
1	1: yes	1-3: categorize problem, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: not applicable	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	1-3: categorize problem, or multiple response	1: yes	Stands as original value	B
4	2: no	-6: not applicable or missing response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	Multiple response	1: yes	Stands as original value	B
6	Missing response	Missing response	Stands as original value	Stands as original value	
7	Multiple response	Missing response	2: no	.N, valid skip	B
8	Multiple response	Multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 24:
H02063--H02066**

N24	H02063 Is:	H02064 is:	H02065 is:	H02066 is:	H02063 is coded as:	H02064 is coded as:	H02065 is coded as:	H02066 is coded as:	*
1	1: ever smoked	3 or 4: still smoke	Marked or multiple response	Any value	Stands as original value	Stands as original value	.C, question should be skipped	Stands as original value	F
2	1: ever smoked	3 or 4: still smoke	Missing response	Any value	Stands as original value	Stands as original value	.N, valid skip	Stands as original value	
3	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Marked or multiple response	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
4	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Missing response	Stands as original value	Stands as original value	Stands as original value	.N, valid skip	
5	1: ever smoked	2: quit	3: quit <1 year ago, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
6	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Marked or multiple response	Stands as original value	2: quit	Stands as original value	.C, question should be skipped	F B
7	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Missing response	Stands as original value	2: quit	Stands as original value	.N, valid skip	F B
8	1: ever smoked	-5: don't know, missing, or multiple response	3: quit <1 year ago	Any value	Stands as original value	2: quit	Stands as original value	Stands as original value	B
9	1: ever smoked	-5: don't know, missing, or multiple response	-5: don't know, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
10	2: never, -5: don't know, missing, or multiple response	3 or 4: still smoke	Marked or multiple response	Any value	1: ever smoked	Stands as original value	.C, question should be skipped	Stands as original value	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 24 continued:

N24	H02063 Is:	H02064 is:	H02065 is:	H02066 is:	H02063 is coded as:	H02064 is coded as:	H02065 is coded as:	H02066 is coded as:	*
11	2: never, -5: don't know, missing, or multiple response	3 or 4: still smoke	Missing response	Any value	1: ever smoked	Stands as original value	.N, valid skip	Stands as original value	B
12	2: never or -5: don't know	2: quit, -5: don't know, or multiple response	Marked or multiple response	Marked or multiple response	Stands as original value	.C, question should be skipped	.C, question should be skipped	.C, question should be skipped	F

29	Missing or multiple response	-5: don't know	Missing response	Missing response	Stands as original value	Stands as original value	.N, valid skip	.N, valid skip	
30	Missing or multiple response	-5: don't know	Missing response	Marked or multiple response	Stands as original value	Stands as original value	.N, valid skip	.C, question should be skipped	F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 25:

Note 25(Part A):

H02067, SEX, XSEX, H02068-H02075

N25A	H02067:	SEX is:	H02068 is:	H02069--H02075 are:	XSEX is coded as:
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEX is the recoded gender variable after taking into account the self-reported response (H02067), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

**Note 25 (Part B):
XSEXA, H02068**

N25B	XSEXA is:	H02068 is:	H02068 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

**Note 25 (Part C):
XSEXA, H02069 - H02075**

N25C	XSEXA is:	H02069--H02075 are:	H02069 --H02075 are coded as:	*
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 25c:
All variables H02069--H02075 are missing.

Definition of “marked” in Coding Table for Note 25c:
Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 26
XSEXA, AGE, H02070, H02071, H02072

N26	XSEXA is:	AGE is:	H02070 is:	H02071 & H02072 are:	H02070 is coded as:	H02071 & H02072 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Marked or multiple response	2: > 40	Stand as original value	
5	2: Female	Any value	Multiple response	Missing	1: < 40	.N, valid skip	B F
6	2: Female	Any value	Missing	Marked or multiple response	2: > 40	Stand as original value	B
7	2: Female	< 40	Missing	Missing	1: < 40	.N, valid skip	F
8	2: Female	>=40	Missing	Missing	1: < 40	.N, valid skip	B
9	2: Female	Missing	Missing	Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 27:
XSEXA, H02073, H02074, H02075**

N27	XSEXA is:	H02073 is:	H02074 is:	H02075 is:	H02073 is coded as:	H02074 is coded as:	H02075 is coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 28:
SRAGE, S02T01--S02T12**

N28	SRAGE is:	S02T01--S02T12 are:	SRAGE is coded as:	S02T01--S02T12 are coded as:	*
1	1-5	Any Value	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	Missing, or multiple response	Any Value	Stands as original value	Stand as original value	
3	6 or 7	Any Value	Stands as original value	Stand as original value

APPENDIX F

TECHNICAL DESCRIPTION OF THE 2002 TRICARE CONSUMER REPORTS

The consumer reports will present 12 scores for each region and catchment area in the MHS and for the MHS overall. Scores will enable users to compare providers to national benchmarks in these areas: getting needed care, getting care quickly, courteous and helpful office staff, how well doctors communicate, customer service, claims processing, rating of the health plan, health care, personal doctor, and specialist, and preventive care standards. A combined score will enable the user to rank providers based on a weighted combination of 11 scores. These 11 scores are made up of three different types, described in TABLE F.1: CAHPS composites, ratings, and TMA standard composites. A trend page will compare composites and ratings with values from previous quarters, calculate a quarterly trend, and test the trend for statistical significance.

TABLE F.1

CONTENT OF THE 2002 TRICARE CONSUMER REPORTS

CAHPS COMPOSITES
<p>The CAHPS composites group together survey responses to a set of related HCSDDB questions taken from CAHPS. Scores expressed as CAHPS composites profile TRICARE beneficiaries' satisfaction with their ability to get needed care, the speed with which they receive care, interactions with their doctor, their experience with doctors' offices, their experience with customer service representatives, and their experience with claims processing. Scores will be presented in relation to national benchmarks.</p>
SATISFACTION RATINGS
<p>Scores expressed as ratings reflect beneficiaries' self-rated satisfaction with their health plan, health care, and personal providers. The scores, adjusted for patient age and health status, will be presented relative to national benchmarks.</p>
TMA STANDARD COMPOSITES
<p>Only one TMA standard composite score is reported. The score is based on how the preventive care that beneficiaries received compares with Healthy People 2010 standards. Preventive care indicators to be combined are prenatal care, hypertension screening, mammography, and Pap smears.</p>

TABLE F.2 lists the questions and response choices for the CAHPS composites in the consumer reports. Question numbers refer to the CAHPS 2.0H Adult Questionnaire (Commercial). Response choices for each question within a composite are collapsed into three-item scales so that all composites have the same range. Along with the composites, mean responses to each question will be presented and compared to national civilian benchmarks.

Four scores are based on respondents' ratings of health care and health care providers: health plan, health care, PCM, and specialist. These ratings are measures of overall beneficiary satisfaction. Questions about these aspects of care ask beneficiaries to rate their health plan, health care, and physicians on a scale of 0 to 10, with 0 being the worst and 10 being the best. The rating score will be the mean. For the purpose of presentation, the mean will be multiplied by 100 so that the score will be presented on a scale of 0 to 100.

TABLE F.2

CAHPS 2.0 H QUESTIONS AND RESPONSE CHOICES
EXPRESSED AS COMPOSITE SCORES AND RATINGS

ADULT QUESTIONNAIRE CAHPS 2.0H	GETTING NEEDED CARE	RESPONSE CHOICE
Q6	With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?	A big problem A small problem Not a problem
Q10	In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?	A big problem A small problem Not a problem
Q24	In the last 12 months, how much of a problem, if any, was it to get the care you or a doctor believed necessary?	A big problem A small problem Not a problem
Q25	In the last 12 months, how much of a problem, if any, were delays in health care while you waited for approval from your health plan?	A big problem A small problem Not a problem
GETTING CARE QUICKLY		
Q15	In the last 12 months, when you called during regular office hours, how often did you get the help or advice you needed?	Never Sometimes Usually Always
Q17	In the last 12 months, how often did you get an appointment for regular or routine care as soon as you wanted?	Never Sometimes Usually Always
Q20	In the last 12 months, when you needed care right away for an illness or injury, how often did you get care as soon as you wanted?	Never Sometimes Usually Always
Q26	In the last 12 months, how often did you wait in the doctor's office or clinic more than 15 minutes past your appointment time to see the person you went to see?	Never Sometimes Usually Always

ADULT QUESTIONNAIRE CAHPS 2.0H	HOW WELL DOCTORS COMMUNICATE	RESPONSE CHOICE
Q29	In the last 12 months, how often did doctors or other health providers listen carefully to you?	Never Sometimes Usually Always
Q30	In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?	Never Sometimes Usually Always
Q31	In the last 12 months, how often did doctors or other health providers show respect for what you had to say?	Never Sometimes Usually Always
Q32	In the last 12 months, how often did doctors or other health providers spend enough time with you?	Never Sometimes Usually Always
COURTEOUS AND HELPFUL OFFICE STAFF		
Q27	In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?	Never Sometimes Usually Always
Q28	In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?	Never Sometimes Usually Always
CUSTOMER SERVICE		
Q39	In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?	A big problem A small problem Not a problem
Q41	In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?	A big problem A small problem Not a problem
Q46	In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?	A big problem A small problem Not a problem

ADULT QUESTIONNAIRE CAHPS 2.0H	CLAIMS PROCESSING	RESPONSE CHOICE
--------------------------------	-------------------	-----------------

Q35	In the last 12 months, how often did your health plan handle your claims in a reasonable time?	Never Sometimes Usually Always
-----	--	---

Q36	In the last 12 months, how often did your health plan handle your claims correctly?	Never Sometimes Usually Always
-----	---	---

RATING OF ALL HEALTH CARE		
---------------------------	--	--

Q33	We want to know your rating of all your health care in the last 12 months from all doctors and other health providers. Use any number from 0 to 10, where 0 is the worst health care possible and 10 is the best health care possible. How would you rate all your health care?	0 Worst health care possible 1 2 3 4 5 6 7 8 9 10 Best health care possible
-----	--	---

RATING OF HEALTH PLAN		
-----------------------	--	--

Q47	We want to know your rating of all your experience with your health plan. Use any number from 0 to 10, where 0 is the worst health plan possible and 10 is the best health plan possible. How would you rate your health plan now?	0 Worst health plan possible 1 2 3 4 5 6 7 8 9 10 Best health plan possible
-----	---	---

ADULT QUESTIONNAIRE CAHPS 2.0H	RATING OF PERSONAL DOCTOR	RESPONSE CHOICE
Q8	We want to know your rating of your personal doctor or nurse. Use any number from 0 to 10, where 0 is the worst possible doctor or nurse possible and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?	0 Worst personal doctor or nurse possible 1 2 3 4 5 6 7 8 9 10 Best personal doctor or nurse possible
RATING OF SPECIALIST		
Q12	We want to know your rating of the specialist you saw most often in the last 12 months, including a personal doctor, if he or she was a specialist. Use any number from 0 to 10, where 0 is the worst possible specialist possible and 10 is the best specialist possible. How would you rate your specialist?	0 Worst specialist possible 1 2 3 4 5 6 7 8 9 10 Best specialist possible

The preventive care composite in the consumer reports will measure MHS performance in terms of meeting TMA's goals for the provision of preventive services. The composite will be calculated by combining the responses to individual questions pertaining to these goals. Questions and responses from the present version of the 2002 HCSDB that will be incorporated into the preventive care composite are presented in TABLE F.3. The denominator of an individual's composite score will consist of the number of questions to which that individual responded. The numerator will consist of the number of questions for which the response falls into a "desirable" category, where the desirable categories are as indicated. When individual scores are combined, the resulting composite will be weighted by the number of questions to which that individual has responded. Therefore, the weight a particular question receives in the composite score will be based on the number of responses it "receives". A respondent's weight will reflect the number of questions to which he/she responds. The resulting proportion will be presented as a percentage.

TABLE F.3

QUESTIONS AND RESPONSE CHOICES ON PREVENTIVE CARE
EXPRESSED AS A STANDARD TMA COMPOSITE

2002 ADULT HCSDB QUESTION	COMPOSITE PREVENTIVE CARE	RESPONSE CHOICES
Q59	When did you last have a blood pressure reading?	Less than 12 months ago 1 to 2 years ago More than 2 years ago
Q60	Do you know if your blood pressure is too high?	Yes, it is too high No, it is not too high Don't know
Q69	When did you last have a Pap smear test?	Within the last 12 months 1 to 3 years ago More than 3 but less than 5 years ago 5 or more years ago Never had a Pap smear
Q71	When was the last time your breasts were checked by mammography?	Within the last 12 months 1 to 2 years ago More than 2 but less than 5 years ago 5 or more years ago Never had a mammogram
Q75	In which trimester did you first receive prenatal care?	First trimester Second trimester Third trimester Did not receive prenatal care

APPENDIX G

SAS CODE FOR FILE DEVELOPMENT

1. IMPLEMENT CODING SCHEME AND CODING TABLES

A. Q1 CSCHM02Q.SAS

```
*****;
* Program: Cschm02q.sas
* Written: 06/04/2001
* Author: C. Rankin
*
* Input: MERGENRC.SD2 - Merged MPR Sampling, DEERS, and NRC Response Data
* Output: CSCHM00Q.SD2 - Coding scheme file
*
* Modified: 9/20/2001 - Recodes removed (stored in recodes_old.sas)
*           10/31/2001 - Revised notes 16 and 17 (became notes 26 and 27)
*           3/22/2002 - Updated Variable names for Q1 2002 and added
*                   Include file RENAME.SAS to change the variable
*                   names from 01 to 02. Skipping 01 designation to make
*                   survey reflect year of fielding
* Purpose: Apply Coding Scheme Specifications to DoD Health Care Survey
*           Response Data, check for consistency in responses and skip
*           patterns
* Include

B. Q2 CSCHM02Q.SAS

```
*****;  
* Program: Cschrn02q.sas  
* Written: 06/04/2001  
* Author: C. Rankin  
*  
* Input: MERGENRC.SD2 - Merged MPR Sampling, DEERS, and NRC Response Data  
* Output: CSCHM00Q.SD2 - Coding scheme file  
*  
* Modified: 9/20/2001 - Recodes removed (stored in recodes_old.sas)  
*           10/31/2001 - Revised notes 16 and 17 (became notes 26 and 27)  
*           3/22/2002 - Updated Variable names for Q1 2002 and added  
*                       Include file RENAME.SAS to change the variable  
*                       names from 01 to 02. Skipping 01 designation to make  
*                       survey reflect year of fielding  
*           5/09/2002 - Change to logic in TFL supplement  
* Purpose: Apply Coding Scheme Specifications to DoD Health Care Survey  
*           Response Data, check for consistency in responses and skip  
*           patterns  
* Include  
* files: Cschrn02q.fmt  
*

D. Q4 CSCHM02Q.SAS

```
*****;  
* Program: Cschrn02q.sas  
* Written: 06/04/2001  
* Author: C. Rankin  
*  
* Input: MERGENRC.SD2 - Merged MPR Sampling, DEERS, and NRC Response Data  
* Output: CSCHM00Q.SD2 - Coding scheme file  
*  
* Modified: 9/20/2001 - Recodes removed (stored in recodes_old.sas)  
*           10/31/2001 - Revised notes 16 and 17 (became notes 26 and 27)  
*           3/22/2002 - Updated Variable names for Q1 2002 and added  
*                     Include file RENAME.SAS to change the variable  
*                     names from 01 to 02. Skipping 01 designation to make  
*                     survey reflect year of fielding  
*           5/09/2002 - Change to logic in TFL supplement  
* Purpose: Apply Coding Scheme Specifications to DoD Health Care Survey  
*           Response Data, check for consistency in responses and skip  
*           patterns  
* Include  
* files: Cschrn02q.fmt  
*

*****
* PROGRAM:    MERGE.SAS
* WRITTEN:    1/28/00 BY KELLY WHITE
* MODIFIED:   3/1/00 BY NATALIE JUSTH
* MODIFIED:   11/16/00 BY JOAN JAMES
* MODIFIED:   1/30/01 BY NATALIE JUSTH
* MODIFIED:   6/6/01 BY NATALIE JUSTH FOR Q2 UPDATES
* MODIFIED:   8/20/01 BY NATALIE JUSTH FOR Q3 UPDATES
* MODIFIED:   12/13/01 BY NATALIE JUSTH FOR Q4 UPDATES
* MODIFIED:   2/11/02 By Daniele Beahm to delete H00077 variable and reassign format for
*             S00S01 variable
* MODIFIED:   4/11/02 By JACLYN WONG FOR Q1 UPDATES
* MODIFIED:   6/21/02 by JACLYN WONG FOR Q2 UPDATES
* MODIFIED:   7/1/2002 By Daniele Beahm to delete SF8 variables not used for Q2 2002
* MODIFIED:   10/16/2002 By Daniele Beahm to delete Q2 2002 Supplemental vars that were on the
*             Q3 2002 data file from NRC.
* MODIFIED:   01/02/2003 By Keith Rathbun: Added ONTIME variable to support the annual
*             version of the database (trickle indicator). This ONTIME variable is
*             only applicable to the annual file and thus should be deleted for the
*             quarterly version of this program.
*
* PURPOSE:    TO MERGE FINAL FILES TOGETHER AND REORDER BY VARIABLE TYPE
*             To reorder variables within the record use a
*             LENGTH statement before the SET statement.
*             Make sure that MPRID is the first variable in the
*             record followed by:
*             1) other sampling variables
*             2) DEERS variables
*             3) Post-stratification vars
*             4) questionnaire responses
*             5) DRC variables
*             6) recoded questionnaire responses
*             3) coding scheme flags
*             8) constructed variables
*             9) weights (NOT AVAILABLE FOR PRELIMINARY DATA)

5. TABLE02.SAS CALCULATES RESPONSE RATES

```

*****
*
* PROGRAM: TABLE02.SAS
* TASK:    2002 DOD HEALTH CARE SURVEY ANALYSIS
* PURPOSE: BUILD TABLE 2: RESPONSE RATES BY DOMAIN SUMMARY
*          Quarterly DOD HEALTH CARE SURVEY FILE.
* WRITTEN: 11/09/1999 BY KEITH RATHBUN
*
* MODIFIED:
* 1) 12/14/2000, Keith Rathbun - Added printing of weighted (WN) and
*   unweighted (SN) population sizes. Also, Update for quarterly survey
*   to use BWT instead of BWT99 (generalized variable name for ease of
*   maintenance).
* 2) 02/01/2001, Keith Rathbun - Added the PERIOD parameter.
* 3) 01/30/2002, Esther Friedman - added nested macro so it would run for all 4 quarters
trickle files
* INCLUDES: 1) TABLE02.IN1
*            2) TABLE02.IN2
*****;

B. MACROS

DESIGN_EFFECTS_UNEQUAL_WEIGHTS.SAS Is a Macro used in Several of the Programs Above and Computes Design Effects Due to Unequal Weights

Name:

design_effects_unequal_weights

Purpose:

Calculate the design effects due to unequal weights. Creates two data sets. One data set contains the overall design effect and the information used to calculate the design effect. The other data set contains the design effects for each category of the analysis variable and the information used to calculate these design effects. In the two data sets, the additional information refers to the number of observations, the sum of the squared weights, and the sum of the weights squared.

Programmer:

Darryl V. Creel

Parameters:

There are five:

- (1) in_data_set - The input data set.
- (2) analysis_variable - The analysis variable contains the categories by which the design effects are calculated.
- (3) weight_variable - The weight variable.
- (4) out_overall_data_set - Name of the data set that contains the overall design effect.
- (5) out_data_set - Name of the output data set that contains the design effects for each category of the analysis variable.

Output:

There are two data sets:

- (1) A data set that contains the overall design effect and the information used to calculate the overall design effect. It includes observations that have a missing value for the analysis variable. This data set is named by the out_overall_data_set parameter.
- (2) A data set that contains the design effects for each category of the analysis variable and the information used to calculate these design effects. There is one observation for each category of the analysis variable, including a missing category, if there are missing values for the analysis variable. This data set is named by the out_data_set parameter.

Side Effects:

None

Notes:

- (1) Use with SAS V8.
- (2) Do NOT use the following variable names as parameters:
 - (a) _weight_variables
 - (b) _overall_design_effect
 - (c) _design_effect.

*****;

```

L. DOD_TRIM.SAS TRIMS THE ANNUAL WEIGHT WITH CUTOFFS SPECIFIED IN LOW.TXT

```

/*****
Program: DOD_TRIM.SAS, based on MACRO_TRIMWGT.SAS
      (edited for trimming CTS 2 weights)
Tasks  : Computes NAEP values and summary statistics of weights
         before and after trimming;
         Trims weights based on defined cutoff value of each
         trimming cell.
Org. Program: WGT_TRM2.SAS, written by Frank Potter  9/23/97
      (saved in E:\p8340\trimwgt)
Modified (add macro processing statements and other statements
         on line 259-289):  by tv, 7/1998
To use the macro:

7. FINAL MERGE

A. QUARTERLY COMBINED DATASET

```
*****
*
* PROGRAM: COMB2002.SAS
* TASK: ANNUAL DOD HEALTH CARE SURVEY ANALYSIS (8860-300)
* PURPOSE: Combine quarterly datasets into one annual file.
*
* WRITTEN: 12/23/2002 BY KEITH RATHBUN.
*
* INPUTS: 1) MERGEQ.SD2 - Q1-Q4 DOD HCS Analysis files (No Weights Added)
*
* OUTPUT: 1) COMB2002.SD2 - Combined quarterly datasets in one annual file
*
* NOTES: 1) The output dataset produced by this program contains all
* of the original quarterly responses plus additional
* responses that "trickled" in after the end of the
* fielding period. The variable called QUARTER can be used
* to identify which version of the quarterly survey is
* applicable to the respondent.

```
*****
*
* PROGRAM:   ADDWGTS.SAS
* TASK:     2002 DOD HEALTH CARE SURVEY ANALYSIS (8860-300)
* PURPOSE:  MERGE THE FINAL WEIGHTS FILE WITH THE FINAL
*           QUESTIONNAIRE/SAMPLE FILE
*
* WRITTEN:  02/02/2001 BY KEITH RATHBUN
*
* MODIFIED: 1) 01/15/2002 BY KEITH RATHBUN: Updated to combine all quarterly
*           datasets including trickles with the annual weights file.
*           2) 12/30/2002 BY KEITH RATHBUN: Updated for 2002 survey.
*
* INPUTS:   1) REPWT.SD2 - Final/Replicated Weights file - FORM A
*           2) COMB2002.SD2 - Combined Q1-Q4 FORM A Questionnaire/Sample File
*
* OUTPUTS:  1) HCSyyA_n.SD2 - Final FORM A Questionnaire/Sample File
*           combined with Final/Replicated Weights file - FORM A
*           where yy = Year
*                 A = Form A - Annual
*                 n = Final Dataset Suffix/Version Number
*
* NOTES:    1) This program combines all of the quarterly input datasets
*           including trickles with the annual weights file.

C. CREATE TRANSPORT FILE FOR DELIVERY
*****
*
* PROGRAM: PROCCOPA.SAS
* PURPOSE: Create XPORT file from SD2
* WRITTEN April 26, 2000 BY Keith Rathbun
* TASK: 2002 Quarterly DoD Database Development (8860-300)
*
* INPUTS: 1) HCSyyq_v.SD2 - DoD Quarterly HCSDB for Adults dataset
*
* OUTPUTS: 1) HCSyyq_v.XPT - DoD Quarterly HCSDB for Adults dataset (XPORT)
*           where yy = 2-digit year
*                 q = Quarter Number
*                 v = Version Number
*
* NOTES: 1) Be sure to update the global parameters for the current
*          quarter (QTR) with the appropriate dataset name (DSN)
*          prior to running this program.
*
*****
* Define global parameters
*****;
%LET DSN = HCS02A_1;
%LET QTR = ..\..\;
*****
* Define SAS libraries and options
*****;
LIBNAME IN V612 "&QTR.DATA";
*****
* Define SAS Transport file
*****;
LIBNAME OUT XPORT "&QTR.DATA\&DSN..XPT";
*****
* Generate SAS Transport file
*****;
PROC COPY IN=IN OUT=OUT ; * Converts input file to transport file;
          SELECT &DSN;    * Selects SD2 file to copy;
RUN;

```

D. REFORMAT CATCHMENT DEFINITION FOR PRIOR YEARS

```
*****
*
* PROJECT: HCSDB Database and Sampling (8860-300/210)
* PROGRAM: CACSMPL.SAS
* TASK: 2002 QUARTERLY DOD HEALTH CARE SURVEY
* PURPOSE: Recalculate CACSMPL to be consistent with the 2002 definition
* used for weighting purposes.
*
* WRITTEN: 1/07/2003 by Esther M. Friedman
*
* MODIFIED: 1) 1/09/2003 by C. Rankin to collapse cacsmpl for the 2000,
* and 2001 Q1-Q4 datasets to be consistent with the 2002
* data.
* 2) 1/14/2003 by K. Rathbun. Added special handling for the
* 2000 data because the variables needed were different.
*
* INPUTS: 1) SAMPLA02.SD2 - Sample file for each time period
* 2) FY200207.SD2 - Catchment Definition file from TMA
* 3) HCS99A_5.SD2 - Original 2000 HCSDB
* 4) HCS00A_1.SD2 - Original 2001 HCSDB
* 5) HCS02A_1.SD2 - Final 2002 HCSDB (used for comparison only)
*
* OUTPUTS: 1) CAC00REV.SD2 - 2000 HCSDB with CACSMPL Redefinition
* 2) CAC01REV.SD2 - 2001 HCSDB with CACSMPL Redefinition
* 3) Cross-Year Comparison Summary Listing
*
* NOTES:
*
* 1) File and folder names used in this program refer to the survey
* administration year.
* 2) For 2000 the CELLP variable is the same as GEOCELL. So, for 2000
* CACSMPL recalculations, the CELLP variable is passed directly into
* the final collapsing as its alias GEOCELL.

APPENDIX H

SAS CODE FOR STATISTICAL AND WEB SPECIFICATION FOR 2002 TRICARE CONSUMER REPORTS

A. QUARTERLY PROGRAMMING STEPS

1. CALCULATE CAHPS ADJUSTED SCORE (QUARTERLY)
 - 1A. CREATE AND RECODE VARIABLES USED IN ADULT CONSUMER REPORTS (QUARTERLY)
 - 1B. CALCULATE CAHPS ADJUSTED SCORES (QUARTERLY)
 - 1C. CALCULATE CAHPS COMPOSITE SCORES (QUARTERLY)
2. CONVERT CAHPS SCORES INTO WEB LAYOUT (QUARTERLY)
3. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB (QUARTERLY)
 - 3A. EXTRACT 2001 ADULT CAHPS QUESTIONS FROM NCBD
 - 3B. RECODE 2001 ADULT CAHPS QUESTIONS FROM NCBD TO BE CONSISTENT WITH THE 2002 HCSDB (QUARTERLY)
 - 3C. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB (QUARTERLY)
 - 3D. CONVERT THE BENCHMARK SCORES DATABASE INTO THE WEB LAYOUT (QUARTERLY)
4. CALCULATE PREVENTIVE CARE COMPOSITE SCORES AND LOAD INTO WEB LAYOUT (QUARTERLY)
5. MERGE THE FINAL QUARTERLY CAHPS AND MPR SCORES DATABASES INTO THE WEB LAYOUT (QUARTERLY)
 - 5A. GENERATE WEB LAYOUT FOR THE 2002 TRICARE CONSUMER REPORTS (QUARTERLY)
 - 5B. MERGE THE FINAL QUARTERLY CAHPS AND MPR SCORES DATABASES INTO THE WEB LAYOUT (QUARTERLY)
6. GENERATE CAHPS CONUS SCORES AND PERFORM SIGNIFICANCE TESTS (QUARTERLY)
7. CALCULATE CAHPS TOTAL SCORES AND CONDUCT SIGNIFICANCE TEST (QUARTERLY)
8. GENERATE HTML FILE FOR THE 2002 TRICARE CONSUMER REPORTS (QUARTERLY)
9. QUALITY ASSURANCE FOR CONSUMER REPORTS (QUARTERLY)

B. ANNUAL PROGRAMMING STEPS

10. CALCULATE CAHPS ADJUSTED SCORE (ANNUAL)
 - 11A. CREATE AND RECODE VARIABLES USED IN ADULT CONSUMER REPORTS (ANNUAL)
 - 11B. CALCULATE CAHPS ADJUSTED SCORES (ANNUAL)
 - 11C. CALCULATE CAHPS COMPOSITE SCORES (ANNUAL)
11. CONVERT CAHPS SCORES INTO WEB LAYOUT (ANNUAL)
12. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB (ANNUAL)
 - 12A. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB (ANNUAL)
 - 12B. CONVERT THE BENCHMARK SCORES DATABASE INTO THE WEB LAYOUT (ANNUAL)
13. CALCULATE PREVENTIVE CARE COMPOSITE SCORES AND LOAD INTO WEB LAYOUT (ANNUAL)
14. CALCULATE TREND & PERFORM SIGNIFICANCE TESTS ON MPR SCORES (ANNUAL ONLY)
15. MERGE THE FINAL 2000-2002 CAHPS AND MPR SCORES DATABASES INTO THE WEB LAYOUT (ANNUAL)
 - 15A. GENERATE WEB LAYOUT FOR THE 2002 TRICARE CONSUMER REPORTS (ANNUAL)
 - 15B. MERGE THE FINAL 2000-2002 CAHPS AND MPR SCORES DATABASES INTO THE WEB LAYOUT (ANNUAL)
16. GENERATE CAHPS CONUS SCORES AND PERFORM SIGNIFICANCE TESTS (ANNUAL)
17. CALCULATE CAHPS TOTAL SCORES AND CONDUCT SIGNIFICANCE TEST (ANNUAL)
18. CALCULATE TRENDS FOR CAHPS SCORES (ANNUAL ONLY)
19. GENERATE HTML FILE FOR THE 2002 TRICARE CONSUMER REPORTS (ANNUAL)
20. QUALITY ASSURANCE FOR CONSUMER REPORTS (ANNUAL)

1. CALCULATE CAHPS ADJUSTED SCORES - QUARTERLY
 1A. CREATE AND RECODE VARIABLES USED IN ADULT CONSUMER REPORTS - QUARTERLY

```

*****
*
* PROJECT: DoD - Quarterly Adult Report Cards
* PROGRAM: STEP1Q.SAS
* PURPOSE: Create Dummy and Recode Variables used in Adult Report Card
*          Create a Female dummy variable
*          Create an Education dummy variable
*          Create 15 region dummies combining regions.
*          7 & 8 into region 8. That is, there
*          isn't a region 7 dummy.
*          Create 7 age dummy variables.
*
*          We require the most desired code to be the highest value.
*          Recode the dependent variables into:
*          1 - the least desirable value
*          2 - the 2nd least desirable value
*          3 - the most desirable value
*          . - missing
*
*          Create 7 variables GROUP1 - GROUP7
*          IF (XINS_COV IN (1,2,6) AND H02007>=2) THEN GROUP1 = 1
*          IF (XENR_PCM IN (1,2,6) AND H02007>=2) THEN GROUP2 = 1
*          IF (XENR_PCM = 3,7 AND H02007>=2) THEN GROUP3 = 1
*          IF XINS_COV IN (3,4,5) THEN GROUP4 = 1
*          IF XBNFGRP = 1 THEN GROUP5 = 1
*          IF XBNFGRP = 2 THEN GROUP6 = 1
*          IF XBNFGRP IN (3,4) THEN GROUP7 = 1
*          GROUP8 is output for all beneficiaries
*
* MODIFIED: 1) February 2001 By Keith Rathbun, Update for quarterly
*           adult report cards. Removed permanent dataset ENTIRE.SD2.
*           2) August 2001 By Keith Rathbun, Updated DSN and LIBNAME
*           for 3rd quarter adult report cards.
*           3) OCTOBER 2001 BY DANIELE BEAHM, Because there was no post-
*           stratification done in Q3, changed all references of the
*           POSTSTR variable to ADJ_CELL
*           4) JANUARY 2002 BY DANIELE BEAHM, Modified group3 to include
*           XENR_PCM
*           5) April 2002 By Mike Scott, Updated variable names for 2002
*           survey.
*           6) July 2002 By Mike Scott: See Note #2. Replaced variable
*           S02S01 with H02076 (new health status variable), deleted
*           code to recode S02S01 to H00077, and changed H00077/R00077
*           rename/recode to H02076/R02076 rename/recode. The Hispanic/
*           Latino variable is not present.
*           7) January 2003 By Mike Scott, Changed ADJ_CELL to COM_SAMP.
*
* INPUTS: 1) HCS024_1 - DoD Quarterly HCS Database /* Q4_2002 */
*
* OUTPUTS: 1) GROUP1-8.SD2 - DoD Quarterly GROUP files as defined above
*
* INCLUDES: 1) CONVERT.SAS - Convert item responses to proportional
*           values for consistency w/ TOPS
*
* NOTES: 1) Groups 1-3 modified 10/09/2000
*
*           2) In Q1_2002, S02S01 was renamed and recoded to H00077 (health
*           status variable for 2000). H02077 was the Hispanic/Latino
*           variable. In Q2_2002, H02077 is health status, and H02079
*           is the Hispanic/Latino variable. To make the Quarter 2 data
*           file (HSC022_1.sd2) more consistent with the Quarter 1 file,
*           the health status variable which was H02077 is now H02076,
*           and the Hispanic/Latino variable which was H02079 is now
*           H02077.

1B. CALCULATE CAHPS ADJUSTED SCORES - QUARTERLY

*

* Project: DoD - Quarterly Adult Report Cards
* Program: STEP2Q.SAS
* Purpose: Generate risk-adjusted CAHPS Scores for Adult Report Card.

* Requires: Program STEP1Q.SAS must be run prior to running this program.

* The adult report card contains a large number of risk-adjusted scores.
* Some scores are calculated from responses to individual survey questions.
* Composite scores are calculated by combining scores from individual
* questions. The scores then are compared with external civilian
* benchmarks. The programming tasks involved in building the report
* card are:

- * 1) Preparing data for analyses
- * 2) Estimating risk adjustment models
- * 3) Calculating risk-adjusted values and variances
- * 4) Calculating benchmarks
- * 5) Comparing risk-adjusted values to benchmarks
and hypothesis testing

* Subgroup Definitions:

Seven Subgroups	Definitions
1. Prime enrollees	XINS_COV IN (1,2,6) AND H02007>=2
2. Enrollees w/mil PCM	XENR_PCM IN (1,2,6) AND H02007>=2
3. Enrollees w/civ PCM	XENR_PCM = 3 AND H02007>=2
4. Nonenrollees	XINS_COV IN (3,4,5)
5. Active duty	XBNFGRP = 1
6. Active duty dependents	XBNFGRP = 2
7. Retirees and dependents	XBNFGRP IN (3,4)

* Previous Program: STEP1Q.SAS

* Modified: 1) 04/10/02 By Mike Scott, Updated variable names for 2002
survey.
* 2) 07/11/02 By Mike Scott, Changed R00077 to R02076, since
H02077 (health status) is back and was recoded to R02076
in STEP1Q.

1C. CALCULATE CAHPS COMPOSITE SCORES - QUARTERLY

```

*****
* Project: DoD - Quarterly Adult Report Cards
* Program: COMPOSIT.SAS
* Purpose: Generate Quarterly Adult Report Card composite scores
* Requires: Programs STEP1Q.SAS and STEP2Q.SAS must be run prior
*           to this program.
*
* Modified: 1) 02/27/2001 By Keith Rathbun, Small changes to input DSNs to
*           accommodate the move of ALLSCORE.SAS functionality into the
*           STEP2Q.SAS program.
*           2) 01/08/2002 By Daniele Beahm, Changed versions in libname statements
*           so program can be run with SAS v8 and still produce SAS v612 datasets.
*           3) 04/10/2002 By Mike Scott, Updated variable names for 2002
*           survey.

2. CONVERT CAHPS SCORES INTO WEB LAYOUT (QUARTERLY)

```
*****
*
* PROGRAM:   LOADCAHQ.SAS
* TASK:     Quarterly DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE:  Convert the CAHPS Scores Database into the WEB layout
*
* WRITTEN:  11/09/2000 BY KEITH RATHBUN, Adapted from LOADCAHP.SAS.
*
* INPUTS:   1) CAHPS Individual and Composite data sets with adjusted scores
*
* OUTPUT:   1) LOADCAHQ.SD2 - Combined CAHPS Scores Database in WEB layout
*
* INCLUDES: 1) LOADCAHQ.INC - Format definitions for CAHPS Individual
*             and composite data sets
*
* NOTES:
*
* 1) The following steps need to be run prior to this program:
*   - STEP1Q.SAS - Recode questions and generate group files
*   - STEP2Q.SAS - Calculate individual adjusted scores for group 1-7
*   - COMPOSIT.SAS - Calculate composite adjusted scores for group 1-8
*
* 2) The output file (LOADCAHQ.SD2) will be run through the
*   MAKEHTMQ.SAS program to generate the WEB pages.
*
* MODIFIED:
*
* 1) 04/10/2002 BY MIKE SCOTT, Updated variable names for 2002 survey.
*****

*
* PROGRAM:   LOADCAHQ.INC
* TASK:     QUARTERLY DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE:  Format definitions for converting the CAHPS Scores Database
*           into the WEB layout.
*
* WRITTEN:  11/09/2000 BY KEITH RATHBUN, Adapted from LOADCAHP.INC.
*
* MODIFIED: 1) 08/13/2001 BY KEITH RATHBUN, Added XSERVAFF format to
*           accomodate the short reports.
*           2) 01/24/2002 BY KEITH RATHBUN, Added BENTYPF = 1998,1999,2000
*           added catchment composites.
*           3) 04/10/2002 BY KEITH RATHBUN, Added parameters for 2002 survey.
*
* INPUTS:   No direct input
*
* OUTPUT:   No direct output
*

```

```

* NOTES:      1) Under the new contract (8860), the survey year was changed
*              to be based on the year the survey is administered (2002)
*              as opposed to the questioning reference frame (2001). This
*              include file contains variable names for both the 2001
*              survey administration year and the the 2002 administration
*              year surveys.

3C. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB (QUARTERLY)

```
*****
*
* PROGRAM:  BENCHAO3.SAS
* TASK:    2000 DOD HEALTH CARE SURVEY ANALYSIS (8687-430)
* PURPOSE: Adjust 2000 Adult CAHPS Benchmarks
*
* WRITTEN: June 2000 BY ERIC SCHONE
*
* INPUTS:  1) BENCHAO2.SD2 - 2000 Adult CAHPS Questions Renamed to be
*           consistent with the 2000 MPR DOD Survey.
*           2) GROUP8.SD2 - CAHPS Group8 (all beneficiaries) Dataset
*
* OUTPUTS: 1) Benchmark Composite Scores Data Sets
*
* MODIFIED: 1) Nov 2000 BY ERIC SCHONE - Output permanent datasets with
*           scores and standard errors and process the rest of the
*           composites and ratings.
*           2) Dec 2000 BY KEITH RATHBUN - Update variable names for
*           Q1 2000 Survey.
*           3) Jan 2002 BY KEITH RATHBUN - Updated to run under SAS
*           version 8 (changed INTERCEP to INTERCEPT).
*           4) Apr 2002 BY MIKE SCOTT - Updated variable names for Q1
*           2002 Survey.
*           5) Jul 2002 BY MIKE SCOTT - Changed R00077 to R02076, since
*           H02077 (health status) is back and was renamed to R02076
*           in HSC022_1.sd2.
*
* NOTES:
*
* 1) Run this program after BENCHAO1.SAS and BENCHAO2.SAS.
* 2) This program will generate the input for BENCHAO4.SAS.
*

3D. CONVERT THE BENCHMARK SCORES DATABASE INTO THE WEB LAYOUT (QUARTERLY)

```

*****
*
* PROGRAM:  BENCHA04.SAS
* TASK:    Quarterly DOD HEALTH CARE SURVEY ANALYSIS (8687-430)
* PURPOSE: Convert the Benchmark Scores Database into the WEB layout
*
* WRITTEN: 06/01/2000 BY KEITH RATHBUN
*
* INPUTS:  1) Benchmark data sets with adjusted scores
*           (COMPn_i.SD2 where n = composite number and i = group number)
*
* OUTPUT:  1) BENCHA04.SD2 - Combined Benchmark Scores Database in WEB layout
*
* INCLUDES: 1) LOADCAHQ.INC - Format definitions for CAHPS Individual
*             and composite data sets
*
* MODIFIED: 1) Dec 2000 by Keith Rathbun: Updated variable names for
*             Q1 2000 Survey. For the quarterly survey group 8 (all benes)
*             is being used as the benchmark for all groups (1-8). Thus,
*             this group is copied and output to each of the other 7 groups.
*             2) 01/23/2002 by Mike Scott: Updated variable names to be consistent
*             with 2000 survey.
*             4) 04/15/2002 by Mike Scott - Updated variable names for
*             Q1 2002 Survey.
*
* NOTES:
*
* 1) The following steps need to be run prior to this program:
*   - BENCHA01.SAS - Extract Benchmark variables
*   - BENCHA02.SAS - Recode Benchmark variables
*   - BENCHA03.SAS - Construct Scores and SEMEAN datasets
*
* 2) The output file (BENCHA04.SD2) will be run through the
*   MAKEHTML.SAS program to generate the WEB pages.
*

4. CALCULATE PREVENTIVE CARE COMPOSITE SCORES AND LOAD INTO WEB LAYOUT (QUARTERLY)

```
*****
* PROJECT: DOD REPORTING AND ANALYSIS 8860-410
* PROGRAM: PRVCOMPQ.SAS
* AUTHOR: CHRIS RANKIN
* DATE: 12/22/2000
* MODIFIED: 4/19/2001 BY KEITH RATHBUN: RESTRICT POPULATION TO
* XINS_COV IN(1,2,3,6). USE POSTSTR INSTEAD OF
* ADJ_CELL.
* MODIFIED: 10/25/01 BY DANIELE BEAHM: BECAUSE NO POSTSTRATIFICATION
* WAS DONE FOR Q3 2000, CHANGED POSTSTR BACK TO ADJ_CELL
* 04/09/02 MODIFIED MACROS THE FIRST THREE MACROS TO CREATE
* TEMPORARY DATASETS (INSTEAD OF WRITING PERMANENT DATASETS)
* 07/15/02 BY MIKE SCOTT: CHANGED HCS021 TO HCS022 FOR Q2 2002.
* 01/12/03 BY MIKE SCOTT: CHANGED ADJ_CELL TO COM_SAMP.
* PURPOSE: CALCULATE MPR PREVENTIVE CARE COMPOSITES
* INPUT: \\DOD\FILES\DOD\Q4_2000\DATA\AFINAL\HCS024_1.SD2
* OUTPUT: RFINAL.SD2
* CFINAL.SD2
* MFINAL.SD2
* INCLUDE
* FILES: LOADCAHPQ.INC
* NOTE: NEXT PROGRAM IS LOADMPRQ.SAS

```
*****
* PROJECT: DOD Quarterly Survey, Consumer Reports (8860-410)
* PROGRAM: FAKEQ.SAS
* PURPOSE: Generate Fake Data for Report Cards
* AUTHOR: Mark A. Brinkley
*
* MODIFIED: 1) July 2000 By Eric Schone to utilize CACRPT and CATREP
*           include files.
*           2) February 2001 By Keith Rathbun - More updates for
*           Quarterly report card format. Made FAKE datastep into
*           a macro to handle multiple quarters. Added QTR and
*           PERIOD parameters.
*           3) July 2001 By Mark Brinkley - Updated for
*           Quarterly 2 reports
*           4) April 2002 By Keith Rathbun - Updated DSN and %LET
*           statements for 2002 reports and added TREND records.
*           Removed Flu Shot.
*           5) July 2002 By Mike Scott - Updated DSN and %LET statements
*           for Q2 2002 reports.
*
* INCLUDES: 1) CACRPT.INC - Report Card Catchment Definitions
*           2) CATREP.INC - Report Card Catchment Format Defns
*

*****
*
* PROGRAM:  MERGFINQ.SAS
* TASK:    Quarterly DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE: Merge the final CAHPS and MPR Scores Databases
*          into the WEB layout preserving the order of the FAKEQ.SD2.
*
* WRITTEN: 11/09/2000 BY KEITH RATHBUN, Adapted from MERGFINL.SAS.
*
* INPUTS:  1) MPR and CAHPS Individual and Composite data sets with adjusted
*          scores, and benchmark data for quarterly DoD HCS.
*          - LOADMPRQ.SD2 - MPR Scores Database
*          - LOADCAHQ.SD2 - CAHPS Scores Database
*          - BENCHA04.SD2 - 2001 CAHPS Benchmark Database
*          - FAKEQ.SD2   - WEB Layout in Column order
*
* OUTPUT:  1) MERGFINQ.SD2 - Combined Scores Database in WEB layout
*
* INCLUDES: 1) LOADCAHQ.INC - Format definitions for CAHPS Individual
*          and composite data sets
*
* MODIFIED: 1) 07/15/2002 by Mike Scott: Updated libnames for Q2 2002.
*
* NOTES:
*
* 1) The following steps need to be run prior to this program:
*   - STEP1Q.SAS      - Recode questions and generate CAHPS group files
*   - STEP2Q.SAS      - Calculate CAHPS individual adjusted scores for groups 1-7
*   - COMPOSIT.SAS     - Calculate composite adjusted scores for group 1-8
*   - PRVCOMPQ.SAS    - Calculate MPR individual and composite scores
*   - BENCHA01-04.SAS - Convert 2000 Benchmark Scores into WEB layout
*   - LOADCAHQ.SAS    - Convert Quarterly CAHPS Scores Database into WEB layout
*   - LOADMPRQ.SAS    - Convert Quarterly MPR Scores Database into WEB layout
*
* 2) The output file (MERGFINQ.SD2) will be run through the
*   MAKEHTMQ.SAS program to generate the WEB pages.

6. GENERATE CAHPS CONUS SCORES AND PERFORM SIGNIFICANCE TESTS (QUARTERLY)

```
*****
*
* PROGRAM: CONUS_Q.SAS
* TASK: QUARTERLY DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE: GENERATE CAHPS CONUS SCORES AND PERFORM SIGNIFICANCE TESTS.
*
* WRITTEN: 11/13/2000 BY KEITH RATHBUN, ADAPTED FROM CONUS_A.SAS.
* MERGED SIGNIF_A.SAS FUNTIONALITY.
*
* MODIFIED: 1) 04/10/2002 BY KEITH RATHBUN, UPDATE FOR 2002 SURVEY:
* CHANGED CODE TO PROCESS 4 ROLLING QUARTERS.
* 2) 04/30/2002 BY ERIC SCHONE, TO CALCULATE & TEST TREND.
* 3) 07/17/2002 BY MIKE SCOTT, UPDATED %LET STATEMENTS FOR
* Q2 2002.
*
* INPUTS: 1) MERGFINQ.SD2 - SCORES DATABASE IN WEB LAYOUT
* 2) FAKEQ.SD2 - SCORES DATABASE WEB LAYOUT
* 3) CONUS_Q.SD2 - PREVIOUS QUARTERS' COMBINED CAHPS/MPR SCORES DATABASE IN WEB LAYOUT
*
* OUTPUT: 1) CONUS_Q.SD2 - COMBINED CAHPS/MPR SCORES DATABASE IN WEB LAYOUT
* 2) LT30Q.SD2 - RECORDS WITH <= 30 OBSERVATIONS
*
* NOTES:
*
* 1) THE FOLLOWING STEPS NEED TO BE RUN PRIOR TO THIS PROGRAM:
* - STEP1Q.SAS - RECODE QUESTIONS AND GENERATE GROUP FILES
* - STEP2Q.SAS - CALCULATE INDIVIDUAL ADJUSTED SCORES FOR GROUP 1-7
* - COMPOSIT.SAS - CALCULATE COMPOSITE ADJUSTED SCORES FOR GROUP 1-8
* - MERGFINQ.SAS - MERGE THE FINAL CAHPS AND MPR SCORES DATABASES

7. CALCULATE CAHPS TOTAL SCORES AND CONDUCT SIGNIFICANCE TEST (QUARTERLY)

```
*****
*
* PROGRAM: TOTAL_Q.SAS
* TASK: QUARTERLY DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE: GENERATE TOTAL SCORES AND PERFORM SIGNIFICANCE TESTS.
*
* WRITTEN: 12/15/2000 BY KEITH RATHBUN
*
* MODIFIED: 1) MAY 2001 BY ERIC SCHONE, MODIFIED CALCULATIONS FOR
* TOTAL SCORE.
* 2) JULY 2002 BY MIKE SCOTT, UPDATED PERIOD FOR Q2 2002 SURVEY.
* 3) FEBRUARY 2003 BY MIKE SCOTT, ADDED CODE TO CHANGE "PRIMARY CARE
* MANAGER" IN BENEFIT TO "PERSONAL DOCTOR".
*
* INPUTS: 1) CONUS_Q.SD2 - SCORES DATABASE IN WEB LAYOUT
* 2) FAKEQ.SD2 - SCORES DATABASE WEB LAYOUT
* 3) FACTCOMP.SD2 - TOTAL SCORES (PART 1)
*
* OUTPUT: 1) TOTAL_Q.SD2 - COMBINED CAHPS/MPR/TOTAL SCORES DATABASE IN WEB LAYOUT
*
* NOTES:
*
* 1) THE FOLLOWING STEPS NEED TO BE RUN PRIOR TO THIS PROGRAM:
* - STEP1Q.SAS - RECODE QUESTIONS AND GENERATE GROUP FILES
* - STEP2Q.SAS - CALCULATE INDIVIDUAL ADJUSTED SCORES FOR GROUP 1-8
* - COMPOSIT.SAS - CALCULATE COMPOSITE ADJUSTED SCORES FOR GROUP 1-8
* - MERGFINQ.SAS - MERGE THE FINAL CAHPS AND MPR SCORES DATABASES

9. QUALITY ASSURANCE FOR CONSUMER REPORTS (QUARTERLY)

```

=====;
*
* Programmer: Mark A. Brinkley ;
* Title: QC_ADULT.SAS ;
* Client: 8860-410 ;
* Date: 03-29-2000 ;
*
* Purpose: This program is designed to read in ALL adult html ;
* files, extract the table data, and then compare ;
* this data to the input data which was used to ;
* create the html report cards. If everything is OK, ;
* then the comparison should yield no differences. ;
*
* Input files: 1) All F*.HTM files ;
* 2) TOTAL_Q.SD2 ;
*
* Modifications: ;
* 1) 02/14/2001 - Keith Rathbun, Remove outputting of permanent ;
* SAS Dataset. Deleted directory output file. Removed white ;
* space from program. Removed BY statement from proc compares. ;
* Added titles. Setup to run in LOADWEB directory on Jdrive. ;
*
* 2) 04/18/2001 - Chris Rankin -- added Macro to process ;
* frames and non-frames version separately ;
*
* 3) 04/10/2002 - Keith Rathbun -- updated Project/Task number. ;
* No code changes required. ;
*
* 4) 08/14/2002 - Mark Brinkley ;
* - Added kludge to remove '>' from SCORE ;
* - Added DROP=SCORE since don't need to pull ;
* in SCORE from TESTFILE file. Was causing ;
* a type mismatch error. ;
*
* 5) 08/14/2002 - Keith Rathbun ;
* - Added kludge to reset SIG to 0 for trend ;
* records that have no score. ;
*
* Output files: Comparison summary listing ;
*

10. CALCULATE CAHPS ADJUSTED SCORES - ANNUAL

10.A. CREATE AND RECODE VARIABLES USED IN ADULT CONSUMER REPORTS - ANNUAL

```
*****
*
* PROJECT: DoD - Quarterly Adult Report Cards
* PROGRAM: STEP1Q.SAS
* PURPOSE: Create Dummy and Recode Variables used in Adult Report Card
*          Create a Female dummy variable
*          Create an Education dummy variable
*          Create 15 region dummies combining regions.
*          7 & 8 into region 8. That is, there
*          isn't a region 7 dummy.
*          Create 7 age dummy variables.
*
* We require the most desired code to be the highest value.
* Recode the dependent variables into:
*   1 - the least desirable value
*   2 - the 2nd least desirable value
*   3 - the most desirable value
*   . - missing
*
* Create 7 variables GROUP1 - GROUP7
*   IF (XINS_COV IN (1,2,6) AND H02007>=2) THEN GROUP1 = 1
*   IF (XENR_PCM IN (1,2,6) AND H02007>=2) THEN GROUP2 = 1
*   IF (XENR_PCM = 3,7 AND H02007>=2) THEN GROUP3 = 1
*   IF XINS_COV IN (3,4,5) THEN GROUP4 = 1
*   IF XBNFGRP = 1 THEN GROUP5 = 1
*   IF XBNFGRP = 2 THEN GROUP6 = 1
*   IF XBNFGRP IN (3,4) THEN GROUP7 = 1
*   GROUP8 is output for all beneficiaries
*
* MODIFIED: 1) February 2001 By Keith Rathbun, Update for quarterly
*            adult report cards. Removed permanent dataset ENTIRE.SD2.
*            2) August 2001 By Keith Rathbun, Updated DSN and LIBNAME
*            for 3rd quarter adult report cards.
*            3) OCTOBER 2001 BY DANIELE BEAHM, Because there was no post-
*            stratification done in Q3, changed all references of the
*            POSTSTR variable to ADJ_CELL
*            4) JANUARY 2002 BY DANIELE BEAHM, Modified group3 to include
*            XENR_PCM
*            5) April 2002 By Mike Scott, Updated variable names for 2002
*            survey.
*            6) July 2002 By Mike Scott: See Note #2. Replaced variable
*            S02S01 with H02076 (new health status variable), deleted
*            code to recode S02S01 to H00077, and changed H00077/R00077
*            rename/recode to H02076/R02076 rename/recode. The Hispanic/
*            Latino variable is not present.
*
* INPUTS: 1) HCS024_1 - DoD Quarterly HCS Database /* Q4_2002 */
*
* OUTPUTS: 1) GROUP1-8.SD2 - DoD Quarterly GROUP files as defined above
*
* INCLUDES: 1) CONVERT.SAS - Convert item responses to proportional
*            values for consistency w/ TOPS
*
* NOTES: 1) Groups 1-3 modified 10/09/2000
*
*            2) In Q1_2002, S02S01 was renamed and recoded to H00077 (health
*            status variable for 2000). H02077 was the Hispanic/Latino
*            variable. In Q2_2002, H02077 is health status, and H02079
*            is the Hispanic/Latino variable. To make the Quarter 2 data
*            file (HSC022_1.sd2) more consistent with the Quarter 1 file,
*            the health status variable which was H02077 is now H02076,
*            and the Hispanic/Latino variable which was H02079 is now
*            H02077.

10.B. CALCULATE CAHPS ADJUSTED SCORES - ANNUAL

```

*****
/* Project: DoD - 1999 Adult Report Cards
/* Program: STEP2.SAS
/* Purpose: Draft Adult Report Card
/* Requires program STEP1.SAS to have been run
/* Programming specifications for adult report card
/* The adult report card contains a large number of
/* risk-adjusted scores. Some scores are
/* calculated from responses to individual survey questions.
/* Composite scores are calculated by
/* combining scores from individual questions.
/* The scores then are compared with external civilian
/* benchmarks. The programming tasks involved in building
/* the report card are:
/* 1) preparing data for analyses
/* 2) estimating risk adjustment models
/* 3) calculating risk-adjusted values and variances
/* 4) calculating benchmarks
/* 5) comparing risk-adjusted values to benchmarks
/* and hypothesis testing
/*
/* Modified: 1) December 2001 By Mike Scott: Updated parameters for 2000 survey,
/* added V612 to support SUDAAN with Version 8 SAS, changed STRATUM to
/* TMP_CELL, and changed INTERCEP to INTERCEPT to support Version 8 SAS.
/* 2) January 2003 By Keith Rathbun: Added output files for SKELCAT and
/* SKELREG (No longer permanent datasets... only needed by this program).
/*
/* SUBGROUPS

10.C. CALCULATE CAHPS COMPOSITE SCORES - ANNUAL
*****
* Project: DoD - Quarterly Adult Report Cards
* Program: COMPOSIT.SAS
* Purpose: Generate Quarterly Adult Report Card composite scores
* Requires: Programs STEP1Q.SAS and STEP2Q.SAS must be run prior
*           to this program.
*
* Modified: 1) 02/27/2001 By Keith Rathbun, Small changes to input DSNs to
*               accommodate the move of ALLSCORE.SAS functionality into the
*               STEP2Q.SAS program.
*           2) 01/08/2002 By Daniele Beahm, Changed versions in libname statements
*               so program can be run with SAS v8 and still produce SAS v612 datasets.
*           3) 04/10/2002 By Mike Scott, Updated variable names for 2002
*               survey.

11. CONVERT CAHPS SCORES INTO WEB LAYOUT

```
*****
*
* PROGRAM:   LOADCAHP.SAS
* TASK:     2002 DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE:  Convert the CAHPS Scores Database into the WEB layout
*
* WRITTEN:  06/01/2000 BY KEITH RATHBUN
*
* MODIFIED: 1) 01/28/2002 BY KEITH RATHBUN, Updated to support the 2000 survey.
*           2) 01/07/2003 BY KEITH RATHBUN, Updated to support the 2002 survey.
*
* INPUTS:   1) CAHPS Individual and Composite data sets with adjusted scores
*
* OUTPUT:   1) LOADCAHP.SD2 - Combined CAHPS Scores Database in WEB layout
*
* INCLUDES: 1) LOADCAHQ.INC - Format definitions for CAHPS Individual
*             and composite data sets
*           2) CATREP.INC - Catchment definitions for WEB
*
* NOTES:
*
* 1) The following steps need to be run prior to this program:
*   - STEP1.SAS - Recode questions and generate group files
*   - STEP2.SAS - Calculate individual adjusted scores for group 1-8
*   - COMPOSIT.SAS - Calculate composite adjusted scores for group 1-8
*
* 2) The output file (LOADCAHP.SD2) will be run through the
*   MAKEHTML.SAS program to generate the WEB pages.
*

*
* PROGRAM:   LOADCAHQ.INC
* TASK:     QUARTERLY DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE:  Format definitions for converting the CAHPS Scores Database
*           into the WEB layout.
*
* WRITTEN:  11/09/2000 BY KEITH RATHBUN, Adapted from LOADCAHP.INC.
*
* MODIFIED: 1) 08/13/2001 BY KEITH RATHBUN, Added XSERVAFF format to
*           accomodate the short reports.
*           2) 01/24/2002 BY KEITH RATHBUN, Added BENTYPF = 1998,1999,2000
*           added catchment composites.
*           3) 04/10/2002 BY KEITH RATHBUN, Added parameters for 2002 survey.
*
* INPUTS:   No direct input
*
* OUTPUT:   No direct output
*
* NOTES:    1) Under the new contract (8860), the suvey year was changed
*           to be based on the year the survey is administered (2002)
*           as opposed to the questioning reference frame (2001). This
*           include file contains variable names for both the 2001
*           survey administration year and the the 2002 administration
*           year surveys.

12. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB - ANNUAL

12.A. CALCULATE 2001 CAHPS BENCHMARK DATA FOR 2002 HCSDB - ANNUAL

*
* PROGRAM: BENCHA03.SAS
* TASK: 2000 DOD HEALTH CARE SURVEY ANALYSIS (8687-430)
* PURPOSE: Adjust 2000 Adult CAHPS Benchmarks
*
* WRITTEN: June 2000 BY ERIC SCHONE
*
* INPUTS: 1) BENCHA02.SD2 - 2000 Adult CAHPS Questions Renamed to be
* consistent with the 2000 MPR DOD Survey.
* 2) GROUP8.SD2 - CAHPS Group8 (all beneficiaries) Dataset
*
* OUTPUTS: 1) Benchmark Composite Scores Data Sets
*
* MODIFIED: 1) Nov 2000 BY ERIC SCHONE - Output permanent datasets with
* scores and standard errors and process the rest of the
* composites and ratings.
* 2) Dec 2000 BY KEITH RATHBUN - Update variable names for
* Q1 2000 Survey.
* 3) Jan 2002 BY KEITH RATHBUN - Updated to run under SAS
* version 8 (changed INTERCEP to INTERCEPT).
* 4) Apr 2002 BY MIKE SCOTT - Updated variable names for Q1
* 2002 Survey.
* 5) Jul 2002 BY MIKE SCOTT - Changed R00077 to R02076, since
* H02077 (health status) is back and was renamed to R02076
* in HSC022_1.sd2.
*
* NOTES:
*
* 1) Run this program after BENCHA01.SAS and BENCHA02.SAS.
* 2) This program will generate the input for BENCHA04.SAS.
*

* Assign data libraries and options

12.B. CONVERT THE BENCHMARK SCORES DATABASE INTO THE WEB LAYOUT - ANNUAL
*****
*
* PROGRAM:  BENCHA04.SAS
* TASK:     Quarterly DOD HEALTH CARE SURVEY ANALYSIS (8687-430)
* PURPOSE:  Convert the Benchmark Scores Database into the WEB layout
*
* WRITTEN:  06/01/2000 BY KEITH RATHBUN
*
* INPUTS:   1) Benchmark data sets with adjusted scores
              (COMPn_i.SD2 where n = composite number and i = group number)
*
* OUTPUT:   1) BENCHA04.SD2 - Combined Benchmark Scores Database in WEB layout
*
* INCLUDES: 1) LOADCAHQ.INC - Format definitions for CAHPS Individual
              and composite data sets
*
* MODIFIED: 1) Dec 2000 by Keith Rathbun: Updated variable names for
              Q1 2000 Survey. For the quarterly survey group 8 (all benes)
              is being used as the benchmark for all groups (1-8). Thus,
              this group is copied and output to each of the other 7 groups.
*
              2) 01/23/2002 by Mike Scott: Updated variable names to be consistent
              with 2000 survey.
*
              4) 04/15/2002 by Mike Scott - Updated variable names for
              Q1 2002 Survey.
*
* NOTES:
*
* 1) The following steps need to be run prior to this program:
*   - BENCHA01.SAS - Extract Benchmark variables
*   - BENCHA02.SAS - Recode Benchmark variables
*   - BENCHA03.SAS - Construct Scores and SEMEAN datasets
*
* 2) The output file (BENCHA04.SD2) will be run through the
*   MAKEHTML.SAS program to generate the WEB pages.
*

13. CALCULATE PREVENTIVE CARE COMPOSITE SCORES AND LOAD INTO WEB LAYOUT (ANNUAL)

```
* Project: DoD Reporting and Analysis 8860-400
* Program: PRVCOMP.SAS
* Author: Chris Rankin
* Date: 12/22/2000
* Modified: 4/19/2001 By Keith Rathbun: Restrict population to
* xins_cov in(1,2,3,6). Use POSTSTR instead of
* adj_cell.
* Modified: 10/25/01 By Daniele Beahm: Because no poststratification
* was done for q3 2000, changed POSTSTR back to ADJ_CELL
* 04/09/02 modified macros the first three macros to create
* temporary datasets (instead of writing permanent datasets)
* 01/29/03 By Chris Rankin Added &YR to output variable names
* for the Trend program
* Purpose: Calculate MPR Preventive Care Composites
* Input: \\DOD\2002\DATA\AFINAL\HCS02A_1.SD2
* Output: RFINAL.SD2
* CFINAL.SD2
* MFINAL.SD2
* Include
* Files: LOADCAHPQ.INC
* CATREP.INC
* Note: Next program is Loadmprq.sas

15.B. MERGE THE FINAL 2000-2002 CAHPS AND MPR SCORES DATABASES INTO THE WEB LAYOUT - ANNUAL

```

*****
*
* PROGRAM:   MERGFINL.SAS
* TASK:     2002 DOD HEALTH CARE SURVEY ANALYSIS (8860-410)
* PURPOSE:  Merge the final CAHPS and MPR Scores Databases
*           into the WEB layout preserving the order of the FAKE.SD2.
*
* WRITTEN:  06/07/2000 BY KEITH RATHBUN
*
* MODIFIED: 1) 01/09/2002 BY KEITH RATHBUN: Updated to support the 2000
*           annual HCSDB.
*           2) 01/07/2002 BY KEITH RATHBUN: Updated to support the 2002
*           annual HCSDB.
*
* INPUTS:   1) MPR and CAHPS Individual and Composite data sets with adjusted
*           scores, and benchmark data for 1999-2002 DoD HCS.
*           - LOADMPR.SD2 - 1999-2002 MPR Scores Databases
*           - LOADCAHP.SD2 - 1999-2002 CAHPS Scores Databases
*           - BENCHA04.SD2 - 1999-2002 CAHPS Benchmark Databases
*           - FAKE.SD2   - WEB Layout in Column order
*
* OUTPUT:   1) MERGFINL.SD2 - Combined Scores Database in WEB layout
*
* NOTES:
*
* 1) The following steps need to be run prior to this program (1999,2000,2001,2002):
* - STEP1.SAS - Recode questions and generate CAHPS group files
* - STEP2.SAS - Calculate CAHPS individual adjusted scores for groups 1-8
* - COMPOSIT.SAS - Calculate composite adjusted scores for group 1-8
* - PRVCOMP.SAS - Calculate MPR individual and composite scores
* - BENCHA01-04.SAS - Convert Benchmark Scores into WEB layout
* - LOADCAHP.SAS - Convert CAHPS Scores Database into WEB layout
*
* 2) The output file (MERGFINL.SD2) will be run through the
*    MAKEHTML.SAS program to generate the WEB pages.

17. CALCULATE CAHPS TOTAL SCORES AND CONDUCT SIGNIFICANCE TEST - ANNUAL
*****
*
* PROGRAM: TOTAL_A.SAS
* TASK: Quarterly DOD HEALTH CARE SURVEY ANALYSIS (8687-430)
* PURPOSE: Generate TOTAL scores and perform significance tests.
*
* WRITTEN: 12/15/2000 BY KEITH RATHBUN
*
* MODIFIED: 1) May 2001 BY ERIC SCHONE, Modified calculations for
* Total Score.
*
* INPUTS: 1) CONUS_Q.SD2 - Scores Database in WEB Layout
* 2) FAKEQ.SD2 - Scores Database WEB Layout
* 3) FACTCOMP.SD2 - Total Scores (Part 1)
*
* OUTPUT: 1) TOTAL_A.SD2 - Combined CAHPS/MPR/TOTAL Scores Database in WEB layout
*
* NOTES:
*
* 1) The following steps need to be run prior to this program:
* - STEP1Q.SAS - Recode questions and generate group files
* - STEP2Q.SAS - Calculate individual adjusted scores for group 1-8
* - COMPOSIT.SAS - Calculate composite adjusted scores for group 1-8
* - MERGFINQ.SAS - Merge the final CAHPS and MPR Scores Databases
* - CONUS_Q.SAS - Generate CAHPS CONUS scores and perform significance tests.
* - FACTCOMP.SAS - Calculate total scores (Part 1)
*

18. CALCULATE TRENDS FOR CAHPS SCORES - ANNUAL

*

* PROGRAM: TREND_A.SAS
* TASK: 2000 DOD HEALTH CARE SURVEY ANALYSIS (8687-210)
* PURPOSE: Add TREND records to Scores database.
*
* WRITTEN: 06/28/2000 BY KEITH RATHBUN
*
* MODIFIED: 1) 02/21/2001 BY KEITH RATHBUN -- updated calculation for
* trend score (DScore).
* 2) 01/07/2002 BY KEITH RATHBUN -- updated for 2000 survey.
* Use 1998/2000 pairs to calculate trends.
* 3) 01/27/2003 BY KEITH RATHBUN -- updated for 2002 survey.
* Use 2000/2002 pairs to calculate trends.
*
* INPUTS: 1) TOTAL_A.SD2 - MPR and CAHPS Scores Database in WEB layout
* 2) FAKE.SD2 - Scores Database WEB Layout
*
* OUTPUT: 1) TREND_A.SD2 - Combined Scores Database in WEB layout
*

* NOTES:

*
* 1) All of the scores DB programs must be run and MERGFINL.SAS prior to
* running this program. All report card records must be merged prior
* to the trend calculations (MERGFINL.SAS, CONUS_Q.SAS, TOTAL_A.SAS).
*
* 2) The output file (TREND_A.SD2) will be run through the
* MAKEHTML.SAS program to generate the HTML consumer reports.
*

* Assign data libraries and options

*****;

20. QUALITY ASSURANCE FOR CONSUMER REPORTS - ANNUAL

```

=====;
*
* Programmer: Mark A. Brinkley ;
* Title: QC_ADULT.SAS ;
* Client: 8860-410 ;
* Date: 03-29-2000 ;
*
* Purpose: This program is designed to read in ALL adult html ;
* files, extract the table data, and then compare ;
* this data to the input data which was used to ;
* create the html report cards. If everything is OK, ;
* then the comparison should yield no differences. ;
*
* Input files: 1) All F*.HTM files ;
* 2) TREND_A.SD2 ;
*
* Modifications: ;
* 1) 02/14/2001 - Keith Rathbun, Remove outputting of permanent ;
* SAS Dataset. Deleted directory output file. Removed white ;
* space from program. Removed BY statement from proc compares. ;
* Added titles. Setup to run in LOADWEB directory on Jdrive. ;
*
* 2) 04/18/2001 - Chris Rankin -- added Macro to process ;
* frames and non-frames version separately ;
*
* 3) 04/10/2002 - Keith Rathbun -- updated Project/Task number. ;
* No code changes required. ;
*
* 4) 08/14/2002 - Mark Brinkley ;
* - Added kludge to remove '>' from SCORE ;
* - Added DROP=SCORE since don't need to pull ;
* in SCORE from TESTFILE file. Was causing ;
* a type mismatch error. ;
*
* 5) 08/14/2002 - Keith Rathbun ;
* - Added kludge to reset SIG to 0 for trend ;
* records that have no score. ;
*
* Output files: Comparison summary listing ;
*

*****
*
* PROJECT: DoD - Quarterly Adult Report Cards
* PROGRAM: STEP1Q.SAS
* PURPOSE: Create Dummy and Recode Variables used in Adult Report Card
*          Create a Female dummy variable
*          Create an Education dummy variable
*          Create 15 region dummies combining regions.
*          7 & 8 into region 8. That is, there
*          isn't a region 7 dummy.
*          Create 7 age dummy variables.
*
*          We require the most desired code to be the highest value.
*          Recode the dependent variables into:
*          1 - the least desirable value
*          2 - the 2nd least desirable value
*          3 - the most desirable value
*          . - missing
*
*          Create 7 variables GROUP1 - GROUP7
*          IF (XINS_COV IN (1,2,6) AND H02007>=2) THEN GROUP1 = 1
*          IF (XENR_PCM IN (1,2,6) AND H02007>=2) THEN GROUP2 = 1
*          IF (XENR_PCM = 3,7 AND H02007>=2) THEN GROUP3 = 1
*          IF XINS_COV IN (3,4,5) THEN GROUP4 = 1
*          IF XBNFGRP = 1 THEN GROUP5 = 1
*          IF XBNFGRP = 2 THEN GROUP6 = 1
*          IF XBNFGRP IN (3,4) THEN GROUP7 = 1
*          GROUP8 is output for all beneficiaries
*
* MODIFIED: 1) February 2001 By Keith Rathbun, Update for quarterly
*          adult report cards. Removed permanent dataset ENTIRE.SD2.
*          2) August 2001 By Keith Rathbun, Updated DSN and LIBNAME
*          for 3rd quarter adult report cards.
*          3) OCTOBER 2001 BY DANIELE BEAHM, Because there was no post-
*          stratification done in Q3, changed all references of the
*          POSTSTR variable to ADJ_CELL
*          4) JANUARY 2002 BY DANIELE BEAHM, Modified group3 to include
*          XENR_PCM
*          5) April 2002 By Mike Scott, Updated variable names for 2002
*          survey.
*          6) February 2003 by Tricia Class, Updated variable names for 2002
*
* INPUTS: 1) HCS02a_1 - DoD AnnualHCS Database
*
* OUTPUTS: 1) GROUP1-8.SD2 - DoD Annual GROUP files as defined above
*
* INCLUDES: 1) CONVERT.SAS - Convert item responses to proportional
*          values for consistency w/ TOPS
*
* NOTES: 1) Groups 1-3 modified 10/09/2000

*
* PROJECT: DoD - Quarterly Adult Report Cards
* PROGRAM: STEP1Q.SAS
* PURPOSE: Create Dummy and Recode Variables used in Adult Report Card
*          Create a Female dummy variable
*          Create an Education dummy variable
*          Create 15 region dummies combining regions.
*          7 & 8 into region 8. That is, there
*          isn't a region 7 dummy.
*          Create 7 age dummy variables.
*
*          We require the most desired code to be the highest value.
*          Recode the dependent variables into:
*          1 - the least desirable value
*          2 - the 2nd least desirable value
*          3 - the most desirable value
*          . - missing
*
*          Create 7 variables GROUP1 - GROUP7
*          IF (XINS_COV IN (1,2,6) AND H00002>=2) THEN GROUP1 = 1
*          IF (XENR_PCM IN (1,2,6) AND H00002>=2) THEN GROUP2 = 1
*          IF (XENR_PCM = 3 AND H00002>=2) THEN GROUP3 = 1
*          IF XINS_COV IN (3,4,5) THEN GROUP4 = 1
*          IF XBNFGRP = 1 THEN GROUP5 = 1
*          IF XBNFGRP = 2 THEN GROUP6 = 1
*          IF XBNFGRP IN (3,4) THEN GROUP7 = 1
*          GROUP8 is output for all beneficiaries
*
* MODIFIED: 1) February 2001 By Keith Rathbun, Update for quarterly
*          adult report cards. Removed permanent dataset ENTIRE.SD2.
*          2) April 2001 By Keith Rathbun, limit population to
*          XINS_COV IN (1,2,3,6) in response to Eric's email dated
*          4/19/2001. Use POSTSTR instead of ADJ_CELL as input to
*          the STEP2Q.SAS program.
*
* INPUTS: 1) HCS02a_1 - DoD Annual HCS Database
*
* OUTPUTS: 1) GROUP1-8.SD2 - DoD Quarterly GROUP files as defined above
*
* INCLUDES: 1) CONVERT.SAS - Convert item responses to proportional
*          values for consistency w/ TOPS
*
* NOTES: 1) Groups 1-3 modified 10/09/2000

*
* Project: DoD - Quarterly Adult Report Cards
* Program: STEP2Q.SAS
* Purpose: Generate risk-adjusted CAHPS Scores for Adult Report Card.
*
* Requires: Program STEP1Q.SAS must be run prior to running this program.
*
* The adult report card contains a large number of risk-adjusted scores.
* Some scores are calculated from responses to individual survey questions.
* Composite scores are calculated by combining scores from individual
* questions. The scores then are compared with external civilian
* benchmarks. The programming tasks involved in building the report
* card are:
*
*     1) Preparing data for analyses
*     2) Estimating risk adjustment models
*     3) Calculating risk-adjusted values and variances
*     4) Calculating benchmarks
*     5) Comparing risk-adjusted values to benchmarks
*         and hypothesis testing
*
* Subgroup Definitions:
*
* -----
*     Seven Subgroups           Definitions
* -----
* 1. Prime enrollees           XINS_COV IN (1,2,6) AND H02007>=2
* 2. Enrollees w/mil PCM       XENR_PCM IN (1,2,6) AND H02007>=2
* 3. Enrollees w/civ PCM       XENR_PCM = 3           AND H02007>=2
* 4. Nonenrollees             XINS_COV IN (3,4,5)
* 5. Active duty               XBNFGRP = 1
* 6. Active duty dependents    XBNFGRP = 2
* 7. Retirees and dependents   XBNFGRP IN (3,4)
*
* Previous Program: STEP1Q.SAS
*
* Modified: 1) 04/10/02 By Mike Scott, Updated variable names for 2002
*            survey.
*           2) 02/06/03 Tricia Class, Update for 2002 NESR
